Dear Sir, In reply to your letter of the 16th inst., respecting the Surgical instruments you have for disposal, & of which you knidly send me a list. I think I should be able to place them if your would accept a more moderate price. I could more easily place the lot than one.

It your are open to an offer for the lot. I will go into the matter, but it would be necessary for me to see

them first. Will you be coming up to Town shortly, or could you send them to me on approval by arrangement?

I should be glad to know your views on the matter, d hope we shall be able to do brismess.

In reply to yours of the 1st just I remember sending sketches of descriptions of a surgical saw of pair of nitpers to a fentternan staying at Beschill. I offered them at the same price I was asked as I was then purchasing some weapons from the Geomer, He is all present abroad of I doubt if he would approve of their being sent away, or now part with them at the same price, as 19th bentury escamples of steel work have increased in Value, even if he would. I could not approx, without some little renumeration, which after all might end as before in no business being done,

P.S. I will if you wish enquire when the Gwner returns, in the mean time you might send one references. I do not even know if he still has them
