H. Mum.

26 September 1914.

Dear Sir,

I desire to thank you for so kindly sending me particulars of Mr. Mond's optical bench photographic camera, and the photographs showing the engine and dynamo for the same.

I much appreciate your kind offer to help me in the matter, and to make a duplicate of any part of the equipment as you kindly suggest. As soon as I am able I will take the opportunity of calling upon you to talk the matter over.

Again thanking you for your kindness and the trouble you have taken in the matter,

I am,

Faithfully yours,

Dear Mr. Mond,

Very many thanks for so kindly sending us a copy of your interesting paper on the "Mortuary Chapels of the Theban Nobles", giving a description of your adjustable table for camera, and also for your kind permission to allow us to see the drawings at Mr. Savage Shepherd's. I will hand your paper to Mr. Wellcome the first time I see him.

Again thanking you very cordially for your kindness,

I am,

Faithfully yours,

Dear Sir,

In July last in conversation with Mr. Robert Mond at the Rooms of the Society of Antiquaries, I asked him on behalf of Mr. Wellcome if he would kindly let me have a sketch of the elevating photographic camera stand he had devised for photographing inscriptions above the ordinary camera stand height in temples in Egypt. He told me he would be very pleased to supply Mr. Wellcome with particulars, and gave me your name and address, and asked me to write to you in a little time for them. I should be greatly obliged if you could furnish me with a rough sketch and some details of this apparatus.

Thanking you in anticipation,

I am,

Faithfully yours,

C. J. H.
