Dear Sirs,

We desire to thank you for reporting the Persian and Indian MSS., and we should be glad if you would kindly send them to us for inspection.

Referring to the missing parcel of surgical instruments, our assistant went to the carriers' office and identified his signature as having received a parcel on the date mentioned, but it is not clear that that was the parcel of the surgical instruments you mention. It appears from your letters that you forwarded us another parcel the day before and then you state you returned the surgical instruments without advising us. It is quite certain we are unable to trace these instruments anywhere, and we do not think they could have been mislaid, as had they been received, we should have dealt with them at once. We are still investigating the matter, and should anything turn up about it, we will let you know.

Yours faithfully,

Dear Sir,

We are much obliged for your letter of the 19th inst. respecting the missing parcel and containing a note from the Munich Post Office as to its alleged delivery. The certificate you enclose states that the parcel 'has been receipted by the person who accepted it', but it does not state the name of the person who received it. None of our people have any recollection of receiving this parcel, and unless we can see the name, it is impossible to identify it. Will you kindly ask the postal authorities of Munich to furnish the name of one who signed for its receipt?

Gentlemen:

We beg to inform you that we have received from the Munich Post-Office another certification that the parcel with the surgical instruments, bearing the No. 51 which had been forwarded to your address 69, Newman Street, on the 26th of November 1912 has been handed over on the 29th of the same month and that the arrival of the parcel has been receipted by the person who accepted it.

Would you have the kindness to try and find out who was the person which accepted the parcel and receipted the arrival.

Yours faithfully

4th March 1913.

Dear Sir,

We have pleasure in enclosing you a draft for forty-three £ks. for the engravings and caricatures we selected from your last parcel. Kindly sign the enclosed receipt and return to us at your earliest convenience.

With reference to the two cases of veterinary instruments, we are still unable to trace having received them, and have certainly not got them in stock. Could you inquire from the Berlin post office if they hold any receipt signed by us for their delivery as the English post office authorities say they cannot trace the delivery at Newman Street. We would point out one discrepancy for explanation; that is you say in your letter of November 25th that you forwarded the instruments to us on November 26th, yet according to your statement, the date is given as December 11th, which of these is correct, or are you not mixing them up with the two surgical instruments that we purchased from you on December 23th? If you refer to our letter of November 27th with respect to a letter from you stating that a case of instruments was missing, we say "we have now returned everything we hold of yours. We shall be glad to hear from you that this is all right." You replied on the 29th November stating "we beg to say that all the instruments have now come to hand." In going through your correspondence, we find that you do not advise us that you had returned the veterinary instruments to us until February 14th when you write "we have returned the surgical instruments on the 26th November 1912." That is the only letter of advise. We trust these remarks will throw some light on the matter, but we cannot find any trace of the instruments here at all.

Yours faithfully,

E & Co

Dear Sir,

We are informed that on Nov. 26th 1912 a parcel containing two boxes of old surgical instruments was forwarded to us by Herr Ludwig Rosenthal, 14 Hildegardstr., Munich. We have never received the parcel.

Perhaps you will kindly have inquiries made as to whether the parcel passed through the post in London.

At that time our address was

69, Newman Street,

and we removed to the above address on January 6th of this year. The usual form of change of address for parcels was filled up, and notification was sent to the local district Post Office. In any case, however, the parcel would have been delivered long before we left.

Awaiting the favour of an early reply,

We are,

Yours faithfully,

Dear Sir,

In reply to yours of January 17th and February 6th, we trust by this time you have received the money order we forwarded to you for 70 Mks for the two old surgical instruments, and we should be glad if you would send us a receipt for that amount.

With respect to the detailed statment of account you sent us, we have gone into the matter carefully in our books, and we find by an oversight, we are indebted to you for 43 Mks for the twelve medical portraits which we retained on December 10th and we are enclosing a money order for that amount together with 45 Mks for the 'Fraisen Haube'. With respect to the two cases of veterinary instruments which you say we are indebted to you for, we take it you mean the surgical instruments which you sent to us in the last week of November. We had returned the two cases to you for which we offered you 80 Mks before you accepted our offer and we never received them back again from you. We have your receipt of December 3rd stating that the instruments had been received. In your letter of November 25th which came to us after the instruments had been sent back, you say that you 'would be much obliged if we would relieve you of the instruments for 80 Mks as we offered as the owner had refused to take them', but you did not return them to us, and therefore we left the matter open. You will find that this is quite correct as we have gone into the matter very carefully. If you returned them to us, they were certainly never received back. Please forward receipt for enclosed money order.

Dear Sir,

We have your postcard of the 3rd inst., and note that you cannot accept 60 marks for the two surgical instruments.

We regret we cannot make it 75 marks, but to meet you in the matter we will give you 70 for the two, and enclose a money order for that amount herewith.

Please sign enclosed receipt and return to us at your earliest convenience.

We were surprised to receive your statement showing that a balance is owing to you of 124.55.

We cannot understand this, as according to our books we are not indebted to you at all. We invariably pay for each purchase at the time, and hold receipts from you for every article. We should therefore be glad of some explanation of the account, which we return herewith.

Yours faithfully,

Mr. L. Rosenthal.

Dear Sir,

In reply to yours of the 22nd just to hand, all the cases of surgical instruments that you sent us were returned to you in a parcel. We have no recollection of receiving any long thin case. There was one small narrow case which was returned to you with the others, but the only instrument we have retained was the one you accepted our offer for 15 marks for, and that was a scarificator in a leather case. We have now returned everything we hold of yours. We shall be glad to hear from you that this is all right.

Dear Sirs,

On account of the time it has taken for the two cases of surgical instruments to be sent to you and returned to us, the owner has now refused to take them back, and we now have them on our hands. The only satisfaction we could get out of him was a reduction of the price to Mk. 80 (Eighty Marks) which although certainly a great reduction is but little satisfaction to us, for, as you know, this kind of thing is altogether out of our line and these instruments are not of the slightest use to us.

We would therefore be much obliged to you if you would relieve us of these at the price we are now charged for them (Eighty Marks).

Dear Sirs,

In reply to your letter of the 8th. inst. with respect to the wax models the very highest price we can offer you for these separately is Four hundred and Seventy five Marks, and for the two cases of instruments Seventy Marks. This is the very highest price we can make you; if your client is unable to accept it on hearing from you we will immediately return the objects. We shall be glad to have your decision in the matter. Please regard this as absolutely final. The invoice price of the cases of instruments was Mk.320.

Further in reply to your post card of the 8th., we are sorry we are unable to do anything with the Bavarian Flora you offer.

With respect to the four MSS. you have sent us, the only one we can handle is the one on Physique in two parts, for which we can offer you Sixty Five Marks. We are returning the other three to you by registered parcel post to-day.

