Dear Sir,

I understand that you are having a scientific Exhibition in connection with the advances made in Medicine, Surgery and the Allied Sciences .

In this connection I may state that I am exhibiting at present in the Glasgow Exhibition my Baby Incubators which have proved highly interesting to the Members of the Medical Profession .

Last night we had a Private Inspection & the leading Members of the Medical Profession here in Glasgow, at which Professor Glaister, Professor Jardine and other eminent Members of the Profession expressed themselves in the highest terms in reference to them.

I may state wherever I Have shown my Incubators they have been a Source of Interest both to the Members of the Medical Profession as well as to others .

Dear Sir,

I have been kindly informed by Mr. John Knox, a representative of Messrs. Burroughs Wellcome & Co., that you have in your possession a prescription for 'the Countess of Mornington and the young child' (The Duke of Wellington). May I ask if you would kindly lend the same for the Historical Medical Museum which is now opened in connection with the International Congress of Medicine. If you would be so good as to consent to lend it to us, would you please forward it to me by registered post, and state on the enclosed form the value for which you wish it to be insured. I am also enclosing a copy of the hand book to the Museum.

Thanking you in anticipation of an early reply,

Dear Sir,

In reply to your letter of the 3rd inst. with respect to a copy of the prescription for the Duke of Wellington, I am afraid that a copy would not be of sufficient interest to be placed in the Museum. As our space is very limited we are confining ourselves to the exhibition of original autograph letters and original prescriptions. Otherwise we should have been glad to avail ourselves of your offer.

Dear Sir,

In reply to your letter of the 26th ult. I find owing to a clerical error on the part of our typist, it was stated that we already had a copy in hand of the framed circular you sent us. This does not appear to be so, as it referred to an engraving sent by another lender.

I am sorry I cannot define your meaning with reference to the Prescription of the Duke of Wellington.

I have noted that you wish your name attached to the exhibit in the glass case. It is our intention in the Museum to ticket every object so that a complete catalogue will not be necessary, and probably will not be printed, the sections and cases in the Museum being mentioned in a guide-book.

Dear Sir,

In reply to your letter of the 24th inst. addressed to Messrs. Burroughs Wellcome & Co., with reference to the objects you have loaned for the Historical Medical Museum, I cannot quite understand your query.

We have no copy of a prescription of the Duke of Wellington which you mention, but I understand you sent some handbills describing a prescription of the Duke of Wellington, for which we were unable to find a place in any of the sections of the Museum, and which we were regretfully obliged to return to you. Perhaps this is what you mean.

Your name can appear in the catalogue in any way you may desire. We have entered the loans under the name of John Evans, and I should be glad if you would let me know at your early convenience if this is correct.

Kindly send all letters to the above address and not to Messrs. Burroughs Wellcome & Co.

Dear Sir

In reply to your enquiry. I
have not decided what price I ought
to ask for the articles, as some
of them might fetch a fanciful price.

The labelled jar or pot though
having traces of a broken handle
seems more valuable. have had
repeated offers to sell. but no price.

By what I have heard say they
might fetch £30^{to 250} each in a good
place, but I would rely on your
reporting me the price offered &

allowing 10% commission & Carriage

The Carboys you can offer for
after you have seen them.

The lot should be insured to
£100 to be on the safe side, as
the Ry Co. would be responsible
for loss or breakage in transit.

Dear Sir:

I have to thank you for your interesting
Brochure "Hau Fedeogaethi Kymrie"! and the accompanying letter
&c. It seems to me that you have misinformed at the outset
in the translation into Welsh of (Ancient Cymric Medicine)
which should be "Meddygiaeth Henafol y Cymry."
However your little book is interesting to me as a Folk Loreist.
and I may say that I have collected a good number of
traditional old Welsh recipes which I have in MS. which
have not been published. I have published some in
newspapers columns but nothing collectively. I have
by me a MS. of over 100 pages of such recipes
and charms, prescriptions for different ailments from the
Flemings of South Pembrokeshire &c.

