RECEIVED
6 AUG 1910

Dear Sir,

I beg to inform you that I have come into possession of your letter of the 16th of June and also of the little book which indeed has deeply interested me and for which I tender my heartfelt thanks.

Your representative Mr. R. Walton has spoken to me about your intended exhibition and I promised to contribute to it to my best as I have, indeed, been deeply interested in the matter.

I shall try to get some of the implements required for the exhibition, but at the same time I must let you understand that such things cannot be got from the natives without some expenses. I trust, therefore, that you will cover the expenses made in getting and sending the various articles to your address.

Believe me

Yours very truly

L. Friess

July 8. 1905

Dear Sir,

I desire to thank you most cordially for your kind letter of the 30th May, in which I have been much interested.

I shall be most pleased to accept your kind offer of any objects of interest connected with native folk medicine, or other articles connected with the charming away or healing of disease.

The cupping instruments which you mention would also form an interesting exhibit, and any other articles you could send me connected with medicine among primitive peoples would be very welcome. Every little helps, and as I am desirous of making the Historical Medical Exhibition as complete as possible, I should be most grateful for any services you could render me in this way.

Owing to the magnitude of the work involved, I have been compelled to postpone the opening for a few months hence, but as soon as the date is definitely fixed, I shall be most pleased to advise you in due course.

I am,

Yours very truly,

Dr Isidore Kozminsky,

TO Henry S. Wellcome Esq

Dear Sir,

I was pleased to receive, from Sydney, your most interesting pamphlet on ancient bygone medicine and notice of the coming medical exhibition which you are promoting in London. I will be very happy to lend my aid by sending an exhibit, if such will be acceptable - For some time I have given much attention to the departing native races (I am sending you a paper on them read at the Austral. Salom. Aust. Soc. of Lit. etc. which may interest, with my pictures with & without the King and Princess of the Hindmarsh Tribe) - Would you like me to send an exhibit of native ~~implements~~ articles, used for charming away disease and ~~bad~~ hurt, from Australia & the immediate islands, fully described? Also, my great grand father was chief doctor to the Polish Army in the years gone by & my mother was a botton, you know the bottonian M.S. I have 4 of his brass bupping bups  used for bleeding - Would you like me to send a couple for exhibit? When about will the exhibition take place? I would very much like to be in London to see it and to have the pleasure of your acquaintance - Of course your firm is known world wide - I may just mention by way of introduction that I am a Doctor of Science and Professor of Archaeology and for some 15 years have been recognised as the Australian authority on archaeology, antiquity etc. I trust you will forgive my egotism - With best greetings

Langport Villa

H.M.E.paper

16th June 1910.

Dear Sir,

I am informed by my representative, Mr T.R.Walton, that you have shown kind interest in the proposed Historical Medical Exhibition which I am organising to be held in London in 1913.

I am very desirous of making the section dealing with the art of healing by savage races as complete as possible and if you could render me any assistance in loaning or sending me native surgical instruments, implements, deities associated with healing, witch doctors, fetishes or any other objects associated with the medical or surgical arts, I should greatly appreciate your kindness.

I am sending you under separate cover a Syllabus of the Exhibition and also a copy of a little book which I think may probably interest you.

Again thanking you for the interest you have taken in the matter, I am,

Yours very truly,

Henry S.Wellcome,
C.J.S.P.

Revd, Father L.Friess,
Ibadan,
