H.M.M.

22 February 1915.

Dear Miss Waterson,

Many thanks for your kind letter of the 12th inst. enclosing the communications from the Southworth Company, from which I note with pleasure that they are sending us the Stereo-Clinic for the Wellcome Historical Medical Museum. I am sure it will form an interesting addition, and thank you very cordially for so kindly taking the trouble to obtain it for us.

I trust you will have a safe return to the States.

I am,

Faithfully yours,

C.J.S.T.

WATERSON, MISS DAVINA

35, Wood Vale, Forest Hill S.E.  
19.2.15 London

Dear Mr. Thomson, Southworth  
writes saying he is sending you  
the Stereo-clinic. I think "photo"  
and med." wd. make a very  
interesting section, particularly  
if you can get, or I can get  
for you, some early cameras  
or books so illustrated. I have  
some in Baltimore - books, I  
mean. I am returning to B'more  
shortly, then to — well, I'm  
not sure, but will hunt up what  
you want.

Faithfully yours  
D. Waterson.

## THE SOUTHWORTH COMPANY

PUBLISHERS

TROY, N.Y.

February 8, 1915.

Miss D. Waterson,  
London, England.

Dear Miss Waterson:-

I received your letter some days ago but have been overwhelmed with work that needed immediate attention and with some other correspondence laid your letter one side.

We will send to Mr. Thompson (Custodian) of the Medical Historical Museum, London, W., one section of DR. HOWARD A. KELLY'S STEREO-CLINIC and also our new Staging that they may have the same on exhibit there. We will be very glad to do so, and later, if they desire, we might send one or two other operations which would prove of special value in an exhibit of that character.

I am sorry that you are not to be on the Pacific coast at the exhibit during the present year. Owing to financial conditions which have been very, very bad indeed, have not been so bad in many years, we are cutting our expenses in every possible way and have made no arrangement by which an exhibit will be made at the Exposition. My brother, R. W. E. Southworth, is on the Pacific coast doing considerable work himself. At present he is in San Francisco.

I note carefully what you say about the early stereoscope. What we are looking for is the most modern device by which the stereograms, text, etc., could be inclosed and in a case under lock and key which could be used in the libraries and medical colleges and so adjusted that the various operations could be examined. We hope some day to be able to produce something of this character. Would not be interested in the old scope as a matter of exhibit.

We are all looking for the hour when the awful war in Europe will end and when financial matters may be readjusted.

