Letter to Maj. Gen

Set Maurice Holt.

My dear Holt

Two of the very best
up to date X-ray apparatus
were ordered from England
by last mail, one will
go to Rindi after the durbar,
the other direct to Secunder-
abad, so my efforts have
not been without results -
I am very keen on having
a good show at Hindu
Rao's house & you shall

run it under the
oc. General Keogh who
probably will be H. Thompson

The question of current
is. 220 volts is settled
it will be laid on to H. Rao's

By all means come up
here and see me if you
think it necessary. you
might do my wife's face
at the same time. we

always have a spare
room. I have had most

complementary letters
from Lord K. & Sir A Keogh

on the improved condition,
of service in India as regards
health. all most satisfactory
as it all tends to cheer
on the R.A.M.C, who
have every cause to hold
themselves high. I look
upon you as one of
the men who have done
us the greatest credit.
Officers words I think
have done us an immense
deal of good, specially
with the Indian Army, and
I look back with much
satisfaction on my work as

regards invaliding, especially
is doing away with the
old system of sending cases
home without making an
attempt to operate or cure
them. we are now expected
which we never were before.

With kind regards
to Mrs. Holt & Miss H. & self

Yours sincerely

A. W. Weaver

ENGLEMERE.

ASCOT.

BERKS.

14 June 1911.

Dear Henry

Thank you very much for your letter of the 23rd May and for enclosing a note on "The Improvement in Health of the British Army in India." It is most satisfactory and it just shows what can be done by careful attention to all sanitary details.

Before the Mutiny the death rate among our European soldiers was 67 per 1000. I am glad to see that it has now been reduced to 4.66.

Believe me
Yours sincerely
Roberts
