Field Equipment

Medical Memorandum

In the event of the Army receiving a sudden order to take the field. Superintending Medical Officers will see that every thing is kept in a perfect state of readiness for a move at the shortest notice - and they will take care that the Regimental, and divisional supplies are kept complete to the following amount - and it would be well to make the Regimental Medical Officers to parade their equipment occasionally, by which means the principal Medical Officer would satisfy himself that every thing was ready and in perfect order - Want of bundles - straps, when the Army was ordered to move, would occasion delay and inconvenience -

The following are the stores recommended to be taken by Regiments, & Divisions

Regiments

The high care, which is calculated to carry six men in a sitting posture and one rumbow which with two Packs and arms may be estimated at 1470 lbs

150 lbs cement + 100 a Det = 2400. shales
 50 lbs tea - 2 pints. Dry. = 38.50 points.

~~100 lbs cement = 9
 100 lbs. Sugar
 25 lbs. tea.~~

100 lbs cement - 100 a Det = 1610
 25 lbs. Sugar - 1/2 a Det = 810
 50 lbs. tea 2 Pints = 3200. points.
 50 lbs. to treat the other 3/4 - 1/2 pint.

Amount in 140 lbs. & 28 lbs. cement.
 Return to masonry.
 2 lbs tea in applying material
 Sugar required 100 pints.
 25 lbs. Sugar
 100 lbs. Sugar
 28 lbs. cement

FRR 4/2

Each Battlement should be considered complete in itself in the shape of a wall. 120 lbs. Sugar. Staff Capt. Anderson is and the Sugar should be held up. 25 lbs. tea is to be used for the cement. It has 8 pounds supply of masonry & 1/2 pint to treat the other 3/4. Fall. before starting.

20 Pounds tea = 73 lbs.
 20 Pounds of Sugar = 160
 cement = 440 lbs. shales
 20 Water per meal - 60
 Freedom of material - 39
 20 B. Cement = 160
 Spoke etc. tea - 16
 3 Pints. sugar, prep, etc - 217
 Cement
 20 lbs. tea of 1/2 pint - 20
 Amount = 14
 Tea & Sugar = 10
 1 pound of 4 1/2 lbs = 14
 16 Pints = 216
 1004
 1 pint = 11 Cwt. = 1232
 128 +

For. Vanoye - limits of material.
 Bunker - 100 lbs. Sugar & 100 lbs. cement.
 also in trial etc - 2 Cwt. in preparation
 equally divided between each 1/2 Cwt.

In addition to the Battalion Supply,
to assist one of Medicine Materials.
as well as Extra stores of Composites bedding
to be with for Marquis - say that part
of 13 by 12. -

Two large trawls - for Medicine & Patients.
and as full extent of that. ten I suppose
to be used for the compound and
back as soon as they, kept. could be
when demanded - an adequate supply
to be made -

And as. Cracord with parts -

Open. of Prof -

Ammonia.

Brandy, made for
him - do.

Two large trawls = 20 Cent. each
would be sufficient - for the above
as well as for bedding - Blankets - Marquis.
Prof. furniture to a list of items all
depend on the return for support.

Two ships - with Staff & Purveyor
Stores. Would be at hand - as well as
Hospital Ships - & the above would be sufficient
if the worst - as they be sent - and
be there -

All serious cases of sickness, sent at
once to the rear. - & the Hospital ready
to receive them - if on board -
Marquis could be put ashore - filled with
boarders - when sick would remain
until cleared on board of ship -

100 Pans of Prof. 11 lb each = 70.11.12

and ten - equal to 4 ceps of Prof. = 400 lb each.

Bandages. 203 each -

Case of Brandy - 12 Hltts = 40 Ht. - 6 Ht.

Wine = 43 Ht. - 12 Ht.

Prof. = 4 - 2.3

Blankets = 3 - 10.3

Blankets = 3. -

Blankets = 2. -

Blankets = 1. -

Blankets = 1. -

Neubauer & Durlacher, Jahnstr. 10, Bremer Steet, Globe Square

DIVISIONAL MEDICAL WAGGON.

FRR4/58

DIVISIONAL MEDICAL WAGGON.