Dear Sirs,

We desire to thank you for your letters October 10th and 11th. With regard to the Wax models which you kindly reported to us, while realizing the difficulty and risk of sending these through the post, you will I am sure understand that it is impossible to estimate any idea of the value without seeing them.

If you care to take the risk of sending them insured against damage, we shall be pleased to inspect them and make the best offer we can. If you cannot see your way to do this, we are afraid we cannot do anything further in the matter, until next year, when it is probable we may have a representative in Munich, who could call and see them.

Referring to "Bernard Gordon, Lilly of Medicine", we have of course noted the manuscript on the back of it, and taken that into account, we are therefore returning the book to you per parcel post insured.

With reference to your inquiry as to the manuscript for which we sent you 75 marks, we find we made a mistake, and have sent you 40 marks in excess of what we owed you, the manuscript for which we paid was "Memors", forwarded on August 1st, we offered you 35 marks for it on the 30th August, and you accepted by post card September 2nd, we should be glad if you will kindly return Post Office order or Cheque, for the amount of 40 marks to make our books straight,

Dear Sirs,

We have pleasure in informing you that the owner of the surgical models we offered you has commissioned us to sell for him :-

Eight wax relief gynecological models of the Foetus and the Uterus in different positions, - in brown and red. They are the size of a large 8vo, and are of German origin and date about 1800. The price for the set is Mkrs.800.-nett.

If you consider the price reasonable and are interested in them, we shall be pleased to insure them against breakage and send them to you for inspection; but if you cannot entertain purchase at this price, please do not ask us to send them on approval, as they are mounted and under glass, and would require very careful packing and even then there would be some risk of damage. Moreover we do not wish to run any risk of annoying the owner.

Dear Sirs,

We are in receipt of your favour of the 30th ult., and note what you say regarding the saw. Such articles of course, our rather out of our usual line of business and we cannot claim any expert knowledge of them. As we are anxious to bring about business so as to facilitate further dealings with the owner of the articles in question, we would ask you to send us a cheque for as much over Three Hundred and Seventy Five Marks as possible: which we will accept.

As soon as we hear again from our customer we shall let you know of the other items he has to dispose of.

Dear Sirs,

We desire to thank you for your letter of the 23rd. With respect to the medical objects, we have again had the saw examined by experts in medical antiquities and it has also been compared with other specimens, and without discounting what you state in your letter, it is practically certain that this saw was never used for surgical purposes, but was a carlenter's tool. In proof of this, we may say that the actual teeth of the saw are quite different to any surgical saw of the period, and we have no doubt in our mind that the opinions we have received are quite correct. We are sorry therefore that we cannot substantially increase our offer for the three objects, but we note that your client has other more interesting items which he is desirous of selling. If you will kindly let us have a list of these, or better still, forward them to us, we will do our best to dispose of the whole collection, and shall probably be able to give you better terms than by purchasing these three items alone. Meanwhile we return the microscope for which we are unable to make any offer, and await your reply with respect to the other objects.

Dear Sir,

We duly received your favour of the 23rd inst.,
contents of which have been duly noted.

As regards the saw,- no doubt whatever existed in
our mind that it was a surgical one - as our client (who
has collected antique scientific instruments for many years)
told us this was the case, and moreover informed us that it
had been reproduced in a large work as an illustration of
an old medical instrument. We regret that we are unable to
trace this work as we could then have given you more satisfactory
information.

We are sorry you consider the prices high, and
would remind you that as we are merely acting as agents in this
business we have but little influence over the selling price.
If, however, you could see your way to increase your offer of
M.375 (which you doubtless made on the conviction that the
saw was one used for carpentry) to say about Mks.530,- we
could then hope to persuade our client to accept. We trust
that you will do your best to bring about business as the
owner of the articles in question has other and more inter-
esting items which he would let us handle if we dispose of
these.

We note that the microscope has no interest for you and shall be pleased if you will kindly return it in due course.

Awaiting your reply,

We remain, Dear Sirs,

Dear Sir

I desire to thank you for sending the saw and other objects for inspection. With respect to the former in our opinion this is not a surgical saw and we have submitted the same to other experts and they agree with us that it is a carpenter's tool and has not been used for surgery.

We think that the prices asked for these objects is extremely high and it is quite unlikely we should ever be able to place them at the figures invoiced but if you are disposed to consider an offer for the three objects we should be willing to pay three hundred and seventy-five marks for the saw the forceps and the ivory model of the ear.

We are unable to make an offer for the microscope which we will return.

Dear Sirs,

In reply to your letter of the 14th inst. duly to hand, with respect to the medical prints which we selected, we have given the matter very careful consideration, but regret we cannot increase our offer beyond the Four hundred marks we mentioned in our letter of the 27th ult. We regret, therefore, if you cannot agree to this, we cannot entertain their purchase.

Thanking you for submitting the same to us,

Dear Sirs:

The medical prints returned by you have now
come to hand.

On adding up the prices of those selected by
you, we arrive at a total of Mks. 963.40, and although
we have gone over it carefully cannot understand how
you found them to total at Mks. 901.30. In our above
total the 7 duplicates were not included.

After careful consideration and in order to
promote business, we have decided to let them go at
Mks. 600. This is however our rock-bottom price: it
is really impossible for us to sell them at less.

We await the favour of your early reply, and,
in the meantime, remain, Dear Sirs,

Yours faithfully,

Ludwig Rosenthal

Dear Sirs,

In accordance with your request we are returning to you to-day the prints we selected, for which we made you the offer of Four hundred marks. On going through them again we find we retained by mistake among them seven duplicates; these we have wrapped up separately, as we do not want them. The gross price of these amounts to Marks 45.50. On returning these we must therefore reduce our offer for the remaining one hundred and fifty prints, which are wrapped together, to Three hundred and seventy-seven marks.

With reference to the book, *Theatrum chemicum*, (458504), which you recently reported to us, will you kindly inform us if it contains any woodcuts or illustrations? If it does, kindly send it on approval with the others.

Faithfully yours,

Dear Sirs:

Re your favour of the 27th ult.

We have duly received the 147 medical
portraits selected and returned by you.

On adding up their respective prices,
we arrive at a total of Mkrs. 1011.90, and can therefore
only suppose that the price you mention in yours of
the 27th. is due to a clerical error.

We may add, however, that we are
willing to part with these portraits at Mkrs. 750,
which is our rock-bottom price.

Awaiting the favour of your further
news, we beg to remain, Dear Sirs,

Dear Sirs:

We are in receipt of your favour of the 27th inst., from which we note that you have selected one hundred and forty-seven of the medical portraits submitted to you, and which you are willing to purchase at the price of four hundred marks.

Without a further inspection of the chosen prints, we are unable to accept your offer and shall therefore be obliged if you will return them to us: if after going through these we see our way clear to accept your offer we shall at once inform you to this effect and return them.

