Thursday morning.

Dear Marcus—

The Ceylon is still at the Wharf. They say she will leave at noon but I'm not sure of it. There has been much delay in getting her ready the bedding for cabins only arrived yesterday. My cabin is only now being put in order. I called on some of the trade here yesterday. our goods go slowly here. I think all the samples of malt sent here distributed went bad— Many of the doctors who write prescribe genuine dispensers those who write prescribe generally cheap medicines. Please send Randall out of his goods as you can supply & the others when ready. Spent the Evening pleasantly at Mr Coonelly's You know he lives near here. Give my kind regards to Van Schaack, and all mutual friends

Yours truly

S.S. Kaipara Oct 16. 81.
Dear Wyeaue,

I was able to get a cab at Westtown pier and after a good breakfast at Mrs Ferrys reached the Station 15 Minutes before train left—

Got my boxes down milk only 4/6 D pay for Extra baggage

Arrived Ken about 11½ and find that the Ship wont sail until to-morrow about noon.

Please to pay Mr Terry for Mrs Terry 30/- which I owe for board but Could not make Change. Telegraphed to Wood and told Clothes to passenger train so they will reach in time—

When the Man called to deliver them at 24 last night no one was there so he may

have left them there this morning but Mr Ward will see that they are forwarded sometime to day—

I see some boxes here very nicely branded with hot iron stamp and think your best way to get ours done is to have the box makers do the branding before sending the boxes here.

Mr King has not got up the patches yet. You had better stop there & hurry him up as we have only one whole pitcher in the house and we must be ready to take good care of Van Schaack when he arrives—

If you go home each night and you will double the force & change again about the

boarding house near
yr. go Van's Checkerwards
& get his meals at Rocco
Place near. You can also
send my light overcoat. Think
there is a forwarding office
near Wakefield's. Send it
sure that I shall want the
overcoat. And it is not
of any importance Robert
let Mr Godbolts send me
here or put Bordens Day Book
or Ledger business Cards &c
I dont want Buggerville Yoke
& Bro Wood & Locker Paints
only a few with Bne

All the cabins are occupied
but only one passenger Jack in
most of them - So there is no
Crowding - They appear to be
well ballasted with freight -

Will write you

SMB 1/3:56

I think a letter to Dr Woodward something like the one I sent to Dr Gwatt will do –

Return address Rabaud Freres Marseilles

S.S. Ceylon Thursday Evening –

Dear Williams

The ship we are in is not yet at Scutari but is now anchored for the night off Nitley Hospital They say she will sail early in the morning but they have made so many delays I would not be sure of their good intentions being realized. The Captain (Lanham) appears to be a first rate man and is very attentive to his duties I think however that the directors and some of them suffers. They have been very tardy in supplying the ship with many necessary things.

Dr Woodward expressed his hearty approval of our things for army & navy use and will keep us with the letter to the Consul. I think it might be well to drop him a line mentioning some of the important advantages of our things or if he writes you to call do so soon as he wants you to see his letter before it goes to the Consul. At the same time his letter goes it would be well for us to send one in also and if we can get Sir J. Fayrer & Dr McNamara of India Office to do the same – Please also to send a copy of Dr Gwatts letter to Forsyth & they will get Dr Hammond to write a letter of introduction to Sir Wm Muir the present Director General who is a warm friend of his. Sir Wm Muir

was with Dr Hammond when he was Surgeon General during part of our civil war -

If the Ceylon stays on tomorrow morning I will go over to Netley Hospital and see all the Doctors. I know several of them and they will all be glad to try the goods and report upon them to the Department. I think you will also do well to call at 6 Whitehall Yard and see Sir Wm Muir's assistant. This army & navy business will be an awfully big thing and give us great prestige if we can get it. It is worth going for likely at any rate -

I would like Corning would to ask Lyn Merritt of Convent to give me letter to his cards to the consuls in some of the towns I am to visit. He does not live at 26 or 28 Tavistock ~~Square~~ as I had thought.

I will inquire at the Post Office Boulogne for letters or you can direct them to the Ceylon but do not send any there until you hear the Ceylon has left England as she may hang around here indefinitely - Give Van Schaack the ticket for the Ball Friday Evening He will meet the misses Greenish there and have a good time. I think its about time we sent out the notice on Omnibus & Wheat roots as the Maltine people scandalize us by their black guard talk in Scotland especially - a brief statement of the discontinuance of the W.S.O. followed up by the letters from Dr Reiger Langdon Down Prosser James (who all write one) & others & all &c

something like this might answer the purpose -

Special notice to the medical profession -

We desire to inform the medical profession that an improvement has been effected in the manufacture of the Kepler Extract of malt through the employment of pure malt only -

We have decided to omit the use of wheat and oats after a long and careful experience has satisfied us that they were not only useless but positively detrimental.

In our experience either wheat or oats in Extract of malt tends to produce fermentation & change and also impairs the flavour as well as the important digestive properties of the preparation

We have not decided to abandon their use however without obtaining sound advice from competent authorities, and while mentioning a few who have so advised us may also state that every medical man whom we have consulted in the matter has counselled us to use pure barley malt only, which it is our purpose in future to do -

We herewith quote a few of the authorities whose advice has confirmed the results of our experience -

Here quote ———

and might say afterwards something like this -

As there are many preparations of Malt physicians who wish to order Our improved article should be particular to prescribe "Kepler" Extract of Malt, some have erroneously prescribed it as Kepler Malting

In support of our claim of superiority for the Kepler Extract of malt we beg to quote briefly from Medical authorities as follows -

Here one or two testimonials as used by in Practitioner, Times & Gazette &c

Mr Bunning, Lord Mayor's Show

SMB 1/3:71

S.S. Ceylon Bay of Biscay
Saturday P.M. 29th Oct 1.

Dear Williams.

After several delays the ship left Netley about Noon yesterday. I was sorry not to have time to get over to the Hospital but the Captain said at 10½ he was going right away & would have visited the hospitals. However you will find what the report on the goods is by calling at Whitehall Yard No. 6. If we could get letters in the other medical journals as well as the Lancet on this Army Supply matter it would do a lot of good. Then often this likely the Lancet people would write an Editorial on the matter. If McKesson could get some american Army Doctor to write the Lancet on Coates letter and recommend their Goods for Army use, & get it & do the same these would also be serviced.

I think it will be well to send a copy of the recent reports to each Chemist in towns I be visited by Morse in Scotland (the reports I have the Special notice printed at the back) and perhaps also inclose a circular re mission of Wheat Foods from Malt. The circulars to reach the towns a day or two ahead of mine. Pleasant weather so far. Please address C/o Rabaud Freres Marseilles. Yours truly, S. M. Burroughs

Kind regards to McKellars Mr Nelson Foltz & Wise and to mutual friends

SMB 1/3:57

S. S. Ceylon Lisbon 7th nov 81.

Dear Wilcox —

We arrived here on Saturday & I got samples through Custom House without difficulty. There are no duties on medicines here. Some Doctors I saw were very much pleased and I am now going out this morning to see others. The only English Doctor is in the Br Naval Hospital & has hardly any private practice.

