Dear Sir.

I am directed by D. W. Barnes
to acknowledge receipt of your
letter of the 13th inst. and to
say that a space of
2 ft x 2 ft will be
amplified for the objects to
be lent from this Museum.

I am yours sincerely

13th February 1913.

Dear Sir,

In reply to your kind letter of the 12th inst. we will reserve a space for the objects you are kindly lending up the end of March as you suggest, although our space is rapidly being filled. It would greatly assist me if you could let me know the amount of space the objects that are being sent from the museum will occupy, so that a place may be reserved.

Thanking you in anticipation,

I am,

Faithfully yours,

Dear Sir,

With reference to your letter of 27 Jan. I observe you state that it is necessary that you should have every article in hand before March. In a previous letter you stated that they were to be sent before the end of March. I hope that the latter arrangement holds good as

it will be difficult to get the
articles away at the time stated
in your last letter

I am, truly

Dear Sir,

In reply to your letter of the 22nd inst., I have pleasure in learning that the Committee of the Carlisle Library and Museum have agreed to loan us the interesting objects you kindly enumerated.

I enclose herewith a number of labels for the purpose of attaching to each object, which should be described separately for the catalogue.

It is, however, necessary that we should have every article for exhibition in hand before March, otherwise it cannot appear in the catalogue, nor can space be reserved for it.

Thanking you very cordially for the trouble you have taken in the matter,

I am,

Faithfully yours,

Dr. Barnes.

Dear Sir, I have pleasure in informing
you that at the last meeting of the
Public Library and Museum Committee
of this city the proposal to send on
loan certain articles for exhibition
at your Historical Medical Exhibition
was approved. If you will communicate
with our Curator he will see that they
are duly and safely packed. It was left
to the Mayor, the Curator and myself
to assess the value of each article on which

we understand you will take out a
policy of insurance. In addition to
articles named in schedule previously sent
we have a good selection of bronze needles
Ear pickers etc. which are I think worth
showing. I wrote that you want the articles
by the end of March but as your visiting
list says the Exhibition does not open until
August surely there is no need to have
them so soon. I presume you will provide
suitable labels -

I am very truly

H. B. Ames
