Turn

Mr. Dando Gurnel

Clapham Common, N. 8)

Edmund Muddel Street 22<sup>nd</sup> February 1834.

My dear Sir James,

With feelings of cordial regard towards  
yourself, and of sincere gratitude towards the Medical  
Officers of the Army, I beg to acknowledge your very kind  
Letter of the 19<sup>th</sup> Instant, and a Fasciculus of Plates refer-  
ring to the descriptive Catalogue of the Anatomical Mu-  
seum; - which, with the Catalogue of the Army Medical  
Library, I had previously received. -

When I look back on the long period of  
almost forty years, that has elapsed since we first  
served in the same Army; and had, soon afterwards,  
to contend together against a violently infectious Disease;  
- it is truly gratifying to reflect that our friendship,  
which commenced in the execution of arduous duties,  
has continued without interruption until the present  
moment. - Although in the course of public events,

Sir James M. Gurnel,

Bart. - M. D. -

L

I was removed at rather an early period, to my present Charge; my affectionate attachment to the Department in which I commenced my Official Life, has ever been cherished; and I am thankful to say that, notwithstanding we are called upon from time to time, to lament the loss of a departed Brother-Officer; I have still several valued friends in the Army Medical Department, to whom I became attached at that period of life when the Affections are warmest, and least alloyed by the influence of inferior motives. —

At the commencement of our Career you experienced, as well as myself, how the best efforts of individual Medical Officers were often rendered less effectual than they ought to have been, by want of connected exertion. — Medical arrangement was then in its infancy; but I have lived long enough to see it grow to maturity under the direction of your able Predecessors and yourself; — and that the whole is now crowned by the formation of Institutions under your fostering care, not only to promote the advancement of Medical Officers in Professional Science; — but to afford a resource to their Widows

Feb 20<sup>th</sup> 1834 N<sup>o</sup> 9

— 2 —

N<sup>o</sup> 11

and Orphans, in the event of their having the misfortune to be deprived of their protection and support. —

I long esteemed your deceased friend and Colleague, the late Sir William Franklin, on all the grounds mentioned in your Dedication; and I shall be happy in being allowed to join in the Subscription towards erecting a Monument to his Memory. — My only regret is, that the numerous claims naturally made upon me in the Ordnance, prevent my being so liberal as my feelings would otherwise dictate. —

As I have so recently had the pleasure of conversing with you on the other topics mentioned in your letter, I shall not trespass further on your valuable time than to request you will accept, and offer to Lady M. Erigor, the very kind regards of Lady Webb and myself. — May believe me

My dear Sir James —  
Yours most faithfully  
J<sup>o</sup> M Webb

Edinburgh April 9th 1854  
I am sent of the Annals of Surgery Edinburgh  
My dear Sir James

I have to offer you my best acknowledgments for the present I have received of the second Fasciculus of Anatomical Drawings from preparations in the Museum at Chatham, which I have examined with much interest, and I hope you will have the good rep. to convey my thanks to the Medical Officers concerned in its preparation & publication.

It is admirable both as a work of art & of Instruction and I cannot but feel satisfaction in belonging to a Department of the Public Service which under your auspices, have both in the records of their practical experience & in the illustration of Pathology by preparations & Drawing contributed, and are contributing so much to the advancement of Medical Science

You are probably aware that the Meeting of the British Association for the advancement of Science is to be held in Edinburgh in the second week of September next, and it is expected will be attended by many persons eminent in science both of this and of other countries  
I hope

Lumbel

It will suit your arrangements to honor the meeting  
by your presence and I trust you will do Mr. Mallory  
and me the favor to make your abode with  
us - It will give us additional pleasure if  
Lady M. M. should accompany you -

I hope you have received the Newspaper notice of  
the late Dr. Buchanan but I am sorry to say I have  
not yet been able to obtain any additional  
information of importance

With kindest regards to Lady M. M.  
yourself & family in which Mr. Mallory  
and they join

Private

Mr James M. Hughes - Bart  
Director Genl  
Army Regt. Depott

Dear Sir (Hesperus) Windsor April 17th 1834 N.Y.  
I subscribe General of Nobility

