THE WELLCOME CHEMICAL RESEARCH LABORATORIES

FREDERICK B. POWER, Ph.D., LL.D., Director

8, KING STREET  
SNOW HILL  
LONDON, E.C.

31 OCT 1913

Dear Mr. Thompson:—

The publications of these laboratories, so far as at present issued, number 150. It has seemed to me desirable that complete sets of them should be permanently preserved, either for the use of Mr. Wellcome or for any other purpose for which in the future they might be required. A considerable number of the earlier publications are even now no longer available in pamphlet form, but I had fortunately preserved two complete sets. These have now been bound together, as well as the somewhat varying size of the pamphlets permits, into three volumes of 50 each. As there is always danger of destruction by fire, it has seemed to me that it would be a wise precaution to have one set kept in the library at Wigmor St., while the other set could be retained here. If you could therefore find a place for these three volumes, where they would be carefully preserved, I shall be glad to send them on to you by a messenger.

I am very much obliged for the kind attention you have given to the request of Professor Kermers, as indicated in your letter of the 22<sup>nd</sup> inst., and with best regards, believe me to be

Sincerely yours,

F. B. Power.

C. J. S. Thompson, Esq.  
Historical Medical Museum  
54 a Wigmor St. W.

Powers

6 November 1913.

Dear Dr. Power,

Thanks for your letter of the 31st ult.

Although we have a considerable number of the publications from "The Wellcome Chemical Research Laboratories" in the Library, I do not think our set is complete, and should be very glad therefore to have the complete bound volumes you mention. They would be carefully preserved and easily accessible for reference here. I should be obliged if you would kindly send them to me by messenger at your convenience.

Faithfully yours,

Dr. F.B. Power, Ph.D., LL.D.,  
Wellcome Chemical Research Laboratories,

LONDON, E.C.

7 NOV 1913

Dear Mr. Thompson:—

Your letter of the 6<sup>th</sup> inst. is duly at hand this morning.

I am sending to you herewith, by messenger, 3 volumes of the Publications of these laboratories, Nos 1-50, 51-100, and 101-150 respectively, and would be very glad if these can be permanently preserved in your library, as suggested.

It would be impossible now to make up another complete set of our published papers, and the one sent you therefore possesses a special value as a record of work accomplished from the inception of the laboratories to the present time.

Very truly yours,

F. B. Power

Power

Hmm

7 November 1913.

Dear Dr. Power.

Thanks for the three volumes just to hand.

I have had them catalogued and placed in the Library.

Faithfully yours,

C. J. S. T.
