FELL. MRS. H.H. BEAUTIFUL PLAINS, U.S.A.

1907

May 15th, 1907.

Dear Madam,

I desire to thank you for your very interesting letter.

You appear to have studied the subject of the Zodiac very extensively. There are, as you are aware, very few books dealing with this subject alone, but most of the early astrologers, such as Albertus Magnus, Agrippa and Baptista Porta, have extremely interesting chapters in their works referring to the Zodiac and its supposed influence on the human body in health and disease. Perhaps the most interesting book I can recommend you on the subject is one entitled "The Book of Beginnings", written by Massey. The author, who is, I believe, an American, gives very full notes on the origin of zodiacs and those employed by various nations.

I am sending to you under separate cover a small book on "Ancient Syriac Medicine" which perhaps you may find of interest.

Once more thanking you for your kind letter,

I am,

Yours very truly,

Mrs. E. E. Foll,
Hollywood,
Beautiful Plains,
Man.

Herne Hill

Mrs. Gell

Mr. Thompson:

I think the enclosed document would interest
Mr. Williams, and that it is worth forwarding

Yours truly

W. Leconte

England

Mrs. Yell.

Helwood. Inan

Feb 7th 1877

Gentlemen As you are the only persons I am aware of; that are interested in old cures, or I should say remedies, I take the liberty to ask you for some way of acquiring knowledge regarding the Zodiac. I have read that there are many books on that subject, but only in the libraries of the great. This seems to be a vast subject. The one in your book, is interesting. The Mexican. but more so the picture of Venus Josephus says that: the arc and everything pertaining to it referred to the Zodiac. and he tells us of a young man who studied twenty years, and it must have been this subject, at that time he became so great that the people worshipped him. They at first took 12 stones rough but sound, and made an altar to represent the Zodiac. As I read in an old book that "the heart and the arteries set upon the body like a fire upon an altar, moreover that the heart & arteries are the spiritual part, the veins and all the body the animal part - Abram said my constellation says I must be childless but God changed their Zodiac. Abram's dying request to his children was that they were not to eat part of an animal when it was still living. Kitto It seems to be impressed on a persons mind after reading Kitto's entry that Joshe settled the holy land in reference to the Zodiac. there were twelve tribes each tribe had a portion of land. and I noticed they were to plant all manner of trees for food. When the sign was in the head it seems they had the feast of Ramadan. composed of the fruit of the Palms. Josephus says Elisa planted them along the Jordan various in their kind. Seven kinds of dates of which they made honey, like bees honey. Next came the Tawnel or bull. Kitto says The Passover in the time of Christ was observed by drinking as much ^{fresh} grape juice, as possible. This was considered as extremely important, and unleavened bread made only of Olive oil and ~~flour~~ meal. many more observances were mentioned & reference to other books see. Kitto

Kitto says that each tribe in their turn came up to Jerusalem with their fruit in gold & silver baskets. Here is a large subject - see Kitto. He refers to other books to get more particulars. When the sign is in the heart - On this subject I saw an article taken from the Talmud. The orange is not unlike the heart etc. - The orange contains fire and air, earth & water. So does the heart. There are fifty varieties of the citrus. they should be eaten when the sign is in the heart. (Loos the Lion) There are many more observances. This is a subject alone etc. When Moses took the Israelites out of Egypt He caused them to fast and when they came to 70 Palm trees they drank. It is called the well of the trees. His great plan was overturned and the people took up with the customs of the heathen. The bible seems to me to be like a treatise on the Zodiac. Those judges who were fond of husbandry could do great wonders.

In the 14th chap of Genesis are the seventy-two holy names of God. I read in an old book that the Psalms are set to the Zodiac. I saw a statement in Kitto that at the feast of the Passover they sang the Great Hallel (The great Hallel). another Psalm has a word said to mean the best part of dates over it - so no doubt they read it when the sign was in the head. Shake Spere says. "If you make your toe. Out of what you your heart should make. It will turn your heart to wake. And you shall have woe." I do not know what they made their toe. but I noticed it says in the bible. They shall dip their feet in butter and there is vegetable butter Mary Magdalene brot Olive oil made fragrant, and anointed the feet of Jesus. I know "A little knowledge is a dangerous thing."

III

I have been looking often at the picture of Jesus in your book. The body seems to be among tongues of flame. It makes one think of the descriptions in Acts of the N. Testament. The disciples had been away with Jesus for a month. Some where in a mountain in Galilee. Tongues of fire seem in some way to be around them. I read that King Agabos wrote to Jesus to come and cure him. Jesus said when he had ascended. he would send one of his disciples to cure him. "When one of the seventy-two disciples came to heal the King there was a bright light around his head. Then the King knew he could cure him. This seemed to be the way Paul had such power. They went to some place and were given the observances of the twelve signs of the Zodiac as the Lords prayer says. Give us this day our daily bread, above other substance. This is the way it used to be translated in old copies. They made their flesh holy by these rules. The twelve signs are divided into six parts each (seventy-two). The seventy-two disciples of Christ corresponded to the seventy-two parts of the body. These have the Holy names of God applied to them. Kitto says that the word means nowise, now one of the Holy names of God was Tetragrammaton, or Adoni. This is almost all I know anything about, all those 72 names. I read Matters Kabala. It was on Tetragrammaton and Trigrammaton. This would have been altogether without one ray of light to me had I not have read something similar to it in Kitto's enc. There was a map of a human body and a great deal about Palms and Tetragrammaton. There the name Jehovah was written J. H. V. H. in this way (H) (H) (H) (H). This book spoke many

things about this map of the body but it seemed to refer to Palms to the Head. This strange book I am reading now has much about the Zodiac which I can understand only a little portion.

