# BOROUGH OF SOUTHWARK.

PUBLIC HEALTH DEPARTMENT,

TOWN HALL,

WALWORTH ROAD, S.E.

DEAR SIR, LADIES AND GENTLEMEN,

I have the honour of submitting for your consideration my thirty-fifth Annual Report which deals with the vital statistics and general sanitary work for the year 1921.

It will be seen that there is a decrease in the birth-rate during the year of 4 per 1,000. The death-rate is slightly lower than that of last year.

The infantile mortality rate has very slightly increased owing to the great length of a hot summer causing more Epidemic Diarrhæa.

The deaths from Measles were very few, whilst the deaths from Whooping Cough were nearly the same as those of the previous year.

There has been a general increase in the year 1921 of all notifiable infectious diseases on those of the previous year, especially in Scarlet Fever and Diarrhæa.

Primary Pneumonia and Influenzal Pneumonia were responsible for a large number of deaths.

There has been no diminution in the poverty of our population during the year. Necessitous children and expectant and nursing mothers have received free milk to the extent of £3,000. The greatest care has been exercised in seeing that the milk is only given to those persons coming within the scale fixed for necessitous mothers and children by the Committee having to do with that matter.

The Maternity and Child Welfare work has gone on pretty quietly increasing throughout the year, although two or three changes have to be recorded, one, that All Saints' Voluntary Centre, through lack of funds, has been taken over by the Council, and that other Voluntary Centres have been assisted by small subsidies.

A Dental Clinic for expectant and nursing mothers and children under five years of age was opened at Lorrimore Hall, Lorrimore Street, on September 8th, 1921.

I am sorry to record the death of our very capable Food and Drugs Inspector, Mr. David, who died on April 18th, 1921.

The work of food inspection at the wharves has considerably increased during the year, due to the large amount of unsound food dealt with.

The inspector appointed under the Rats and Mice (Destruction) Act, 1919, is continuing his work.

I have to thank the Council for their courtesy and support.

I have the honour to be,

Your obedient servant,

G. B. MILLSON,

*Medical Officer of Health.*

*To the Mayor, Aldermen and Councillors,  
of the Borough of Southwark.*

### POPULATION

All our statistics have been calculated on the population 184,388 supplied by the Registrar-General in November of last year. We have since received an unrevised figure supplied by the Registrar-General of 186,000, the increase in the latter figure would make our death-rates a little better than those shown in the report.

There is little to record of the increase in new buildings, as with a few small exceptions the whole of the area of the Borough has been built over. Guinness' Buildings in the Kennington Park Road have now been erected on the site that has remained vacant for some years owing to the war. Further progress has been made also with the various blocks being built on the Tabard Street area. The Grotto Place area still remains in the same state as when represented.

There has been much distress during the year among our inhabitants through increased unemployment. Southwark being a district inhabited principally by artisans and casual labourers would naturally feel the effect of this unemployment much more than the wealthier boroughs. It always is to me a matter of surprise how all the families with the breadwinner out of employment manage to exist. It is on account of the strong communal feeling in our people that one seldom sees actual starvation.

As I have reported in many previous years, Southwark, owing to its close proximity to the centre, that is, the City, will always be more or less overcrowded in the area occupied by casual workers. Enquiry is often made as to the present condition of the houses in the Borough. I admit that many of the houses from the outside are dirty in appearance, but the interiors are as clean as they were before the war. The high cost of repairs does not allow the owners to expend much money on outside cleansing and painting. What with the income tax and the expenses of maintaining houses in a fair condition, there is little as an income for the owner.

The population of the several divisions of the Borough at each Census since 1841, and also the estimated population for 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919 and 1920. The population shown for 1921 is an enumerated one, but is unrevised.

Whole Borough	1,165	87,490	96,898	184,388	158

### BIRTHS.

The number of Births registered in the Borough during 1921 was 4,400, of which 2,271 were males, and 2,129 females. This represents a birth-rate of 23·9 per 1,000 inhabitants.

The number of births registered in the individual parishes was as follows:—Newington, 2,749; St. George the Martyr, 1,234; Christchurch and St. Saviour's, 417.

Of the 4,400 births registered in the Borough 62 were transferred away, the permanent residence of the parents being outside the Borough. 700 births occurring in various lying-in and other institutions outside the Borough, but belonging to Southwark parents, were notified to me by the Registrar-General. When the 62 "outward" transfers are deducted

and the 700 "inward" transfers are added to the 4,400 births actually registered in the Borough, the net amount of births belonging to Southwark for the year is found to be 5,038. This gives a corrected birth-rate of 27·3.

**Birth-rate for the last Thirty Years for the Three Divisions  
of the Borough as formerly existed.**

## DEATHS.

1,877 deaths were registered in the sub-districts of the Borough during 1921.

