~~Private~~ Recd 28 Feb^{rs} FCO 29/1
H (2 pp)
Smyrna. February 23rd
1855.

My dear Hall -

I have just arrived here having been appointed to the command of the Station, and of the Civil General Hospital about to be established here. I have brought with me Messrs. Mr Leod & Eddowes, two of the Civil Medical Officers appointed to the service of the Hospital, and Sir John Forbes, P.M.O and the rest of

his assistants were to leave
in the course of the month -
and may be expected here
shortly - I shall of course keep
you informed of how we are
getting on here & of what arrange-
ments I am able to make
for the reception of the sick &
wounded, but I would submit
for your consideration, whether
it is not most important to add
new cases to his sick journal
Guinea, & not those who have
already been in Hospital at
Scutari or elsewhere, as the
success of his Hospital must

in a great measure depend
upon the exclusion of those
contagious & infectious diseases,
which Patients bring from
the Hospitals. I am unable in
this letter to do more than
report my arrival, which has
done officially through the
Adjutant General - but hope
you will let me hear from you.
& that you will give me any
hints, which you may think
likely to enable me to efficiently
carry out the duties of the place.
I hope you have escaped all
the dangers of your boat

arduous, contested in the Guinea,
I shall this letter will find you
in the enjoyment of your usual
good health. It is a long time
since we met, but I have a
hasty recollection of past times,
& of our campaign in Hispania.
There is no news in England.
Everything is very dull, and
people are anxiously looking
forward to good news from
the Guinea. I write in great haste,
as the steamer is just going on.

Believe me, my dear Hall,

Very truly yours,

Clock is appointed
to the South Wales District. J. G. Storks.

Brevitt.
FC029/1

P.

Since writing the above I have
seen Dr. St. Powell & Dr. Murphy,
and have been through the
Hospital, they have established
me. I have written officially
to the Adj't Gen'l. and have
asked for instructions, as to
what is to become of the Medical
Staff under the D^r. Ad'm. General,
on the arrival of the Dr.
Forbes & his Staff, as "extra hands"
I think it is very desirable
that

[A small heraldic crest or seal is centered above the signature.]

The Civil & Military Medical
Officers should be separated, as
soon as possible, after the sick
are given over by the latter to
the former. The state of the
Hospital is very satisfactory,
and I doubt not, when I have
been able to increase the
accommodation, which I am
unpowered to do in any way
I may consider most desirable,
I shall be able to ease you
a good deal. But at present,

there is only room for 150 more -
Will keep you informed of how
we get on - and what other arrang.
ments I am able to make -

I write in great haste, as the
steamer is on the point of
sailing -

Yours ever
John

Smyrna. March 1. 1855.

Hyde Park.

On the 26th ult. arrived
the Plymouth prosecutor,
bringing me an account
of our sick of 234. Have written
to Lord Wm. Paulet by this packet,
earnestly entreating him not to
send me any more sick and
wounded, until further
accommodation is provided
for them, as the Hospital is
already over-crowded, and

Inquest to say, both Typhus fever
and Hospital Gangrene have
made their appearance amongst
us - however, as the whole think
the health of the Meers is improved.

I consider the situation of this
place as most fortunate - we
have a capital building, ample
supplies, a good port, & a good
climate for the greater part
of the year.

I have just received my
letters from England. I am
informed, that Sir John
Forster, the hon. P.M. of the Civil

Medical Staff has resigned -
however, several ^{Medical men} are on the
way, & I hope in a few days to
send you an account of all
our Establishment - we have
got on wonderfully, without
present means, & Dr. Beaton
deserves the greatest praise
for all he has done. & for his
indefatigable exertions -
I have applied to the Ambassador
for additional accommodation
and I hope they will send out
wooden houses from England
for Hospital purposes - we

Brigadier General Stokes

ans²

(Enclosing FCO29/3b)

My dear Hall.

