ACTIFED COMPOUND LINCTUS

Actifed Compound Linctus is indicated for the rapid symptomatic relief of cough with congestion and bronchospasm in chronic bronchitis, asthma, allergy and colds.

Ideally formulated with-

Tripolidine Hcl: A powerful, well tolerated and rapid acting antihistamine which prevents irritation due to allergens in the respiratory tract. It also clears the nose by reducing mucous secretion.

Pseudoephedrine Hcl: This potent vasoconstrictor and bronchodilator decongests the entire mucous membrane of the respiratory tract relieving bronchospasm with minimal stimulation of the central nervous system.

Codeine Phosphate: To depress the cough centre, control unproductive coughs and relieve irritation in the respiratory tract.
