RETAIL PRICE LIST.

			Sm. Tins.	Sm. Bots.
Essence of Beef	..	..	2/6	2/9
Essence of Chicken..	..	..	2/9	3/-

Brand's Essences are made by a process which ensures that the soluble protein is present in the correct proportion for rapid assimilation. They are extremely palatable and for this reason can be taken by the patient when all other forms of nourishment are repugnant. They produce a copious secretion of gastric juice, but owing to the amount of protein present in the Essences, the free acid produced is absorbed to a great extent, thus protecting the stomach from the irritating effects of excess free acid. Brand's Essences can be obtained from all Chemists in either tins or bottles, and the prices are as given above.

P.T.O.

Meat Juice 3/9 per bot.

This is prepared from freshly killed English beef by expressing the natural juices under hydraulic pressure, and concentrating to suitable consistency, thus retaining the albumen and vitamins natural to fresh meat. Brand's Meat Juice also promotes a copious gastric secretion, and by reason of the high proportion of albumen it contains, has a high nourishing value.