It says, "There are so many nations and tongues, and so many bodily functions working with the seventy-two disciples of Christ and this is one method used in making up the holy names. This is the Shemhamphoras. A certain text in Exodus 14th of 3 verses which are always written with 72 letters transposed in some way constitutes one name the 72 letters of which are named Shemhamphoras. Another Psalm the is very said to contain the same name. Take as the first letter of each word in the Psalm it cannot be pronounced but it spells a word which constitutes the Shemhamphoras. The 72 parts of the Zodiac. There is a picture of this object two maps with

tongues (half on each) seventy-two tongues like there is represented on the Venus on your book. There is a statement that this power is given only through Jesus and that the twelve precious stones in revelations represent the Zodiac; for it says "Were they not planted in the ground?" So there is a chapter on the use of fruits in the Talmud this book says this influence or power flows in through the twelve signs and planets into the herbs and plants so that they have power even if withered, There is a saying of Jesus: "Every thing which ye ask the Father in my name etc." This method of obtaining all kind of things in the twelve signs is described in many books. The Seal of Hermes teaches how the powers of the heavenly influences may be obtained under each sign in a crystal or glass that they are constellated and then at each period of the twelve signs the appropriate character of each is divided into four parts etc etc.

Olives are for the teeth, for the Talmud say they are not unlike teeth. Figs are buried alive when eaten by common people. They are for the breast. Walnuts are Jones glands. But a little knowledge is a dangerous thing. Pliny distinguishes between man's cures and God's cures one would think to only dip into his book that it is black magic but read on; he is only telling you these cures are man's cures.

The believing physician says Marcellus "is like unto God, but the medical body belong to the heathen and to the unbeliever."

Besides the Shem hamphorash there is the Shemiforash or Sephiroth of which a map is shown in Kittos essay. This consists of ten parts and is seated in the heart and arteries⁵⁷⁶

All the names of God and the ten Sephiroth are embraced in the Archetypum: the ten blessed orders. There are blessings to be obtained from the use of the Psalms through the knowledge and wisdom of books. The Apoc. is mentioned often I have not seen it. but this book says: "Every person can do these things without learning Hebrew." Psalm 19. — "The holy name of this Psalm consists of this two letters from the most holy name. Jehovah, He (the heart), which according to tradition

— are of great power, and which embrace the so-called ten Sephiroth or reckonings and other deep mysteries." Finally, it is claimed that this Psalm is effectual in driving away evil spirits. It is necessary, however, to pray this Psalm, with the holy name, and an appropriate prayer, seven times over the person possessed of the evil spirit. The letters of the name, He, are contained in the word Hasha-mayim. Verse 2. — and Bezorah V 6. "The Psalms are divided into 5 parts so are the Thora," recommended in this book as being great.

I wrote you about the root-mandrager. since that time I have read that it is of no use to cure insanity in the hands of an ordinary person only those who purified their flesh similar to Esdras who was sent 7 times to eat that was suitable for him to obtain power to see (see 7)

an angel without being instantly killed
 Was Irving says. The angel taught him the use
 of plants. Our bodies are negative we cannot
 withstand electricity but we can change
 them to affirmatives and then "The thunderbolts
 will find their right place". Bible - The mandra-
 gora is said in Shakespere to shriek when rem-
 oved from the ground. It is not the mandrake
 which now grows in the Holy Land; A blind
 man in Syria sent me seeds of it It is said
 to belong to the Solanum order - There is a
 notice in this book that a man named
 Ealafer^{a prophet} cured some person before Vespasian
 Julius Caesar cured a man before a whole army
 They had a piece of the root fastened in the
 end of a rod, and placed it to the patients nose
 Caesar was a prophet as it is said, he could
 cure the blind too; and I suppose his flesh
 was fragrant and his face shining -
 Ptolemy Philadelphus too, seemed to make
 an almost incredulous discovery He seems to
 have been full of joy & enthusiasm when he
 asked the privilege to make a grand table
 which does seem to represent the Zodiac
 The leaves of the plants being so natural that
 the wind could move them backward and
 forward - When we look out upon the
 stars we seem to see the

Shenham forach and the astronomer says that the Great and little bear was always called the legs. so the dragon with its six folds, or Tali seems to be the bowels. This books says this tali is the king of the country, now like an enraged dragon. How does the Talmud say it should be nourished? (In the use of fruits) This book says, there is a spark of fire in the Kidneys and so there is a tank of water near. I often wonder if we could not be made to float on air, by knowledge of this subject. Virgil says: The way the people walked "they held their feet straight and floated through the air. Aeneas might have been one of the seventy two disciples - Now the reason I write this to you is because there are many insane people here in Brandon. No Dr seems able to help them -

