Dear Sir,

Allow me to thank you for your letter of December 5th, and for so kindly sending me the copies of your articles which I trust to receive later. I am much interested in the history of early medicine and the allied sciences in China, and any particulars you can send me concerning the same I should much appreciate. The coloured representation I sent you is from a Japanese picture of Shen Nung, one of the legendary Emperors of China, and supposed to be the founder of the healing art in that country.

Again thanking you for your kindness,

Believe me,

Yours very truly,

Dr G. Olpp,
