29 May 1913.

Dear Sir,

I desire to thank you for your kind letter of the 28th inst., and note with pleasure that the Port of London Authority will lend us the Materia Medica specimens for the Historical Medical Museum. I will send a man for them tomorrow, and you may rest assured that every possible care will be taken of them while in our possession.

I enclose a lender's form which I should be glad if you would fill in and return to me, placing some approximate amount on the objects for insurance, as this is necessary according to our regulations.

Thanking you in anticipation,

I am,

Faithfully yours,

R. Philipson Esq.,

Dear Sir,

In your letter, No. 12,801. of January 23rd you kindly stated that you would let us know later, if you would be able to loan us a portion of the collection of drugs, gums, etc. belonging to the Port of London Authority for the Historical Medical Museum.

We should be glad if you would let us know as soon as possible if this can be done, as the official catalogue is now in process of compilation, and it is very desirable that we should have all loans in by the end of this month.

Awaiting the favour of your early reply,

I am,

Yours very truly,

R. Philipson Esq.,

Secretary of the Port of London Authority.

Dear Sir,

In reply to your letter of the 2nd instant asking the Authority to lend their collection of drugs, gums, etc., to the Historical Medical Exhibition in June next, arrangements are being made to transfer the collection from Crutched Friars to Cutler Street Warehouse where it will be stored in future. When the collection has been arranged at Cutler Street it will probably be possible to lend you some specimens for exhibition but at the present time the collection is packed away in cases and I shall not be in a position to tell you for two or three weeks which portion is available for your exhibition.

As soon as I am in a position to do so I will write to you again.

Yours faithfully,

R. Philipson
