1 Chariot St -
Hull

Dear Sir

I in reply to yours this morning
my Dad wishes me to tell you the following
He will have had the ball some 8 or 10 years
previous to that he had seen it - in the house
for more than 20 years, the gentleman
who was the owner was a kind of agricultural
Chemist living about 20 miles from Hull
at his death it came into my Dad's possession
we should say it would most likely
come from a Farm horse or cart-horse

There is one in the Royal College of Veterinary
Surgeons weighing about 17 lbs

Hoping this will meet with your requirements
if you wish for further information please
be pleased to give it to you if in our power
Yours Respectfully Kate Walker

Walker,

2. + Co.
31 July 1914.

Dear Sir,

A friend of mine purchased from you a week or two ago a large stone ball, said to have been taken from the stomach of a horse. He has asked me to write to know if you could give him some particulars as you promised as to the locality, the breed of the horse, and how long ago it was since it was removed from the animal.

Thanking you in anticipation of an early reply, for which I enclose a stamped envelope.

Faithfully yours,

2. + Co.

Mr. John Walker,
Hunting-boot maker,
Hull.
