Mr. Ballard.

Oct 28th 1889.

Patient of Dr. Watson's.

Hay Tor, Dennington Park Road.

Gonorrhoea. long standing

Acute Cystitis with great spasm of External Sphincter.

A big man - a van contractor married 2nd wife - frequently gets gonorrhoea.

Had an attack similar to present 6 years ago.

Urine thick phosphates and shreds of mucus. Rectum irritable & a fulness of rectal orifice as if of small piles.

R. Hot bath R. 3 morphia sup^t inserted in the rectum containing 1/4 morphia each. R. Pulv. Boro. citrate of Magnesia. with Sautel Capsules.

**From this point on, left side pages are
blank and have not been digitised.**

Mr. Dundas Grant's coachman Oct. 26th 1899.
a sebaceous cyst on outside left foot.
about size of hazel nut.

I passed a hypodermic needle & drew off pus.

Then injected cocaine.

Cut down upon the swelling found it much deeper than I anticipated did not find any pus. but the usual humanan cheesy looking contents squeezed out a good deal.

Mopped out cyst with Carbolic acid pure. Dressed with blue wool strepping & band age

Oct 27. Dressed find surface wound almost healed.

Opened up wound dressed.

Oct 29. Foot feels easier - not dressed or today

Nov: 15th The tumour gradually subsided suppuration occurred to some slight extent.

Miss Ellen Shepard 45. Oct 27 1899
old patient

Prolapse of Rectum. not examined.
operated upon before by Mr. & Smith
for hemorrhoids & piles.

R. Hamamelis grt in Suppl.

R. Bismuth Salut grt. with
Comp Piperis Nigri 3/4. Comp Rosa 3/4.
at bed time and 11 am.

Nov: 8th D. Silk gave anæsthetic
found an enormous mass of piles
prolapse of anus.

Tied seven piles but dare not
do full operation.

Nov. 15th Patient never in much pain
after first day. gave nupenther
as a sleeping draught with
excellent effect.

Bowels have not yet been opened.
gave some Castor oil, cascara
& molasses re. injected oil today.

Nov. 30th Patient left for country
today. The rectum has never come
down since operation but there
is a good deal of pain at stool
and a constant ache.

Miss Mitchell 33.

Oct 28 1859

Polytechnic Regent Street

Teacher of Cookery.

Anæmic, dyspeptic. irregular and painful menstruation.

Has just now a bad cold with some cough.
Complains of running from nose
and sudden attacks of itching in
the nose and watery discharge, like
hay fever.

R. Quinine Sulph: grv every third day
after luncheon.

R. Acid Hydrochlor: dil: min iii

Liq: Strychnia min ss

Inf: Gentian Co: ad 3j

t.d.s.

R. Tansan.

Nov: 24. Patient looks much better
could not take tonic it made
her feel weak.

Mr. J. C. Anderson 53.

5
Oct 27th 1889.

Long resident in Ceylon - tea planting.
A home two years ago had double pneumonia - went out to Ceylon kept quite well - came home 4 months ago - stayed in Scotland. On way up from Scotland to London when near London vomited out of carriage window after second vomit wife noticed blood on chin & clothing. On arrival at station vomited in great quantity - blood. Dr. Brimton, the railway surgeon saw him. I saw him when vomiting had then ceased for 2 1/2 hours.

He was taking opium & Sulph. and some iron.

Oct 28th Quiet night - no vomiting.

Gave white wine whey, jelly, tea, no medicine

Oct 29th no vomiting. Slept well. Look well - pulse good.

Diet the same add. raw meat juice & whisky. 3 tablespoonfuls daily with milk. R. Glycerine supposit.

Nov: 15th Returned from Bournemouth staying at Southcliffe at Dr. Philpot's house. He says he was very comfortable & cooking food. Examined fund liver & inches deep hard with sharp lower edge spleen enlarged double size normal. looks rather pale & puffy about face. Appetite good. Leaves for East tomorrow.

W. S. Mason

33.

6
Oct 30th 1889.

Dyspeptic.

7 years ago had typhoid.
used to drink a good deal had
at times burst.

Married child. looks an active
light vigorous man but has a
somewhat subicteric tint.

Appetite fair, bowels 1 or 2 a day.
Urine usually clear

Drinks a fair quantity port,
whisky &c. smokes cigarette, only
after dinner.

Tongue white rather dry & tendency
to blackishness in centre

Has a bitter taste in the mouth
or a foul tongue & mouth in the
morning.

