June 24th, 1888.

Dear Sir,

In reply to yours of the 11th inst.,
I have at some future time, if any be possible
for me to call and see you on the matter of your
manuscript, as you kindly suggest.

I am,

Yours very truly,

Dr. S. MacKenzie,

Dear Sir,

Many thanks
for your ~~note~~ re
medical folk-care.

I hope still
to publish my work
some day, although
that day is long
in coming, & in-
as much as my
M.S. represents many

is my only available
day.

Yours Very Truly

months of painstaking
labour I sh^d be
sorry to see its
individuality lost
or submerged.

If you
would care to
run out here
to have a talk
over the matter
I would be very
pleased.

Unfortunately I
am so very
busy that Sunday

June 11th, 1900.

Dear Sir,

In reply to yours of the 3rd inst. with respect to your
views on Folk-remedies, I quite agree with what you state as to the
lack of interest that is generally taken in this subject, and the
unprofitable nature of it. I think the majority of those who have
laboured in this special field have discovered that it must be a la-
bour of love, for which they rarely see any reward.

I should be glad if you would let me know your views with
respect to your suggestions.

Yours very truly,

Dear Sir, I fear I do
not quite understand
your last letter.

In reply to my
communication regard-
ing my folk-lore work
you write to say you
would be glad to
receive suggestions
concerning your
proposed exhibition.

As I have no
experience of exhibitions

grounded work on
Folk. medicine based
upon the English, French
& German literature
on the subject, literature
hard to get.

I have, so far,
deferred publication
on account of
the cost, as I fear
the interest taken
in the subject is
not so widespread

I have no suggestions
to impart
which could be
of the slightest service
to you.

The plans of
my work are, I
think, fully stated
in my first letter,
but I can
re-~~re~~capitulate ~~the~~
what I said. -

I have in the S.
a fairly long
& thoroughly

as to produce many
buyers of a
complete work,

Yours Very Truly

Dan K. Kingie

Mackenzie

Dear Sir,

Not having received any reply from you to my letter dated April 30th, I should be glad to have some idea of the plans of the work which you mentioned to me in your letter, from which I understood that you would communicate with me.

I am,

Yours very truly,

D. Mackenzie, Esq., M.D.,

30th. April, 1906.

Dear Sir,

I desire to thank you for your kind letter of the 28th inst and am much interested in what you tell me concerning your researches into primitive medicine and medical lore of the past. I should much appreciate any suggestions with which you could furnish me in respect to the forthcoming Historical Medical Exhibition.

I should be glad to hear from you at any time on the subject of your work.

Yours very truly,

Dr D. McKenzie,

Dear Sir,

I hope you will
see in our common
interest in a subject
some excuse for
my writing you.

I have just
received your
circular on the
proposed Historical
Medical Exhibition,
& on reading I over

paths by which one
leads into the other—
in a little manuscript
of over 200,000 words!

In view of the
scanty interest which
the subject arouses
in medical men gener-
ally, I have not
gone to the expense
of publishing my
labours, but I
often feel regret that

I find it deals
with matter which
I have for some
years been interest-
ing myself, in a
small way, of course.

I have gone into
the connecting
links between our
modern medicine
& the primitive
medical lore of the
savages, ^{& early historical races,} & have
partly if not
entirely succeeded
in tracing the