This morning's French
Steamer brought me an
increase to the Civil Medical
Staff already arrived (thus)
of Ten Medical Officers. 3
Dispensers. 12 Orderlies &
2 Nurses. Having now
Thirteen Civil Medical
Officers at my disposal I
have thought it right to

directed Medical Officers & I
Dispensary (which inclosed) I am
bound to send to you by the American
Steamer tomorrow, & expect in giving over charge restating
themselves to Lord W^m. Paulet. There gentlemen on duties so
have directed Dr. Kumpf, now to them a ~~new~~^{connected with} Military
Station & his Surgeon ^{for} Dr. Kumpf
remain here until the
arrival of Dr. Meyer, the
new Civil D.M.O. who has
been appointed in the
place of Sir John Forbes, &
who I expect next week will
other medical officers. Also
expect a large detachment of Indians,
Purser, &c. There will become little
confusion & perhaps difficulty
tomorrow, & expect in giving over charge restating
themselves to Lord W^m. Paulet. There gentlemen on duties so
have directed Dr. Kumpf, now to them a ~~new~~^{connected with} Military
Station & his Surgeon ^{for} Dr. Kumpf
remain here until the
arrival of Dr. Meyer, the
new Civil D.M.O. who has
been appointed in the
place of Sir John Forbes, &
who I expect next week will
other medical officers. Also

a Hospital for valent State.
The Hospital is quite full. Shall
write to Dr. Wm. Farley, when
I am able to receive any more
news.

The exertions of Dr. Humprey
Newton have been most
praiseworthy - & I shall be
happy to have his testimony of their
merits in an official form, should
you desire it. I hope you are
quite well. I will enclose
hastily so you can a hurried
scribble from, your son Bob,
Yours very truly,

D. Hale.

(2pp.) Ru. 22 and 23 March
Private. Liverpool 1st March
1853.

My dear Hall.

Accept my best
thanks for your welcome
letter. I wish I could indulge
the hope of having the pleasure
of shaking you by the hand
at an early period, but I
suppose there is little chance
of that, unless some good
fortune enables me to quit
the field. I am happy to be
able to give you a good account
of our health here. It is true

There is a bad fever of a typhoid
Type in the Barracks, but it
has been imported from
Scutari or the Crimea, & is not
to be attributed to local influence.

I have still got Humprey
Beaumont here - but I expect
the rest or at any rate a large
proportion of my medical staff
by the steamer tomorrow, &
I hope to be able to spare the
services of those two excellent
Officers very soon - I don't know
what I must do with all the
Ladies, who are coming out.

for one of the most difficult
things here is to lodge people.
The French Quarter is a long
distance from the Field of
Baltic, seven three hours
are difficult to obtain. However,
I suppose everything will
shake into its place in time.

I am glad to read your account
of affairs in the Crimea. I have
no doubt, that there has been
much exaggeration in the state-
ments, which they have been
cramming down the Baltic
throat, but at the same

time there are many things,
which require a form and
organisation in our Military
System - I pity poor Lord Raglan,
for he must be much annoyed
at all that is going on & also
that Harcourt said something about
him & his command - General
Erbcourt must also be rather
little annoyed at the appointment
of General Simpson - surely they
cannot remain in their present
situations. I dare say, there will
be great changes among the
four staff in long - The death
of the Emperor of Russia is a
great event - is it to produce

P.2.

FC029/4

"Peace or war?" Depend upon it
there will be a terrible convul-
sion in Russia some day.
They cannot resist the march
of Democracy imported with
Railroads, Commerce, & Shipping.
War has always been the great
civilizer of nations, & it will be
so with Russia.

I saw old Burnaby two days
before I left London. He has
retired on Fule Bay, because
he was ordered to H. Helena.
which is not a pleasant retire-
ment for a man, who has
served at the Cape, & has a wife
& two daughters waiting out for

husbands. FitzMaurice, Berkely
is on his back in Stratton St. with
a very pretty wife in his leg. Dr.
Garrison attends him & extracts
pieces of Bone every time he
sees him.

15 March 1853.

The French steamer first arrived
has brought me further visitation.
Want of Medical Officers, ⁴⁻ Sailors,
²⁴ Nurses, ¹⁶ Orderlies - when I am
told them all I know not how
dare to supply their table, would
puzzle even our immortal friend
Soyer. Dr. Meyer the Civil P.M.O.
despatched by the next Austrian
steamer from Trieste. I

shall be glad to get them all
"instal'd" - I send a return to
you to Mr. M. Paulk reporting
that I have 61 men fit to
return & then Prof. & I hope, if the
weather takes up a little, the
I shall have a further instal-
ment to send - but at present,
the rain, cold, snow & wind are
terrible, & from all I hear
unprecedented. I fear, when
the snow comes out we shall
have much Fever and
illness. See that poor fellow
Young has committed

R. G.

suicide, by throwing himself
out of the window of the George
at Portsmouth. I have no
time to add more, than my
sincere wishes for your health
& happiness, & my assurance
that I am, very sincerely Hall.

