'IONEXTEN' BRAND

oral depot tablets

(resin-bonded dexamphetamine)

ONE MORNING DOSE

FOR DAY-LONG
APPETITE CONTROL

FOR DAY-LONG RELIEF OF
DEPRESSION OR FATIGUE

**an 'ionexten' tablet
works 'round-the-clock'**

ORAL DEPOT THERAPY

dexten 'IONEXTEN' TABLETS (RESIN-BONDED DEXAMPHETAMINE)

In **dexten** 'ionexten' tablets the prolonged effect does NOT depend on enteric coating; it is inherent in the drug-resinate. Controlled ionic exchange feeds dexamphetamine into the bloodstream evenly and without interruption at an optimum level for 10-12 hours, independent of varying physiological factors.

ADVANTAGES :

1. Even, uninterrupted effect lasting 10-12 hours with ONE MORNING DOSE.
2. Optimal blood levels (never dangerously high — never ineffectively low).
3. No forgetting of conventional t.d.s. doses.
4. Economy of drug, time and money.

INDICATIONS :

dexten 'ionexten' tablets are indicated in obesity, depression and fatigue.

DOSAGE :

Half to one tablet at breakfast. Tablets are quarter scored for dosage adjustment.

CONTRA-INDICATIONS :

Sensitivity to sympathomimetic and vasoconstrictor drugs, hyperexcitability, agitation, marked hypertension.

FORMULA :

10 mg. dexamphetamin. sulph. B.P.C. (as resinate).

PRESENTATION :

Pocket pack of 30 tablets, each sealed in polythene-coated film.