Examination. Liver tender & enlarged
upwards & slightly downwards,
all other organs healthy
Urine not examined could not
pass any here.

Had cystitis 5 years ago after
clap. did not lie up.

R. Acid Stuy. & Chloride Amm. fashin.

R. Kutox.

Rich diet. Smoke pipe.

Mr. Colin Ford.

52

1 Ridgemanworth Road Watford.

Nov. 13 1888

Conjunctivitis Left eye.

Had Herpes in China in same eye
previously. extended over 1st & 2nd division
of 5th nerve.

In China 30 years. as consul.

R. Ammonio. Chlorid. $\text{gr. } \frac{1}{2}$ K $\frac{1}{2}$. 4. Na $\frac{1}{2}$. 4.

Unit nre Varn. with Inf. Scott Co.

R. Piperazine. every morning.

R. Loto Boran for eye.

Mr. Goode

Nov: 15th 1889

ves bubonic.

Has just recovered from an attack
of mumps & subsequent orchitis

Mrip.

Copied by Dr. J. S. Dr. J. S. Dr. J. S.

27.

Nov: 17th 1858

Inflamed Throat. Ill since 15th went to bed 16th
Tongue black. Both tonsils inflamed
R. covered with flocculent & scaly exudation
dry in places. L. dotted with flocculent
points. R. much enlarged. L. not so swollen
Uvula hangs towards right side swollen
Temperature 101.4.

Pulse 92. Rather small.

Face rather flushed. Patient cannot swallow
R. Calomel & inhale steam } fluid comes back
R. gargle. Coc: gr. viii } through nose
Acid. Carbolic 3i. Glycerin 3iv. Syrup 3xii

18th No improvement except throat cleaner
Temp. 100.7. Cannot swallow. Tongue
black in dorsum food comes back through
nose. Rept Calomel.

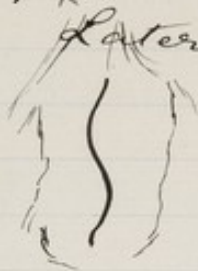

19th Bowels well opened. Temp 100°. cannot
sleep & swallow. no great distress in
breathing. Tonsils much less swollen
& the exudation clearing away.
Temp 100.4. Covered with scarlatina looking rash
on chest - inside forearm, neck & face
Glands on either side of jaw angle tender
& big. been so now since first seen.
Even temp 102°

20th Temp 101°. Pulse small 90.
Rash is duller today, hands & skin generally
tingles & itches. The skin can be felt
papular where rash occurs.
none to be seen on legs. & by slightly
on back of forearm.
Bowels been open freely.
Tongue red & glazed. Patient says she feels
much better; slept well; & can take
food now.

Nip^{Violet} Maclean

114.

Nov. 20th 1888

Lateral Curvature

Left trapezius region much
hyperextended ~~Left~~ Right atrophied
Curvature disappears greatly
in flexion.

Been in Switzerland 2 years.

Had Landau treatment.

The Right lower limb is $\frac{1}{2}$ inch shorter than
left.

R. Thickened sole. R. felt jacket.

R. Gymnastics, whiteleg exercises.

Dec 11th Came with jacket on
fits fairly well.

Mr. H. G. Howard

24.

Nov. 21. 1895

candidate for employment in China
Messrs. Dodwell & Co.

Seen by D. Thun 1895. recommended not
to go.

Pres. Ill. not serious illness. Had appendicitis
in 1897. lasted one month. never had
an sign of recurrence. Bone & Joint in Dalton

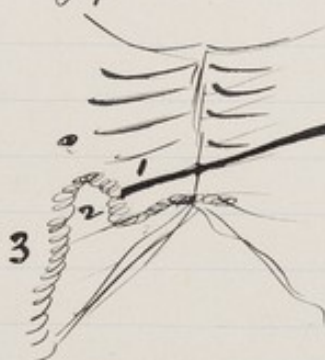

F. Hist: F. died. Bright disease

M. alive Invalid. Rheumatism

B. 1. well.

S. 3. 3 alive & 1 dead infancy.

Pres. Note. Patient is a short & 4,
pale ill developed man. Two sides
of face unsymmetrical

Height. 85 lbs. 7 1/2 lbs.

Ch. measure 33 minimum
sea weed injection of vessels
along this line.

at 1. & 3. lung sounds
normal at 2 faint
high pitched breath sounds

urine normal. tendency to phosphatic
Teeth. plate upper jaw.

some rotten molars, lower.