I met at the Hotel Europa a traveller who had just finished a two months canvass of Portugal & had a good trade. He said it could only be done through a responsible agent and introduced me to his man a very honest industrious fellow. He has four assistant Clerks some of whom travel in the country & others canvass the town. He sells the goods by sample and collects for them remitting promptly after which his commission of 5% is paid to him. I said we would give 5% to begin with & he would push the goods by travellers throughout Portugal. address Jose Barroso Rue Magdalena Lisbon

I have also got acquainted with Supers Veissoza & Co Lisbon who are agents for Supers Lawman & Kemp

They are very nice people and attend well to Lawman & Co's business but their travellers cannot Read or speak English while Barreiros Salesmen two 3 read & speak English. One Especially will call on all the good doctors and Chemists and get orders from as many of the responsible Chemists as possible

I have given him 8 of the 6 r cases 10 of the 3 r cases (and 4 Boxes of samples which are accounted for by the word have annexed to the Doctors names on the inclosed list of the leading Doctors - There are abt 100 Doctors in Lisbon & I will with Barreiros get a list of all which are worth while to send samples to - Doctors who should have circulars only - I told him we would give him the agency until 1st April & he proves capable and efficient would be willing to continue the agency. The first page of this I wrote in the boat going ashore & now the ship is leaving for Gibraltar and Dull

hand this to the pilot to post

Mr Burgos who will undertake to work on goods or Commission in Spain & elsewhere is a Naturalized citizen of the U.S. born in Peru - He was interpreter to his Legation at Paris Educated - and speaks & writes 4 languages. He is a very smart & clever and good salesman & practical business man - goes with me now to Gibraltar and then to Barcelona where he will try to get Commands & agent to buy & stock from goods & pick them & then Cruise Spain during the winter his orders to the Barcelona house whose name I leave for Messrs Francisco Granes. a pushing wholesale dry goods house

He is now getting 50 dollars per month & I must close - Give my kind regards to Mrs Lord & Miss Lord & all in office to Mr Terry & Richards & family - Hoping you & yours are well & prosperous

Yours truly

Rua Magdalena 4

Lisbon

Dear Sir,

In reply to your esteemed favour of the 19th instant I simply say that I have forwarded it to our Agent from whom you will receive an answer in full, to which I request you will by return of post. In the meantime however I would that you may begin work energetically when our goods arrive & you have in hand & submit the following for your approval.

1st Pay the outlook possessed by me already appointing me Agent for Portugal for the sale of our goods (Messrs Burroughs Wellcome & Co. Messrs John Wyeth & Bro - Jackson & Robbins & the interest to end January 1st 1882 and to continue indefinitely afterward as long as your attention to our interests is efficient and satisfactory.

2d A commission of 7½ p% will be paid you on every remittance returns from every sale) received from Portugal either from yourself or other party, while you are over agents.

3d You are to sell at prices as per "Medical Price List" less 20% to the wholesale trade - Retail houses should buy at prices as per list or buy of the wholesale trade - The quotations on Yellow Dyspepsia Tablets, Our terms are Cash Monthly but with your good houses 3 months + Exchange to be accepted on reception of the goods -

Yours faithfully Burroughs Wellcome & Co

per S.M.

x Thro Agents

Dear Wellcome.

I wrote you a hasty letter yesterday re- prospects in Lisbon - I am hopeful that the seed sown there will spring up into an abundant crop and not far off a good harvest - None of the Chemists there speak English so all my talk there had to be done through an interpreter the partner of Mr Barreiros who is the son of the greatest general in the Portugese Army and the governor of a province & commander of the principal fortress -

This young man Mr Chelmick will be the one who will attend to our business calling on the Doctors and Chemists & attending to the Correspondence - The Chemists there are rather a slow lot I called on most of them half a dozen times nearly and he

was always eating or out for a recreation - Chadwick will have some hard work & do in Lisbon but I have urged him to persevere He has a good deal of influence & knows all the best Doctors. Mr Barreiros Brother-in-law is the leading wholesale Druggist there and I think will order a line of the Goods - He would not decide when I saw him & was very busy though he dropped his business to wait on me & was very polite -

It was noon on Saturday before I got out of the Custom House and Saturday is the busiest of the week with the Merchants of Lisbon - The Steamer sailed at 4 on Monday and I was all the morning canvassing to see which would be our best agent Barreiros or Cresswell - The acquaintance

of the latter & the fact that his representations caused speak & write English and took an interest in the business decided me in favour of the former so I have promised it to him until June 1st to contain it afterward if he does well for us - otherwise to transfer it to Cresswell & Son other house -

You should send a regular leatherette sett of samples, or two one for the Lisbon room for the Oporto house which the former will transfer to the latter, also send a small hand bag to carry them in not an expensive one -

When you get up the Spanish label put Hazelton ask to Murrell to revise the directions and then set them up in Spanish to read up & down & not side ways as at present. You

Can print them in thin type that will not show through or Supply an Electro for B. Aires & lithograph ~~section~~ from ~~pr~~. I have just advised with Mr Bourgos who says English circulars & directions are better for Lisbon to begin with on Hazeline than that the samples should have to wait till you have them ready in Spanish – I still think that the 8oz is the size for South America and all Spanish & foreign countries –

Please write me at Marseilles telling me what samples have been sent & Mrs Cams & Rands & if they have arrived & apply also in whose care they were sent –

I have two Cheques but you had better send me two more or 20£ at Marseilles as I may want it

also send to me at Marseilles a copy of Huxley's Phisyology –

Send with Samples to Barreiras & Lisbon a tube case with Supplement and prices inside, also a roll case & write him a letter showing what he should do by perseverance

SMB 1/3:60

S. S. Ceylon

Nov 16th 81.

Dear Wellcome.

We expect to be in Marseilles about noon so I will write a little note to post immediately on arrival. We have had charming weather during the whole trip with the exception of a short time in the Bay of Biscay which each of the boats visited except Bordeaux I am hopeful of a good future for our business. As to Spain I find that our goods are much needed and desired there as it is desirable for us to secure the trade of the ports of it. The Medicines as usually prepared & dispensed by Spanish Pharmacists are very unreliable, that Doctors often Condemned them & buy Tinctures &c from abroad

SMB 1/3:61

CHRISTIE & BERNAL
Málaga.

TELEGRAM ADDRESS
CHRISTIE-MALAGA

Málaga, Nov. 11th 1881.

Dear Williams

The Ceyla arrived here this morning having sailed from Gibraltar at 10 ½ last night. I have posted your orders from all the good Chemists in Gibraltar. The town is small only 13,000 population. It is a Garrison town principally. Of the Chemists Mr Robert, & Patron Pharmacy and Bonano are all A1 as to credit. I don't know that it would do to credit Garibaldi. However as you will see all the orders from Gibraltar are to be executed through our friends in the trade in London who of course pay no attention they let any thing out.

I gave samples to most of the Doctors but in addition beg you will send about 6 Samples and a 6/- case in care of Mr Roberts for Dr Rodriguez. & one also for Dr Cortez writing to them Doctors at the same time.

Please also to supply Mr Roberts with 50 Samples Chl Potash Tablets & write him to distribute them among the Singers & speakers Clergymen & influential people in Gibraltar.

