re Dr. Johnson Home, 23, Weymouth Street, W.
=====

Dr. Home visited the West End Exhibition Room, Wigmore Street, W.
on the 24th inst. We append a copy of the report we have received:-

"Dr. H. was Secretary of the International Congress on
"Tuberculosis in 1901 and says it was he who induced Koch to
"come over and gave his famous address. For that Congress
"Prof. Koch brought over 3 tubes containing cultures of his
"original bacillus and afterwards presented them to Dr. Home.
"Dr. H. wondered if they would interest Mr. Wellcome and whether
"he would like the loan of them for the H.M.E.; he says he
"also possesses several other relics which he would be pleased
"to lend. We thanked him for the offer and said you would no
"doubt write to him direct."

If you consider it desirable will you please communicate with Dr. H.
in regard to this matter.