20 of these deaths were of persons residing in other sanitary districts, but who died in our streets or on the way to hospitals.

752 deaths occurred in the Poor-Law Institutions, the various hospitals, and other public places for the treatment of the sick, found within our boundaries. These deaths in institutions comprised 255 belonging to Southwark and 497 to other sanitary districts.

The number of inhabitants belonging to the Borough dying away from home—that is outside our boundaries in the various hospitals and infirmaries—was 1,273.

When the 517 deaths of those persons who were non-parishioners, but who died in our Borough, have been deducted, and the 1,273 “outlying” deaths added, the actual or “corrected” number of deaths belonging to the sanitary area is found to be 2,633, of which number 1,419 were males and 1,214 females.

The death-rate when calculated on this “corrected” number is 14·3 per 1,000 inhabitants for the whole Borough for the year 1921, as against a rate of 14·4 for 1920.

The percentage of persons dying away from Southwark in relation to the total number of deaths belonging to the Borough was 48·3.

The various localities in which the “outlying” deaths occurred are shown in the following table.

**TABLE 3.**

Other and Undefined Diseases of Organs of Locomotion	...	...	...	...	...	1	...	1	...	...	1	...	...	...	...	3
Ulcer, Bedsore .....	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...
Eczema .....	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...
Pemphigus .....	1	...	...	1	...	...	...	...	...	...	...	...	...	...	...	2

TABLE 10.

Deaths belonging to the Sanitary Area with the Causes of Death at all Ages for the ten years 1912-1921.

CAUSES OF DEATH.	1912.	1913.	1914.	1915.	1916.	1917.	1918.	1919.	1920.	1921.
Small Pox .....	...	...	...	...	...	...	...	...	...	...
(a) Vaccinated .....	...	...	...	...	...	...	...	...	...	...
(b) Unvaccinated .....	...	...	...	...	...	...	...	...	...	...
(c) No statement .....	...	...	...	...	...	...	...	...	...	...
Measles .....	136	105	95	131	84	75	145	19	63	6
Scarlet Fever .....	6	11	22	12	5	7	14	4	5	13
Typhus Fever .....	...	...	...	...	...	...	...	...	...	...
Epidemic Influenza .....	13	29	29	28	30	22	589	146	52	49
Whooping Cough .....	50	38	59	46	44	35	129	10	27	28
Diphtheria, Membranous Croup.....	27	19	37	37	41	46	41	42	37	30
Enteric Fever .....	4	6	2	3	2	5	1	3	5	1
Asiatic Cholera .....	...	...	...	...	...	...	...	...	...	...
Diarrhœa, Dysentery .....	58	139	104	95	56	46	37	62	22	8
Epidemic or Zymotic Enteritis .....	37	41	103	54	35	44	30	36	30	135
Epidemic Cerebro-Spinal Fever.....	6	5	6	16	9	12	4	5	4	3
Polio-Myelitis.....	...	...	3	1	...	1	...	1	...	...
Chicken Pox .....	2	...	...	1	...	...	...	1	...	...
Rötheln .....	...	...	...	...	...	...	...	...	...	...
Parotitis .....	...	...	2	...	...	...	...	1	...	...
Vincent's Angina .....	...	...	1	...	...	...	...	...	...	...
Goitre .....	...	...	1	2	...	...	...	1	1	...
Trench Fever.....	...	...	...	...	...	1	...	...	...	...
Encephalitis Lethargica .....	...	...	...	...	...	...	...	3	1	6
Tetanus .....	1	...	...	...	1	1	...	...	2	1
Anthrax, Splenic Fever.....	...	...	2	...	...	1	...	...	1	...
Cowpox, Accidents of Vaccination.....	...	...	...	...	...	...	...	...	...	...
Syphilis .....	11	20	12	14	21	16	25	15	14	10
Gonorrhœa .....	...	...	...	...	...	...	...	...	...	...
Phagædena .....	...	...	...	...	...	...	...	...	...	...
Erysipelas .....	8	8	14	13	1	12	10	9	7	3
Pyæmia, Septicæmia.....	1	6	14	7	6	7	3	6	6	6
Puerperal Fever.....	4	2	10	6	7	1	4	6	7	5
Infective Endocarditis .....	8	12	4	10	4	10	3	4	7	16
Carbuncle .....	1	1	4	2	...	...	1	2	...	4
Boils .....	...	...	...	...	3	...	...	...	...	...
Cellulitis .....	2	4	...	...	...	...	1	3	8	3
Mastoiditis .....	...	...	2	3	3	2	2	5	5	4
Tonsillitis .....	...	...	...	...	...	...	1	2	...	3
Empyema of Antrum .....	...	...	...	...	...	...	...	1	...	...
Malarial Fever .....	...	1	...	...	...	...	...	...	1	1
Rheumatic Fever, Rheumatism of Heart.	12	18	12	12	11	11	7	16	9	13
Tuberculosis, total.....	436	428	427	511	487	497	452	366	292	305
Tubercular Disease of Brain or Menin- ges, Acute Hydrocephalus .....	44	39	53	71	51	54	35	29	26	25
Laryngeal and Pulmonary Phthisis ...	345	354	330	388	391	392	387	311	243	262
Tabes Mesenterica, Tubercular Disease of Intestine .....	3	13	16	16	12	19	10	7	2	4
General Tuberculosis, Tubercular Dis- ease of undefined position.....	31	16	9	27	25	14	16	19	13	6
Other Forms of Tuberculosis, Scrofula	13	6	19	9	8	18	4	...	8	8