Thanking you for your letter,

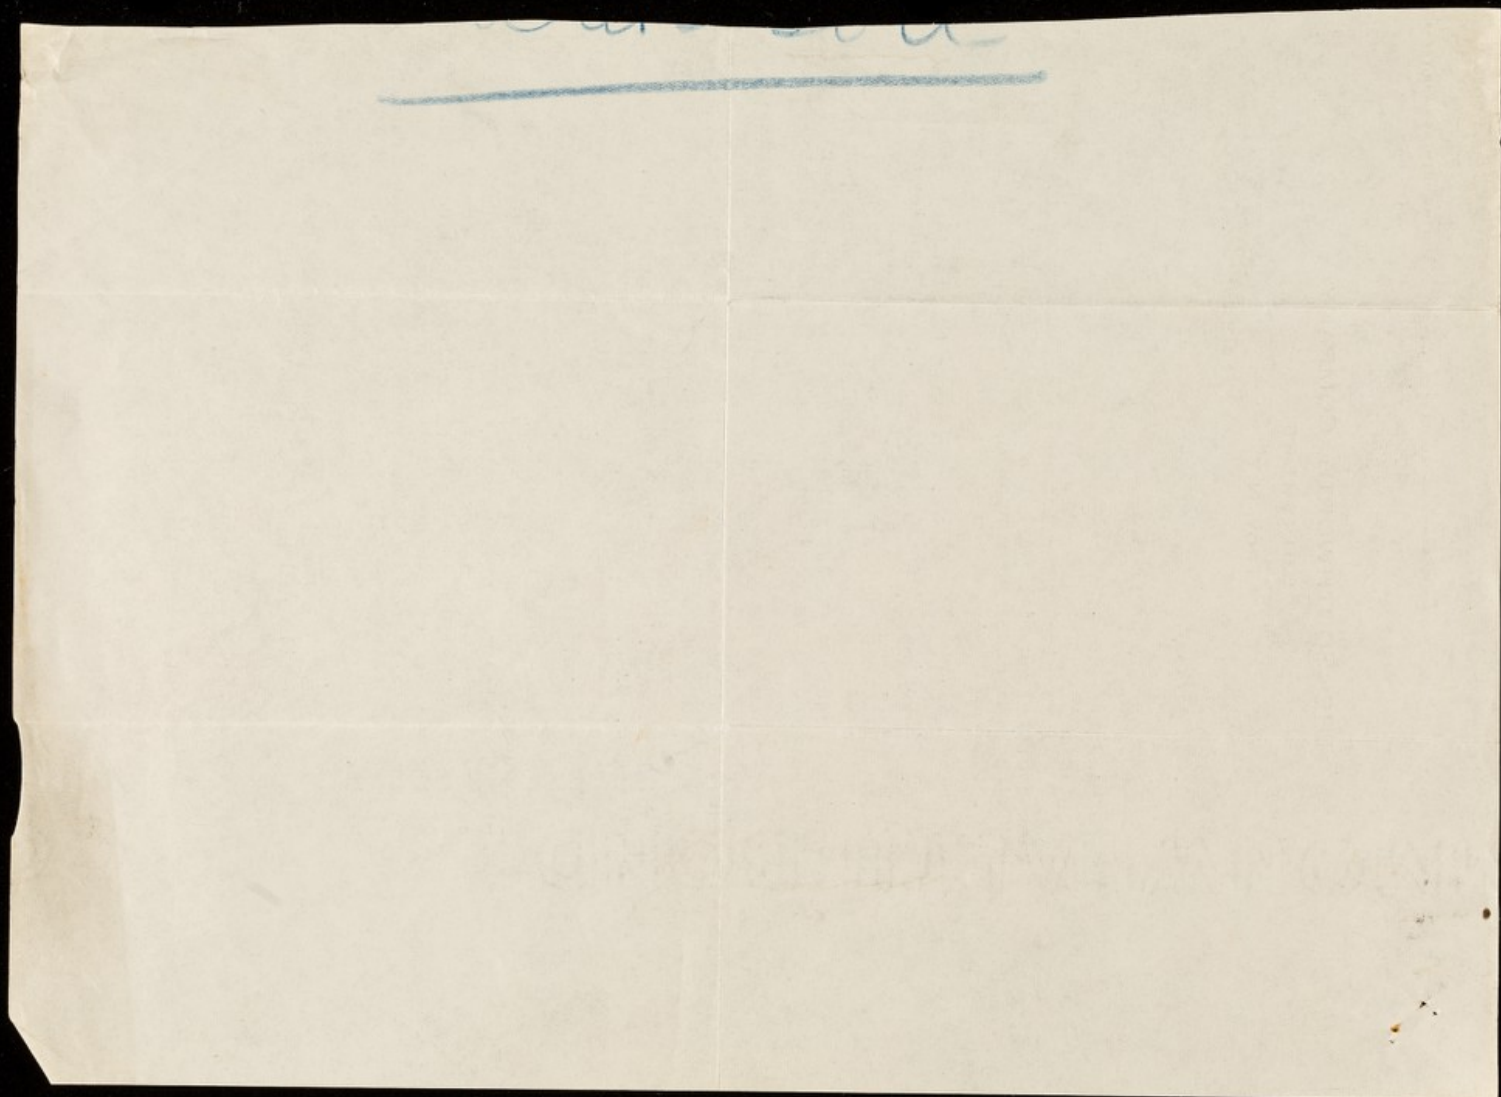

Very sincerely yours,

THE SOUTHWORTH COMPANY.

Dr. Howard Kelly, Baltimore

15 Oct. 1914

Dear Sir,

Are you having a section at the S. Fran. Exhibition? I think you wd. find me useful, as I am steeped in med. history and have worked with doctors for 20 years as co-editor, pressman, researcher, and, on my own account as article writer on social and scientific topics.

I came over to co-edit and help write the Cyclo. Am. Med. Bios & that put me in touch with living doctors who cd. help me exhumed med. celebrities. I gathered a vast amount of books, pamphlets, pictures & odd material. Why not have an Amer. med. hist. section? with the best books on sale and some exhibits of old ones, pictures, etc. I know all the men who wd. loan things. Then Photography & Med.

wd. make a good sub-section, from <sup>Dr</sup> Theophrastus  
Garlick's hand made camera down to the modern  
stereo clinics. I have the whole history of it.  
from the beginning. If you wanted a few lectures  
I cd. get Dr. Howard Kelly's lectures & splendid  
slides of Med. Men as Botanists (Gardner, Wistar, Shorter, etc), Med. Men as Illustrators  
(not yet used) Amer? & Europeans. The Ethic and  
Flow of Hypnotism. Radium. \*

\* and some from  
Dr Francis Packard, Phila.  
lecturer on Med. Hist.  
at the Penn. Univ.

I think you wd. find me useful, as I  
love the things on wh. I write, and can do well  
minor things such as shorthand, typing, writing  
up things. Ask Drs Kelly, Osler, Cushing,  
Cullen, (Walsh, Wall, Waugh London) and they  
will tell you I can help you.

Believe me, dear Sir

Faithfully Yours

Davina Waterson

I speak French well.

(I am fem. gen.)

40 Dr Howard Kelly

1418 EUTAW PLACE

Baltimore 24.4.13

Dear Sirs, I have been  
wondering whether you have  
any section illus. the progress  
of med. ? If so, it would  
not be a bad plan to have  
a little paper on the Use  
of the Stereoscope in Med.

and shew some of the  
earliest pictures and

instruments, ending with  
Watersons of Edin. and  
Kelly of Baltimore. The  
first shown in Amer.  
were those of Dr H. Storer,  
Boston in 1870. Dr Kelly  
has perfected his by  
allowing the student  
to read the text of the  
operation on the stereo  
itself. His agent will

send you an instrument  
and specimens, if you  
like. (N.B. I am  
not trying to advertise  
B. Kelly) Nothing  
pleases doctors more  
than to look back and  
see how defective the  
appliances of their old  
compères.

