Dear Sirs,

I beg to thank you for your letter with regard to the exhibits at the Historical Medical Museum.

I regret it will be impossible for the School to continue the loan of the Exhibits they sent after October 31st, as the articles are required for the instruction of students. I shall be glad therefore if they could be returned to us at the close of the Exhibition.

Yours sincerely,

H.B. Newham

Messrs Burroughs, Wellcome & Co.,
Snow Hill Buildings, E.C.

Dear Sirs,

On February 20th last I despatched to you a collection of exhibits for inclusion in the Exhibition at the International Congress of Medicine in August next. You will remember that one framed coloured drawing illustrating the development of *Filaria* was specially marked to be returned by you to me within fifteen days. This has not been done, and I must ask you to be good enough to return it at once, as we have to include it in the exhibit we are sending to the Ghent Exhibition, and we are anxious to complete our packing of goods to go there this week.

Yours truly,

H.B. Newham
Director.

Dear Sir,

We thank you for your letter of March 11th and are at once communicating with the Secretary of the Historical Medical Exhibition, at 54a. Wigmore Street, who will reply regarding the coloured drawing immediately.

Yours faithfully,

Burroughs Wellcome & Co.

Dear Sir,

I desire to thank you for your kind letter of January 3rd and I have communicate it to Dr. Sambon. He will be very pleased to see you on January 10th when he comes to the school to lecture and I trust will be able to arrange matters with you as regards the loan of specimens for our Museum.

Thanking you in anticipation,

I am,

Faithfully yours,

C.J.S.T.

REPLY SENT.
4 JAN 1912

Dear Sir,

I am much obliged for your letter of the 31st December last, with regard to the Historical, Medical Exhibition.

I very much regret that I have been unable to make an appointment with Dr. Sambon, as the only day that I had vacant this week was Friday and that was a day you mentioned would not suit him.

I have to go away to the Continent to-morrow and shall be away about a week, so perhaps it would be better to leave the matter over until our new session has started, which takes place on January 15th. Dr. Sambon is due to lecture here on January 16th, and perhaps I should be able to arrange matters with him then, instead of having to ask him to come down on another occasion when perhaps he was busy.

Yours truly,

H.B. Newham
Director.

H.M.M.

31 Dec. 1912.

Dear Sir,

Mr. Linstead has forwarded me your kind letter of the 23rd inst. addressed to him regarding the Historical Medical Exhibition.

With respect to the specimens you very kindly offer to loan us, I have asked Dr. Sambon, who is dealing with the parasitological section, to call upon you on my behalf. He can call any day this week that you may name with the exception of Friday. Will you kindly telephone me at your early convenience making an appointment.

Thanking you in anticipation,

I am,

Faithfully yours,

Dr. H.B. Newham.

Mr. C.J.S. Thompson

I send a copy of Dr. Newham's letter of December 23rd
and of my reply.

December 23rd, 1912.

Dear Mr. Linstead,

Are you undertaking the arrangements with regard to your firm's exhibit at the Historical Medical Exhibition in 1913?

As you know we have promised to help to the best of our ability but our specimens will be sadly depleted in number by the Ghent show.

I was thinking it would be the best plan, if you have the arrangements in hand, if you could meet me here some day after Xmas is over and see what we have got which would be useful to you.

Yours sincerely,

(signed) H.B. Newham.

Dear Dr. Newham,

I am much obliged by your letter of December 23rd regarding the Historical Medical Exhibition, and am writing to Mr. C.J.S. Thompson of Wigmore Street, who has this matter in hand for Mr. Wellcome.

Very truly yours,

(signed) Edward Linstead.

Sept. 3rd. 1912.

Dear Sir,

As you are probably aware, I am organising an Historical Medical Exhibition in connection with the International Medical Congress which will be held in London next Summer. I should be glad to know if you could give me any assistance by loaning some cases of specimens illustrating the work done by the London School of Tropical Medicine.

I feel that the London School should be well represented at this Exhibition which will be one of great importance, and if you can promise the loan of a suitable exhibit for the section on Tropical Medicine I should appreciate your kindness.

Thanking you in anticipation,

I am,

Yours very truly,

Dr. Newham.