### SMALL-POX.

No case of this disease was notified during the year 1921.

### SCARLET FEVER.

During the year under consideration 1,266 cases were notified, with 13 deaths. The number of notifications was the highest recorded since 1914.

The greatest number of cases occurred in St. Mary, St. Paul, St. Peter and St. John's Wards.

The number of cases notified, as compared with London, during the last ten years was :—

In Southwark.			In London.		
In Southwark.			In Southwark.		
1912	500	11,312	1917	276	6,110
1913	880	17,552	1918	653	6,811
1914	1,448	25,015	1919	799	12,931
1915	467	17,104	1920	893	22,713
1916	301	8,766	1921	1,266	32,738

Number of deaths from Scarlet Fever during the last ten years :—

In Southwark.			In London.		
In Southwark.			In Southwark.		
1912	6	159	1917	7	85
1913	11	188	1918	14	118
1914	22	316	1919	4	145
1915	12	332	1920	5	207
1916	5	146	1921	13	290

Of the 1,266 cases notified in the present year, as many as 1,240 were removed to hospital, *i.e.*, 98.0 per cent., as against 97.9 per cent. for last year.

The deaths in the 1,266 cases sent to hospital numbered 13, a mortality of 1.0 per cent.

In regard to the 26 cases nursed at home, they all recovered.

The annual rate of mortality was 0.07.

### DIPHTHERIA.

There has been a slight decrease in the number of cases of Diphtheria notified during the year under consideration.

The total notifications numbered 537 and the deaths 30 for the year

The percentage of deaths to the cases notified was 5.6.

The annual mortality per 1,000 inhabitants was 0.16.

The number of cases notified as compared with London, during the last ten years was :—

	In Southwark.	In London.		In Southwark.	In London.
1912	284	7,101	1917	580	8,300
1913	327	7,654	1918	504	8,174
1914	338	9,118	1919	505	9,479
1915	387	9,166	1920	457	13,784
1916	442	8,754	1921	537	16,319

Number of deaths from Diphtheria during the last ten years :—

	In Southwark.	In London.		In Southwark.	In London.
1912	27	452	1917	46	580
1913	19	431	1918	41	654
1914	37	706	1919	42	777
1915	37	699	1920	37	1,009
1916	41	604	1921	30	1,131

Of the 537 cases notified 532, or 99·1 per cent. were removed to hospital with 30 deaths, a mortality of 5·6 per cent. In regard to the 5 cases nursed at home, they all recovered.

### ENTERIC FEVER.

One death from Enteric Fever occurred in the borough during the year, as against 5, 3 and 1, in the three preceding years.

The total number of cases notified was 7 for the present year, and 8, 12 and 8, for the three preceding years.

The number of cases notified during the last ten years :—

1912	...	...	39	1917	...	...	10
1913	...	...	39	1918	...	...	8
1914	...	...	24	1919	...	...	12
1915	...	...	23	1920	...	...	8
1916	...	...	13	1921	...	...	7

The number of deaths from Enteric Fever for the last ten years :—

1912	...	...	4	1917	...	...	5
1913	...	...	6	1918	...	...	1
1914	...	...	2	1919	...	...	3
1915	...	...	3	1920	...	...	5
1916	...	...	2	1921	...	...	1

Of the 7 cases notified 7 were removed to hospital, of which 1 died a mortality of 14·3 per cent.

**MEASLES.**

405 cases of this disease were notified from the schools. This figure does not represent the whole of the cases occurring in the Borough, as notification was discontinued during 1921. I advised the Council to apply to the Ministry of Health to allow Measles in this Borough to be again notifiable. This request has been granted, and the disease again became notifiable on January 1st, 1922.