Mr Christie in whose office I am now writing is recommended to me by our American Consul Mr Marston as being very energetic and reliable. He is agent for Ayers Sarsaparilla & Hop Bitters both of

to which houses consign goods & him in depot.
He has been here 9 years & came first as thither
& quite in which business he is still Engaged.
Largely shipping & English & Scotch houses He
has considerable business on his hands at
seasons and travels through this province &
Murcia & visit the Chemists. He speaks highly
of the standing of Chemists and says they are
the best pay of any class of dealers in Spain
that he does not know of an instance in
which one has failed or neglected to pay his
bills. I may arrange with him & introduce
our goods into the surrounding towns.

We should get the Fellows &c & given the
agency in Spain as there can be a good trade
got up here such a preparation being much used
&c. It will however require labor & patience &
expenditure to support. They should allow us
an extra discount.

I am now going & with Wholesale and retail
druggists and at 4. have an appointment & call on
the English Doctor with the American consul who
introduces me. ...

"MacBurgos is here also and & I meet
& discuss he speaks Spanish fluently &
I think we should do a good trade in Spain through
the efforts of a good active & competent man like
Burgos. Yours truly P. M. Dunnoghe.

SMB 1/3:62

Expect to leave Marseilles on Tuesday 15th inst.

CHRISTIE & BERNAL
Málaga.

TELEGRAM ADDRESS
CHRISTIE-MALAGA.

Málaga, Nov 12th 1881

Dear Wellcome.

I have written you our long letter this morning and have now to add some minor matters viz.

I have arranged with Mr Christie to translate the proposed circular into Spanish & forward it to you. If necessary he will get it typed & revise it though he is a good Spanish scholar himself. He writes a very legible hand & his copy will be easily understood by the printer. You will see the importance of having this printed immediately & to that end had better give it to Bradbury Wilkinson & Co. The pamphlet should be of such size (as to just fit into the Cartons of Hazelin & Bo Br standing & fold around the 403 Bottles sideways. Mr Christie is willing to translate for nothing but I told him we will be glad to make him a present on this account when the translation is completed. He will revise & return proofs when you send them. Printing can be done Cheaper and better in London than here. On all Spanish labels & circulars after stating formula & dose in English measure & weights the French should also be added in parentheses as ~~dose one grain (0.05)~~ dose fifteen grains (one gramme). the quantity in bottle should also be specified both in English & French measure & Weights.

Mr Christie must send his case of samples ordered in case of Bunyone B.B.C. not to them but rather to the address on the enclosed card to the agent of the Halls line Steamer Malaguita Don Andreas Reyes in case of the Halls line Steamer / New London next but do not mention Mr Christies name.

By putting up & sending the samples immediately on receipt of this you will be able to get them ready for the first Steamer which sails on Thursday Evg. or Friday morning Early.

Mr Christie will solicit orders & be executed through B.B.P.L.C. London. They will give their usual commission only and I have promised him that we would not further notice pay him accounting as all orders procured sent to B.B.P.L.C. 5% on all not returned. Requesting us copys of orders & the orders themselves to transfer to B.B.P.L.C.

Please send to Mr Christie the Apples ordered yesterday and in addition

1 or Pkt Phos
1 or " Sept
1 or " Iron 1/50.
1 or Chl Pot
2 Boxes 1/- also Apples of other tablets

and samples upon sizes of several of our other important articles and a hand bag to carry Leather case of Apples which you can buy of Pkt & Hatchett Mary made.

P. M. & Co.

Dear Sirs,

Since writing the inclosures I have had further conversations with Mr Christie and have made arrangements with him to distribute our Samples to the medical profession here.

You will therefore please add to the order for Samples to him (Postal's line)

24 Boxes Samples
24 Trial cases.
50 Splrs Chl Potash Extra
24 Splrs Hypophosphites
12 or 24 Hypophosphite Books
100 Price Lists (medical) as he will sell by this and as we have to give him 5% on all sales.
English Stamps as Hypo not required in Spain
50 Business Cards Mr Chas S. Christie across in red letters.
25 Kepler Shorthands 1 order Book
25 B. W. Shorthands.
2 Tablets Myrtle Shorthands.
1 Magelin Shorthand (Tablet Frames)
30 Doctors letters. one to be in each box of Splrs the rest loose.
50 Recent reports.

Yours truly
P. M. & Co.

Mr Christie & Mr Burgos got an order from one of the best Chemists here this P.m. The order will be sent to Mess Burgoyne B.& Co. You will please credit Mr Christie with 5% upon it and also credit Mr Burgos with 5% upon it. I have told Mr Burgos that when a local agent assists in getting an orda the commission must be divided.

Mr Burgos would like when we have seen what he can do that we should employ him on a salary and pay his travelling expenses. He is now dropping his two other commissions and giving his attention entirely to our goods. I have good expectations of his ability to serve our interests as he is very intelligent and energetic and exellent powers in conversation.

On another sheet I give my views as to how our goods should be got up on the Continent viz the Hamburg & B.A.W.

Mr Christie will send his original orders & B. B.Bs & copy & you keeping the third for himself as I have supply him with some of your order Books

SMB 1/3:64

Yours truly, S.M. Bennett.

P.S. Regarding what follows for Spanish Countries we have Spanish pamphlet for French the French for the Spanish

As there is room enough here I will give my views as to putting up for other countries. the A. & B. B. & W. In all cases let the English label remain as at present with Bottle. Let the front of the cartoon be English also. the back Spanish one side French the other Germans with a Statement that the directions for use will be found with the pamphlet inside. This will save the trouble of [illegible]

12th November 1877.

Dear Mr Wellcome.

Yesterday we called on the Chemists & some of the Doctors The English Physician here Dr Vicik who has been here 12 years was in the print of ordering some of the pills from the notice he had seen of them in the Lancet by Dr Woodward and now while I think fit can you not get some one connected with the editorial department to write an article editorially upon the subject. You had also better write Sir Wm Muir & his assistant as they will not like to be known in the matter Ordinate Social relation. If you can with the assistant as he will have great influence & in this way you may be able to counteract & annoy & more.

You had also better try & secure the influence of Parry & more as they now seeing how strongly the tide has set in in favour of our goods might fear the censure of the Medical Department if they refuse to supply them because they are not sole proprietors of them

If Dr Powell has arrived he will do the thing pirpendicular upon.

Now regarding the business in Spain. I still think have Senor Burgos see the leading Chemists & Doctors in Each of the Capital towns say 12 or 14 of them which

will probably take 6 weeks or two months.

Barcelona is the great commercial center although not so central geographically as Madrid.

I think it will be imperative that the B & H & Hazeltine shall be mixed & bottled in Barcelona because the duties on all pharmaceutical preparations are reckoned by gross weight including weight of the bottles. It will therefore not amount to much on the Tablets or pills, but will be prohibitory almost on our liquid products.

Mr Francisco Graves a Spanish wholesale druggist in Barcelona is agt pretty well & keep and manufactures H to whom Pettus put us McNally does in Montevideo. I expect to go from Marseilles to Barcelona & meet Mr de Burgos who leaves here this P.M. by a steamer which stops at several coast towns on the way. I will then be able to see what can be best done and as soon as this is settled can leave Mr Burgos & work the country. I think the pills will take very well tablets also they will sell as they are though in case of the tablets enclosed in Spanish or coin might be an advantage this you could quickly print and paste on London. The Poz Bo & Hazeltine Should be the sole Signs in Spain & you should get labels & cartoons ready for them in Spanish at once. You can send the Bay Rum diluted with Glycerin to Mr Burgos who will mix with coin & have filled & put up in Graves laboratory and then sell

& Grapes who should give his bill at 3 mos for the Stock he Must he has paid for the wine which will be very small as wine is cheap say 18 or 20 ℓ per pipe.

