RECR 3 - MAR 1905  
ANSWR

March 1st, 1905.

Dear Sir,

It is my intention to hold in London shortly an historical medical exhibition, particulars of which I have pleasure in enclosing. I shall be glad if you will kindly bring this matter before your Council at their next meeting, and do me the kindness to ask them if they would loan me any instruments, books, or specimens connected with the diseases of animals in bygone days.

I need hardly say that such objects will receive the greatest possible care, both in transit and while in my possession and would be insured during the whole time to any value your Council might place upon them.

Many of the relics and exhibits already promised are of the greatest value, and I am taking extraordinary precautions to ensure their safety. The buildings in which they will be placed will be guarded night and day, so that there will be practically no risk of loss or damage.

Trusting to receive a favourable reply from you,

I am,

Yours very truly,

The Secretary,  
Royal Veterinary College,  
College Street,  
Camden Town,

N.W.