Very sincerely yours,

P. Stork.

Hall M^r.

- enjoyed our
evenings - and were of
service to you in the
Layings - especially
on the 1st of August 41

FC029/5

Private. Ingrua April 12
A.D. 1853.

Hydeast Hall.

This morning's steamer brought me the copy of a despatch by our Address on the subject of sending sick and wounded direct from the Crimea to Ingrua. I am in trouble to report to you the number of available beds in this Hospital. This I will do by the most usual, for it is difficult to do so by this in consequence of changes which have been made in the

accommodation of the Building
and the distribution of the air,
from Dr. Sutherland & Dr. Meyer
having condemned the whole
of the Basement Story, & both
insisting on each Patient
having 1,000 cubic feet of
air. However next week
I will write. We go on here
tolerably well. People begin
to have visitors this place, &
I dare say the coach will work
well enough. The health of the
men is improving. The mor-
tality is decreasing, and
there upwards of 100 men
ready for the field, though

grateful shall I be to Dow W^m
Pawlet, when he sends me
Sleip & take them away. The
curse of the Anglo-Saxon race
pursues the British Soldier
here, I drink to his wife.

You read the Papers of course.
What think you of Hoback's
Committee? Dr. Smith's evidence
is admirable. Most plucky.
I makeing out a very good
case. Most sincerely do I con-
gratulate poor Dowaylan,
yourself & others, who have
been so unwarrantably attacked
on the triumphant way in
which, you are showing

that you ably, zealously, and
conscientiously discharged your
laborious duties - It is very pale
to cry out against forms - without
them, I am afraid there would
be many furies in John Bull's
kitchen - Our weather here is
detestable - I hope it is better in
the Crimea - I am glad to find
that your health is good, and
that you bear up against
everything - I wish there were
any chance of my joining
you in the field - it is too bad
to be tied here - Believe me
my dear Hall,

Very sincerely yours,
D Hall. Mrs. M. Storrs.

Private.

Rev 3 - ans² 5 May 1853

FC029/6

Smyrna April 19.th

1853.

Mr. Stokes informed
me that there were 227
vacant beds in the Hospital
at Mydarse Hall.

I send you an official
showing, that we have 225
vacant beds in this Hospital.
Yesterday despatched on
Board the Brandon 227
men, pronounced fit to join
the Regiments. and I hope they
will do good service, when they
get back to the Crimea, for they
have given me a great deal of
trouble here - Discipline is
sadly relaxed in this Army,

if the men I have here, were
fair specimens of it - and I
suspect, that the consequences
arising from those infernal
newspapers & our own correc-
tions will be shown in a
total break up of all our habits,
discipline & respect. His much
deplored, but encouraging
garrison, who remain in the
service. Our affairs here go
on well. The health of the
new countries is improved,
I see nothing, as yet to alter
my opinion, that Tampa
is a very desirable place
for a Hospital & convalescence.

station. I am very anxious
to hear how you are getting on
before Labor Day. We have
all sorts of reports here. They are
gross, that the most credulous
would not believe them. & the
Greeks of course are avidly
in disseminating reports,
injurious to our allies.

By all accounts your weather
has been very bad. here it has
been dreary, gales of wind,
rain & cold. The season has
been most unpropitious.

I hope you continue in
the enjoyment of your usual
good health. I forwarded

W. D. Beaton the other day,
brought a letter from the Secy of War
expressing satisfaction
in my report of his services &
exertions here - I hope justice
will be rendered to all our
people in the long run -
With much love, I have
only time add, that I am
always, My dear Hale.

Faylin and Jones,

P. Storck.

Hyde Park Hall.