The teeth of lower jaw show signs
of weakened by phthisis maxillae.

W. M. Sully.

18

Nov. 22 - 1888

going to Cape for Natal Mounted Police.
 H. 5' 9½ in. W. 9" 7th Ch. No. 32½ - 35½
 Healthy organs.

Had Influenza 4 years ago. 3 weeks in bed
 no lung trouble.

Lost one tooth lower jaw R. ^{6 years old} ~~not~~ molar
 no varicose veins, no varicella

Miss Pym. 22. Nov: 22 1889.

Anemia. Came fr. Reading last.
has travelled much abroad.

When in Switzerland after
prolonged stay of some years.

She had Scarlet fever in Wiesbaden
1882 & Rheumatism after it.

Believes she had not Rheumatic fever.
Looks pale & complains of trembling
Heart & wants to hold on to things
occasionally.

R. Digitalis ^{or the} R. Iron.

R. Rikron powder.

Mr. Lewington

Dec. 27 1859

Believed herself pregnant 4 months
not the case. has nausea regularly
but stomach getting larger. No
uterine enlargement. Patient nervous

Dec 2- Uterine catarrh. with coffee coloured
discharge occasionally.

Uterus normal in size on passing
sound. Came away with brownish
type of cotton wool.

Miss Mitchell

Anaemia - atonia dyspepsia.

See page 4

Mr. William Merris 40. Nov: 29 1889

Neurasthenia.

In H.K. & Clinis many years. 13 years.

Had Sept. 1887. treated for it

In magazine Jan. Febr. 1894. in H.K.

In Shanghai 1886. typhoid slight.

Has been at home off work for 2 1/2 years.

Wife had healthy child is a boy aged

2 1/2 in left cheek.

Is losing weight.

Has a tender rather enlarged liver.

Has head ache over supra-orbital

nerve in both of head & when nerve

tapped over forehead can feel

hair shooting up.

2nd of pain.

Has a chronic cough. dripping
from back of nose

Has a sudden unexplained Right. Deaf.

Eustachian freely open. & perspiration

as he feels water trickling to
throat when injected into R. Ear.

Both meatuses chronic catarrh
rather dry.

No enlargement of spleen

Tenderness over stomach; cannot
milk out it is dilated.

Headache immediately after meals.

Mr. Forbes Laurie

17
Nov. 30th 1899

Seen last June 19th at ^{the} Hosp. Resident.

Syph. disease of tongue

Plagues on dorsum near tip & especially on the left side.

Mouth improved by treatment. Took

Rt first & then Mercury N & after 6 months

Patient looks better less tropical in appearance.

R. 4g. every three months

for 12 months after then
every April & October.

Mrs. Flass

Jan. 30th 1889

anemia & irregular menses. Scanty.
Kitchen maid at a house in Montague
Square. Tale of possible miscarriage
some 6 months ago. since then
anemia, menses scanty &c.
R. Fe. Salt. Nymph. cut full at 2 am.
R. Soda Salicyl. at bedtime for x.

Mr. F. Kurbannin.

Dec. 2 = 1899.

Sheffield. Dentist.

Has a hard nodule in left corpus cavernosum about size of large pea. Can be felt about $\frac{2}{3}$ way up penis. It is quite distinct from neighbouring tissues.

He also has a hydrocele of cord? at top of left testicle size of walnut. It has been tapped once or twice. He says it varies in size or in smallness.

wrote about
Hesslein
Mrs. May.

20

Dec: 4th 1888

48 Northumberland Place

Bayswater.

Heart palpitation

Seen to many Doctors.

Has a child 7 years old

Never pregnant again

Lost a quantity of blood after baby
she had heart trouble after.

Examined heart found sounds
loud & rather sluggish.

Abdomen not distended

Stomach not enlarged nor is

Liver tender or enlarged rather

small. Spleen normal.

Has pain in palpitation over

the colon transverse & down

left side & into iliac left side

uterus recedes. feels far back

against rectum. some enlarge-

ment of mouth because

very hamful always were.

Pulse at wrist soft not filling
artery.

Headache, bad back & W. H.

Breath foul. may be tooth

has blood at time at stool

anus full & hard especially

forward & to the left.

Pain in fingers found heat

pulses, worried anus with

tendency to piles.

R. Diet of Cascara & Kutoon.

Mr. H. W. Clarke.

25.

Dec: 7th 1859

Examined 6 Jaws by J. A. S. P.