As requested, we are forwarding for your inspection the works indicated by you, and trust that you may be able to place them.

We are, Dear Sirs,

Yours faithfully,

Jan. 27th, 1912.

Dear Sir,

The box of medical portraits and prints duly to hand, and we have gone through them with great care, and selected one hundred and forty-seven that we can do with, if you can put them in at a very reasonable price. We are not particular about these, as prints are not selling very well at the present time in London; but if you are prepared to dispose of them for the price we can offer, we shall be pleased to do business.

The most we can give you for the one hundred and forty-seven prints we have retained is four hundred marks.

Please note that we had to pay twenty marks carriage on them, and we have returned the prints we have rejected per Messrs. Stockwell, addressed to you, to-day, carriage forward and insured.

Referring to your other lists of books, we shall be glad if you will forward us all those that we have marked with a red X on enclosed sheets, on approval, together with invoice, at your early convenience, and we will see if we can place them.

Faithfully yours,

Dear Sirs,

In reply to yours of 23d inst., with respect to the collection of majolica vases, we could not form any estimate of the value of these without first seeing them, and, as we see no opportunity at the present time of placing them, unless they are offered to us at a very moderate price, we could not go further into the matter.

With respect to the manuscript, "The Treasure of Astrology," that you have sent us, we have carefully examined it, and find it is of very little value, and not earlier than the eighteenth century: therefore the best offer we can make for it would be forty-five marks. On hearing from you we will either send you a cheque, or return the manuscript at once.

faithfully yours,

Dear Sirs:-

Referring to your letter of the 3rd. March we are looking for catalogues of surgical instruments for you, and certainly shall report if we obtain any.

We beg to inform you that where the collection of vases is there is also a collection of Roman Surgical Instruments, ^{from Roman finds} as well as other medical antiquities. We think the collection will be well worth your while.

For the "Denksprüche" we would accept..... M 240.-
(two hundred & forty) i.e. M 300.- less 20 %.

This week we shall send you some more manuscripts.

Yours very truly,

Dear Sirs,

We are still awaiting your reply respecting our offer for the manuscripts which we hold from you.

With respect to the collection of majolica, we are unable to say when our representative will be in Munich, but we have been seeing if we can find a customer for the pottery, but the price is so high, that we think it very doubtful we should be able to do anything in the matter. If we can, we will let you know.

Dear Sirs,

In reply to your postcard of the 3rd inst., with reference to the two prints which you say are missing, we have made very careful enquiries, and find that both the prints you mention were returned to you in the packing case; one was placed between the pages of a book, as you sent it to us, probably you have not yet discovered it; and the other was wrapped in paper and placed in the case exactly as received from you, as the print was not in any way in our line, and we did not even consider its purchase. You will no doubt find, on making a further search, that you have both prints in hand, as we certainly sent them both back.

Trusting to hear from you that you have discovered the same, and awaiting your reply respecting the manuscript which we hold on approval,

Dear Sirs,

We are requiring old surgical instrumentmakers' catalogues, containing reproductions of instruments of all kinds from about 1775 to 1875.

These should be obtainable at a trifling cost, and if you could kindly collect us a number of the same we should be glad to hear from you at your early convenience.

Dear Sirs,

We desire to thank you for sending the parcel of manuscripts, which we have carefully examined. We regret to say we are unable to place any of these at anything approaching the price you ask, and we are returning them to you to-day.

With respect to the collection of pharmacy vases we note that it is not in Munich as we thought, and we are afraid our representative will not be able to spend the time in seeing it just now; perhaps a little later on in the year he may have an opportunity of doing so. Will you kindly let us know in the meantime exactly where the collection is, as we should have to make arrangements beforehand.

We should be glad if you would kindly let us know if you have received the other parcel of books safely.

Dear Sirs:-

Thanking you for your favour of 14.th inst. we have pleasure in advising you, that we have sent you 11 interesting medical etc. manuscripts on approval.

We trust they will meet with your approval & would be glad to have your early answer.

As to the vases, the collection is not in Munich, but about 15 hours' ride by rail from here and we should be glad to accompany your representative there.

The collection was formed by three generations of chemists & came into possession of the present owner over 50 years ago. He has spent much money in adding to this collection. The entire collection numbers 500, of which 220 are Italian majolica. Among others there is a large majolica vase from Palermo in Sicily, with the exact name of the artist. There are 95 Savona, amongst them very fine pieces of the 16th. century in all shapes & sizes, 12 Genua vases, many of elegant shape, 45 Urbino Castel Durante etc., vases, among them unique pieces & first-class specimens.

We shall be glad to welcome your representative in Munich & shall be pleased to show him books & manuscripts & probably be able to do business with him.

Trusting to receive an early reply,

We remain,

Truly yours,

Ludwig Rosenthal

Dear Sirs,

We desire to thank you for yours of the 10th inst. with respect to the collection of pharmaceutical vases, and should be glad to know if the collection is at present in Munich, if a representative of ours is able to call there very shortly.

Also we should like a few further particulars concerning it. Are the vases of Italian majolica, or is the collection a cosmopolitan one, and also by whom it was originally formed? It is possible we might be able to place these if you could give us complete particulars.

We are,

Faithfully yours,

Dear Sirs,

In reply to your letter of the 7th inst., we were glad to hear that you are interested in the collection of over 400 vases, of which we sent you the photos. The price of the whole collection, which is the finest in the world, is £ 5000.-- net. Nearly all the vases are perfect, though some have been skillfully mended. To see the collection you would require to come to Munich, and we would then appoint one of our staff to accompany you to view the collection. The collection is in private hands and is only to be sold through us. If the price of £5000.-- were too high for you, there would be no use in opening negotiations as the vases are not our property and there would be no question of a farthing's reduction. We would be very glad to sell the collection to you now, as an American customer of ours intends viewing it in April. And there is great probability of his buying it for an American Museum.

Trusting to hear from you what you think of the matter,

we remain,

Yours faithfully,

The collection is nearly entirely photographed, though we believe four or five of them have been smashed recently.

This despatch note must only be used for the goods enumerated on the back of this form.

Dear Sirs,

We have received the photographs of the collection of pharmacy vases, and have returned them to you to-day. We shall be glad to hear further particulars of this collection, and to know where it can be seen, and also the number of vases it contains, and the price asked for the lot.

Of course, in Italian majolica it would be absolutely necessary to examine each vase, as their value largely depends upon the condition. If they can be had at a reasonable price, there is little doubt we should be able to do business in the matter.

Gentlemen:-

In reply to your letter of the 1st inst. we beg to state that the old Indian medical work has been kept by the client we sent it to.

With regard to "Ajaibus Sana'i", we regret we cannot accept your offer, as the MS. is of excessive rarity. We are however willing to let you have it for seven hundred and fifty marks net cash. Should you be unable to keep it at this price, please return it as soon as possible together with the Abdul Azim.

