You can help a POOR CHILD at no cost...

*When Europe switches
to the Euro
in February 2002,
your European money
will go down the drain.
Use it now to stop
flying toilets in Kibera*

Of the 8,000 children under five years living in Kibera Laini Saba, 80% suffer from preventable sanitation-related diseases like skin infections, diarrhoea and vomiting, worm infestations, malaria and pneumonia. Poor ventilation and congestion in homes, open sewage, dirty water and human waste strewn around are the areas in which these children sleep, eat and play. Currently only 1 latrine works for every 2000 children. With your help AMREF will construct 300 latrine-cum-shower blocks in Kibera. Please donate any foreign coins you may have towards this worthy cause.