Zeichnung v. Dautscher 20.11.18, Bremer Street, 20.11.18

Have the Medicines Wagon
for a Division -

Will demand as to getting
but partly as to weight of
Carrriage which is too top heavy
to admit of its travelling without
the risk of upsetting -

Monday 25 Feb 1856

FRR4/6a

My dear Sir -

I have been proclaimed
there is a chance of an Early Campaign
and preparations had better be made
for it at once - Will you, therefore
be good enough to think over the Equip-
ment - Stores, & Conveyance you would
wish each Regiment to have, and the
amount of divisional reserve Stores
&c. - You consider necessary
make a note of them, and meet the
other Principal Med. Officers of Divisions
at my office on Wednesday the 27
Inst at 12 o'clock - that we may
make the arrangements uniform -

There are A & B. Canteens in this
town. many of the Regts in your
Division are able to do without them

Truly Yours

John

D Taylor C. B

Prin Officer

3^d Division

1. That under any moderate amount of sickness a Regt should be able to do without assistance from two to three days -
2. That it should always ^{be able to} ~~be able to~~ ^{have adequate ambulances} ~~be able to~~ ^{be able to} take on men falling out sick on the march and give assistance to men recently injured after illness.
3. That it should be able ^{to} carry on shift work of injuries ^{likely} to be made in a day or two being cases in which the patient is not altogether helpless and perhaps able to assist the men ~~things~~ ^{things} though not fit for duty in the trenches.

1. That the Division stores should be equal to the requirements of 250 to 300 sick for from 3 weeks to a month.
2. That the Division stores should be able in case of an action to furnish a field hospital for from 90 to 100 men - or three or at any time spare Regimental hospitals to an equal extent -
3. That the ~~Staff~~ ^{Staff} Division ~~Staff~~ ^{Staff} should be sufficient for the above duties besides attendance of Staff Officers and Department - and allowing of sufficient number to accompany sick wounded to the base -

That the General Division ambulance should be sufficient to send about 1 per cent to the General Hospital in the line every day, shipping that hospital not more distant than two days journey.

Balance of the Ambulance
Part of the General Div. Ambulance being collected
in anticipation of an action shall be equal
to \$360 to a General Hospital in the line

Part of this ambulance a large proportion stays
the waggon day 30 as they will be available
for sending supplies and Commissioned stores
to the front after being sent forward
at the General Hospital

Regimental Hospital Equipment for field Service - Average strength 750

Personnel - 1 Surgeon
 3 Assistant Surfs (Two assistant Surfs for field duty and at the same time to provide for the proper performance of an operating under other forms -
 Neither Surfs nor the presence of Commissioned officers desirable, but the presence of a warrant officer corresponding to Capt or Lt and a Nurse Surgeon would be very desirable -
 1 Hospital Sergeant or Ward master
 4 Personnel paid orderlies - or 2 paid and 2 unpaid Orderlies from Head Staff Corp. - (to be used as orderlies)

Hospital Equipments

P.3.

FRR4/66

For a Division of ten Regiments of Infantry averaging 7500 present in the field and before the enemy -

Land transport & vehicles as has been considered. - It would be possible for us to have additional Regiments

One under D Smiths estimate

One 2-section under D Smiths estimate half the No estimate in D Smiths

It is impossible that the Provost in action service can do the duty required by the P.M.O as clerk -

Personnel (Staff) -

- 1 Deputy Inspector General
- 2 Staff Surg's 1st Clap
- 2 Staff Surg's 2nd Clap
- 4 Staff Asst Surgeons
- 1 Dispenser
- 1 Pharmacy Clerk -
- 1 N.C.O as P.M.O as clerk -
- 2 Generals
- 1 Band Master
- 1 Asst Dir -
- 12 Volunteers -

for magazines when used acting like a ^{passage} at all times etc etc

Personnel of Regimental

- 1 Surgeon
- 3 Asst Surgeons
- 1 Asst Surgeon
- 4 Pharm & orderlies

Conveyance for
Divisional Reserve Stores Sec

- Apothecary's stores as per
List annexed - 2 two wheeled carts with a deck
tarpaulin roof - padlocked doors
front and rear so that the stores
could never be removed but
opened from the carts as
required - the carts being in
fact movable store rooms -
20 shelves along sides carts
- Panniers - 2 pair on mules -
Water bags - 2 pair on mules -

Total - Two two wheeled carts and 4 pack saddles - 8 mules -

Steward's Stores

- 2 Bull carts for Ward Master & Mr L. O'Donovan's supplies - 2 mules
Medical comforts as per list
annexed -

- ~~2 two wheeled carts~~
128 boards $6\frac{1}{4}$ ft long
15 inches broad 1 inch thick
48 pieces of sawtimber for
boards to rest upon -
2 inches by 4 -
- 2 two wheeled carts

Rope
These would make a sort of board supported bedstead
on either side of tent for 8 patients - lower of the patients
to be towards centre path on which their food, medicines &
would rest - and in this way the tent could be got into
