762. TRACTATUS MEDICINAE UNIVERSALIS. MANUSCRIT LATIN sur papier, du milieu du XIV° siècle. 115 (chiffrés CXX) ff. Pet. in-fol. Vél. 1250. —

MANUSCRIT FORT INTERESSANT ET D'UNE IMPORTANCE TOUT EXTRAOR-

DINAIRE POUR L'HISTOIRE DE LA MEDICINE.

Il est suffisamment connu que des manuscrits de médecine de cette époque comptent parmi les plus grandes raretés surtout des manuscrits aussi détaillés que le présent qui — que nous croyons — est composé par un médecin

célèbre de son temps.

Pour donner une idée de la richesse et de la variété du contenu nous donnons ci après les titres d'une partie des chapitres. Ce qui est spécialement remarquable, c'est le grand nombre de passages sur les maladies et le soin des dents qui s'y trouvent — peutêtre un des manuscrits les plus anciens qui s'occupe d'une manière tant détaillée de cette matière importante. — Vers la fin l'écrivain parle dans un grand nombre de chapitres sur les animaux, leurs vertus pour la médecine et leur utilité pour l'homme en général où l'on trouve aussi plus, chapitres sur les poissons. — Cà et là on remarque aussi qq. observations chimiques, alchimiques et-spécialem, sur les couleurs.

Voilà les titres:

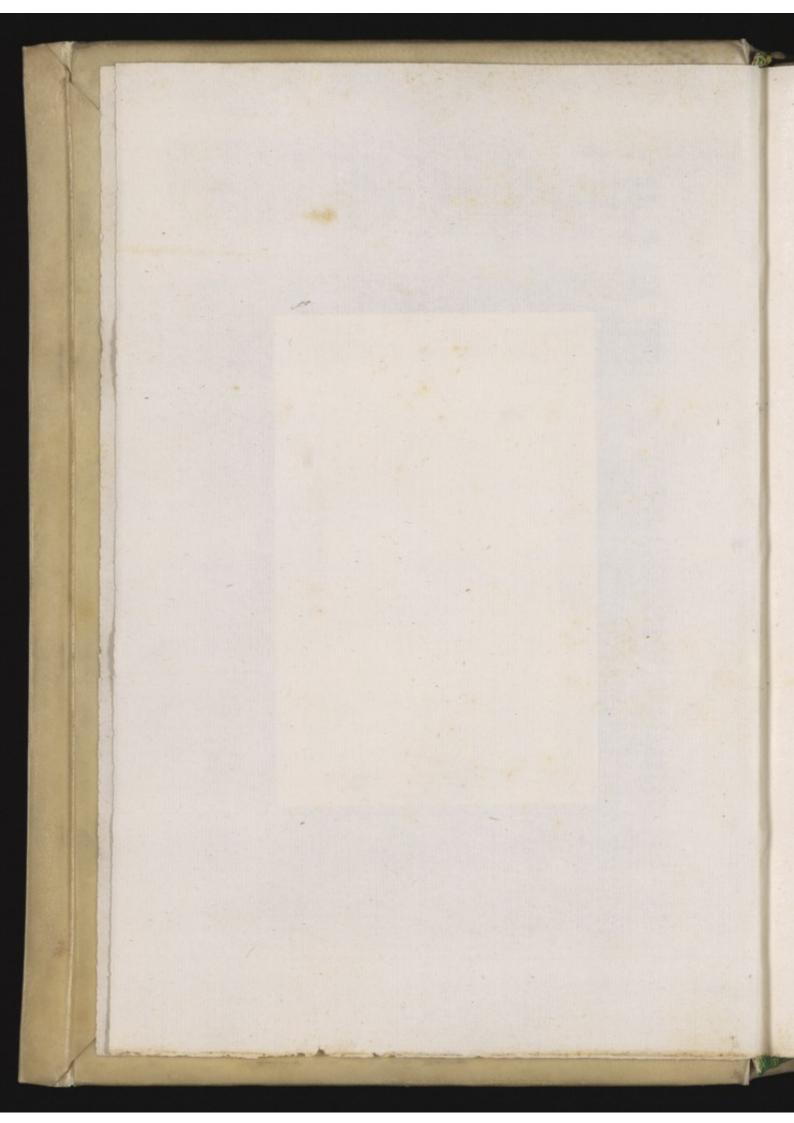

Ad precisionem nervorum. - Ad diversas passiones oculorum. - Experimenta probata ad vulnera curanda. — Ad faciendum capillos rinassei (2 traités). — Temperamenta ad temperandum ferrum. — De passionibus aurium. — De tussi et ejus speciebus. — Ad vomitum percurandum. — Ad pueros qui dormire non possunt. - Ad faciendum puleros dentes. - Ad scabiem. — Ad febres acutas. — Ad febres acerimas. — Ad dentes dealbandos. — Ad dentes confirmandos. — Ad illos qui urinam retinere non possunt. — Ad flussum ventris et dissenteriam. — Ut mulier non patiatur abortum et fetum contineat. — Ad dolorem dentium (2 trait.) — Contra epilepsiam s. morbum caducum. — Ad dentes perducendos in pueris sine dolore. — Ad fetum mortuum educendum. - Ut accetum convertatur in vinum quod de muffa sentit. — Ad consolidationem vulnerum pulveres nobilissimi. — Ad emoroidas. — Ad lumbricos etraendos. — Ad menstrua mulierum. — Ad vocem elarificandam. — Ad dolores capitis. — Ad dolorem bestiarum. — Contra morsum serpentis et canis rabiosi. — Ad eos qui sanguem vomunt aut sputant. — Ad vitium lapidis et arenule. — Contra scabiem canis. — Emplaustrum per capitem dolentem. - Ad fugandum spiritus de corporibus hominum. -De scrufolis. - Ad curandum mulieres habentes guctur (?) grossum. - Ut sterilis concipiat. - Ad nauseam stomaci. - Ad mundandum tumores putridos et setores dentium. - Ad curandum reuma. - Ad venenum. - Experimenta probata ad vulnera curanda. — Ad fistulam. — Contra tremorem manuum. - De partu mulieris. - Ad dolores dentium. - Ad curandum carbunculos ... - Ad tempestatem aeris. - Contra podagram. - Ad faciendum Zuccherum rosaceum. — Ad rugas de facie tollendas. — Ad splenem. — Ad recu-peran lum auditum. — Ad vermes qui nascuntur in vulnere. — De virtutibus quae sunt: in gallo — in upupa — in vulture — in columba — in bubone — in sa guisuga — in aerospice — in pisce qui dicitur buglosa aut lingua bovis — in pisce qui dic. Delphino — in pisce qui dicitur canis marinus — in pisce qui dic. Triglia — in pisce qui dic. phoca in aquila — in leone in bove - in vaccha (" unguis vacce bibitus a muliere cui lac deficit restaurat lac et corroborat corpus lactantis mulicris ») - in cervo - in capra dome-