H. 6 feet

W. 12⁵/₈ H. 11.

Chest measurements 34-38.

Jaws found.

Teeth head

has artificial teeth upper jaw
a plate.lower jaw molars nearly all
gone.Heard with a whiff of fresh
inspiration.

Miss Monument

Dec 7 1899

Malignant disease of Breast

Removed H.K. 1894. in Ceylon 1898

recurrent tumour. C.H. by Mrs. Boyd
1899. May. Contractions round axillary
removed also ovaries..

Pre-And. Left arm swollen enormously
hard indurated. Shoulder involved.

Pain round shoulder.

No menses since operation

Looks well

Arm stiff & swollen.

Mr. Septim King.

28.

Dec 8th 1899

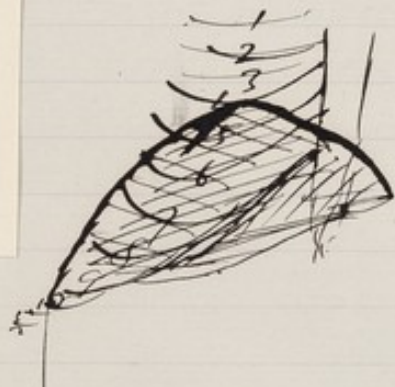

Four years in India.

had no illness.

Had baby 4 years ago. water broke
the head remained in bed 4 months
Baby when born 3½ lbs. very almost
well.

Came home in June 1899.

14 days after coming home got hepatitis
& ? peritonitis. Fever; great pain.
constipated did not vomit no icterus
in swallowing. Had a greatly distended
abdomen 27 round waist one doctor
thought another baby.

Evidently old perihepatitis
inflammation between
folds of suspensory lig.
just escaped supra-hepatic
abscess, ?

R. Annini: Chlardi: Acid 1/2 du. by 1/2 du.
of Ginnamoni. R. Cascaros & Tabley-
Vichy. may drink stout & stout. must
dote warmly. R. Cascaros combinalen ^{allwlen} bell.

Liver felt hard & orange unyielding. Felt. pain
pushing up to dome, internal to nipple
when fingers palpate deeply liver. Spleen not
enlarged. Feces sand & blue light coloured.
slightly constipated. Tongue fairly clean
pale rather anemic has spread deal of
'fo' about her.

CASE-BOOK OF SIR JAMES CANTLIE

October 1899 - December 1900

R. W. Reid

19.

Dec: 8th 1888

Seen at Clare Hall, Clifwell, Mex
with Mr. Buckston Brown.

Albuminuria

Seen by me December 16th 1888. & believed
he was overtraining at Cambridge
Heart enlarged &c. see former notes.

He has up all about 6 weeks ago on
football field injured left side.
went on playing also moving, he is in his
College eight.

Saw Clifford Allbutt who restrained his
diet a little but nothing more.

Mr. B. B. saw him put him to bed
& on milk. Alb: about $\frac{1}{3}$. some blood
cells no casts. (Mr. B. B.)

Heart symptoms exaggerated. Heart area
enlarged; bruit first sound; dilated right;
pulse full bounding tense &c.

Mrs. Kay cont. from page 20.

Dec: 12 7 1888.

Feels a little better

Has had massage

R. alk. of fluid for one bottle

R. acid of fluid after.

H. Usher

34.

R. C. Edwards. 28.

Dec 14th 1859

In H.K. Shanghai Bank.

In 1894. in H.K. remained for 1 1/2 years.

In 1895. in Sanyin. remained there 3 1/2 years.

Came home 1899. June.

All right in Sanyin until he got dysentery
what French mistake. Last it for 1 month.

Then went to Shanghai got well.

After going back to Sanyin. got pain
in Right side low down towards
pelvic brim. got well in a week.

He'd sent pain at first. came on
suddenly. went to bed feeling all upset
woke next morning with acute
pain. Pain seemed a kidney pain.

Passed stone in left side 6 or 7 minutes
before. urine white yellow. oxalate?

Patient at one time had much in-
digestion during last two years better.

Mr. Osborne Brown 32 Dec. 18th 1888

Swiss catarrh - Civitatis glori?
Born in Canada N. W. for 14 years.
Lead hard life - in ranches. Drunk
hard for a time 17 years when he
kept a store.

Came home in account of feeling
nervous depressed & weak.

a pale red hair man 5-10. weight
9⁵ - 10 lbs. Had diabetes for a short
time some 6 years ago.