My husband's father was in the Hamilton Out, Asylum for about 30 years. He had farms, was a Provincial Surveyor and a merchant, but this hereditary disease attacked him when a young man. My husband, his son graduated as an M.D. but has never been able to make a living. He seems devoid of interest in any way of doing business. My sons: I have 6 seem to be clever and energetic, but will

(9)

hereditary evil ever overtakes them for they
say. The Fells all become crazy and
how they suffer; and, I have suffered living
32 years with a man verging on, and
almost dangerous to live with, filled
constantly with anger, conceit and disdain
without the common necessities of
life. He furnished a home, bought a house
but then collapsed. I do not ever wish a
woman to go through what I have
worse by far than a drunken husband -
Bells Geography says there are 50 varieties of bread fruit (Palms)
How wonderful! if you would think
this subject interesting enough to do
all you can: why Julius Caesar could
scarce be made to believe that this
was in his power! It is at least interest-
ing; that there were such men, but you
may for ought I know belong to this
class. as I am told there are men on
the earth today who do so. - You request
in your book; Communications; or I
should not have dared to come before learned
men like you. (Mrs) H. H. Fell Kellewood
Beautiful Plains - Man.

Kitto says under the word alphabet

"From the astrological character of the Hebrew alphabet - a.o. from its representing the relations of the Zodiac and the 7 planets & I believe it was discovered by Seth & given to Noah. He (Kitto) calls this alphabet: "The Chris Cross rock". The Zodiac was on the shield of Apples and on the girdles of the Mithradatic Priest -

This science consists chiefly in understanding the combinations of certain letters, words, and numbers, which are alleged to be significant

Every letter, word, number, and accent of the law, is supposed to contain a mystery. - John Ruskin says "Eagerly, docile, joyfully, reverent, instantly, and gratefully, acceptant of whatever better insight or oversight a stranger could bring them, of the things of God or man - This suit me -

The study of the Zodiac includes: natural history, Husbandry, Astronomy, algebra, Euclid, Theology, mineralogy, Optics, the physiology. (There 4 kinds of flesh - precious or crystal stones. The prismatic colors etc etc. Those 72 disciples of Christ

must each have written a book -

No person on the earth knows that I send you this paper. { Roger Bacon studied optics in his Opus magnum asserts that all things are known by perspective -

{ The Chaldeans taught that when the planets are all conjoined in Cancer, the earth will be destroyed by fire. Ruskin

See Brancas commentaries on Scripture

The use of the Psalms

The 121 psalm is to help a woman in labor. one psalm is to cure a fever. another to cure the blind, one to cure pains (arise) in the head one to obtain riches & treasures, one to cure severe pains in the limbs one to tell an innocent person who is wrongly accused, one to protect from all fire arms, one in which no letter contained in fire arms is found. (The psalm of life). one to help a student (student) to understand & remember, one to cause married people to live happily. (145) one to protect us when we wish to travel in strange countries, one to cause beauty, one to cause joy etc, etc.

Plants

Josephus tells us of the Opobalsamum trees. He says they are the most precious trees that grow in the Holy Land. There are three varieties. The balsam drop is taken on St John's day in June (he tells how) It was worth its weight in gold in the time of Christ. Kitta says they put a drop in a cup and poured wine on it to drink. Bell's Geography tells where the trees grow in Arabia. I read that at Easter they used to hang the fruit of the myrtle on trees at Easter instead of hens eggs. They exactly resemble eggs of different sizes and colours. I read of a tree in British Guiana that had fruit on it exactly like a hard boiled egg.

One of the Psalms is for the trees, one to render us invisible when in danger. One to find mineral treasure as no one is permitted to take payment for curing. A one to cure an insane person. The fruit, Olissus was so fond of is said to exactly resemble gingerbread and it grows on the Lotus Palm. This book says that these things should be kept secret, because the people will not believe. they will only ridicule: but I shew it to any one who you think will believe. One psalm is to protect from fire, one to rid us from robbers. One to save us from shipwrecks etc. So if we understand the Psalms we can have all security & happiness. This seems new and wonderful to me. I wonder what you will think of this. If you knew these things long ago? I was brought up a Methodist and to eat pork I would like to copy & correct the mistakes in

these papers. but it is impossible for me to do so. Plato says people are like some fish they never rise high enough to see people or trees, so some men climb up and look out on the other

By one Psalm we may divine by another dream

"The use of the Psalms -
"A few ^{of the} things taught to Moses when he
was two months old at Sinai, He taught
them to Joshua, who taught them to the
priests who taught them to the Judges
They taught them to the prophets who
then taught them to the Kabbalist / tradition
(or less, all Kabbalists did not understand
them" but I thought many did, "They
were the Essenes who are said to be
the Druses in the Holy Land today
Read the "Read the De Sacy. that wonderful
and truthful books"
