May 23th, 1906.

Dear Dr. Fisher,

Confirming my conversation with you this morning on the telephone, I enclose herewith two line drawings to illustrate the article on early hospitals, which, I think, will answer your purpose. Neither of these have been published before.

You will, no doubt, in the article, be able to draw the attention of nurses to the section of the Historical Medical Exhibition dealing with nursing and ambulance, as well as acknowledging the source of the illustrations.

Thanking you in anticipation,

I am,

Yours very truly,

Dr. Fisher,
The Campus,
Chicago.

May. 25

Dear Mr. Thompson.

Thank he really
Wishes if you would
not mind telephoning
me here tomorrow
morning. to tell me if
you have been able to
do anything in the
way of pictures.

I have not been to
Southampton St. today

I shall not be there
tomorrow.

It is needless to say that
I can easily mention the
exhibition, but I shall
only be too pleased to do,
Sir Henry Brundell, however,
takes more notice of that
part of the paper than
any other. He probably
will read the prospect, but
I do not think he will
say anything
In any case of course the
source of the illustrations

would have been acknowledged.

Thank you for your kind

mem. of Aug 1

Dear Sir,

In reply to your letter of the 11th inst
addressed to Mr. Henry S. Helicourt, who has only
just returned from abroad.

With reference to the matter you mention,
I will call and see you at the office of the
'Hospital' tomorrow, at 12.15 p.m.
arranging what will be convenient to you.

I am,

Yours very truly,

Dr. Fisher,

Dear Sir.

I took the liberty of
troubling you about a week
ago in connection with the
'Hospital'

No doubt I asked too much,
yet I venture to trouble you once
more.

The 'Hospital Sunday' number
will be out shortly. Large numbers
of that are given away, and it
usually contains special articles
dealing with general questions
affecting hospitals.

It has occurred to me that
one upon the development of

Proposals would be interesting.

I have therefore ventured to trouble
you once more, thinking you may
be willing to render me some aid.

If you can give me help as to
suggestions upon literature of the
subject & it may be also lend
me such a block as that on
page 9. of the notice of your
exhibition I shall be greatly
indebted to you. It is needless
to say that your aid would be
fully acknowledged.

Whatever is written ought to be
printed in about 14 days time so
that I shall be greatly obliged if you
can reply at your early convenience
Yours truly

Dear Sir,

As many other medical men
must have been. I have often been
very interested with in your
illustrations bearing upon medicine
& surgery of past ages.

For a time at least you helped
in the editorship of 'The Hospital'
and have wondered whether you
could be willing to contribute
a series of articles which might
be brought-out afterwards in
book-form.

Whether Sir Henry Brundell
will agree with my suggestion

I cannot say, but I can hardly
think he will object. Though he is
anxious at present to try and
make 'the Hospital' more of a
medical paper.

The subject to which you have
devoted your attention is one
of great interest, and I sincerely
hope you may see your way to
do something, & Sir Henry to
agree to it.

It is possible, it may be mentioned
& paid for articles, but that
facts would not have any
influence with you. Your
researches must have been early.

Yours very truly
Nedra Fisher