Very truly yours

Dear Sir,

The two Mss. have duly come to hand, but we notice that you have not sent the old Indian medical work, Kauk Shastar which we should like to have examined.

With respect to the Ajaibus Samali, we have submitted it to our client, but we cannot get a higher offer for it than 500 M. Its condition is so bad that it has greatly deteriorated in value. If you are unable to accept the offer of 500 M., kindly let us know, and we will return the book to you, and also the Abdul Ziaim which is of now use to us.

We have to-day forwarded you Six medical manuscripts which have just come to hand. As you will see, these are very moderately priced and we have every reason to believe that they will meet with your approval.

In addition to the above, we have sent you an interesting 17th century portrait of Bishop Arius (who was born about 280 A.D.), in the top right-hand corner of which you will see an illustration of some medical interest: the bishop's death is represented, which was caused by the falling out of his intestines.

Dear Sirs,

We beg to acknowledge your letter of the 12th inst., together with the old water-colour drawing of the divining rod. With respect to the latter we regret we are unable to place it, and are returning it to you herewith.

With respect to the old manuscript of the fifteenth century, on receipt of your telegram we returned it by parcel post, fully insured, and trust you have received it safely. The invoice was certainly made out for Three hundred and fifty marks, and not pounds, but we destroyed it directly the manuscript was returned to you, therefore we are unable to send it on to you for inspection.

We note your postscript, and we may say we always carefully pack any valuable manuscripts we return to you, and insure for the full amount of your invoice. In future we will follow your suggestion, and insure for Thirty pounds where necessary, and advise you of its despatch. We also think it would be a good plan if you would kindly let us have a postcard acknowledging the receipt of any manuscripts returned, so that we may know you have received it safely.

We desire to call your attention and ask you kindly to invoice any manuscripts or books you may send us in marks, and not in pounds, in future, to avoid any misunderstanding.

Thanking you in anticipation,

We are,

Rosenthal.

Faithfully yours,

Dear Sirs,

We are in receipt of your favour of the 10th inst., and note that you are returning the "Rechenbuch".

With respect to the other manuscript of the 15th century, we beg to confirm our telegram to the effect that the price quoted is in pounds sterling not marks. Perhaps your counteroffer should read £.275 ? In any case we shall be pleased if you will return our invoice so that we may see who is responsible for this misunderstanding.

We are, Dear Sirs,

Yours faithfully,

P.S. In the case of valuable works we submit to you and which you return, we shall be obliged if you will have these carefully packed and insured with the Post Office for £30 and forwarded by post; but before despatch kindly advise us so that we may insure the items with our insurance company for the full amount.

Dear Sirs,

Your cable of to-day's date duly to hand, from which we note that the price of the fifteenth century manuscript on paper is Three hundred and fifty pounds. This being so, we feel we could not make you any offer approaching this amount, and are returning it herewith.

Will you kindly note in all cases in future, when invoicing manuscripts, to state the price in Marks, the current money of Germany, and then there can be no possible error of this kind.

Will you please let us know if you have a copy of the Antidotarium Florentinum, printed in 1498, or a later edition of the same. If not, would you kindly report to us the price, should you be able to hear of a copy.

Dear Sirs,

We desire to thank you for your postcard of the 3rd inst., accepting our offer of Two hundred and forty marks for the mathematical manuscript, and we thank you also for sending the two others on approval.

We regret we cannot make you an offer for the Rechenbuch, and are returning it under separate cover per parcel post. With respect to the other manuscript of the fifteenth century, written on paper, we should be willing to offer you Two hundred and seventy-five marks for it. We think this is a good offer, as the work is poorly written, and the drawings in it are very crude.

If you are agreeable to this, kindly let us know, and we will forward you a draft for the two manuscripts together.

Dear Sirs,

We are in receipt of your favour of the 6th inst.
and thank you for the offers you make, none of which, however,
we are able to accept.

With regard to the printed book no. 75310, Vogter,-
the lowest price we can accept is Fifty Marks, and for the
manuscript no. 76350, Salomon, Forty Marks.

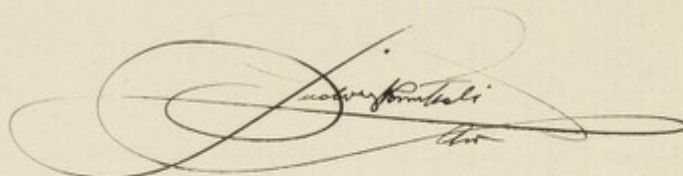

For the two scrap books, we will accept One hundred
and fifty marks: if you do not see your way clear to close with
this counteroffer we shall be pleased if you will return the
volumes at your early convenience.

We note with thanks that you have returned the
other manuscripts.

Awaiting the favour of your further news,

We remain, Dear Sirs,

Yours very truly,

H.W.

Newman St.

6th March 1912.

Dear Sirs,

We thank you for sending us the parcel of manuscripts, etc. for inspection, and have duly examined the same. We regret that the majority of the manuscripts on astrology are so modern that we cannot make you any offer for them, but we shall be pleased to offer you Forty marks for the printed book, no. 75310, Vogter; and Thirty marks for the manuscript, no. 75350, Salomon.

With respect to the two scrap-books of portraits, we have carefully examined these. The value of the engravings, as you know, is deteriorated more than half by being pasted back to back, as it would take a great deal of time to remove them, and would render them useless for separate sale. There are also a number of duplicates in the book. We are afraid we cannot make you an adequate offer for the two volumes, but would be willing to give One hundred and ten marks for the same.

If you are willing to accept these amounts, kindly advise us, and we will forward you a draft for the amount.

We are returning the other manuscripts by parcel post to-day.

Faithfully yours,

Dear Sirs,

We desire to thank you for your letter of the 19th inst., and regret you cannot see your way to accept our offer for the books on alchemy. We are therefore returning them to you, all but three, namely:-

No. 109224.	Keyser.	5 marks.
" 132651.	Moebius.	6 marks.
" 129163.	Wahlen.	3 marks.

We are further indebted to you the sum of Thirty-five marks for the case of instruments, as agreed, and Marks 8.40 for the 'History of Melath,' Mackenzie. We have deducted from the books, the usual 20% discount, making a total of Marks 17.90,, and, adding Marks 35 for the instruments, the full sum we are indebted to you amounts to Marks 52.90, for which we are enclosing you a money order.

This remittance now balances our account with you, and we shall be glad if you will kindly sign the enclosed receipt, and return it to us at your early convenience.

22 FEB 1912

Messrs. Epworth & Co.,
London, W.