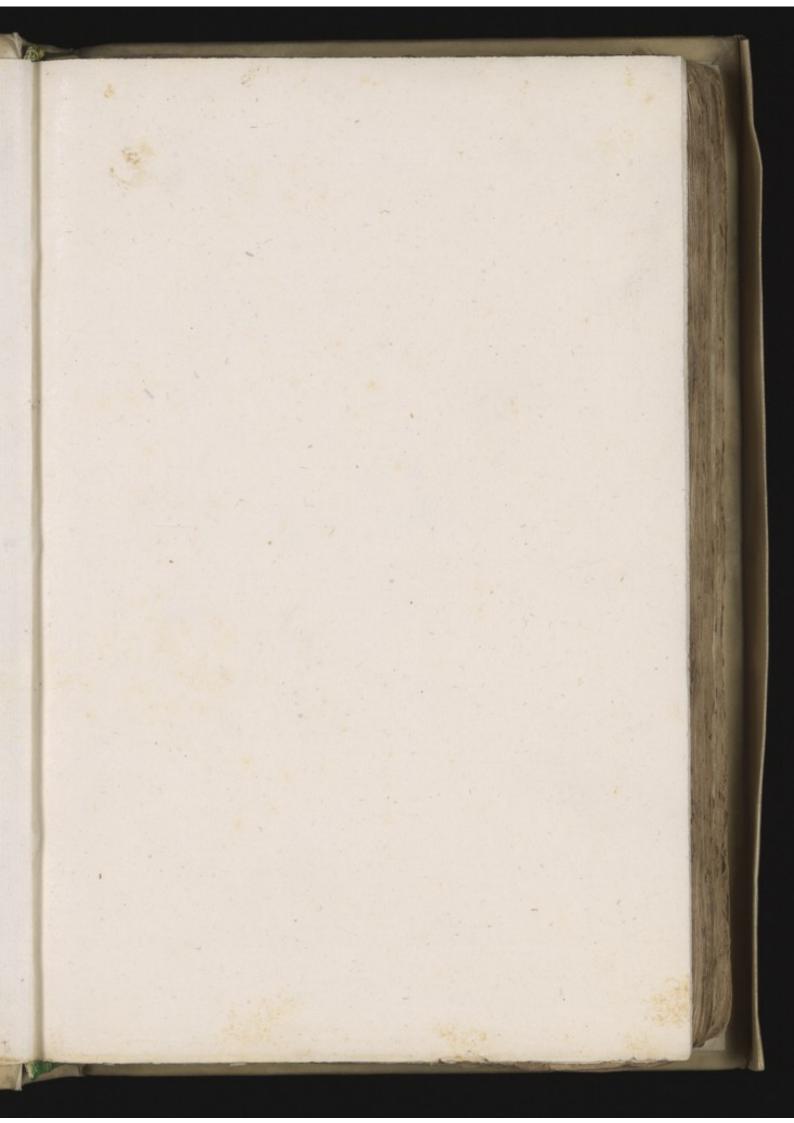

stica — in ove, etc. etc.