The Sydney arrived here on the 1st with 97 sick on board - two died on the passage - send you an official about our accommo-
dation - Our Staff is much too large for the numbers we can take in - they are more anxious than ever
employ me. I have

FEB 1865

forwarded to Lord Wm Paulet
an official Dr. Huyer has
sent to me on the subject,
which will doubtless be
referred to you - I hear that
you are going to keep all
your wounded at your
new Hospital at Balaklava
if it works well. You are
quite right - Why subject
men to all the inconveniences
& even dangers of the
passage? There is now

more hospitals than are
required - when shall we
meet? I should like to
have a long talk with you.

Have much to tell you. True
Scammon.

To your Board members
added in October - so have
the conference. I think it
will be well worth
going. My Ad. C. Whitmore
desires the kindly
remembrance you

He is a hardworking fellow,
I said him very useful
I hope you are with well-
and the worse for you

Sunday 3 May 53
A short while ago I
had a talk with
the man at the
stationery shop
about the
difference between
the two kinds of

Singra 17 May 1858.

My dear Stull.

Many thanks for your two notes. In reply to your query about the pay of the Civil Medical Officers belonging to this Establishment, I annex a statement showing, what each class receives. You may well draw comparisons between your pay after 40 years

service in all climates & in as with the Physicians or
all dangers, added to such Surgeons. However, we can
grate responsibility on you to do our duty as well as
have, & the salaries of these more now largely remuner-
gultuous, but it always rated. I send you now
has been so, & with even ~~some~~^{more} official about our vacan-
so. We are all underpaid beds. All our people are
I, after 27 years service, £500 doing well, & there is nothing
spent in commissions, with a yet ~~to~~ point out to you,
the financial and other as an extraordinary unhelpful
responsibility here, with the place. They are very heavy
staff of funeral office, as ~~all~~ about it above. and I don't
always an an expense think they will ever be an
addition, don't receive ~~as much~~ our buildings. I am

informed, that Dr. Parkes has
pitched his camp at the
Dardanelles, a short dis-
tance from the Council (W.
Calvert) house - from which
I can learn the locality as
hated must be anything
but healthy, and as for
supplies, they will be very
badly off. I hope they will
reduce the medical staff
here, for it is far too large
for our present numbers,
Liddonep. as you know, is.

17 May 1855

FC029/8 2

The root of all trouble.

I am sorry to find, that the
Siege has not succeeded better.
What can have brought back
the poor Brown expedition?
I don't see how a general
can command an army in
the field with an Electric
Telegraph from Downing St.
The head quarters, & a
part of the correspondence of
the public papers - really poor
Lord Raglan is placed in
a most painful & difficult
situation. and it must be

... give all his coolness &
"hang fire" to avoid such
unpleasant results from
such checks & control. What
think you of Michel's appoint-
ment to the Turkish Contingent.
They will find it difficult to
get men to fill its ranks.

I had a letter from Dr. Remond
the other day. It appears that
Fitz is still in Fergusson's hands
& pieces of bone are still coming
away from his leg. He won't
be fit for work again for some
months. My A.D.C. desires

his best Complts to you - Good
bye, my dear Hall, with
best wishes,

Believe me,

Very sincerely yours,

H. C. Stoth.

Private.

Dear Sirs
Bogaden and Sons
FCO 29/10
Postmaster -

Sept 18 1853.

My dear Hall.

I have been keeping
such a perpetual whirl, that
I really have not had time
to tell you of my removal
from Sugden here. I re-
signed Postmaster a week
ago, in consequence of a hitch
in the orders of the Lord Secy.
of War & the War Department
is not having even yet been
pointed Lord William Leakey

to the command of a Brigade,
I have not assumed the command
absoluti. I do however on
Monday, & shall not be ready for
it, for riding over hills about
Constantinople is poor fun.

I received your official about the
Civil Surgeons. There, Mr. Eddowes,
Hulke & Raabe proceed from hence
on Monday to place themselves
under your orders. They are good
officers there, & I recommend
them to your notice & protection. Their
indulgence of your letter to Dr. Meyer
and I doubt not, others will be found
willing to be under your
orders. From what I hear from
home, I imagine the Medical
Officers, who can be spared from

Syzygium, will be also sent to Dr. Parker at Rangoon.