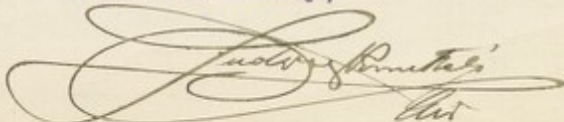

Dear Sirs:

We are in receipt of your favour of the 16th inst., and beg to say that we now see that your calculation is quite correct and that the total for the Alchemical works amounts to Mks. 206.30. We are, however, still unable to accept your offer of Mks.93, but are willing to meet you by accepting Mks.150. We hope that you will see your way to close with this offer and prevent the business from falling through.

We quite believe that you are always anxious to make us the best possible offers,- but at the same time would say that we ourselves price our books at what we consider to be their just and market value, and while doing so, naturally do not take into our calculations the possibility of receiving counteroffers, and more especially not counteroffers at a figure so much lower than our price as yours is.

Should you however still find business impossible, we shall be obliged if you will kindly return the works as we are at somewhat of a disadvantage without them. We may add that, during the short time they have been in your possession, we have received enquiries for several of them.

Yours faithfully,

H.W.

Newman St.

8th February 1912.

Dear Sirs,

In reply to your letter of the 5th inst.. with respect to the medical portraits we selected from the batch you kindly sent on approval, we think you will find you are in error as to the price that you asked for them. On adding the items together, those we selected, according to the prices marked on them, amounted to Marks 901.30, and our offer for those was Marks 400. Since then, on checking the prints again, we found that there were seven which we had kept in duplicate, so these would be useless to us, so we reduced our offer to Three hundred and seventy-seven marks for the one hundred and forty prints.

We may repeat that we are not anxious to secure these, as we have a large number of prints in stock. It is only if you wanted to clear them at a much reduced rate that we should be open to purchase. We regret we cannot increase this offer, and therefore, if you cannot see your way to accept it, please do not return the prints.

The two parcels of books on alchemy have now duly arrived, and these we have examined to-day. We are sorry to say we are much disappointed in them, as the majority are simply unbound tracts and pamphlets. We have selected the following items, twenty-four books in all, nos. 129190, 131761, 116301, 115567, 76112, 131836, 104269, 95447, 76113, 109324, 98477, 135137, 53297, 132651, 76114, 131370a, 121385, 116872, 76110, 129741, 131042, 129163, 133123, 132069, one of which, no. 116872, is incomplete. For these twenty-four books the utmost we can offer

Dear Sirs,

We thank you for your letter of the 12th inst., re works on alchemy. We are always anxious to make you the best possible offer for any books you send us on approval, according to their English value, and our offer of Ninety-three marks for the twenty-four pamphlets and books was a liberal one. But you are in error in stating that your prices for these books amounted to Three hundred marks; we have added the prices according to your invoice together, and they only amount to Marks 206.30. You will see, therefore, you have calculated their value greatly in excess, and we think probably you would like to consider our offer once more. Should you now be agreeable to accepting the Ninety-three marks, we will at once remit you a draft on receipt of a postcard; if not, we will return the books to you immediately, but we thought we should first of all like to point out to you your error.

We hope by this time you have received the prints which we had selected and returned, and we should be glad to have your reply on that matter, so that, should you accept our offer, and return them, we could send you a draft for the full amount.

Faithfully yours,

E. & Co.

We have a copy of *Avicenna Canon*, printed in Hebrew, 5 vols.
bound in 3, in red morocco, printed in Naples on the 9th of Nov. 1491 by

We need not underline the excessive rarity of this work
of which the above is a superb copy. It is the only Hebrew medical in-
cunabulum. 3 of ~~the~~ 4 leaves of the index are wanting, otherwise the
book is perfect. Please let us know, if you wish a quotation on it.

Dear Sirs,

In reply to your postcard we should be glad if you would send us the four cases of old surgical instruments on approval, and trust we may be able to do something with them.

Thank you for the note as to the Boerner illuminated manuscripts; if you will kindly let us know where they are to be viewed, if there is anything of interest to us, we will communicate with you again.

Newman St.

14th November 1911.

Dear Sirs,

In reply to your letter of the 10th inst., at the last moment when going through your manuscripts, we found the engraving, L.G. Heyn, inserted in a book, and we have returned it to you with the other items, so you will find it safely.

Since writing you we notice that we omitted to mention that we have retained the miniature on vellum of the Alchemist, which we shall be pleased to keep for One hundred marks. We are retaining it until we hear from you.

With reference to the Bartholdus and the manuscript of Odd Receipts, we note what you state on the matter, but the price is really far too high, and you must make us some reduction on these net prices, if we are to do further business. We will meet you halfway, and give you One hundred and fifty marks for the two items, which will make a total now of Four hundred and fifty marks, for the nine items mentioned in our letter of 1st inst., the Bartholdus, the Odd Receipts, and the miniature on vellum of the Alchemist, mentioned above.

We will await your reply before forwarding the amount.

We are,

Faithfully yours,

Dear Sirs,

In reply to your letter of the 8th inst. we have no doubt, that the error concerning the engraving L.G. Hayn is a mistake on our part and we are very sorry for the same.

As for your offer of 100 Mks. for "Bartholdus" and "Odd Receipts" we are sorry we cannot accept the same. The price for Bartholdus is M 100.- less 15%, the Odd Receipts are £ 5.- net. Should you not care to keep the items at this price, kindly return them.

You will see that "Andreas Bartholdus of Oschatz" is at the price of M 100.- under No. 1794 in our cat. 147. *(of which we sent you proof yesterday)*

We are, Dear Sirs,

Dear Sirs,

In reply to yours of the 3rd inst., with respect to the unidentified items in the parcels you have sent us, we have now been able to identify two of them, and note that the third has been entered twice over under different names in the invoice, but the engraving, no. 364, L.G. Heyn, has not been received, and we are quite sure of this, as we have had a most careful search made.

We note that you will accept our offer of Two hundred marks for the nine items we mentioned. Further, we are willing to offer you One hundred marks for the book by Bartholdus, "The wonderful and strange effect of Terra Sigilatta," together with the manuscript of Odd Receipts. This is the outside we can possibly give for these, and if you accept the same on hearing from you we will forward you a draft for Three hundred marks, inclusive.

We are returning the items rejected from your parcel, under separate cover.

We are,

Faithfully yours,

Dear Sirs,

We thank you for your letter of Nov. 1st and accept your offer of 200 Mks. for the 9 items mentioned in your letter. *received*

For "Die neuesten Sanitätspolizeilichen Enthüllungen" the price is M 3.-, and they bear the No. 364. The few leaves of a manuscript on Chemistry are on the bill under "Odd receipts" £ 5.- = *40m*

The "Artzneibuch" has been entered upon the bill, by mistake twice, once under "Aichinger, Wolf. Ms. Arzneibuch 1512" and once under "Arzneibuch. Kunst und Remedia". No. 364 L. G. H e y n is an engraving for which the price is M 66.- Perhaps if you will look again, you will find it. *no trace*

We are very sorry that there has been any mistake, owing to our fault.

