Dear Sir,

Included in the exhibits of the Mothercraft Exhibition arranged by the Womens Imperial Health Association are two excellent photographs of objects in your Museum, I mean, the charms used in Great Britain for Children and the one illustrating the evolution of feeding bottles from the horn to the modern bottle. If you have spare copies of these photographs I can assure you that my Committee would very much appreciate such a gift to be added to the series of exhibits in this Museum.

Yours faithfully,

Frank Lacey.