Deaths from Measles during the last ten years:—

1912	...	...	139	1917	...	...	75
1913	...	...	105	1918	...	...	145
1914	...	...	95	1919	...	...	19
1915	...	...	131	1920	...	...	63
1916	...	...	94	1921	...	...	6

The annual death-rate per 1,000 living was 0·03.

**DIARRHÆA.**

During the year under consideration there were 149 deaths from diarrhæa. For the last five years there was a diminution in the number of deaths, ranging from 107 in 1916, to 59 in 1920, but owing to an exceptionally hot and dry summer the disease was very fatal, especially in infants. 108 deaths were recorded of infants under one year of age. In regard to the action taken by the staff, it can be said that every case notified was visited and the premises reported upon. Instructions and leaflets were also given to the parents.

The annual death-rate at all ages from Diarrhæa per 1,000 living was 0·81.

Deaths from diarrhæa during the last ten years:—

1912	...	...	95	1917	...	...	108
1913	...	...	205	1918	...	...	81
1914	...	...	207	1919	...	...	104
1915	...	...	148	1920	...	...	59
1916	...	...	107	1921	...	...	149

**WHOOPIING COUGH.**

The deaths from this disease were 28 for the year.

The annual death-rate per 1,000 living was 0·15.

Deaths from Whooping Cough for the last ten years:—

1912	...	...	49	1917	...	...	35
1913	...	...	38	1918	...	...	129
1914	...	...	59	1919	...	...	10
1915	...	...	46	1920	...	...	27
1916	...	...	44	1921	...	...	28

**ANTHRAX.**

One case of this disease was notified during the year in the person of a male, aged 43, a master brushmaker.

I made inquiries into this case and found material on the premises for making grass brushes, but no hair.

The date of the onset of the disease was December 8th, and the patient was treated at Guy's Hospital on December 10th. The case was bacteriologically confirmed by culture and film, the site of the disease being the forehead. The nature of the medical treatment was excision and injection of Sclavo's serum.

The progress of the patient was excellent, and he has now recovered.

**INFLUENZA.**

The deaths from this disease were 49 for the year.

The annual death rate per 1,000 living was 0.27.

Deaths from Influenza during the last ten years:—

1912	...	...	13	1917	...	...	22
1913	...	...	29	1918	...	...	589
1914	...	...	29	1919	...	...	146
1915	...	..	28	1920	...	...	52
1916	...	...	30	1921	...	...	49

**OPHTHALMIA NEONATORUM.**

46 cases of this disease were notified during the year. No case of permanent injury to the eyesight was recorded.

Special visits were made at the end of the year for the purpose of tabulation, with the following results:—

36 cases completely recovered with no permanent injury to eyesight.

5 cases removed from the district.

1 case died (Premature Birth, Gastro enteritis).

4 cases born in Institutions (not recorded).

---

46 cases.

---

## DISINFECTION.

The total number of disinfections of rooms during the year by the Council's disinfecting staff was 6,845. Of this number 2,774 rooms were disinfected after the occurrence of the ordinary notifiable infectious diseases, as against 1,829 rooms in 1920. 3,585 periodical sprayings of rooms occupied by Phthisical patients were also carried out during the year.

486 verminous rooms were sulphured and otherwise cleansed by the Council's staff during the year, as against 551 in 1920.

Among the total number of disinfections (6,845) it was found necessary to strip 839 rooms. Of these 702 were in relation to the notifiable diseases, 136 after the termination of cases of Phthisis, and 1 was verminous.

### VERMINOUS PERSONS CLEANSED DURING 1921.

During the year 3,127 persons were cleansed at the station in King James Street. Under our agreement with the London County Council, 2,952 children were cleansed. One cleansing was found to be sufficient in verminous cases, except when the cases were associated with imperigo, when two or three cleansings had to be given.

Many of the children treated were suffering from Scabies. In every case the treatment at our Station was thoroughly efficacious, and no recurrence of the trouble was experienced.

175 adults sent from the various common lodging houses and other places in our borough were cleansed during the year, as against 139 dealt with under the provisions of the Cleansing of Persons Act, 1897, in 1920.

TABLE 33.

Showing the Number and Sex of Verminous or Scabious Children treated at the Council's Station, King James Street, during 1921, and the Schools from which they were sent.

These 2,952 Children received 5,195 baths during 1921.

### Cleansing of Verminous Rooms and their Contents.

During the year 1921 the number of verminous rooms with the bedding and other articles cleansed and disinfected in accordance with the requirements of Sections 19-21 of the London County Council (General Powers) Act, 1904, has increased in comparison with 1920. I append a table shewing the number of notices served upon the owners or occupiers of the several premises in question, and the number of verminous rooms stripped and cleansed by the owners, and fumigated by the Council's disinfecting staff, respectively. I also submit tables showing the number of verminous rooms stripped by the Council's staff, and articles dealt with at the disinfecting stations.