I shall send you officially, if Lord W. P. has not already done so, an extract from a Despatch of Lord Amherst to my address - in which referring to the proposed plan of giving Abyssinia to the French in place, he disapproves of allotting any portion of the Hospital at Rangoon to the French - which he deems may be best for a Reserve for the British Army - he adds "In my opinion, it will be expedient even while Scutari Hospital has available accommodation, to send some Patients to Rangoon; so soon as Dr. Parker reports his readiness to receive them, if only to keep the establishment in working order, & to prepare it for the

heavier labors, which may be
anticipated in the ensuing winter.
Dr. Parker has Melville reported, that
he is able to admit sick into his new
Establishment, & I will communicate
further with you on the subject.

From what I have seen of the hospitals
at Centreville, they seem in capital order.
I shall pay my official visit early
next week, & will let you know, what
I think of them. How tired you must
be getting of this interminable siege.
I am glad to hear, that your health
continues good. I shall be rejoiced to
see you again. My name has been sent from
home with others for a Brigade, but I shall be
left here for a time suppose at any rate.
Farewell, my dear Mel, when you have time
to write pray do - with best wishes, Believers

Bacon

Rec'd 9/9/55

FCO 29/156
(attached to FCO 29/15a)

Extract from a Despatch, dated, War
Department, 25th August 1855. Addressed to
N^o. 4. B. General Stark's,

As regards the Hospital at
Renskio, I do not approve of allot-
ting the Sardinian Sick to it, with-
out the clearest necessity existing
for such a course. It may be
anticipated that this Hospital will
be wanted in the winter months,
and the Civil Medical Officers attach-
ed to that Hospital will not be
easily available for any of our
Military Hospitals. This Hospital
should therefore be kept as a reserve
for the Sick, and Wounded of the
British Army.

In my opinion, it will be
expedient, even while Scutari
Hospital has available accommoda-
tion, to send some patients to

Renskio,

Renewal, so soon as Dr. Parkes
reports hisreadiness to receive
them, if only to keep the establish-
ment in working order, and to
prepare it for the heavier labors
which may be anticipated in
the ensuing Winter

I have &c

Scutari, 6 Oct^r 1855.

Sir,

I have the honor to
transmit to you, for your
information and guidance,
22nd Sept^r 1855. the copy of a letter received
from the Deputy Secretary
at War, on the subject
of sending Sick and
Wounded to Smyrna --

As it has been
decided that Patients
are to be sent direct from
the

Dr Hall, M. D.,

Inspector General
of Hospitals, P. N. I.,

& & & Crimea.

the Crimea to Smyrna,
I have the honor to request,
that you will be good
enough to take steps for
complying with the
Secretary of State's instructions.

By the last Returns,
there are 500 vacant Beds
at Smyrna.

I have the honor to be,
Sir,

Your most obedient
humble servant,

W. Stork,
Bureau

C.P.M.
Head Quarters Camp
Sebastopol 9 Oct. 1855.

Sir,

In reply to your communication of the 6th Inst. giving cover to a Copy of a letter from the War Office dated 22nd September and numbered 156,745 conveying Lord Panmure's desire that sick and wounded should be sent to the Civil Hospital at Smyrna, and remarking on the length of time that has elapsed since any patients were sent to that Establishment. I have the honor to observe that Smyrna is distant from the Crimea, is not a desirable place, in my opinion, to send sick to during the summer months, and fortunately there has never been any pressure for Hospital accommodation, as the Establishment at Scutari has at all times had an abundance of room; and at the present moment, two thousand three hundred and twenty seven beds are reported to me by the Principal Med^t. Officer there to be empty and ready for the reception of sick. —

This Lordships' order, however, shall be complied with when the Hospital ships now fitting are ready for the reception of sick; but the distance of the Smyrna & Renkoi is a draw-back to their usefulness, and if they are to be occupied an additional quantity of sick transport will be required — —

I have the

Brigadier Gen^r. Staff
Commanding
Scutari

Sir,

I am directed, by
the Secretary at War, to
call your attention to the
long interval that appears
to have elapsed since
any Sick or Wounded
soldiers have been sent
down to Smyrna; - and to
inform you, that Lord
Panmure is desirous that

The Commandant,
Secretary.

the use should be made
of that Hospital, which
was contemplated by
the Government, when
the expensive Staff
of Medical Practitioners
was attached thereto.

Kutaisi, 23 October 1853.

FCO29 /17

My dear Hall.

