10. Dental Education.

19, Hanover Square,

London, W.

April 25th. 1914.

C.J.S. Thompson Esq:

Dear Sir,

I have now returned from a holiday on the Continent, and am able to reply to your favour of the 7th. inst.

I will lay your letter before my Committee at its next Meeting. I am sure that I can say on its behalf that we will be pleased to do what we can to interest our Members in the Wellcome Historical Medical Museum at the time of the Congress, and send them as far as possible up to Wigmore Street.

My Committee will I feel sure understand that it would detract from the display there if specimens were lent to us for Exhibition at South Kensington.

I gather from the Secretary of the Wellcome Bureau of Scientific Research that you will issue Special Cards of Invitation similar to those for the International Medical Congress.

I am,

Faithfully Yours,

A. Hopewell Smith

Hopewell. Smith

INTERNATIONAL DUBLIN CONGRESS

July 2nd 1894

London

Humm

7 April 1914.

Dear Sir,

I am informed by the Secretary of the Wellcome Bureau of Scientific Research, who I believe had an interview with you a few weeks ago, that you wished to know if a selection of objects connected with the history of dentistry could be lent from the Wellcome Historical Medical Museum. For some months past I have been arranging a section in this Museum illustrating the history of dentistry, specially designed to interest members and delegates of the International Dental Congress. I conferred with the Secretary of the Congress some time ago on the matter, and made arrangements for members of the Congress to be admitted on the presentation of their badges or professional cards.

As the objects are already arranged and included in our hand-book, you will see that it would be impracticable to lend them, but we trust that during the meetings of the Congress we shall receive many members, and will do all we can to make

2.

their visit interesting.

I am,

Faithfully yours,

C. K. S.

A. Hopewell-Smith Esq., L.R.C.P., M.R.C.S., L.D.S.,
58 Park Street, W.

Mr. C.J.S. Thompson

Sixth International Dental Congress

You will remember I suggested that you approach the honorary secretary of this Congress with the view to getting invitations to the W.H.M.M. officially enclosed in the printed matter issued to members of the Congress. As you were unable to do this, the secretary of the W.B.S.R., having ascertained that the Chairman, Mr. A. Hopewell-Smith, L.R.C.P., M.R.C.P., L.D.S., 58, Park Street, W. was the proper man to approach, called on him on March 31st, and he has agreed to include 3,000 invitations with other literature handed to the Congressists, if official cards are forwarded to the secretary of the Dental Association, 19, Hanover Square, and I will attend to this being done.

Mr. Hopewell-Smith, however, raised another point with which I am afraid I shall have to trouble you. In previous years, the museum which has formed a feature of the Dental Congress has been divided into ten sections, but this year, section 11 has been added which includes historical objects of interest, such as books, instruments, pictures, etc. Mr. Hopewell-Smith stated that his intention had been to write to Mr. Wellcome with the object of securing the loan of certain objects from the W.H.M.M. for the museum, and he would of course make the usual acknowledgments. The secretary, W.B.S.R., explained that Mr. Wellcome was absent from England, and the matter would be brought before you on your return on Monday, shortly after which Mr. Hopewell-Smith might expect a letter from you stating what you would be able to do. Whatever decision may be taken, will you be sure to let him know at your earliest convenience, and I may add he sets some store by the co-operation of the W.H.M.M. in helping to make the loan section as representative as possible. The Historical Museum of the Congress will be located on the second floor of the Imperial College of Science building.

1st April 1914.

NATURE AND SCOPE OF THE MUSEUM.

It is intended that the Museum shall be an International Collection of objects of interest, and be representative of every Section of the Congress. Its Nature and Scope include the following:—

1. Specimens showing the Evolution of Tooth Forms and of the Dentition of Man. Histological Preparations bearing upon recent research. Exhibits illustrating the Chemical Composition and Physiological Action of the Saliva.
2. Specimens of Morbid Conditions of the Teeth, Palate, Gums, and Jaws, such as Odontomes, Dental and Dentigerous Cysts, New Growths, Diseases of the Periodontal Membrane, &c. Photomicrographs of Oral Micro-Organisms, and Cultures of Micro-Organisms in Test Tubes or in Petri Dishes. New Bacteriological Apparatus and Appliances.
3. Specimens of Teeth, Gums, and Jaws affected by "Pyorrhoea Alveolaris." Microscopical and Lantern Slides of the same. Exhibits of Various New Methods of "Inlaying" Cavities in Teeth. Exhibits of New Methods of "Crowning" Teeth.
4. Radiographs of the Normal Dental Tissues, and of Diseases of the same and Associated Parts.
5. Exhibition of various kinds of Articulators. Specimens showing the various Methods of "Pressure Casting." Specimens showing modern forms of Continuous-Gum Work.
6. Models showing Abnormalities in position of the Teeth, and Appliances for the correction of the same.

NATURE AND SCOPE OF THE MUSEUM—*Continued.*

7. Specimens illustrating Methods of Dealing with Surgical Conditions of the Teeth and Jaws, including Cleft Palate, Harelip, Fracture and Resection of the Jaws.
8. Specimens illustrating the History and Evolution of Anæsthesia.
9. Photographs, Charts, Diagrams, Specimens, and Statistics of School Clinics. Methods of the Instruction of the Public in the principles of Oral Hygiene.
10. Instruction Forms, Charts, Diagrams, Specimens, and Demonstration Models used in relation to Dental Education. The Specimens will include those employed for teaching purposes, and also Specimens of Work of both Students and Pupils, completed in accordance with the definite courses given.
11. Historical Objects of Interest, such as Books, Instruments, Pictures, &c.

REGULATIONS.

1. Intending exhibitors must give full information with regard to the exhibits suggested for inclusion in the Museum on the application form supplied overleaf. Exhibitors are requested to send in the Application Forms as early as possible. Those received after June 30th, 1914, cannot be considered, and lists of exhibits sent after this date cannot be printed in the Official Catalogue.
2. All exhibits must be received, properly packed (see below), registered and carriage paid, at the University of London, South Kensington, London, S.W., on or after Monday, July 13th, and before July 20th, 1914.
3. The Committee has the absolute right of acceptance or refusal of the exhibits.
4. The Committee reserves to itself the right of arranging the exhibits.
5. The Committee will be responsible for the proper exhibition of the several exhibits, and for their secure packing and dispatching on return. All exhibits will be insured, and any claim for compensation for damage or loss must be made within three months of the closing of the Museum.
6. Any exhibitor making a communication to a Section may arrange with the Hon. Curator of that Section for his specimens to be available at the Sectional Meetings, in which case the exhibitor shall be responsible for the safe return of his exhibit uninjured.
7. No specimen may be removed from the Museum cases without the consent of the Committee.

Instructions for sending Specimens, Etc.

- A. All specimens of a brittle nature should be securely packed in wooden boxes, on the lid of which the name and address of the exhibitor should be painted or written.
On the inside of the lid a written list of the contents should be affixed.
- B. In the case of wall diagrams and other objects of a non-brittle nature, parcels should be made, and the inscriptions should be affixed to the paper covering as under A.
- C. Each specimen should have some distinctive label attached to it, in order that it may be identified, and should be numbered according to the Section of the Museum in which it is to be placed.
- D. The box should have a large label nailed on, with the address as follows, legibly written upon it:—