TABLE 47.

## Action taken in Southwark under the Housing, Town Planning, &amp;c., Act, 1909.

Folio.	Premises complained of.	Date of Report of Medical Officer.	Date of representation of Medical Officer of Health.	Date of Council's Resolution.	Action taken, notices served and Result.
70	2 and 4, Empress street ...	—	24/4/11	3/5/11	These houses were again represented, and by a resolution passed by the Council on the 30th January, 1920, Closing Orders were served under Sec. 17. On March 9th, 1921, Orders for demolition were made under Sec. 18. These houses have been demolished.
	Defects.—The w.c. accommodation is in a small and confined yard at the back of the premises, the closets (four in number) are used in combination with No. 4, Empress street. The closets are in a dirty and dilapidated condition, the rooms of the house are in a dirty and dilapidated condition, the walls and ceilings of the rooms are dirty and broken, the back rooms are ill-lighted, the staircase, walls and ceilings, are dirty and broken, the doors, door frames and window frames are broken, the yard is dirty, the house roof is defective.				
77	1, Old Barge House street ...	—	9/10/11	2/11/11	Occupied.
	Defects.—The structure of the house is worn out, the front wall is cracked, there is no evidence of a damp course, the woodwork of the house is broken and defective, the roof is in a bad condition, letting the rain in. The stairs are narrow, winding and dilapidated, the yard is very small, there is evidence of dampness in the walls throughout the house.				
79	3, Broadwall ...	—	9/10/11	2/11/11	These houses were again represented, and by a resolution passed by the Council on 30th January, 1920. Closing Orders were served under Sec. 17 (2). On March 9th, 1921, Orders for demolition were made under Sec. 18. The houses are now empty but not demolished.
	Defects.—The structure of the house is worn out, the front wall is bulged, there is no evidence of a damp course, the w.c., which is very small, is in the middle of the house, there is no back yard, the stairs are narrow and winding, the rooms are very small.				
80	5, Broadwall ...	—	9/10/11	2/11/11	
	Defects.—The structure of the house is worn out, there is no evidence of a damp course, the stairs are narrow, winding and dilapidated, the sashes and window frames are rotten, the roof is defective, there is evidence of rats on the premises.				
81	7, Broadwall ...	—	9/10/11	2/11/11	These houses were again represented, and by a resolution of the Council passed on 30th January, 1920. Closing Orders were served under Sec. 17. L.C.C. permitted owners to demolish these houses. The houses have now been demolished and new buildings being constructed
	Defects.—The structure of the house is worn out, there is no evidence of a damp course, the walls of the house are damp, the front and back walls are bulging and cracked, the sashes and window frames are defective and broken, the floors are defective.				
91 to 98	252, 254, 258, 260, 262, 264, Waterloo Road		27/11/11	2/1/12	
100	290, Waterloo road ...	—	27/11/11	2/1/12	These houses were again represented and notices have been served under Sec. 28 to repair them. They are occupied at present.
	Defects.—See No. 284.				
101	292, Waterloo road ...	—	27/11/11	2/1/12	
	Defects.—See No. 284.				
102	294, Waterloo road ...	—	27/11/11	2/1/12	
	Defects.—See No. 284.				

TABLE 47—continued.

Folio	Premises complained of.	Date of Report of Medical Officer.	Date of representation of Medical Officer of Health.	Date of Council's Resolution.	Action taken, notices served and Result.
103	59, Dodson street ... Defects.—The house structure is worn out, there is no damp course in the walls and the walls are damp, the woodwork of the house, such as the floors, windows, doors, partitions and stairs, is old, worn out and dilapidated. The internal arrangement of the rooms of the house is bad, and the staircase is narrow, the closet accommodation is bad, the roof is defective, the back yard is small and the through ventilation of the house is bad.	—	27/11/11	2/1/12	These houses were again represented, by a resolution of the Council passed on 25th June, 1920, Closing Orders were served under Sec. 17 (2).

The following work of supervision was carried out by Mr. David until April 16th, and after his death by Mr. Nicholson from April 25th to the end of the year :—

### MILKSELLERS.

During 1921, 572 names remained on the Register of Milk-sellers, 74 new names were added, and 48 names removed during the year. The total number of milk-sellers on the Register actually selling milk at the end of the year was 276. There were 296 premises on the Register where milk was not being sold at the end of the year.

The sale of milk was discontinued at 22 premises, and the business of milk-seller was newly started in 26 instances.