You can also send the Concentrated Glycerine mixed with Glycerine & the Burgundy add Water & Bottle & have Grapes pipe to the

I may be able to buy bottles in Barcelona that will do for samples & stock of both Hazelin & Burgundy and as they may not be like ours & as they may have to send out the first lots with out Cartons & simply wrapped in paper.

I will have a book or pamphlet printed in Spanish in Barcelona embodying all the good points of our present Wine pamphlet and also with Complete list of all our goods in it. This pamphlet should be wrapped around each bottle of the Hazel Burgundy & malt.

The malt & Wine we may be able to get through the Customs as a food at low tariff & not we shall not be able to do much of anything with it here. Our bill it can ship from London all put up but with the simple addition of a thin label giving name & dose in Spanish pasted at back of the bottle Cartoon no use. thinking of putting it up in Barcelona at present.

Will have copy of Spanish pamphlet sent you soon as ready. Please send to Care J. Grau Barcelona 1 Electron Each for Inhalers. press & will go in pamphlet.

It might be well for me to have a letter from the City Bank to Mr Graves or to get that any agent to be able to cash Cheques upon the letter stating the Standing of the house and also saying it will bear my Signature which I will add to it upon its arrival. You may send this letter and also some 3 or 4 Cheques to Cp Francisco Graves Wholsale Druggist Barcelona as I shall not but a day or two in Marseilles, but intend visiting that city again on my way from Barcelona to Nice Cannes.

I hear the Spanish are great people for taking medicine but the drugs here are very unreliable & Vicick said he had to put up all important prescriptions himself. He will now however prescribe our goods & can easily ascertain himself of their genuineness. The trouble is not with the dispensers here but with the bad quality of the chemicals as chloral or active principles or Quinine which the manufacturers & wholesale trade supply.

I will instruct Mr del Burgo to take orders with our option of shipping from London agent of his Customers or from our agent in Barcelona. The Samples or depositaire he can promise to send us with the goods. I shall not be able to land any quantity of my samples, nor on the Ceylon at Marseilles owing to her being not a freight ship & so being excused from paying port dues.

I shall therefor be obliged to transship them

at Marseilles on a steamer going to Barcelona & accompany them myself as they could not go through the custom house without Spanish Consuls Certificate in London which I could not get.

Put no prices on labels in Spanish for any of our goods as I must fix them when definite arrangements are made in Barcelona.

The Cyclone sails on Saturday for Marseilles & We hope to be there on Tuesday Evening or Wednesday morning.

Please give my best regards to all our people at Shorthill also to Mr Tony Flick and Families and musical friends also to Mr Morris & Hymes.

Hoping You are getting your meals regularly and getting plenty of sleep & therefore are well.

I remain as Ever
Yours faithfully
C. M. Burns

Get material ready & Ship if necessary. Make
20 gross Boxes & 500 Samples
20 " Hazelines & 500 "
Mr Fellows will give us the
agency in Spain for 5 years We will get
him up a trade & you can have some
of his Samples & circulars strapped in Spanish
for distribution. Each should bear our name
as agents for Great Britain & Spain.

H. S. TROUGHTON.

TELEGRAM ADDRESS
CHRISTIE-MALAGA.

Málaga, Nov 13th 81.

W

B.M.& Co.

Dear Sirs,

I send please
find copy of agreement with Messrs Christie
& Co. which I trust will turn out to be satisfactory
mutually to them & to us. They are energetic people
and I am assured mean to work hard to introduce
our goods. I think they will make it to our interest
to continue the agency for this district permanently
but we shall be able to judge afterwards.

The Cuyas sails this
afternoon for Marseilles.

I think I have ordered a tube case
and a roll case to be sent to C & Co with samples
if not please add them to order.

Mr de Burgos expects to be in
Barcelona in 3 or 4 days and I expect to be there
shortly afterwards.

Last night we had a very pleasant
Ball on the Cuyas and several of the Ladies from
Malaga attended. I have several good friends here
who cordially invite me to their houses and I have
just been entertained by the family of the British
Consul.

Yours truly
M. Burroughs.

Dear Willie,

I am just wid and read my letter sent in care of Rabaud Freres, hany a wonder you no I take it for granted Everything is lovely & flourishing.

The weather here is delightful. Like in May at home Much September. Not cold or overdone or thick clothing.

I got to the Bankers just befor hours for closing, so the morning I shall look up the American Consul, and try to get some good parties interested in our goods.

We will not be able to get Sample through Customs here I think yet will Have to take them with me on Steamer to Barcelona, Expect to return here in about a week from

the huge waves and then leaping swiftly and high into the air as the ship rose and fell for they were making ready to hook the anchor one of those great ugly hooks was pointed ~~outward~~ toward us - a stroke less by my unnerving hands & that oar would have lifted us before the swift and solid bows of the ship which would shiver our boat in a second, half a stroke less and that terrible anchor would have torn through us lifting our boat like an egg shell and dashing it under the waves -

Our escape was most providential apparently almost miraculous - My life was saved by God and henceforth belongs to Him. Therefore in the future may it be great aim and study of my life to labor as best to serve him and do good in the world. Faithfully Yours

S. McBurney

I had a narrow escape from drown-
ing in Malaga Bay was attending
to the ship Sunday afternoon just
before the time she was to sail. There was
a wind & heavy sea against us and
I took an Oar with the boatman. It
was a heavy boat for two & We got on slowly
with hard work. While we were pulling
away giving all attention to the oars,
the Spaniard sitting by cried out, and look-
ing around I saw a big White Ship com-
ing right down upon us in full sail. At
first I thought she was going for the open
bay & backed water to head for the Mole
on her right when she headed for the
same direction and would be smashing
through our boat in another half minute
I was so bewildered I hardly knew what to
do & pulled away with hard hardly knowing it
She passed us hardly her anchor swinging
within a hands breadth of us sticking in

My idea is to have one pamphlet in Spanish which shall answer every purpose in that language about suitable to send to the profession & to Chemists about map around bottles of medicines & in some instances for circulation among the better classes of people—

It can be got up of the size & style of printing of Perry Davis book 40 years around the world & than we can afford to use it literally as it will be cheap, I would put into it cuts of all our articles and some of the best reports upon them.

This will take about 24 pages of a little less than the size of this sheet & admit of large plain type being used

this and then to go on to Nice & Cannes.

Will see tomorrow if I can get Rabaud Freres to cash my draft for some money for I am getting short. I wrote for to send me some blank cheques which likely will arrive tomorrow.

address

c/o Rabaud Freres
Marseilles.

as I expect to be here a week from today —

Yours truly

[illegible]

Kindest regards to mr Sutton the Kirby Mr Fellows Callin & others & also to our dear home Patrons & mutual friends —

Marseilles France
November 7th 1888.

Mess. Robert Frigard.

Dear Sir.

