# Do you really need another child?

You have a beautiful family. Your children have enough to eat. You can afford gifts now and then. Now you're thinking of having one or two more. Before you do, visit the Family Planning office nearest to you.

Remember that catering for a child does not only entail feeding, clothing and basic education but also personal care and constant attention.

Family Planning helps you give each child the personal care and attention he/she deserves.

**Family Planning**  
Safe • Inexpensive • For a better life
