Dear Madam,

I have pleasure in enclosing herewith a Free Sample of "Ovaltine" as desired. The general opinion of its excellent and remarkable qualities may be summarised as follows.

1. The flavour is truly delicious and it creates an appetite appeal of which the palate never tires. It is the ideal beverage instead of tea, coffee or cocoa. Remember, that unlike imitations, "Ovaltine" does not contain any Household Sugar to give it bulk and to cheapen the cost.
2. Bear in mind too, that "Ovaltine" costs you less to buy than preparations made only from malt and milk. The fact that "Ovaltine" also contains new laid eggs renders it more valuable as a nutritive and nerve restorative. Even when you prepare "Ovaltine" entirely with milk it is still the most economical because of the supremely high quality of its ingredients and the small quantity required to make a cup.
3. "Grown-ups" enthuse upon its soothing, digestive and sustaining powers. As a "good night" beverage it promotes tranquil and refreshing sleep, and to all those who suffer from stomach, digestive or nervous troubles of any kind it provides real comfort and assistance.
4. Expectant or nursing mothers find "Ovaltine" invaluable, because it supplies concentrated and unequalled nourishment for maintaining the strength, and for ensuring a rich milk secretion. Children look for "Ovaltine" eagerly and cheeks aglow with health follow its use.

I am certain that a trial will convince you that "Ovaltine" is an indispensable aid to health. Quality always tells.

Yours faithfully,

Mary Eversleigh