In consideration of your agreement to use your best efforts to introduce our various preparations to the Druggist Pharmacists & Physicians of Marseilles & vicinity we agree to pay you a commission of 10% on nett returns from Sales of said goods made by you (excepting Elixirs Hypophosphites which are 5%). You to charge prices as per Medical Price List. 20% discount to Wholesale 10% or list to retail houses. they to pay duties. We would prefer that you sell to the wholesale trade sending us direct orders from most responsible parties only as are recommended by Messrs Roland Frères &c. Our usual terms are Monthly A/c but we will accept bills at 3 months to begin on receipt of invoice & bill of lading & Mess Robert Frères & Stutt Rotterdam might be asked to send the orders & as to hand to the parties in London or elsewhere who are the Correspondents of our customers here & to them we would look for our pay. This agreement to continue until further notice from either party.

Yours truly Murray & Nickelsen & Co.

Marseilles. Nov 17th 1881.

B. W. & Co.

Dear Sirs,

As I find it will be impossible either to land my samples here or to get them transshipped to Barcelona I will go on with them to the route that takes including Genoa, Naples, Palermo, and Malta where I shall probably stop perhaps will go thence to Alexandria as there there is a good chance to sell drugs there.

I have therefore telegraphed you to forward samples to Mr Burgos in care of Expranz Barcelona.

I have got an agent here who will translate the reports of part of the Pharmacopia into French and forward prices which houses here quote for printing the same. The size of the book should be about such as when folded down the middle it will just fit easily into the small size cartoons for single bottles of Kazeline & B. W. Will you please send to Mr Burgos and also to Mr Frey out a piece of paper folded the right size for the book, as I have instructed both to get translations & quotations for

printing and to forward same to you.

Instead of putting up Special Kits of words in Each language I think it is much better to preserve their English identity by leaving English labels and printed matter about the as it is, including however in Each carton a copy of the book we are to have printed + also pasting an additional label in the language required upon the back of the bottle & upon the back of the carton if it has not the foreign language upon it.

I think the best way to arrange & manage the cartoons & boxes of Stazeline will be to have English label as at present with English directions then English label in front of carton French or back Spanish on one side German on the other. Do you not think this would do for all foreign countries & save us lots of bother about getting new cartons for Each language

Mrs Allens N.R. + other foods are put up in this way. Please send a leatherette case, also 4 Box Samples 4 6 7 cases, 1 Tube case 10 Price Lists by fast Freight to Mr Tregant. I inclose agreement with him, the Ship Gibb direct.

Yours Truly — S. M. Burroughs

SMB 1/3:69

Genoa Nov 18, 1887.

B.W.L.

Dear Sir. We have just arrived here but too late in the evening to land. left Marseilles at dusk yesterday. I wrote you from Marseilles that I was going on to this place Naples Palermo & Malta, at which latter place I will expect to hear from you as to whether I am needed in London for if not I may go on to Athens Smyrna Constantinople & Alexandria hoping to do a good trade & get our goods well started in Each place. I think it will be well to secure a good local agent in Each locality who will call on the trade and profession & drum them regularly once Every month or so in consideration of a 5% commission on his sales, or if he travels in the country will give his attention largely to the goods then 7½ or 10%.

I have written D. de Burgos to get quotations from two or three houses in Barcelona for printing a 24 page book of the size of the blue sheet of paper inclosed and to send prices & samples of printing & paper on Each of the prices a little dear I think it will be best to order say 5000 copies in French & 5000 in Spanish & have printed in Marseilles & Barcelona respectively so that Tyrrell and de Burgos may have material with which to go to work immediately I have written both to send you quotations & will give copy to Each

Yours truly, W. M. Burroughs.

I inclose a sketch of the matter I have arranged & can translated by Miss Christie & Burgos in care of F. Grants Barcelona. If Mr Fellows wants the space reserved for him please forward copy for it at once & Mr Burgos if not send him other copy for that page. I think it a good plan for the proprietors public houses & that addressed to Pharmacists as of special importance to them

It is important I have the book at the earliest moment possible as much as it is to have it at all and you may deem it advisable to allow Mr Burgos to be responsible for correction of proofs as he understands Spanish thoroughly and as I will also get medical advice to assist him if so please write him to this effect

I notice that mould has gathered around the
corks of samples B.A.W. and think you will be
able to prevent this by soaking in water that
has a little salicylic acid in it.

The 24 pages which is to be the size of the
French and Spanish book will include complete
list of all our goods and nearly all the matter
of any consequence in the "Recent Reports" pam-
phlet. Proofs will be sent to you in passing be-
fore the book goes to press but I must urge
you not to delay the Spanish book. It is better
that it should not be perfectly complete and
that it should contain our worst faults
than that Mr Burgos should be delayed in
canvassing Spain & as long as he can be
an assistant & his labors as this book will
prove. I will urge him to give most careful attention
to translation and the correction of same of proofs.

There will be a page in Each opening & Mr Fellows
if he wishes to share his proportion of the cost of the
book but he certainly will not expect us to give it for
nothing especially as we make little or nothing on the
Hypophosphites sent to Either France or Spain having to
pay 10% Commission besides Salaries & all the goods—
We are having splendid weather. Kind regards to all

Yours truly. J. M. Burroughs.

P.S.

I don't see much prospect of being able to get away. If the Turks draw with me into France. If I go to Alexandria & Constantinople I shall not have them all there. So you had better try and ship plenty of rice & canaries for South of France through your Customers.

I have advised Trigant to get the Wholesale trade in Marseilles & take the goods up & turn over his stock for retail trade & then —

Please to tell Mr Terry I have given Malta instead of Barcelona.

Palermo Nov 20th 91.

B.W. & Co.

Dear Sirs. As I intimated I have decided to appoint Mr A.G. Beaudoit of Naples (Vico 2° Piliero 4) our agent there. He is an Englishman who has resided in Naples since he was a boy (now about 35) a very pushing man, has agencies to sell Soda ash Chemicals &c. is very active & will call personally on Doctors & Chemists. As soon as the translation is completed by Dr A. F. Cacace (of Hotel Royal Napoli) Mr Beaudoit will get quotations for printing it in Italian Spanish as the French and Spanish book forwarded can be for your approval.

If Mr Fellows does not take the page we can use it to advantage in giving Comparative Weights & Measures of French English & Italian.

Please send following samples to Mr Beaudoit Vico 2° Piliero 4. Naples.

2 Doz Box to Sples	3	2 Doz 6 r cases	
1 Tube case	3	1. No. 11. Case of leather tips	Can
1 Leatherette Box Sples	3	1. Hand bag usual size	
100 Price List	3	Sples of Reg sizes to suit the goods.	
3 Sples Nubian & prices	3	Orderbook with carbon	
3 (perhaps best afterward)			
100 Bl Desin Bks hdl Sp		100 Bl Phos Sh 1/50 Sp	

and any other Sples or reading matter as may occur to you may want to send.

If Mr Fellows will give us agency for Italy France & Spain for 3 years. We can stop upon trade principles.

Will McKellar give us a show to sell Nubian in these Countries. Yours truly

T. R. Burroughes.

S. S. Ceylon off Naples Mar 22.

B.M.Co. Boston.