Faithfully Yours

B. Waterson

I suppose you  
have one of the old  
Pulvermacher Electric  
Belts?

Watson

*Hm*

19 April 1913.

Dear Madam,

In reply to your letter of the 8th inst. with respect to the Historical Medical Museum, we are exhibiting a number of ancient books and manuscripts on Medicine and the allied Sciences in one Section of the Museum, but these will not be for sale.

Lenders all over the world have responded very generously and our space is now quite filled up.

If you could send us a specimen of Ephraim McDowell's medal we should be pleased to exhibit it.

Thanking you for your kind letter,

I am,

Faithfully yours,

Miss Davina Waterson,  
c/o Dr. Howard Kelly,  
1418 Eutaw Place,  
Baltimore.

Waterson

Please  
send me  
prospectus

c/o Dr Howard Kelly,  
1418 EUTAW PLACE Baltimore

8. 4. 13.

Dear Sir, About 6 years ago  
one of your staff called  
on me in London and  
asked me to gather for  
the Exhibition, but I  
soon after came to Amer-  
ica to do med. editing  
and med-historical writing.

Will you let me  
know if you are display-  
ing old books, letters, and  
selling new med-hist  
works, because Dr. Kelly  
will have one ready  
and he and I are  
doing another on  
Med. Men as Illustrators  
of Books. How about

med-hist? pamphlets at,  
say 2<sup>d</sup> or 3<sup>d</sup>?

Have you an Ephraim  
McDowell medal ("father  
of Ovariectomy") sent? last  
year?

Are you going to  
sell rare med. works  
if the owners put a  
price on them? This would  
tempt the Americans.  
I wd. like to come over

and help in your depart<sup>ure</sup>  
as I am keen on med.  
hist<sup>ory</sup>, but the fare is  
prohibitive to an infirm  
person.

Dr. Eric Gould has  
the bones used by Lord  
Lister in class demonstration,  
and, were I in London, I  
could coax doctors to lend.

Faithfully yours  
Dorina Waterson

Dr. Hingston has  
some rare

INDEX No. ....  
c/o Dr. Howard Kelly

1418 EUTAW PLACE

26 Nov. 1907.

NOV 27 1907

Gentlemen,

ANS. ....  
I left London to live in Baltimore this summer, but while there as journalist & researcher I met your Med. Exhibition Representative & offered to get together anything I cd.

Just now I am gathering for Dr. Kelly photographs or pictures of early times rep. operations, instruments, etc to illustrate a lecture. He has, himself, in his big library, much that is curious but I want to get more if possible. The lecture is at New Orleans on the 17<sup>th</sup> Dec. but the pictures must be ready beforehand. He is quite willing to

lend you for the Exhibition any  
pictures you may not have.  
and I think I'm on the track  
of curiosities for you.

If this note shd. have  
gone to London, please send  
it on, only I hoped to save  
time.

Dr. Kelly thanks you  
for the booklet on Anaesthesia.

I am

Yours truly

Darwin Waterson.

February 14th, 1907.

Madam,

I enclose you herewith a prospectus  
of the Anthropological Historical Medical Ex-  
hibition, and regret that I omitted to do so  
before.

I am,

Faithfully yours,

Wm. D. Waterson,  
B., 1001a Street,  
N. C.

March 13th, 1908.

Madam,

Your letter, dated November 26th, 1907, addressed to our Depot in New York, has only just reached me, and I am afraid that any assistance I could give you now for Dr. Howard Keller would be too late.

I may say that Messrs. Braun & Co. of 1'Avenue de l'Opera, Paris, have some very fine photographs of pictures representing early operations, etc., which I think would be suitable for Dr. Kelly's purpose. If you were to write to them they would no doubt forward any of them to you direct.

If at your early convenience you would kindly let me have a list of any pictures that Dr. Kelly would be willing to loan to Mr. Wellcome for the Historical Medical Exhibition when it takes place, with their titles, I will let you know whether we have duplicates of them or not.

Faithfully yours,

Miss D. Waterson,  
c/o Dr. H. Kelly,  
Baltimore.

Sir,

I am doing a good deal of research work & book collecting for Howard Kelly of Johns Hopkins, Baltimore USA and have gathered for his med. collection many curious books, pictures, etc.

<sup>elisha</sup> He is extremely anxious to have a pair of Perkins tractors (1803) and Dr Hubert Biss told me you had a collection yourself & cd. perhaps put me in the way of seeking — I do not say finding — a pair. I generally get what I want, but, as a journalist & sub-editor & med. press reader have not very much spare time and any information you cd kindly give me wd. be very greatly appreciated by

Yours faithfully,

Darwin Waterson.

Waterson

Waterson

You promised me particulars  
of Exhibition. May I have them?  
Have you tried —  
(And I've mislaid address)