My Dear Mr. Grier

Many thanks for the beautiful fascicles of  
our medico-military Museum - of which you are unquestionably the  
parent & originator, for no former execution ever thought of such  
a thing, & without you it would have had no existence - To you  
also we owe our Medals & Orders - beautiful & good - which  
will live & thrive, I trust, after you & I shall have passed from  
hence & be no more seen: but you will have left these monuments  
behind you and it was worth while to have lived for them.  
My health at present is better than it has been for five years  
past although I still labour under my insupportable disease  
of all last November & December, as you will have heard from  
Lythric, it seemed to be reaching its close through the super-  
addition of an obstinate Bronchitis - I stand it out however  
& have had half a dozen of cuts made, which are their  
usual course without leaving us bad effects behind -  
In this world we have much to bear & must look for  
trials, and I have just had one which has struck deeply in the  
bosom of my soul - I feel that I have lived & died  
now for 70 years since it was first founded by my wife & her now  
father through some commercial genius & the aid of our  
government - Poor fellow instead of being now in the best road  
to fortune & retirement from business he will ~~now~~ have to begin  
the world again: but still there is life - there is hope - He  
is still young with excellent character I believe & future may  
yet smile upon him. We have lived in these trying times  
now, may God bless that we are yet to see before our families

Yours very faithfully W. L. Durlee.  
Sir J. Mac Grier, Bart. &c. &c.

I am sorry to hear that Lady Mepher has been so much surprised  
in the same way that I was in the beginning of last winter but  
she has now the same reason before her & shall I trust soon  
experience its healing influence - I believe Mrs. the  
said sister said me for I told her from the words  
of her kind words from R. A. & my personal appearance  
warn me that it has totally been out of order - May you soon  
be cheered with her perfect recovery & with kind regards  
to her & our old friend Charles I remain dear  
Mepher's faithfully & affectionately  
Wm. Mepher

My dear Sir James  
Yours very sincerely obliged

J. Barry

From  
Mr. Knoske  
Lecturer in Surgery

Leicester Place  
July. 19. 1834

11 Place  
b. 1834.

My Dear Sir

I was, I can assure you, no less surprised, than delighted, upon opening & examining the contents of the valuable present with which I was favored last evening.

The Committee say they have encountered disagreeable circumstances, I cannot see how this can be, if the first fasciculus at all resembles the second.

I have looked carefully over the figures, & although not all precisely equal, I think as a whole, the work comes nearest to Dr. Baillie's illustrations, of either of the works mentioned.

Splendour, my Dear Sir, may always be regarded as distinct from Truth, & not unfrequently stands opposed to it. I have turned over the plates of more than one of the recent works on Pathology, & they rest under one sentence of condemnation, in my mind, upon this very ground. They have made such an impression, that should a friend call on me tomorrow to ask my opinion on the point, I should most earnestly advise him to forego the advantage of colour altogether. Practically speaking, I have only known a single instance, in which it has succeeded. I look upon the works colored as figures nearly spoiled.

I think the Med. Department of the Army have done themselves more honor by this last manifestation of activity, & zeal, than even by the production of the Catalogue of their Museum. A zeal that will very soon operate not only

a victim to cholera just at the termination of his studies.

Remain, my dear Sir, with every feeling of gratitude & respect,  
Yours very faithfully,  
W. Lawrence.  
Sir J. MacGibbon, Bart. &c. &c.

by raising the character of the A. M. Department  
still higher, but by exerting a similar influence  
& lighting up a similar spirit in other  
Departments. —

I think the effect of nearly all the  
figures to be every thing that can be desired;  
even in a pathological point of view.

The difficulty of finding any Artist capable  
of giving the just effect to a preparation, however  
I know to be so great, that I have no idea  
how it has been overcome; but if on the  
contrary the drawings have been executed  
by your own Medical Officer, I can  
only ~~say~~ Congratulate you, my dear  
Sir, on your good fortune having placed  
you in the direction, in times so propitious  
to the successful cultivation of Science,  
at least in the Army Medical Department.

If the Parcel is sent to for  
Dr. Hopper to Mr Goudger 13. Bentinck.  
it will reach him safely. —

I am Dear Sir James  
Yours very Sincerely

John Howship

From  
Mr Lawrence

N 22)  
Whitehall Place

14 Feb. 1834.

My dear Sir

I beg to return to the medical  
officers of the army my sincere  
thanks for their valuable present,  
and to acknowledge very gratefully  
your kind note, which I feel as a  
great addition to the value of the  
gift.

I enclose two brochures for the library  
at Chatham. One of them is the  
first & only literary production of  
a near relation & pupil of mine, who  
promised to have been a distinguished  
ornament of the profession. He fell  
a victim to cholera just at the  
termination of his studies.

I remain, my dear Sir, with  
every feeling of gratitude & respect,  
Yours very faithfully, W. Lawrence.  
Sir J. Macbride, Bart. &c. &c.

Medicine

N<sup>o</sup> 23

My dear Sir James,

I beg to offer my best  
thanks for the 2<sup>d</sup> Fasciculus  
with which I am highly  
obliged. I think it very  
creditable to the Department  
to have got up so splendid  
a work.