1,761 inspections of the various milkshops were made. The following nuisances were discovered, in respect to which 51 intimation and 8 statutory notices were served :—

Dirty milkshops	...	...	...	42 cases
Dirty utensils	...	...	...	1 case
Dirty milkstore	...	...	...	2 cases
Defective floors	...	...	...	3 cases
Defective ceiling	...	...	...	1 case
Paraffin oil sold	...	...	...	1 case
Other insanitary conditions	...	...	...	7 cases
Total ...				<u>57 cases</u>

All the above nuisances were remedied.

### NOXIOUS TRADES.

There are two premises in the Borough upon which noxious businesses or trades are carried on.

The following are the premises :—

Situation of Premises.	Description of Business.	Name of Occupiers.
24 and 25, Great Suffolk Street	Tripe boilers	J. Martin
5, Hatfield Street	Fat melters	J. Ewen & Son

The Inspector made 8 inspections of these premises during the year.

The following nuisances were discovered, in respect of which one intimation notice was served.

Floors dirty...	...	...	...	1 case
Utensils dirty	...	...	...	1 case
				<hr/>
Total			...	<u>2 cases</u>

The above nuisances were remedied. The periodic limewashing was also carried out.

### COWSHEDS.

There was one notice of application for the renewal of a licence received in respect of the cowhouse situated at 21, Globe Street, but objection was raised by the London County Council on the ground that the premises were not used for the keeping of cows.

The licence was not granted.

### BAKEHOUSES.

During the year 497 inspections were made of the various bakehouses.

The following defects were discovered by the Inspector, who found it necessary to serve 48 intimation and 21 statutory notices in order to obtain the abatement of the nuisances complained of:—

Dirty ceilings	...	...	...	24 cases
Dirty walls ...	...	...	...	25 „
Dirty floors ...	...	...	...	34 „
Flour store dirty	...	...	...	7 „
Oven front dirty	...	...	...	1 case
Defective floors	...	...	...	6 cases
Defective windows	...	...	...	2 „
Defective roof	...	...	...	1 case
Defective ceilings	...	...	...	2 cases
Defective troughs	...	...	...	3 „
Animals in bakehouse	...	...	...	7 „
Other insanitary conditions	...	...	...	57 „
Total				<hr/>
			...	<u>169 cases</u>

All the above-mentioned nuisances were remedied.

Each bakehouse was limewashed or the walls washed as required.

Certificates have been granted during the year to the undermentioned bakehouses :—

#### ABOVE GROUND BAKEHOUSES.

176, East Street.	61, Westmoreland Road.
386, Walworth Road.	

#### UNDERGROUND BAKEHOUSES.

119, Walworth Road.	167, Manor Place.
195, Gt. Dover Street.	68, Alvey Street.
42, New Kent Road.	34, Portland Street.

### BUTTER AND MARGARINE FACTORIES AND STORES.

3 inspections of these premises were made. No nuisances were discovered.

Limewashing was carried out when required.

### SLAUGHTERHOUSES.

The supervision of the various Slaughterhouses was carried out during the year by Mr. Fisher.

There are five licensed Slaughterhouses in the Borough. The following are the premises and the licensees :—

Situation of Premises.			Name of Licensee.
129, Hillingdon Street	...	...	Frederick George Jacques
3, Lucas Road	...	...	Frederick Ludwig Hetzel
70, Union Road	...	...	Sidney John Waghorn and Richard Rush
244, Walworth Road	...	...	Leonard Chalk, Arthur Chalk and John Salter Cox
283-5, Walworth Road	...	...	William Brady

32 inspections were made during the year. The following nuisance was discovered, in respect to which 1 intimation notice was served :—

Yard paving	...	...	...	1 case.
-------------	-----	-----	-----	---------

The above nuisance was remedied.

### SALE OF FOOD AND DRUGS ACTS.

During the year ending 31st December, 1921, 1,577 "official" samples were taken by the Inspector.

The following Table shows the localities in which these samples were taken :—

**TABLE 62.**

Showing the number of samples taken in each Ward of the Borough during the year.

	St. Mary's Ward.	St. Paul's Ward.	St. Peter's Ward.	St. John's Ward.	Trinity Ward.	All Saints' Ward.	St. Michael's Ward.	St. Jude's Ward.	St. George's Ward.	Christchurch Ward.	St. Saviour's Ward.	Total.
Number of Samples taken	139	191	203	168	128	168	143	116	124	95	102	1577

104 of these samples were certified as adulterated, a percentage of 6·6. Compared with the percentage for the previous year an increase of 0·6 is shown.

Particulars of the samples taken together with the results of the analyses are given in table 66.

### **POLICE COURT PROCEEDINGS TAKEN UNDER THE FOOD AND DRUGS ACTS.**

51 summonses were taken out during the year 1921. The following table shows the number of summonses in each ward :—

**TABLE 63.**

Showing the Wards in which proceedings were taken under the Food and Drugs Act.

