OVALTINE

WHY IT IS SO VALUABLE.

"Ovaltine" is nourishment in complete form. It is a delicious concentration of the nutritive and vitalizing principles of Winter Malted Barley, Eggs and Milk.

"Ovaltine" has an appetite and taste appeal. It creates appetite and is therefore useful when the appetite is poor or there is indifference to food.

"Ovaltine" is easily digested and a valuable aid to the digestion of other foods. It therefore promotes nutritive efficiency of ordinary nourishment, and is particularly valuable where the digestion is impaired.

"Ovaltine" is well balanced as regards the ternary elements and rich in every known essential of nutrition. It is easy to make, easy to take, and as it supplies high food value in small volume it is well adapted for between meals feeding.

Where tea or coffee is contraindicated "Ovaltine" replaces them as the meal time beverage with complete advantage.

S.A.—God of Divine intelligence and human reason.