Yours in Gibraltar with power of attorney just forwarded on Monday I signed & sent the other out to you Marseilles. These are the only communications I have had from you during my absence of nearly a month but no doubt you are very busy, and I take it as an assurance that all goes well or you would write. I understand that Mr Williams has been away in Paris and hope the people at the Ministry of Commerce have at last decided to let our goods through the Lines.

Owing to some hitch in the quarantine arrangements & long & vexatious delays in landing us I have only a couple of hours ashore in the Evening & I accomplished nothing there.

Here in Naples the american Consulate gave me letters of introduction to a first rate dispensing pharmacist who will give an order today. He not also speaks English and will order. I have been introduced to an energetic Commission Merchant here Mr A. J. Meanduit of Piliers Nos whom I may likely appoint our agent here if he will agree to terms & push hard. He knows most of the Doctors & Chemists and all the English & American people and appears to be a very competent and reliable man. We should have in each large city some one to look after our interests and see that

the dealers keep good stocks and that the goods are kept before the attention of the Doctors - He says he will collect all the good Chemists + Doctors here as soon as our translation of goods are ready and after that visit the Chemists every two weeks + the Doctors often as may be necessary

We must give him to begin with 10% on his sales and after say 6 months give him 7½ at 5%. but he must have to work hard to begin with + spend much time upon them —

Please send me 3 order books 200 Supplements 2 cheques on Alexandria Post Office — Do you think to Constantinople Yours truly Fritz

(Nothing of business importance in this letter)

S. S. Ceylon Nov 20th 1886

Dear Mr Sudlow.

I don't know whether you receive it or not and whether back in London or not in consequence but will just drop you a line about the voyage in the Ceylon in which I am sure you will feel interested on my account.

We have had perfect weather ever since the Bay and have not had a rainy or nasty day yet — The Climate before the Mediterranean is delightful. Something like our May or June in London — Nobody but the natives wear overcoats or bundle themselves up and I suppose they are more sensitive to the cold than we are but that they have their winter arctic clothing on hand and overdo it economize — but not one

It was the same at Lisbon & Marseilles overcoat or umbrella did I see on Gibraltar —

You know the Mediterranean is so much favoured with remarkable scenery as well as pleasant climate, wherever we have seen the land it has been remarkably beautiful and especially so in the Bay of Naples which we have just left — where not only the mainland but also the Islands opposite the bay and all along the Coast are remarkable for natural beauty —

The Bay is almost circular with that part toward the sea protected from storms winds by the ~~hills~~ mountainous islands of Capri and Ischia —

on the north toward Sochia is that beautiful suburb of Naples called Posilipo. on the terraced hill or mountainside and half embowered in groves of the orange date palm and fig tree are many charming country houses. The ravines that separate them are spanned with many tall arches of stone thus making level roadways. Naples is reached either by the road along the beach or through the Grotto a long tunnel and very high arched I think the highest yet are natural arches for they are fifty feet from the road. On the Naples end of this grotto on the crest of the hill is the tomb of Virgil and it seems fitting it should overlook the scenes of many of his poetic fancies and romance. On the summit of this hill stands the Castle of St Elmo Most of whose walls are cut from the solid rock. From this lofty height there is a magnificent view of the city, Bay & mountains.

From the castle walls owing to the clear echoes one can distinctly hear not only the roar and hum of the city below but also the voices of children singing & laughing. Naples stretches round the crescent bay for miles and beyond its limits are vineyards and country houses all the way to the southern town of Castella mare. One time long ago the sea rolled where this town stands for the Marine gate of Pompeii is now a mile inland and more than a hundred feet above the sea level at the present time. So the world changes by [perhaps] the lapse of time and the forces at work beneath its surface. Nowhere more suddenly and remarkably than

You can imagine our feeling of wonder and awe as we walked through that silent city of the dead. Its houses Temples Theatres Streets just as they were left nearly two thousand years ago suddenly at that fatal day and towering beyond and over them to see the dread Vesuvius dark form. In the day with the sun shining upon it the cloud that issues from its summit and stretches across the sky when the wind blows or when it is still rises like a wide spreading palm tree—then the clouds white. In the morning as I used to see it from my cabin window on the Ceylon it was rose colored in the sunrise and in the evening looking from the walls of Pompeii the colors changed till nearly every hue of the rainbow shone upon it, the mountains and valley sloping seaward, also bring bathed in the same soft radiant atmosphere. In the night when we were driving back to naples we had to pass to the other side of the mountain a long journey, but as darkness came on the cloud from Vesuvius which spread southward over the mountains became less and less distinct while the red beacon in the sky shone deeper and brighter. not with a steady flame for sometimes it would be suddenly extinguished only to burst forth again lighting up the sky and clouds with its crimson fire.

There are Electric lights (Brush's) along the railway leading nearly to the summit and in the night they look like a ladder of stars.

While sauntering now on the deck the forecastle of the Ceylon

we are sailing with a fair wind through the Straits of Messina
Approaching from the East it seems as if we must shortly beach
at the base of the mountains which seem to block the way, but
when near a narrow channel gradually comes in view. The lower
mountains of Italy and Sicily along the shore are high, cultivated
and planted with vineyards in terraces. The large mountain
was completely covered in this way — Messina looks like
a splendid city from the sea it tall white buildings lining
the promenades by the water and suburban residences all up
the hillsides behind the town —

For the last week the ship has been going as steadily
on as if it was a river and not a sea the Mediterranean and
the Channel here is as smooth except the Eddies and
whirlpools as the Thames.

In the morning we saw the distant outline of Mt Etna
rising far beyond and above the rest the top veiled in a cloud and
now sailing towards it mistake another and another mountain
for Etna but remark what seems to be a great blue cloud beyond
them that is lifted so high above the clouds crowning the Panorama
the nearer range. But as we come nearer and the sun goes down
behind it what we took for a cloud becomes plain to our astonished
vision as the huge form of the greatest of the volcanoes of Europe
The rosy haze that filled the Channel as the last red light of day shone
on the floating sails and finally was lifted from the mountains of Italy

and beneath
has fled to the thin clouds beyond the blue mountain peak
The fires within seem slumbering for only a small thin cloud
of brown smoke rises from it and goes westward with the wind —
The moons clear crescent shines straight before the ships bows
that now slowly rise and sink with the long and gentle swell
the open sea into which we are now sailing. The Evening Star
as for many nights past appears an hour before the rest
and is now burning in the East —
Write to Jack I can hardly see to write now or find the lines and so will
pin my words or a few words on deck before dinner —

Malta Sunday Morning
The sunrise on the deep blue waters was a splendid
sight just made them shine like burnished gold. Sam
now waiting for the boat to take us ashore as most ships anchor
to church. This is a splendid harbour & strongly fortified, and
also you know has famous historical associations especially
with the history of the Church — Where St Paul was wrecked
and from this very port sailed to Rome through the Straits we
passed yesterday —
I have just rec'd a letter from the Williams and will telegraph
to-morrow to authorize you to sign Cheques signifying the same by the
word "yes" — I have no doubt everything will be well managed by you during
my absence and frequent occasions will arise when you will have
to act in important matters upon your own judgment. Rest assured

my dear and faithful brother that we shall be fully satisfied with whatever you do knowing that you will act with your always faithful devotion to the interests of our business. It is this that makes us feel confident that when you are in charge of our business it is safe in our absence as in our presence.