	St. Mary's Ward.	St. Paul's Ward.	St. Peter's Ward.	St. John's Ward.	Trinity Ward.	All Saints' Ward.	St. Michael's Ward.	St. Jude's Ward.	St. George's Ward.	Christchurch Ward.	St. Saviour's Ward.	Total.
Number of Summonses taken out	4	5	4	5	3	1	6	2	5	2	14	51

The proceedings taken before the Magistrates resulted as follows :—

	Summonses.
Convictions obtained on	20
Withdrawn (duplicates)	4
Dismissed on warranties	7
Withdrawn owing to the death of Mr. David	6
Dismissed under the First Offenders' Act	10
Dismissed ...	1
Adjourned owing to illness of defendant	3
<b>Total ...</b>	<b>51</b>

### INFORMAL SAMPLES.

In addition to the samples taken under the Food and Drugs Acts as shown in table 66, 460 samples were purchased informally by the Inspector through his several agents. The whole of these samples were submitted to the Public Analyst for analysis, with the following result:—

**TABLE 64.**

Article.	No. of samples purchased by Agents.	Result of Analysis.		Percentage of adulterated samples.
		Genuine.	Adulterated.	
Butter ...	259	254	5	1.9
Vinegar ...	87	87	—	—
Milk ...	42	32	10	23.8
Unstamped Margarine	51	51	—	—
Margarine ..	4	4	—	—
Condensed Milk ...	1	1	—	—
Peach Jam ...	1	1	—	—
Camphorated Oil ...	2	1	1	50.0
Golden Syrup ...	11	9	2	18.2
Castor Oil ...	1	1	—	—
Glycerine ...	1	1	—	—
Total ...	460	442	18	3.9

### PUBLIC HEALTH (MILK AND CREAM) REGULATIONS, 1912.

One sample of Cream or Preserved Cream was taken by the Inspector during the year.

# SALE OF FOOD ORDER, 1921.

These samples are included in Table 66.

TABLE 65.

Article.	Number of Samples Purchased.	Result of Analysis.		Percentage of adulterated samples
		Genuine.	Adulterated.	
Margarine ...	15	12	*3	20.0
Lard ...	4	4	—	—
Fat ...	1	1	—	—
Dripping ...	3	3	—	—
Strawberry and Goose- berry Jam	1	1	—	—
Raspberry Flavour Jam	1	1	—	—
Plum and Apple Jam...	1	1	—	—
Raspberry Jam ...	1	1	—	—
Total ...	27	24	3	11.1

\* These 3 samples consisted of genuine margarine but they were sold in unmarked wrappers.

## FOOD AND DRUGS ACTS.

TABLE 66.

Return of Official Samples for the Year ending 31st December, 1921, showing the number taken, and the percentage of adulterated Samples for each quarter and for the year.

HORACE WILSON,

M.D., B.S., D.P.H., M.R.C.S., L.R.C.P.,

*Tuberculosis Medical Officer and  
Assistant Medical Officer of Health.*

## BOROUGH OF SOUTHWARK.

---

SOUTHWARK TUBERCULOSIS DISPENSARY,

82-84, NEWINGTON CAUSEWAY, S.E.

*To the Mayor, Aldermen and Councillors of the  
Borough of Southwark.*

SIR AND GENTLEMEN,

During the year 1921 there have been considerable changes in the administration of Tuberculosis owing to the Insurance Committee having transferred Sanatorium Benefit as carried out under the Insurance Act to the London County Council, so that the duty of providing treatment in Institutions and the supervision of domiciliary cases is now invested in that body. This change has not altered the management and constitution of the dispensary, nor has it lessened the work, though some of it has diverted into other channels, the clerical work having increased and a good deal more outdoor work being entailed in the following up of old cases and the supervision of the homes. In order to cope with this it became necessary either to appoint an additional Medical Officer or an extra nurse to do more home visiting. The latter course was adopted as being a more economical and satisfactory arrangement, and an extra nurse was duly appointed, with very satisfactory results. The home conditions show considerable improvement, though considerable overcrowding is still unavoidable. By the use of the beds lent by the Council we are able to lessen this to some extent where the overcrowding leads to direct infection, and the shelters lent to the patients also tend in this direction, while at the same time enabling patients to live under open-air conditions if their health will permit and their arrangements allow of it. The Staff now consists of the Medical Officer of Health, as Administrative Officer, the Tuberculosis Medical Officer, a Secretary Dispenser, three Nurses and the Caretakers. In connection with the Staff I regret to have to report the illness of Nurse O. M. Wallis, who has in consequence been obliged to give up her post after five years thorough and painstaking work.