We are, dear Sir,

Yours very truly

Dear Sirs,

We have now opened the packets of manuscripts, letters, engravings, etc. which you have kindly sent us on approval, and we must call your attention to the fact that there are several discrepancies between the books received and your invoice.

1. Artzneibuch Kunst und Remedia, 500 marks, is missing; also the last item, Odol receipts, 100 marks; and no. 364, I.G. Heyn, 66 marks.

2. Besides those that are missing, there are two items in the parcels of which there is no description or price. One, a coloured caricature entitled "Die neuesten Sanitätspolizeilichen Enthüllungen;" and a few loose leaves of a manuscript on Chemistry, on which there is no number or price.

We shall be glad to hear from you by return of post, with respect to these items.

With reference to the others, there are not many of the manuscripts of sufficient interest to us to make you any offer, but we have selected the following:-for which we shall be pleased to offer you Two hundred marks:-

- 60323. Bein. Portrat eines Physikers.
- 09168. Wagner. Physiolog, Anatom.
- 10005. Leclerc. Arzt und Schriftst.
- 10006. Baillier, médecin de la Bastille.
- 10069. Orfila, français Arzt.
- 6417a. Venedig. Erlass wider die Pest.
- 106547. Accouchement Traité.
- Early. Note book, bearing.
- Deeds. 1590-1790.

Awaiting the favour of your early reply,

We are,

Faithfully yours, E. & Co.

Dear Sirs,

We desire to thank you for your letter of 24th inst. just to hand, and note that you accept our offer for the seven books. We see we have made an error in adding the amounts together, having omitted the Forty-five marks for the English manuscript on Astrology. This, added to the amount we made it, makes the account as per your statement, for which we enclose you a draft herewith for Seven hundred and sixteen marks in full settlement.

Please receipt the account, and return it to us by return of post, and oblige,

Dear Sirs,

In reply to yours of the 14th inst, we note that you accept our offer for the papers and the Manuscript which together with the 5 marks we owe you for the Surgical Catalogue now makes us indebted to you 581 marks. Dear Sirs,

We are in receipt of your postcard of 1st inst., from which we note that you accept our offer of Forty-five marks for the "Treasure of Astrology."

With respect to the other two manuscripts to hand, namely Albertus Magnus, and Hugo di St. Victor, the highest offer we can make you for these is Three hundred and seventy five marks for the two. If this is agreeable to you, kindly let us know, and we will remit you a draft for Four hundred and twenty marks for the three manuscripts.

With respect to the latter part of your postcard, regarding the Original Ministerial Papers of prime, we are at a loss to know what you refer to. We cannot trace ever having received from you in May, as stated, any documents of this kind, nor have we any advice from you that such had been sent. Kindly let us know further details, as we think you must have made a mistake, in confusing us with some other firm.

Dear Sirs,

Your postcard of the 23rd inst. to hand, with reference to the four catalogues. We are returning all, with the exception of one, namely, "Modern Surgical Instruments," for which please debit us with the amount of Five marks. As the amount is so small it is scarcely worth while sending it now, so we will forward the amount to you in our next remittance.

We are returning the other three catalogues to you under separate cover.

Faithfully yours,

Dear Sirs,

We are enclosing you herewith notes to the value of Two hundred lire for the two manuscripts, although we think this is an excessive price for the same.

With respect to the four catalogues you have sent us, there is only one, the modern surgical instrument catalogue, which our client would like to have. The others are of very little use to him, but if you are disposed to accept Ten marks for the lot we will keep them. If not, we will return the other three on hearing from you.

Kindly send us a formal receipt for the enclosed notes, and oblige,

Dear Sirs,

In reply to your postcard just to hand, we are enclosing a list of the seven books which we still hold on approval. Our client will not give long prices for these, and according to your invoice you want a very high figure for some of them, which we can buy much cheaper in London. For instance, Longmore, which you invoiced at Twenty-one marks, and which we returned to you, we have bought in London this week even a better copy for Three marks. Under these circumstances, unless you can make us lower prices, we cannot do business.

Our highest offer for the seven books, the list of which we enclose, is Ninety marks, which we shall be pleased to forward on hearing from you.

MÜNCHEN, Jan.- 28.- 11.
HILDEGARDSTRASSE 14.

Dear Sirs,

We have yours of the 26 and note that you offer us the sum of M 800.- for books which we have invoiced to you at M 2354.- As we are not accustomed to give a discount of 66% we should ask you to kindly return us the books you are not keeping at our invoice price less 15%.

We are, dear Sirs,

faithfully yours,

Dr. E/B.

Newman St.

26th January 1911.

Dear Sirs,

We are now in receipt of the books which you have been good enough to send for our inspection, and have examined the same. We should be glad if, on any future occasion, you would kindly not send us any books without first sending us a detailed list, giving the author's name and the title of the book, as it will save a great deal of trouble and expense.

We find on examining the books, that we already have the majority of them, which are therefore useless to us, and must be returned; but we have selected eighty one, viz. Nos. 142334; 80444; 58380; 74754; 132251; 142331; 106973; 116756; 63755; 105734; 40704; 4728; 80445; 38596; 1754; 24260; 25736; 30691; 31643; 35229; 33575; 46574; 49200; 51926; 51990; 52186; 53843; 57769; 58367; 58614; 59130; 61483; 61700; 62022; 63441; 74335; 77400; 80424; 80426; 80427; 80428; 80446; 94447; ~~94448~~ 94480; 94879; 95032; 95055; 95252; 97424; 99982; 101470; 106776; 108144; 108423; 109866; 115314; 118181; 122305; 126021; 126964; 129537; 13023; 131935; 132540; 132556; 133167; 4; 5; 6485; 12934; 24396; 31902; 35058; 35092; 38493; 58357; 64499; 119527; 10; 442208; 438082. For these we are willing to offer you the lump sum of Eight hundred marks. This is the very outside offer we can make for these, and we have given more than we should do, on account of the trouble you have taken in the matter.

We may point out that there are two items missing which we cannot price, viz. No. 8904, Prognostica, thirty-nine items, and No. 10024, Prophezeiung, 1623, ten marks. These two items were certainly not in the case or parcels. There is also one item in the case which does not appear on any of your invoices, viz. Leschi, Genus como - de Lapide philos. 1604, and of which we have no price, so we will put it with the books to go back.

We also draw your attention to the fact that owing to careless packing a valuable item, namely, No. 8, Theophanes, Napoleon I. 1795, has had a nail driven through the cover by the packer who nailed down the packing case, and it has seriously damaged it. When the case was opened we found the book had been nailed to the lid. Please note that this is entirely the fault of the person who packed them, and we are not responsible.

We may also point out that you did not pay carriage in advance as agreed in our dealings, and we have had to pay One pound ten shillings on delivery. We shall be pleased to pay carriage back to you as already arranged, but must deduct the amount of carriage paid on delivery should we come to an agreement as to purchase.

