DERRY, D.E

'12/'13

21st June 1913.

Dear Dr. Derry,

As far as I can see I do not think there could be any objection to your giving your paper in the Anatomical Section, especially as they are so crowded in the Section of the History of Medicine, and there is perhaps less chance of getting it in there. I will tell Mr. Wellcome when he comes to-morrow.

In great haste,

Faithfully yours,

that there are 69 papers in
the Historical Section.

If there is no objection,
do you not think that I had
better definitely assign my
paper to Anatomy? If you
think that Mr. Wellcome would
agree to this, please let me
know and I will write to
Dr. Raymond Crawford in this
sense. The exhibit could
remain in the Historical
Medical Museum as already
arranged.

Yours truly -

Douglas E. Derry.

that there are 69 papers in
the Historical Section.

Hmm

19 June 1913.

Dear Dr. Derry,

When Dr. Raymond Crawford called here yesterday afternoon I spoke to him about your paper for the International Congress of Medicine. He requested me to ask you to communicate with him direct, giving him the full title of the paper and he will try and get it in. He said that all the days have now been allotted. There may, however, be some withdrawals and there will then be a chance of getting your paper in. Dr. Crawford would be glad if you would communicate with him at once. His address is -

Tray's Hill,

Hornsey Lane, N.

Faithfully yours,

H.M.M.

26 May 1913.

Dear Dr. Derry,

In reply to your kind note of the 24th inst. just to hand, I think the titled you suggest will do very well, and it indicates an interesting paper.

I communicated with Mr. Dudley Buxton, and I have received his reply to my letter, and we are fully in accord that the best expert opinion must be taken before showing and labelling the pathological remains which it is proposed to exhibit in the Historical Medical Museum.

I am,

Faithfully yours,

C.J.S.T.

24th May 1913.

Dear Mr. Thompson,

With reference to our
conversation last Monday, how
will the following title do
for a paper? "Some physical
characters of an ancient
"Sudanese race," with exhibit,
in the Historical section.

Yours very truly,

Douglas E. Derry.

UNIVERSITY OF LONDON.

UNIVERSITY COLLEGE.

22nd April 1913

Dear Mr. Thompson,

I will try to come
and see you shortly, but
am rather busy just now
preparing for some lectures.

Yours faithfully,

Douglas B. Derby.

Ham.

16 May 1913.

Dear Dr..Derry,

Dr. Ray called upon me yesterday and told me that you would like to see the remains that have been received here up to the present and are being arranged by Mr. Dudley Buxton. If you will let me know what afternoon next week will be convenient for you, I will take you up to the room where they are stored, as the place is closed during the week when nobody works there.

Faithfully yours,

H.M.M.

19th April 1918.

Dear Dr. Derry,

If you are in this neighbourhood any day next week after Tuesday I shall be glad to show you what progress we have made in the Historical Medical Museum. There are one or two other matters that I should like to ask you about in connection with the Meeting of the International Medical Congress.

If you could 'phone me up and tell me what day and time would be most convenient to you, I will make a point of being in when you call.

Trusting you are well,

I am,

Faithfully yours,

C.J.S.T.

4th Oct. 1912.

Dear Mr. Thompson

Thank you for your letter
and for the accompanying
translation from Schenk. I am
much obliged for this, and
may have occasion to refer
specifically to it in my Report.

I will come and see
you next week with regard
to Mr. Hellecome's lecture before
the International Medical Congress.

Yours faithfully,
Douglas E. Derry.

Easley Mews

2nd October 1912.

Dear Dr. Derry,

Mr. Wellcome has asked me to forward you the enclosed translation from Schenk's 'La Suisse prehistorique', and to draw your attention to the parts he has underlined in red. He has also spoken to you I believe respecting a paper he proposes to give before the International Medical Congress next year concerning the excavations and the cemetery work at Gebel Moya. He has asked me to confer with you as to the lines on which he should prepare this paper, and when you are at liberty I should be glad to see you any time convenient for yourself with reference to this matter.

I am,

Faithfully yours,

G.J.S.T.

Easley Mews.

5th July 1912.

Dear Sir,

Mr. Wolloome has asked me to inform you that the cases containing the anatomical specimens from Gebel Moya have now arrived, and are stored here in my care.

I understand from Mr. Wolloome that you would like to be here when they are opened, and I should be glad to ^{would} hear when you care to come.

Awaiting the favour of a reply,

I am,

Faithfully yours,

C.J.S.T.