This Collection is prefaced by a late M.D. and F.S.A.,
a demonstrator of Anatomy at one time, and of Philosophy
at Edinburgh. he wrote the preface to me as a friend
while staying at my house. being himself a Welshman
I am not disposed to part with any Collection under
its market value. I have no relief of any kind, for during

The last 30 years I have given all I have come across to
the Cardiff Museum, which is very rich in Welsh relics of every
description.

Cts for Welsh Books. Several have been published from time to
time. You can find every thing in the British Museum Library

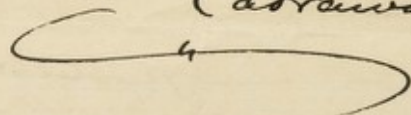

If you have not been made acquainted with the Magazine
called "Cyfnodwr," the Magazine of the Honourable Society of

Hartland, in the 14 Vol. (1888). p 227 on Old Welsh Folk Medicine

Dear Sir,

Thanks for your letter of the 29th inst., re the historical medical exhibition.

The translation of the title "Antient Cymric Medicine" into Welsh is a matter largely of opinion, and authorities in the antient Cymric language differ very much.

Perhaps at your leisure, you could let me know what price you require for your manuscript of medical recipes and charms from the Flemings of South Pembrokeshire, and from what period they date, and I might be disposed to consider them.

Dear Sir,

The Rev. W. Glasnant Jones, of Maesteg, has mentioned your name to me as being interested in antiquarian subjects connected with Wales.

As you will see from the enclosed, I am organising in London an exhibition connected with the history of medicine. If you could give me any assistance by contributing any early Welsh relics of the healing art, or recipes of Celtic folk medicine, I should greatly appreciate it.

Thanking you in anticipation,

Dear Sir:- You asked me in your letter of the
31st March what I would take for my Old Welsh Remains. &c.
I have much pleasure in saying that I would dispose of it for £5

It needs editing which you could well do, and I would insert in

I have interested Dr. Evelyn, 24 Micklegate, York, in the "Wellcome" Med. Exhibition.

He has two earthenware feeding bottles and a urinal (male) of apparently ancient date. The urinal and one of the bottles are of the well-known "willow" pattern. He has promised to lend all three to the exhibition if you care to have them. I think that they are very old and rare. Will you please communicate with him upon this matter.

Methods adopted to promote the objects of the N.S.U.

I.—Lectures are given at the meetings on technical and other subjects of interest to Nurses.

II.—A collection of the newest nursing appliances, leaflets and books has been made, and is on exhibition at the meetings.

III.—Information can be obtained on questions of Hygiene— such as Infant feeding, Prevention of Tuberculosis, &c.

IV.—From time to time, leaflets for distribution to the poor are printed, or a supply of articles (such as approved Infant Feeders, etc.) obtained. These can be purchased by members of the Union at wholesale prices.

Other means of being helpful will be discovered in course of time.

There is an excellent Lending Library, started by Miss Joseph, containing over 90 volumes of Technical Books and Nursing Papers. The Hon. Librarian is Nurse Lovell, Bridgwater. Full particulars can be obtained from Miss Joseph, Holford, Bridgwater.

Information about the Union can be obtained from the Central Organizer. Nurses are invited to communicate with her if they move from one part of Somerset to another, in order that they may have an introduction to the Local Organizer of the district to which they are going.

Dear Sir: I am sorry to have forgotten to offer to you, my old vase, when speaking with Mr Pearson. I intended to do so, but certainly the preoccupation given to me by the opposition of Mr Pearson against the agency of serum, chief matter of my journey, have produced this neglect.

I shall send to you my vase, for your historical medical exhibition, if you want it. Mr Hallawell told me that you will pay all expenses and insurance.

This vase, in opinion of some

1392
antiquarian, is nearly two centuries
old. It was manufactured in the
Royal China Factory of "Mouclou",
that was destroyed during the french
war of the last century

It is 70cm high and 28cm wide.
It is of a blue colour, decorated with
gold. On one side it has a inscription
(Diascordium), and on the other side
some medical flowers.