On hearing from you that you accept our offer, we will forward you a draft for that amount, or return the whole of the books to you.

Faithfully yours,

E. & Co.

Dear Sirs,

The cases containing the Nicolaus de Pol collection are now duly to hand. When you originally wrote us concerning these books on 28th October, according to the list you sent us, it consisted of twenty-seven books, but we have only received in the cases you sent, twenty.

We also note that you have sent us 13 manuscripts, but we have received no invoice for the same stating price, so are unable to deal with them until we hear from you.

While we are writing, with respect to the De Pol collection we have shewn the twenty books you have sent us to our clients who are interested, but from none of them can we get any offer approaching the price you ask, so, unless you are prepared to accept a very substantial reduction on this price, we regret we shall be compelled to return them to you.

Awaiting the favour of your early reply,

Dear Sirs:—

We are in receipt of your letter of the 9th inst. We beg to accept your offer of six thousand marks, though very unwillingly. We trust however to be able to make it good on future transactions with you, and look to your doing your best to help us in this matter.

We beg to advise you that we have sent off the De Pol collection to your address by freight together with a smaller collection of mss, one or two of which are exceedingly interesting. We have pleasure in informing you that we could allow you ten per cent discount off the Pol collection but that we could accept no offer for the collection, which must be sold as a whole. We venture to think that you will find the Pol collection distinctly cheap.

We are preparing a list of early printed books on alchemy, magic and chemistry, which we will send you in due course and will send you any items not duplicates on approval with pleasure.

Very truly yours,

Dear Sirs,

We desire to thank you for your letter of 7th inst., with respect to the twenty-one manuscripts and the batch of engravings we hold from you. Whole fully appreciating your willingness to meet us with regard to the price for this lot, we much regret that we cannot give Seven thousand marks for them. Since your letter we have again gone into the matter very carefully, but as our clients will not increase their offer, we cannot do much to meet you. However, considering the kind way in which you have forwarded parcels to us for inspection, we are willing to increase our offer to Six thousand marks. Please consider this as final.

We may observe that your consideration of your offer will influence future business in which you possibly may be able to make more profit, as on concluding this we shall be pleased to consider the De Pol collection, and also any early printed works of the 15th or 16th centuries on alchemy, magic, or chemistry, which you may send at the same time. To save expense on both sides it would be well if you sent us a list of the latter, so that we can check before having duplicates forwarded.

We are retaining the manuscripts and prints until we hear from you in reply; if you cannot agree to the terms mentioned, we regret we shall be compelled to return them to you at once.

We are,

Faithfully yours,

Herr Ludwig Rosenthal's Antiquariat.

Dear Sirs:-

We have pleasure in acknowledging the receipt of your letter of the 4th inst., and have taken due note that you are returning the Receipt book (£5) and a quarter of the collection of prints.

We note that you offer us a sum of Marks 5400 for the 21 mss you still have and for the 789 prints. We regret that we are unable to accept this offer for goods that we sent to you priced at Marks 10,016. As we have however had very pleasant dealings with you and are very eager to meet our customers in every possible way, **when possible to us,** we are willing to accept Marks 7000 (£350) for the 21 mss and the prints. You will see that we have done our very best to meet you and trust that in consideration of this you will keep the mss and prints at our lowest figure.

As soon as this matter of the mss is concluded, we shall be most pleased to send you the De Pol collection of incunables which is marked at very low prices. Would you also care to have a collection of occult, chemical, alchemical books of 15th-19th centuries sent you at the same time?

Awaiting the pleasure of your early answer,

very truly yours,

DR E/m

Newman St.

4th November 1910.

Dear Sirs,

We have now been able to submit the manuscripts and the collection of medical portraits which you kindly sent, to our clients, and the best offer we can make you for the twenty-one manuscripts which we have retained is Four thousand seven hundred marks. With respect to the collection of prints, we can do, roughly speaking, with three-fourths of the collection, and are returning the others to you. For this three-fourths, which number 789, we shall be pleased to offer you Seven hundred marks, making in all Five thousand seven hundred Marks for the twenty-one manuscripts and the collection of 789 prints. We trust this will be acceptable to you, as we have done our best to try and place these manuscripts. As we have said, our clients will not pay extravagant prices for these, and if you are prepared to turn over the money, we can do further business on similar manuscripts.

We are returning with the prints the Receipt Book for which you kindly sent an invoice of Five pounds, as we cannot place this at that figure. Such books as this sell in London commonly for about Two pounds.

With further reference to the collection of Incunables of Dr. Nicolaus de Pol, we should like to have these books on approval, when we conclude the matter of the manuscripts, and will then do our best, after examining them, to do business with you on the matter.

We are,

Faithfully yours,

We have noted what you say about postage, and have pleasure in agreeing to your terms. We beg to enclose a list of the Dr. N i c o l a u s P o l - B o o k s; nearly all of them are in the fine special original bindings of P o l.- May we send them to you on approval?- The price is very moderate.

Dear Sirs,

Thanks for your letter of 24th inst. With respect to the manuscripts which we hold from you on approval we are returning to-day by registered post twenty-two of the manuscripts which our clients have already rejected. With respect to the twenty-one we have at present retained, we think we shall be able to place these, but it must be at a reduced price from your invoice. We are still negotiating with our clients on the matter.

Meanwhile we shall be pleased to have the collection of portraits of medical men, as we should like to place them before our clients at the same time, as it would probably facilitate matters.

We regret we overlooked your note on the twenty-eight medical Incunables from the library of Dr. Nicolaus De Pol; will you be good enough to let us have particulars of these, namely, the titles of the books and the authors' names, as far as possible, and we will give the matter due attention.

With further reference to the invoice you have sent us for postages and insurance on manuscripts, we should like to have an understanding with you on this matter, as it will influence future transactions. It has always been our custom with continental book-sellers who send us parcels on approval, that we should pay carriage one way if a purchase resulted; if no purchase resulted that we should pay carriage both ways. This is a universal custom in England, that the buyer and seller pay carriage each one way, and we trust you will see your way to agree with us on this matter. We are always willing if any purchase results, to pay carriage forward as well as carriage back to you.

We are,

Faithfully yours,

Dear Sirs,

In reply to your letter of the 20th. inst., we trust that the ten parcels which left Munich on the ^{15th} ~~14th~~ of October by registered post, have reached you safely. - We again ask you to kindly return any manuscripts which are of no interest to you, as soon as possible.

We are sending you the collection of portraits of MEDICAL MEN etc.; the price for the whole lot would be 60.- guin. You did not answer in your letter of the 20th. inst. our post-scriptum of the 14th. inst., referring to a collection of 28 MEDICAL INCUNABLES from the library of Dr. NICOLAUS DE POL, the physician of the Emperor MAXIMILIAN I., in the original XVth. century calf-bindings dated 1494 with P o l 's name in each, and many manuscript notes in his hand, for £ 175.-.