I am much obliged to you for your letter. I hope, that we shall hear of no more difficulties amongst the ladies.

It appears, by a confidential communication I have received from W Hawes, that the Government are desirous of reducing the expensive Radical Staff at Reischow. We have been so long eating the Bread of Sorrow - can you

take any of them, but ten or fifteen
how many? on receiving your
Answer I will communicate with
Dr. Parker, & invite volunteers for
the field - It is most desirable to
reduce their numbers, and I hope
you will consent to receive a good
number. I have just given in
orders to take charge of the
Hospitals etc. Scutari. Canning
goes in a day or two - he has
worked hard and done well,
& I hope he will be rewarded
when he gets to England.
I hope all your duties have
settled down quietly, altho'

They give you no further trouble or
annoyance. The news from the Seat
of war appears good - We are looking
out for the Russian Prisoners who
have been taken at Gibbourne.
I am going to locate them all
on the Island of Pute.

I suppose all active operations
will be soon suspended in the
Guinea, & that people will begin
to make themselves comfortable
for the winter. Have I any
chance of seeing you here this
winter? Need not say, you
will receive a hearty welcome

I can put you up. That is to say I
can give you a Room in the
P. Hospital, & a knife & Fork.
Pray come, the change will
do you good - Black,

Bleeding, bleeding
Very sincerely yours
M. Stork.

Pedder Scutari. 17 Nov. 1855.

My dear Hall.

Many thanks for your welcome note. I am glad to find, that you are in good health & spirits. Would that I could say as much foras here. We have been visited since Wednesday last by that fearful scourge cholera, which has carried off 800 carrying off its victims every hour. Poor Dr. H. G. F. died this

Morning at 3 o'clock - The Doctor
of the German Legion is a broad-shouldered
Welsh Victim - however, the
Cholera, they say, never stays
long here, it is the bullet, that
it will soon leave us God
grant it may - I am inclined
to think, that the German Legion
hove off with them from Eng-
land, where they had it very
badly.

Great changes all over Lancashire.
What do you think of your new
Com'min' Chieif? will he do better
than his predecessors? Poor
General Simpson passed
through here in the Telegraph

without communicating with
anybody. This certainly does
hinder under the circumstances,
& he would certainly have done
better had he remained in the
military berth he filled at the
Horseguards. Colonel Stephoz
of the War Department has
arrived here, charged with a
special mission - Supposedly
to be broken up for the present
as a hospital - & occupied
by Troops of the Swiss Legion.
The nucleus of a Red Cross
Hospital for 500 men is
also retained. The sick

Medical Staff, Nurses, &c and
go to Dr. Parker at Nukoi, & he
can take them. Now, the project
is to break up Rukeli, & con-
centrate all the Hospital establish-
ments into their Barracks
The General Hospital - We all
concede Rukeli is worse
The most valuable Hospital
because, as sick can land
there as all wealthier - not
so educated. Of course the
objection economy & French
ment, & Rukeli is much
Parliament with reduced

Establishment - As things stand
at present we have Work
Accumulator sufficient
for 3335 men - space Bed
2288. but if we give up Ruel.
There will be some reduction in
our numbers. The other
thing is under consideration.
We have got a part blanche
from Lord Taunton, & the
decision will be made as
soon as we have looked
closely into the expenditure
D. Parker's Establishment
is to be measured to it

full complement. We talk of
having accommodation for
1500 men by Xmas. I doubt it.
Write when you know more as
matter progress.

The ladies at Koulali have begun
with Miss Weston at their head -
in consequence of the P. M. S. re-
quiring that certain should be
inscribed on the Ball Roll. They
accepted their resignation.
They protest it is from no desire
of pros. There action to
add more, than that have
been double, by dear Hale,

Yours very sincerely

H. Storrs

Tentari. 27 Oct 1858.

Maydown Hall.

I have only time to write a few lines to acquaint you, that yesterday received by Telegraph instructions from Lord Pauncefote appropriating vacant Hospital accounts, I have authorized for 3000 Infantry, & that I am to stop the First Regt. of the German Legion, now enroute to the Crimea. Their ~~sold~~ Seafpon all remain here for the winter.

after consulting Linton & turning the matter over in my own mind, I have decided on appropriating half of the P.C. Hospital, so hole and beam, & separate. Much difficulty the soldiers from the patients by cutting off all communication by means of partitions in P.C. and a large wooden railing across the W. entrance inside.