The Dedication appears  
to me to be admirably  
well done - I am sure

it has one merit, which  
I do not belong to all  
Peditors. — that it is  
true to the very letter.

We were very long but  
to find you & Lady  
Alperton at home on  
Sunday.

Believe me, my dear Sir James,  
Ever yr very faithful  
George Gordon

H. G. W. H. H. H.

My dear Sir James,

May I beg of you  
to express my sincere  
thanks to the Medical  
Officers of the Army,  
in acknowledgment of the  
splendid and most useful  
Pathological Drawings which  
you have so kindly sent.

presented to me at their  
desire. I feel that I have  
no claim on the favour of  
the distinguished body of  
gallant and scientific men  
over whom you preside, and  
that I have done nothing to  
deserve the liberal and most  
courteous marks of attention  
with which they have again  
honoured me. You and they

George Wagon

will allow me the further  
gratification of thinking that  
in the valuable present which  
I have just received from you,  
I am remembered as my Father's  
son by my Father's friends -

He, as you best know, my dear Sir,  
gloried in his soldier-projects -  
I have observed with pride  
and delight that they of all  
others have been most attached  
to his memory - You will forgive

me for imagining the pleasure  
which he would have felt at  
witnessing such a result of  
combined industry and love of  
useful anatomy as that af-  
forded by the Museum at  
Port Pitt. May what you &  
the Army have done, be emu-  
lated by others of the civil  
medical bodies! With sincere  
respect for the Society of Army  
Medical Officers, and with earnest  
wishes for their fame I most tenderly

beg of you to believe me

Dear Sir James

Your obliged friend & servant  
J. R. Wilson.

My dear Sir

I feel particularly honoured by the  
present of the *Basinulus* of Drowning, from  
the Army Medical Museum - produc-  
tions manifesting an extensive and  
minute acquaintance with pathology,  
highly creditable to my brother officers  
of the Department - and more espe-  
cially to yourself, who seem  
to me to be the mainspring of  
all those successful investigations  
into medical science, which have  
during the last 20 years been the  
pride of the physicians and  
surgeons of the British Army.  
Without your warm encouragement  
of rising merit, and your ready  
patronage of industry and talent  
the army might have had the  
same medical officers in its service,

especially at the University

but it would only have been a  
field of toil and bloodshed,  
and not ~~only~~ for the cultivation  
of some of the most useful  
branches of knowledge. There  
might have been the same fine  
opportunities of collecting information,  
but they would have  
been lost.

Having had the honour of being  
acquainted with Mr. Wm Franklin  
for not less than 33 years  
and always truly admired  
his ~~discreet~~ cautious manners  
and spotless integrity, I  
heard of his death with the  
greatest regret - I am  
ashamed of not having  
inquired, whether any mark  
of respect was intended for

his memory - and if the design  
of erecting a monument  
should be carried into execu-  
tion, for I hope it will be /  
I will most cheerfully subscribe  
five guineas for the purpose.

Mr Pillau, who is  
studying at the London  
University, is very much  
like his uncle, and particu-  
larly attentive to his pro-  
fession, so that he will be  
sure to do well.

I present my best respects to Lady  
McGregor and believe me,

My Dear Sir

With the Highest Esteem

Yours Ever faithfully

Samuel Cooper

Fort William Med<sup>l</sup> Office  
 August 18th 1854 -

Dear Sir James,

I have been directed  
 by the Medical Board of this  
 Presidency to acknowledge the  
 receipt of the second fasciculus  
 of Anatomical Drawings, from  
 the morbid preparations in the  
 Museum at Chulpana for-  
 warded by you through Dr. Burck  
 the Inspector General of A.M.'s  
 Hospitals in this Country.

The Board desire me to  
 return to you their best thanks  
 for this mark of your politeness.

For the Trustees of the  
 British Museum

and attention which they  
 have to spare for has been duly  
 appreciated by them —

At the risk of subjecting  
 themselves to the charge of pre-  
 sumption the Board desire to  
 say that they consider  
 the fasciculus in question  
 to be of the highest importance  
 to the history and paleontology  
 of the Museum, for such they  
 are likewise indebted to  
 you, the highly interesting  
 & instructive works, & to  
 reflect great credit on

The zeal & talent of his medi-  
cal Staff of His Majesty's ser-  
vice, & on the controlling power  
by which their energies have  
been so ably directed