I promised Dr Bryant £1. for his trouble in making translations of the recent inputs into French & Cascade does not wish to charge us anything but I think we must appreciate for his trouble one of those double gilt cases filled with pills that he will be willing to select if we ask him. We can be assured in command his attention at any time and do not fear to ask his help whatever. He is a very bright young doctor and knows all the patent medicines in Hobart. We should also give him a leather dressing case for pills — and a few bottles each Chl. of. Br. Ca. Pot. Sod. Mist Chl. Mur. of potassium which has found the translation very convenient of Phuyorgan with Saffles goods as he writes every 3 months.

I think that rather than Pepsin should be chosen for the translated books. I think it will be a good bargain to get that 1st floor above our office for £100. This is what Haslin uses & pay with the privilege of giving it up at 6 months notice so Ed Chesebro said

I hope business keeps up prosperously was glad to hear from Mellorie of his success with the Nickel Rink Carlsbad and Mary of his pastime with them in Edinburgh

Hugh & Porter arrived yet & so he will assist you in any correspondence relating to Scientific or professional inquiries which Medical men may sometimes make

Either Yourself or Dr Porter Mr Hinds or Mr Kirby are welcome to the use of my room furniture at 24 Leinster Terrace during my absence & after I return also if Mr Wallcourt is not back by that time to occupy them with me

Mr Moore must also consider his home in London

I am very glad to be able to offer such little hospitality to my friends and take pleasure in having a seat to ask them having a home for myself when I am in London

Please give my best regards to Mr & Mrs Gardner when you see them and to Mr Pocock

Regarding the purchase of wine from the B. Spr. that Mr Selby has treated us so well and are such first rate people that we should buy of them if they will meet match other prices and get their people in with to use no more steam power to make the wine of the strength required by us

I have secured the services of Ottavio Dotto as agent for Palermo. He is a Ship agent & commission merchant and will get two young men to assist him in introducing

our work - His father is Professor of chemistry with Medical College. We are to give him 7½ % commission on our returns to begin with. Will send you copy of letter to him when sent & if you need it send him a card by mail the books in Italian are ready to send with them & that 50 by 30 or 40 dos will do to begin with. If then occasion should much be can send more. Am in Naples and Rome

The captain of this ship has received telegram to go to Leghorn and will no doubt get my cheque cashed at Alexandria for me to come with. You might ask McCulloch to write him to pay me more money if I want it at Alexandria

I want hear from de Bruyn yet but hope he is doing well in Spain — Mr Fellows should certainly promise in the agency for the entire acts which I can introduce him to. I think it will pay him well to do so, as I can introduce to him connection which he could not without great cost whereas our cost of introduction is less than his & whatever they should pay expenses with He should give us agency or commission for not years at least — as we shall have to spend more in time, money & attention during the first 2 or 3 years than our profits will amount to —

If de Bruyn seems to do well you can enter into negotiations with him or perhaps better give Expenses & salary and send him to Belgium and Holland & Denmark. I think he will soon make a very

useful travelling with the contents of D Porter does not come for
Gt Britain – Especially in France if we get permission to intro-
duce goods there – If we make Ext malt in each land it
may be best to bottle it at the factory & perhaps put it up there
too – perhaps this will give us sufficient room so that we
shall not want the 1st floor of office

Nobody seems to get any London papers at this side so I will
be glad if you will send me some – say one a day – also
send me the Commonwealth & Fountain – I think I will go from
Alexandria to Brindisi & Venice & visit Bologna Florence Pisa
& then go to Nice & so home through Switzerland &
Germany & Belgium – Our business letters & introductions will
counteract any acceptable tinge from any pro-Prussian
leaning agents & customers in these towns –

It does not yet appear whether B.B.B.'s have yet Entered
Chemin Neuf for us anywhere – customers in the Countries
I have visited with whom they might have done a good trade on
our goods some time ago if they had chosen, Unless they will
do more we must not depend upon them – They should also give
us name of parties to whom they send Samples that we may
not supply duplicate which in costly –

With my best regards to yourself & all our friends
and hoping to hear of good health & prosperity to all I remain
Yours truly, M Burlingame

P.S. Will you please forward letter to Smyrna (who will forward letter if Sam gone)

SMB 1/3:76

S.S. Ceylon Naples 25th 81.

B.B.H.W. Dear Sirs.

Send off my letter hastily from haste in case of my Manduit who accompanied me to the Ship. Midord order for Medagese one of the best & not the best Chemist in connexion in Naples. Better send him about 1 Doz Boxes Samples and 12 trial cases which he will give to the Professors and leading Doctors and visit himself & introduce the goods. I did not have time to give me a list of whom they would be given & but my Manduit & afraid of this & will send me the List. I think a good trade can be done in Naples through the work of the Manduit & Medagese.

I don't think Polly explained why my Samples could not be taken from the Ceylon at Marseilles. It is this as regards the ship not at dues but if she should carry freight or land any merchandise there not only becomes liable to 5 or 6 per cent not dues at Marseilles but also in very fact therefore she may enter.

The Captain said he would have no trouble in getting them off at Malta but could not do so anywhere else before or after. Even a single box of samples carried off the ship might get her into much difficulty. Therefore I carry them off distributed in my pockets and so far have escaped any trouble.

While I am here in the Mediterranean it seems a pity not to visit those countries in which there would be opportunity for establishing hospitals trade and of starting a connection in such cities as Alexandria Cairo, Smyrna, Constantinople & Venice which control the trade of Egypt Turkey and Eastern Italy

Unless I hear from you at Malta that my presence in London is necessary I shall go on to Alexandria &c & Constantinople and then probably to Athens Venice Rome Florence & finally to Nice & Cannes, which I hope to reach in about a month or 6 weeks which will be about the beginning of the [illegible] season & I am informed by Egyptian Contractors. Indeed I am told that the Constantinople season is from Feby to April I think so that for greater profits can reasonably be anticipated from the introduction of comforts into such countries as Egypt Turkey Greece Italy where there are such a number of visitors & where by acting hastily we may join the displeasure of the Chamber of Agriculture & Commerce & so spoil our prospects now good I am receiving permission & instructions

Manners

Since writing Pages 1 & 2 I have decided to continue on with the Ceylon as it will save me much time and I might have much difficulty in getting Steamers from town to town while the Ceylon stops. My Trunk is in bad usually & I had best not worry unnecessarily.

Here is Schedule of times of arrival and departure at various ports—

Towns.	address in care of	arrive	Depart
Malta	E.J. agius	Nov 27th am	28th pm
Piraeus	A. Laboosse agius	" 30 "	Dec 2nd pm.
Constantinople	Gilchrist & Co.	Dec 4th	Dec 7th
Smyrna	Joly & Co.	Dec 9th am	11th pm
Rhodes	Albert Billotti	Dec 12th am	13th
Alexandria	Reed & Co	Dec 15th	
Cairo	J. S. Grant		

Send also letter to Smyrna Rhodes & Alexandria

I may then go to Venice & Florence Rome The printed matter above may be in time to reach me at Constantinople. I will leave word however that in case I am gone the things be turned over to the Agent whom I there appoint.