I consider Rubble as the most important Establishment, hence, as men can be landed there at any time or in any weather. Linton & Dawson

presently instructed me to open the P.C. Hospital, which is so eminently adapted to hospital purposes too far superior to the P.C. Hosp.

When all these arrangements are completed you shall have a correct return of the vacant Hosp't accommodation - but, pray, if you have any sick send down fit up Syrupa & the Dar-danella (Mubrae) with the fine weather last - If you don't send them down, I must send them on from here -

All tends to show, that Scutari

will become the great depot for
the army as it ought to have been
long ago -

I have also received a instruction
~~It recd~~ to take in the second Regt of
Connaughts (Ptes) of the Sultan, they
are to be encamped.

735 Russian prisoners of war
have arrived from Shushiar
They are all to be located with the
Prisoners I have in the several
islands of the Dardanelles Islands.
This arrangement is to
be carried out ^{immediately} as you may suppose an
quite full. For how many

2

have you hospital accommodations
in the Crimea? It's hard to reason
if your cases do well on the
spot. It is much better to
treat them there, than send
them elsewhere -

The Savarians have got the
upper hand at Rovely -
I had made the arrange-
ment taking the same
view you did, that they
are better by themselves.

They are not yet "installs"
The first Detach. of the medical
staff corps has arrived -

When are you coming down here
to see me? I have no news to
give you, beyond the report from
a good source that the Chief
is to be relieved - who is the
new successor none know,
or can imagine. Good bye
My dear Hall,

Believe me always,

Yours most sincerely

W. D. Storts

My dear Hull.

The Braver of John's late
Mr. Bandens. French Inspector
General of Hospitals is anxious
to make your acquaintance,
and to talk to you on pro-
fessional subjects - He has
asked me for an intro-
duction to you, which I
have great pleasure in

giving him, because I am
sure it will be agreeable to
you to make his acquaintance.

Congratulate you on the
honors lately conferred on
you - & hope you may long
live to enjoy them.

Believe me

Very sincerely yours,

W. Storrs.

Letter from Sir John Hall
to Mons^r Baudier

FCO 29/21

My dear Dr Saunders.

I send you a specimen of the Cork matress we purpose taking into the field with us for the use of the sick, & wounded, in the event of another campaign -

I send you also a specimen of the water proof cover (No 1) that we use in our hospitals for the protection of the bedding from blood, and other discharges -

No 2, was intended for a water proof blanket to protect the men from wet either in their tents, or huts, or in the open field, but, from its defective manufacture it is a decided failure, and the subject has been submitted for re-consideration, as I am quite sure the article admits of great, and useful improvement -

Accept a copy of our Official Regulations for the management of Regimental Hospitals at page 109. You will find Scales of the diets used in our hospitals; but these have reduced to two in the field, and have assimilated

the ordinary diet, as near to the bread ration of the Soldier as I could, for the convenience of drawing articles of supply from the Commissariat.

Enclosed you will find a copy of our bed head Ticket, and a pack store list which is furnished to each man on entering a general hospital - This is not deemed necessary in a Regimental hospital, as such makers are considered more immediately under the supervision of the Commanding officer of the Corps, and the Captain of the Sick men's company -

From long residence in this camp our Regimental Hospitals have accumulated many of the comforts of fixed hospitals for the benefit of the sick; but we have a much more limited equipment for the field, which I shall have much pleasure in showing you if you will do us the honor of visiting any of our Regimental establishments -

I have been much pleased with your Clinique, and am glad to observe that you made such extensive, and satisfactory use of water drying for your wounded in Algeria - We used it

with

equal advantage in the Kaffir wars at the Cape &
from Cape - here it is used, but not so extensively
as we have had a number of young Officers, and civilian
Surgeons fresh from their different Schools, and each one
duly imbued with the importance of the doctrine of his
own particular teacher - and, as you know, it is not profitable
to interfere with the professional prejudices of others so long
as they are not injurious -

The enclosed table of the result of a certain
number of cases of wounded that have been recorded
may be interesting to you, and I shall forward
it to you -

I am

my dear Doctor
With much respect and esteem
Yours very faithfully

John Hall