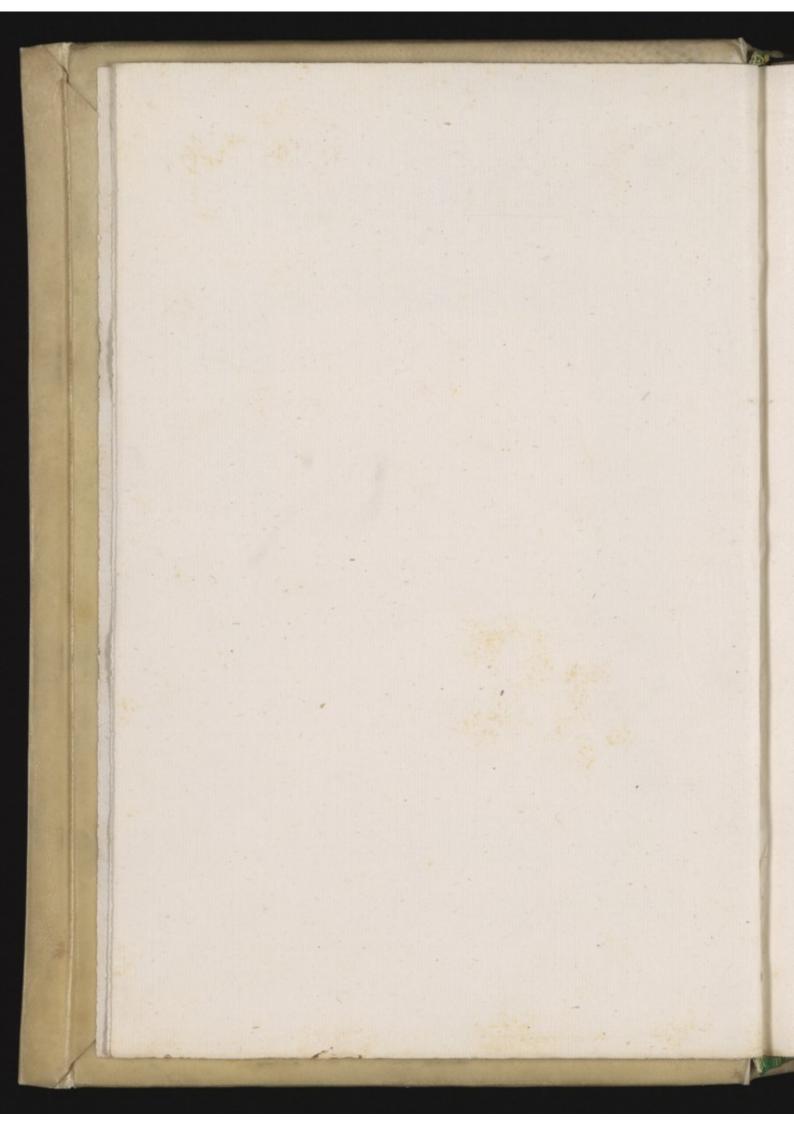

L'écriture, de la même main par tout le manuscrit, est très soigneuse et bien lisible, sauf le 1.º f. (donc une pièce manque), les ff. 2-7 un peu tachés d'eau en haut et une tache de rousseur aux ff. 43-46, où la lisibilité a un peu souffert; mais à par celà le manuscrit est bien conservé.

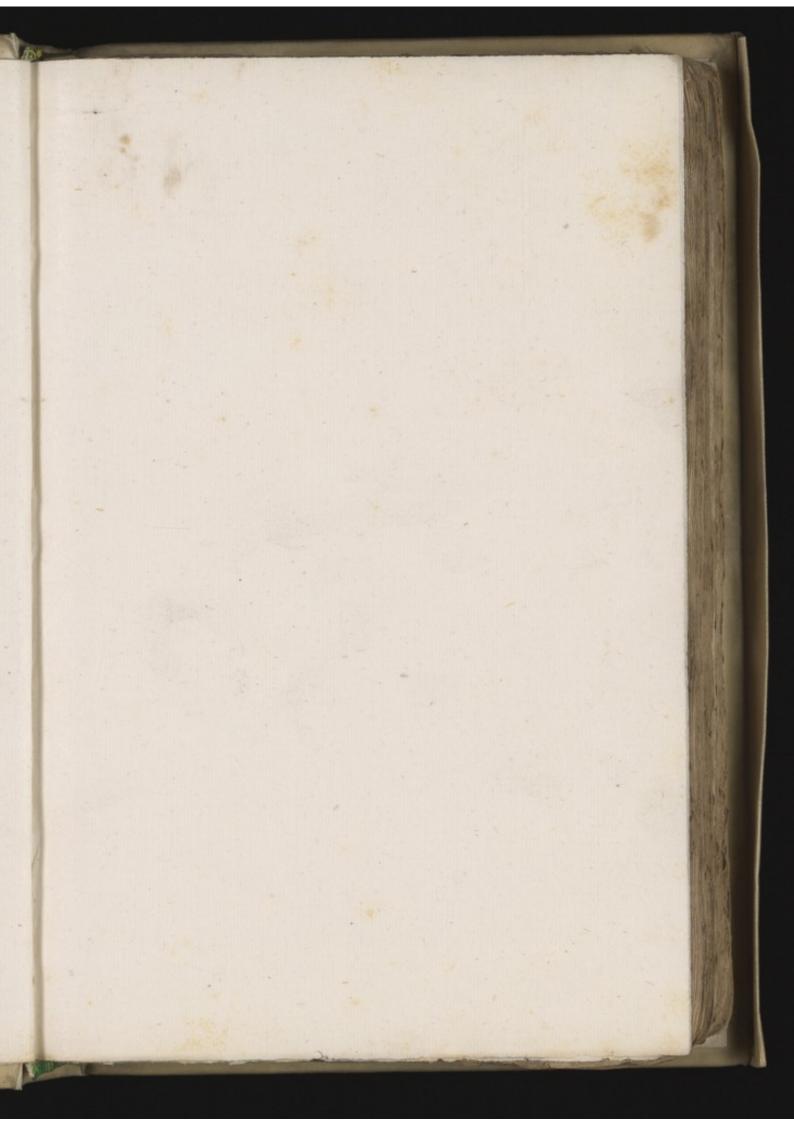

PIECE PRECIEUSE ET DE LA PLUS GRANDE IMPORTANCE.
