Would like to
Speak to you re
this - I think

Dear Mr. Wellcome

Dr Cartellani was
here yesterday & after
getting an account of the
work in Pellagra by
Dr Sambon & seeing the
herbaria he visited in
my reading room the

is making a great stir
in the world & you
may feel proud of his
accomplishment.

Pellagra is said to be
in Scotland where maize
is not eaten; if we
could settle that a great
step would be taken.

I would go to Scotland
with D. S. Lamborn if
you can spare him
in a few days.

I would show you the
harvest here if you
could to come - it would
not take you more than
a few minutes.

Yours very truly

James Baxter

Dear Sir,

I have followed
Dr. Sambon's work
upon "Pellagra"
with the greatest
interest and having
had an opportunity
of a conversation
with him on the
subject, I am still

further convinced
of the great
importance of
his researches.

I am well aware
of how much you
have done for
promoting the
interest of
Tropical Medicine
in general and

particularly the
investigations
carried out by
Dr Saubau in
Pellagra.

We sincerely hope
that every facility
will be granted
to Dr Saubau
to enable him
to complete the

work which he
has so far done
with such ~
Success.

— Excuse the liberty
I am taking of
writing to you, but
I do so in the interest
of Peace; well knowing
that all times
you have proved
to be so generous
a benefactor.

Yours faithfully