Please ask Burgoyne & Evans to send you letters of introduction in each point. Also Van Dyck to Jaffa. Tell Burgoynes people I cannot much exertion themselves to distribute Tracts as I may get from one sent by them for one case of theirs that I am with letter for Burgoyne Evans only. Love Mummy

SMB 1/3:77

Return and Reply to Dr Grant Cairo

Ceylon Dec 1st 1881.

Dear Mr Sydenham

I enclose two small orders got at Valetta. Mr Kingston has not been very successful in disposing of the goods which he bought from me a year ago. There are only one or two Doctors whom he can depend upon to prescribe them. All the Doctors are natives and the native population is poor the wages of the labouring classes being only from 1/- to 2/- per day. Our goods are too costly for such a population. Mr Kingston is the only English Chemist and has nearly all the English trade he is very friendly towards us and will do all we can ask him to assist in introducing the goods. We must give him say 200 of each sort of picture cards except Hindoo which he buys of Lotus agent here. He should also have one of the Morton signs with his name on.

Mr Mizzi is a very good reliable man is young - say 25 or 28 and has a fairly trade among the native population. His principal Doctor desires him to get the articles which he orders. Enclose copy of agreement with Palermo agent Mr Scott. When the Italian pamphlets are ready we might send him Indentooks &c and say 2 dozen boxes stamps &c &c as for the leading Doctors also Extra

* Post Board

Not [illegible] for card Samples 2
Chas H Shaw

samples of Chlorate of Potash for the Aleppo ships &c. I say 60 grm samples – and a few thousands say 1/2 pd each Kepler Bros. with tube cake &c.

Please get up for Rackow agents viz Barrein Christie Mandrit & Dotto also for the one in Bar Celona near the mortar ships with his name on the sand that people should bore the hole in top of ships & in future all mortar ships should be named –

de Bunyoyes. I think they may have neglected to send samples many of the localities I have visited thinking they would not be suitable for our foods or not understood being only in the English language – I still believe that they desire to do all they can for us.

It would doubtless be of mutual advantage if they would enclose with their next price list an announcement or circular to the trade especially upon our foods recommending them and soliciting trial orders.

On the following page I will sketch out a few of the points they might make if present & if they would like we can print the circular according to their instruction and supply to them for insticking or insertion – It might however be better printed in columns of list Mr Reid will doubtless put it through all right –

Constantinople Dec 9th 71

Dear Williams & Sadler

Hamjint got back to the Etiamna at 11:30 this night having had an appointment at the Pharmacy of Della Sudda (Tyak Pasha) at whose place I have been engaged since 8 o'clock. He is the big Druggist here and supplies the army & navy also. Think I shall get his hearty co-operation to introduce our goods & all the big bugs among the Turks.

Mr Cauzack gave me an order this morning and will complete it tomorrow. I have been steadily on the drive after biz. Ever since I landed and will barely have time to get thro by time the ship leaves. The doctors all treat me first rate and are delighted with our goods. I think there is a splendid field for us here in Turkey. Not Cauzack & the Armenian English lands north & Della Sudda for all the rest. Cauzack does not speak English French is the language and all our bottles must be accompanied with circulars explanatory & with directions for use in circulars all in French our labels can remain English as at present. With those words put up in Cartoons as Hamjint & Bro & Co mail the front should be English the back French description uses & directions & one side Spanish and other side Italian. This will do for every European country and save lots of expense & trouble. The circulars or pamphlet which we in-

close can be in the language appropriate to the country to which the goods are sent — To this country they must be in French — To Portugal French & Spanish —

We must immediately get up a small cheap pamphlet in French Italian & Spanish say 5000 or 10,000 of each language & have say 16 pages ~~a pamphlet~~ ~~have~~ that can be wrapped around each bottle also, that can be supplied in quantities of say 100 to each of our customers —

A book similar to the new London Water book is somewhat similar style will do though the type must be smaller. Then with every package of our goods sent out all are advised & customers made sure if it is for others than the one purchased —

In future Messrs Wyeth should put on the bottom of the boxes & also upon box of pastels & other tablets name & directions of use in French. The circular inclosed should be done French same Spanish down Italian — according to the country they are to go to, or in urging the customers to present them a circular translated put it into each small box Tablets also fasten one to back of the Bottle of Dial Sun by a rubber band doing this in London whenever we have orders for these foreign Countries. A still better way to fix the Dialyzed Iron up will be to have a

cartoon that shall have for its outer part a label extending all over it like the Kepler nib opening in the middle, as at present. On one side should be the English part as at present on the back a copy of it in French. The same in Italian and Spanish on the two remaining & narrowest sides. On the top name and directions in German. The inclosed circular can remain inside as it is & we can attach with a rubber band one of the pamphlets we are getting up to each cartoon. This style should be known as the "Short" style & is suitable for all continental countries.

I don't think we shall be able to do much in Germany with any article except Compd Tablets Nazeline & NERVOKA Pills and as Germany is the dearest against our goods while there others have visited give them already welcome & Encouragement I think we should leave Germany till the latest.

Yours faithfully.

C. M. Bynon Esq

Will send you another copy of Canzuchi's order by the next post. also write further from Constantinople.

Please write me substance below

Dear Mr Comm

Please note & due C. A. Yorke ~~tomorrow~~ early ~~let~~ Adelaide stating that we have thought best that instead of sending on samples for him to distribute ~~in his town~~ that we will authorize him to agree that we will supply a set of samples viz Malt. Malt Oil Bovril Hazeline, Chl Pot. Peptonic Soda Mint ~~Lemon~~ Each Doctor of the Customer ordering thro' him, and asking him to get from Each Customer the name of the Doctor the samples are to be given to that results be noted Each Doctor and that we may note to thank & mention the agents name as keeping the Stock of goods

You might honour send down
to Mssrs Gosnell Ho and Seguin
if a letter will reach them Grenfell
at Adelaide, and if it will
you might if there is time
send by Steamer also a dozen
a dozen boxes of sample as
just mentioned. after mak-
ing the box in paper one of
the Doctor letters should be
laid upon it in an unsealed
ready for addressing & then
another coarser paper should
be wrapped around the whole
On the Blank side of letter
to Doctor should be written
a Statement something like
this. "To the Medical profession"
In presenting the enclosed
Specimens of improved pharma-
-ceutical preparations I have
pleasure in stating that they

are now constantly employed with the greatest satisfaction by all the leading physicians and Surgeons of Europe and America.

If you will kindly send a list of such as you Effect to prescribe either with your Druggist and Chemist or to myself I shall expect to arrange for a supply as early as possible

Your earliest attention is at once solicited as my stay in your city is very brief. to-day

I remain Yours very faithfully
H. A. Gosnell
(Wm John Gosnell)

Representing
Burroughs Wellcome & Co (Holborn)
Manufacturing Chemists
London

If too late for Adelaide
let it go & they can be sent by the next
boat as I am greatly disappointed
though there would be no
harm to send to Care of
some good druggist in
Adelaide say Grimwade
Agents) & they can distribute
if Mr Gosnell has gone —

The Cough Mixt
& Malt Food should be tied
& mixed —

The neck of Sample bottle
is not properly made and takes
down wards so that the cork
is easily forced out. You
should send to Brooke & Reed-
-dy this immediately. The
neck should be moulded like
the neck of a wine Bottle —

Yours truly. J. M. D