Dear Sir,

Thanks for yours of 14th inst., enclosing invoice for another collection of manuscripts, which appear to be of interest, and we are arranging for our client to come to London to see these when they arrive.

We note from your letter that you state, "We are sending these to-day," but they have not yet arrived here. We presume you are sending them by post, and not by rail, and thought it well to let you know, and a week has elapsed, and they have not yet come to hand.

With respect to the portraits of medical men and surgeons, etc., you mention, from the 15th century, we have a customer who collects these, and if you are disposed to forward the whole lot to us, together with prices, if cheap, there is little doubt we could dispose of a considerable number of them.

We will write you respecting the manuscripts directly we can make you an offer.

Dear Sirs,

We have pleasure in sending you receipt for M. 3200.- as requested. We have pleasure in informing you, that we are sending you to-day parcels of rare manuscripts. We have sent you this time some particularly interesting specimens. Among the manuscripts are some referring to: Alchemy, Botanic, Pharmacy, Surgery, Witchcraft, Astronomy etc. We should like to call particular attention to the fine Botanical Manuscripts, to No. 56, ALCHEMICAL NOTE-BOOK on vellum, dated 1474, to the original-manuscript by PORTA in the ^{Romantisch} romantic language of the Swiss Engadin; to the XIIth. century ISIDORUS, to the Hebrew HYPOCRATES, to the BYRIDANUS, dated 1390, to the SPANISH XIVth. century ARISTOTELES with extraordinary and grotesk miniatures and sketches, to the XIVth. century collection of ASTRONOMICAL TREATISES, to 1009, the original inventory of the ITALIAN HOSPITAL at Florence, to HALLICUS, Autograph Horoscope for Duchess HEDWIG of POMMERN, an ancestress of the "Kaiser", with a note, that she really died the year after the year predicted by her physician, and to: FOERSCHTL, "COLLECTIO FLANTARUM" in two folio-volumes, which is partly executed in ("Natur-Selbstdruck") nature-printing. Nature - printing was first used, as far as we know, in the middle of the 19th. century; this early use is very interesting.

Dear Sir,

We desire to thank you for your letter of 3rd inst., with respect to the manuscripts which we hold of yours on approval. We have carefully examined them again and while, if possible, we should have been pleased to have met you as to price, we regret that we cannot increase our offer higher than Three thousand two hundred marks. Please regard this as absolutely final, and if you cannot accept it we must return the manuscripts at once. On receipt of your reply, if you accept this amount, we will at once forward you a draft for that sum.

As we have already informed you in previous letters, we can only handle manuscripts in this quantity if we purchase at a moderate price, and we think our offer under the circumstances is a liberal one.

We shall be pleased to consider the Recipe Book of the 17th century when it comes to hand, and to consider any further consignments of manuscripts that you may be good enough to send us if you are agreeable to our price for those we now hold.

Dear Sirs,

We are in receipt of your letter of September 30th., for which we thank you. We have noted, that you are returning Manuscript 155, S Y D R A C H. As to MS. 58355, Arnaldus de Villa Nova, we don't understand what you mean by "extremely doubtful" about its authenticity. The MS. is certainly of the fifteenth century, and we believe it to be dated 1483. We bought it with a number of other books and MSS. relating to Medicine. We have much pleasure in thanking you for your offer of M. 3000- for the remainder of the manuscripts, while we are willing to meet you in every possible way, and should be glad of the opportunity, of selling the manuscripts en bloc. We are afraid that we cannot accept a less sum than M. 3600.-, instead of some 4800.-Marks. We think that the sum of M. 3600.- for this large number of manuscripts of all ages, is very moderate.

We are sending in a day or two the RECEIPT BOOK of the fifteenth century, which you are asking for. We should be ready to send you a further consignment of valuable botanical, medical, alchemical, astrological and astronomical manuscripts, if we come to term about this first collection.

With respect to Manuscript, No. 155. Sydrach, La fontaine de toutes sciences, we already have two copies of this MS. in stock, and therefore cannot consider it and are returning it herewith. Also Manuscript, No. 58355, Arnaldus de Villa Nova, we are extremely doubtful about its authenticity, and also return it.

For the remainder of the manuscripts we are willing to offer you Three Thousand Marks, if you are willing to accept this, which we think is a very good price for the manuscripts en bloc, many of which are by no means saleable and a good many modern. We will forward you a draft for that amount on receipt of your acceptance.

In reply to your further postcard of 23rd inst., we shall be glad to have the Receipt Book of the 17th Century which you report to us, on approval at your convenience.

In answer to your letter of 28 th inst. we regret that we cannot let you have the four manuscripts for £ 100.--. If the two Constantinus-Manuscripts are duplicate copies, we would propose you, to keep only one. The lowest price for which we could let you have the three manuscripts is £ 112.10s. The lowest price price for the four manuscripts would be £. 142. 10s. A bigger reduction is impossible. We have in hand from you not £ 50.--. but Marks 500.--, that are £. 25.--.

Dear Sir,

We are much obliged to you for kindly sending the two manuscripts which are safely to hand. We note that the manuscripts of Constantinus Africanus are duplicate copies, and therefore their interest to our client is considerably lessened. If we are to do business on the four, we must ask you to make a substantial reduction in your price, as after allowing our client to inspect them, we find the most we can offer you for the four is Two Thousand Marks. If you are willing to accept this, kindly let us know by early post and we will send you a draft for the amount of the balance over the Fifty Pounds you have in hand.

We shall be glad if you can see your way to meet us in this matter, as we are prepared to purchase in future, and shall be glad to consider any ancient manuscripts you may meet with on medicine, surgery, alchemy, and other sciences if you would be good enough to submit them to us.

Faithfully yours,

Dear Sir,

We desire to thank you for sending the two medical manuscripts on approval which have duly come to hand. We are also in receipt of your letter of 15th reporting a further manuscript of 14th century of Constantinus Africanus. As we are expecting to see a client in a day or two who would probably be a purchaser of the three, to save trouble we should like to be able to place the three manuscripts before him at the same time. We should be therefore glad if you would send us the latter manuscript of Constantinus Africanus also on approval by express post immediately on receipt of this. In the meantime we are enclosing you a Bank Draft for Five Hundred Marks as a deposit for the same for you to hold until we see whether we can place these manuscripts or not. It will be necessary for you to forward this other manuscript at once, as we hope to see our client on Monday next, after which he will be leaving London. We will write you directly after seeing him and let you know the result. It must be distinctly understood that the three manuscripts, the two we have and the one you will send, will be on approval, the Fifty Pounds to be returned to us if we are not able to sell them.

Trusting to receive the manuscript by express post,

We are, faithfully yours,

Epworth
