Oct. 1st. 1912.

Dear Sir,

I desire to thank you for your letter of the 24th ult., and have pleasure in enclosing you several copies of the syllabus of the Historical Medical Exhibition.

With regard to the relics belonging to Hahnemann I should be very pleased if you would be so good as to obtain the loan of them for the Exhibition.

I need hardly say that every possible care would be taken of them while in my possession, and they would be returned to their owner at the close of the Exhibition.

Thanking you for the trouble you have taken in the matter,

I am,

Yours very truly,

Sir,

In reply to your letter of the 23d inst, answering mine of the 17th, I will say that I am sending your letter to America, & I should be glad if you would send me another copy or so of the syllabus, which I will forward to parties interested.

The exhibition is not quite what I expected, & I do not know if the men in U.S.A. were ~~in~~ in full possession of the facts of the case, however when I am in receipt of their reply I will let you know.

The exhibit as you plan it will be most interesting, but as you doubtless know, Homoeopathy is but 120 years old, that is since Hahnemann formulated this 'law of nature', but we find expressions of SIMILIA even in the writings of Hyppocrate, showing that though we, as a school, which is none of our making, are so young, the TRUTH has existed for all time.

Therefore as we are young as a body we have not a great range to draw from. I believe we have a number of things which belonged to Hahnemann, & which were given him by various Royal personages of the time, some of which are interesting in their peculiarities & richness.

But in all thoughts of us I wish you to believe that our 'separateness' has been none of our seeking, but that we have had to unite for actual selfprotection, & now we are advancing the world over.

I am informed that a Mr. Burroughs of your firm who used to live just south of town, was for many years a strong supporter of our school & tenets: did you know this?

Thanking you for your letter & offer,
I remain yours truly,

E. Petrie Hoyle

Dear Sir

In reply to your letter of the 17th inst. I expect you allude to the Historical Medical Exhibition which I am organising to be held in London next year at the time of the Meeting of the International Medical Congress.

I do not know if your Council possesses any objects of historical medical interest that would be suitable for this Exhibition but if so I should be glad to hear from you.

I am enclosing a syllabus which will explain the objects and scope of the exhibition.

I am

Yours very truly

Sir,

I am in receipt of a letter from Dr: T.H. Carmichael of Philadelphia, President of the AMERICAN INSTITUTE OF HOMŒOPATHY, in which he says that you in behalf of your firm asked us to make an exhibit at some Pharmaceutical Exhibit ^{to be held} next year in this city.

I shall be very glad to meet you & present this letter of introduction, at the same time learn what is suggested that we do, or present, in the way of an exhibit.

They have asked me to look up this matter & report, & to this end I can make an appointment on Monday next at any hour suitable to both of us, if you will write me soon.

Yours truly,
