MNJ/RS

C. J. S. Thomson, Esq.,  
International Medical Congress 1913,  
54a, Wigmore Street,  
Cavendish Square, W.

Dear Sir,

With further reference to your letter of the 18th instant and to Dr. Sambon's call upon us, we find that the model of the Roman Campagna building which we presented to the School of Tropical Medicine cost us close upon £60 to make. We are not without hope that our Directors will be disposed to make another model for exhibition at the forthcoming International Medical Congress, but the outlay is considerable. We will let you have our final decision in the course of a few days.

Yours faithfully,

*Humphreys*

IMC

18th February 1913.

Dear Sirs,

I desire to thank you for your kind letter of the 17th inst. with respect to the proposed model of the hut for the Roman Campagna Expedition.

I am sorry to say we are very limited for funds for this section, but we should be willing to make a small contribution towards the cost of reproducing a second model if you could kindly see your way to make it.

Dr. Sambon who you must well know in connection with the matter, will call upon you on Friday afternoon if convenient to you and explain what is required in detail. If this time is inconvenient to you, will you kindly ring me up, no. 3461 Mayfair.

Thanking you for your courtesy in the matter,

I am,

Faithfully yours,

C.J.S.T.

Cavendish Square, W.

Dear Sir,

In reply to your letter of the 15th. inst.  
the model of the Hut in the Roman Compagna Expedi-  
tion involved us in an outlay of £50.0.0. If you  
will let us know if your Committee will contribute  
a portion of this sum towards the reproduction of a  
second model, we will see what can be done.

We presume it would hardly be worth while  
to buy a complete model of the hut.

Yours faithfully,

Humphreys

J. M. C.

15 February 1913.

Dear Sirs,

Some years ago you made for the London School of Tropical Medicine, a model of the hut used in the Roman Campagna expedition against pellagra. The model you made ~~has~~ unfortunately to be loaned to the Ghent Exhibition this year. We should very much have liked to have had your model in the Historical Medical Museum, which is to be opened in June next in connection with the meeting of the International Medical Congress. I now write to ask if it would be possible for you to make another model for the Historical Medical Museum, and should be glad if you would let me know what the minimum cost would be.

Thanking you in anticipation of an early reply,

I am,

Faithfully yours,

Messrs. Humphreys Ltd.  
Iron Building Manufacturers,  
Knightsbridge.

Humphreys