I remain

1311

Edinburgh 1st March 1834

130 1034

My dear Sir James. Give me leave to  
 acknowledge with sincere gratitude your very  
 valuable present, which reached me yesterday.  
 I have not yet had time to examine with  
 great attention the various lithographs showing  
 taken from the morbid specimens in the museum  
 at Chatham. As far as I could judge from  
 a hasty inspection of them they seem to me to appear  
 to be very faithful portraits of nature. —

I regret very much that I have not had an

opportunity for some time past of adding to your  
museum. which I can assure <sup>you</sup> originates entirely  
from the very scanty supply of subjects which we  
have obtained. since the late bill of Anatomy  
passed. —

I have the honor to be

Most sincerely Yours

Wm. Act. Esq

To  
Sir James W. Esq. Bart. M.D.  
London

N 35)

My dear Sir

I beg to return to you & to the medical  
officers of the Army my very grateful thanks for  
the present which I have just received:—The 2<sup>nd</sup>  
fasciculus illustration of the morbid specimens in  
your museum. A selection embracing such important  
diseases—the drawing so admirably imagined & the  
execution withal so perfect—is a most valuable offering  
to the profession at large. With such materials as you  
possess it is the beginning of a work which must do  
credit to the nation.

I must apologise for having yet failed to send  
those specimens which I promised to direct to you. But I  
trust yet to do it. Since I saw you, our museum has  
suffered grievously from the attack of a lawless mob, incensed  
at our attempt to bring the Anatomy Bill into operation, and  
I have been much engaged in repairing the effects of the  
havoc.

I am my dear Sir  
Yr very obliged &c &c

My dear Sir James

Edin. N 36

I did not receive the fascicules of  
Pathological Engravings until within  
these few days — I beg you will present  
my best thanks to the Medical Officers  
for so handsome a gift — I am much  
gratified by their considering me as  
one of their body & I shall always feel  
proud of having belonged to a class of  
men who have done so much for  
Medical science & whose habits &  
modes of thinking I esteem so much  
more than those of civil practitioners  
Some Medical Officers I agreeably  
recalled as early associates & fellow  
labourers & others I have had the honour  
of numbering amongst my pupils —  
You & they may well be proud of the  
Anatomical establishment at Edinham  
& of the fruits it has produced — I consider

the 2<sup>nd</sup> fasciculus of engravings <sup>more faithful</sup> as better & executed than any series of anatomical plates which have been published either in this country or the Continent

I am much pleased at the prospect held out of the Medical Officer taking a conspicuous position in London & shall be glad to see it realized & in ~~may~~ carrying <sup>it</sup> into effect I hope I may be considered as one of the Lady

believe me always

Yours

James Macarney

I am Dear Sir  
yours very truly

Bl Brodie :

Royal College of Surgeons in London  
14 September 1833.

Sir, In reply to your Letter, to the Librarian, of  
the 12<sup>th</sup> Inst., I have the honor of acquainting you that  
the Catalogues of the Museum and Library of the  
Medical Officers of the Army, transmitted by you  
some time since as Presents to the Library of this  
College, having been received during the confusion  
of dusting and arranging the Library such Presents  
were omitted to be reported — I have now however  
to acknowledge, in the name of the President,  
the receipt thereof, and to return you his best  
thanks for the same.

I have the honor to be

Sir

Your most obed<sup>t</sup> Servant

Edm Jeffers Esq

Sir James M<sup>d</sup> J. J. Esq

Sir,

I have had the honor to receive a copy of the Catalogue of Preparations &c. contained in the Museum of the Army Medical Department, at Fort Pitt Chatham which you have sent to me to be deposited in the Museum of the Northern Institution here, as a present from the Medical Officers of the Army to whom & to yourself I beg to return in name of the Members of the Northern Institution my most respectful thanks.

I regret that the Gentleman who was so obliging as to call on me with the Book had not time to inspect our little Collection which I would have been happy to have shown & explained to him, as from its abounding in local curiosities it has been considered for its size rather an interesting collection. I have the honor to be

Sir Your Most Obedt Servt.

Sir,

I have just been much disconcerted on referring to a Work I had not before had occasion to consult since my late absence, to observe two small Volumes sealed up in writing paper; which, on opening them, proved to be the Catalogues of the Library, and of the Museum of the Medical Department of the Army, about which you made inquiry on the 12<sup>th</sup> Instant. — Vexations as this occurrence is, it is easily explained; for my books were all taken down whilst I was on the Continent, and when they were replaced, the two Catalogues were also put into one of the Cases, whilst I was entirely unconscious that they had been received.

I beg you will do me the favor to express my concern at this untoward occurrence, to the Medical Officers who have the care of the Library and Museum;

Sir James McEwen