In accordance with instructions from the Ministry of Health, more work which can appropriately be done by them is being allocated to the panel practitioners, but all cases are kept under the dispensary for periodical supervision. The result is that the number of individual

attendances of old cases at the dispensary is fewer and more time can be devoted to the examination of new cases and to those who need special advice and attention. The actual number of cases notified has slightly increased and we are getting more systematic notification from hospitals. The deaths also are slightly in excess, having been increased in number by the complication of influenza and also by bronchitis and other lung complaints induced by fogs which invaded London in December.

Schemes are in course of completion for the dental treatment of tuberculous patients and also for X-ray examination of doubtful cases where additional scientific evidence is required to complete the diagnosis. The dental treatment is an important factor in treatment as the digestive power of tubercular patients is always deficient, and decayed teeth are a breeding ground for all microbes and channels of infection in tuberculosis. The most recent extension of the work is the provision of extra nourishment to suitable cases as an adjunct to their successful treatment and recovery. Half of the cost of this will be undertaken by the Ministry of Health up to a specified amount.

The bed and chair-bedsteads are in constant use and have proved very useful in separating the infectious cases from the rest of the family and are a great preventive factor. The use of shelters is very limited, and though all are in occupation at present this system in Southwark does not justify any great extension. A patient requires considerable hardihood to occupy one under the conditions which exist in their back premises. It is one thing to sleep in a shelter under the pine trees, but quite a different proposition to sleep in one in a back yard or town garden. The patients who have them are doing their best and trying to put up with their conditions.

Excepting as a preventive measure in which it has a great measure of utility, I cannot report that the patients have shown any marked improvement from use of the shelters.

Copies of all notified cases are received from the Medical Officer of Health, and on receipt of these a note is sent to the practitioner in charge of each case, asking whether he wishes the Dispensary to take any steps in regard to institutional or other treatment, and periodic reports are furnished by them on the progress of domiciliary cases.

A very small number of actually tubercular cases have been found among the contacts but many predisposed and delicate cases have been found and dealt with by means of the Invalid Children's Aid Association,

the School medical authorities and others. Incidentally other diseases such as rheumatism, heart disease and ring worm have been found and appropriately dealt with, so that the examination of contacts has a useful sphere apart from discovery of Tuberculosis. To detect the disease in doubtful cases use is made of the taking of systematic temperatures for several days, the subcutaneous injection of test doses of tuberculin, and in children the use of Von Pirquet's skin reaction to tuberculin. Shortly it is intended to make an arrangement whereby X rays can be applied where it would seem an additional assistance in diagnosis. The sputum of cases in which no report has been obtained is also forwarded for microscopical examination to the Borough bacteriologist.

In last year's report I stated that the patients who were sent to training colonies had not turned out very successful, and I regret to have to report the same in 1921; few of them stay their full time, and I cannot record one whose training has led to permanent employment. This result is due to the town dweller taking badly to country life, in some cases to the fact that the men are lacking in will-power to start afresh in life, and in others to their objection to having to commence learning at the beginning, expecting to attain capability in too short a time and without effort.

There is still a great want for further accommodation for advanced cases, particularly the non-insured and those whose circumstances or age precluded them from admission into the army, and until the very infectious and dying cases can be accommodated we still are keeping the great source of the spread of the disease in our midst.

In conclusion, I must thank my staff for their steady and methodical work, the staff of the Public Health Department for their co-operation, and the bacteriological staff of the Council whose work has largely increased during the last two years; also my appreciation of the way in which the Public Health Committees have done all they could to check the ravages of tuberculosis.

I am, Sir and Gentlemen,

Your obedient Servant,

HORACE WILSON.

*Tuberculosis Officer.*

**TABLE A.**

Total number of persons examined for the first time, ,260:—

Insured Persons	...	549	Males	...	371
			Females	...	178
Non-Insured Persons	...	711	Males	...	26
			Females	...	186
			Children	...	499
Total	...			...	<u>1,260</u>

**TABLE B.**

Patients found to be suffering from Pulmonary Tuberculosis:—

Insured Persons	...	178	Males	...	120
			Females	...	58
Non-Insured Persons	...	66	Males	...	16
			Females	...	34
			Children	...	16
Total	...			...	<u>244</u>

**TABLE C.**

Patients suffering from Non-Pulmonary Tuberculosis:—

Insured Persons	...	12	Males	...	8
			Females	...	4
Non-Insured Persons	...	52	Males	...	1
			Females	...	3
			Children	...	48
Total	...			...	<u>64</u>

**TABLE D.**

Cases (including contacts) found Non-Tuberculous:—

Insured Persons	...	239	Males	...	157
			Females	...	82
Non-Insured Persons	...	522	Males	...	3
			Females	...	130
			Children	...	389
Total	...			...	<u>761</u>