The vase is made in four pieces,
basement, feet, vase and top. Inside
is a piece of iron connecting the
basement with the feet and the vase

Its value for insurance is £100
(one hundred pounds)

Ildefonso 6, Toledo, Spain; dated ? received Oct. 30th, 1909.
Addressed to Mr. Wellcome.

I beg to salute you and request you to kindly forward two
or three advertising catalogues of the Medical Historical Exhibition
which you are so worthily undertaking, and for which I will send
some instruments, spectacles, amulets, and also some works of mine
referring to medicine, a book (Treasure of the Poor) of the XVIII
century, etc., all this of course if it meets with your approval.

I should like the objects which I shall send, to be insured
and carriage paid.

Dear Sirs,

I desire to thank you for your letter of yesterday's date, re copies of old catalogues of surgical instruments. I feel sure that those you mention, your own catalogue of 1879, illustrated, and the German one of Werkzeuge, 1844, would be most helpful to me in the matter of the identification of old instruments. I thank you also for mentioning the Savigny, of which I will endeavour to get the loan from one of the medical libraries.

I should be very glad to avail myself of the permission to see your collection of ancient instruments which you mention, and if you will kindly state a time any afternoon before the end of the week, I shall be pleased to call and see them.

I will send a messenger for the catalogues to-morrow, 11 a.m. if you will kindly give them to him, and I will return them to you as early as possible.

Thanking you very cordially for your kindness and the trouble you have taken in the matter,

I am,

Sir

In reply to your
favour of the 25th we shall
be pleased to let you have
on loan - copies of our
catalogues dated 1802 &
1839 - (not illustrated) 1879
illustrated. also a Catalogue
(German) of Werkzeuge -
1844 - but the Catalogue
which would have
been most useful to
you would be "Daviquin"
1797 - our copy unfortunately

get lost in our
removal - but a
copy of it will most
likely be found in
one of The Medical
Museum's - we have
a large number of veru
old instruments by
Nodding, Javigney, and
Everard - which we
should be pleased to
show you if you are
interested

Monsieur,

Je désire à vous remercier très cordialement
pour m'enseigner de la main d'une momie que vous avez
dans votre possession.

Je regrette que je ne puis l'acheter, parceque
j'en possède déjà plusieurs bons specimens.

veuillez agréer, monsieur, mes remerciements

The following is extract from letter received from
Mr. Roupen Edjzadjian, Droguerie Roupen, Aleppo, Syria,
BA 20.01, which appears to be in reply to a letter of yours:-

"In reply to your letter of 1st inst. I am dealing
"always with the antiquities and looking out for such
"antiquities relating to the medicin and the pharmacy,
"whenever I find such things I will inform you immediately.
"At present I have found a piece of a mumie that is a hand
"of a woman, it is well preserved, found six hours to the
"east of Baalbek. The whole body is found in a bronze
"box by a few men, they corelled with each other to have the
"mumie alone and at last they crushed the body under their
"feet. one of them could hardly cept one hand uninjured,
"which is with me now. It is something very rare and I
"will ask for it 10 English pounds. If you want it please
"inform me and I will send it with the surest way.

Monsieur,

Je désire de vous remercier très cordialement pour la présentation de l'ancienne bouteille creusée dans les ruines de Palmeira, que vous avez eu l'aimabilité à m'envoyer par M. Mishalany.

Je vous envoie sous autre pli un sommaire de l'Exposition Médicale Historique, qui aura lieu à Londres en 1913, et la bouteille sera une addition intéressante.

Si vous possédez des autres objets médicales, je vous serai très obligé si vous voulez m'écrire.

Veuillez agréer, monsieur, mes remerciements et mes salutations très distinguées.

Dear Sir,

In reply to your letter
re Microscope by Leuwenhoeck, I regret to
inform you that we have no specimen of this
type; but the Curator of our Instruments,
Mr. Chas. Rousselet, informs me that he
believes Sir Francis Crisp had a copy made
of one of them for his collection.

Perhaps you would like to apply to him.