Had rheumatic fever in Canada
some 12 years ago. Has had then
rheumatic pains lately in England
where he has now been 6 months
living at Croydon.

Married healthy boy. 4. never had
any venereal.

Liver not enlarged - slightly tender
Spleen not enlarged.

Lungs sound.

Heart apex sound, normal
base - brist with first.

Pale small but not abnormally
so.

No appetite. Tongue slightly coated
Sleeps very heavily towards morning

R Diet. Meat & bread. & whiskey &

brandy 3/4. bidie. Vichy.

R. Soda^{3/4} & Soda Salicyl. & Fruit Juice (Mellin's)
w/ferkan. —

F. W. Haytable

32.

Dec. 20th 1888.

England until 4 years ago.

Had asthma in England - no attacks
in Transvaal until 6 months
ago.

Complains chiefly of indigestion
wakes up every morning with a
luteal blood in mouth & with a
little in spit.

Pulse Heart & lungs normal.

Liver not enlarged but tender

Spleen adheres a little increased.

Miss Allen

Jan 13th 1900.

~~Hot~~ Nagasaki.

Reading.

Capt Lawrence. 52.

Feb. 1st 1900.

Retired R.N. for 57 years.

Served abroad. never had malaria nor
any dysentery.

Had many accidents dislocated shoulder;
collar bone; broken leg.

Two years ago had a diarrhoea. When going
to Hillstone to play golf. got gripes & mucus
enteritis. This pulled him down ill 3 weeks.
Since then 2 or 3 attacks, similar.

Had me in May 1888 (at Düsseldorf)

came on suddenly with fever 104.5.

Took Cantor oil but looser, continued
for 2 or 3 weeks.

Had influenza lately with sore throat
& apurium in rectum.

P. Ans. Bowels not regular. Stools are

sometimes 1 day. & proper formed
but usually loose. Colours sometimes
dark & sometimes light.

Tongue very irritable. red & swollen.
appetite not very good at times.

Weight 18. ⁴/₁₀ 2 ¹/₂ lbs.

with wet coat.

Feb. 15 Mr. Coleman 52. Operates on 127 cases
eye for fistula nearly died in table
operation buried over. Believes he has
had subsequent better according to
now complains of late like stools,
mucus, occasional vomiting head
ache occasional.

Doctor in Carlisle says, stricture
2 inches up. I examined abdomen
find large descending colon
plainly felt. Liver not tender but
full. not much tenderness
in abdomen & bowels.

Cannot find evidence of stricture
in rectum but the sphincter is very tight.

R. Diet - fruit - cereals - wet pack -

Feb 17) ^{message later.} D. Carey. Chronic diarrhoea.
a little better

Mr. G. Smith, 41. Morning sickness.
Commercial Traveller. Vomiting
after walk. &c. &c. Appetite fairly
good. Tongue often quite red.
Liver not big but tender on palpation
on deep pressure. Abdomen not
distended. Urine not examined
at present not been water.

He has a good deal of sickness
in lying down & sitting up. not
in standing.

He is a well built man with
rather athletic tendency.

R. fine & thick. He is not much
of a drinker. ^{smokes} mainly

Cannot drink tea gets acidity immediately
R. Soda. Chloro. Am. Merc. Van & Jentian
Q. Curcum

Mrs. Jenkinson. Last visit 4 weeks
ago thought she was pregnant.
an womb enlarged although she
had been unwell 2 lately
Today uterus less. just been
unwell do not believe she is
pregnant, although breasts tender
& abdomen getting larger.

Feb. 20th Mrs. Movement. amputations
shoulder joint. Jan 27th left for
Mr. N. S. Nelson. New York. Canterbury.
Wound looks well. (Kerrison)

Mrs. Crane. No fever 4 days
same fallers of stomach. Stools
getting more regular. (Kerrison)

Mrs. Frank Bames. Skin much
recovered taking ~~RT~~ for some
time now going. Today
increased RT to XV in Chloro. N
Ammon.

21st Mrs. Peacock ¹²⁰ ~~120~~ Mount 5th
Tumour of foot. May fair

to be removed Saturday at 10.

Mrs. Forde. Shivering 2 days ago.

down at Folkestone nothing.

now complains of pain in abdomen

chiefly on a coccyx has loosened

3 stools a day. Lungs swollen not

tender. Urine loaded with urates.

R. Nallat. Am. Van. Soda. R. Not present at

R. Dr. & Curta oil

Feb. 22: Mr. Flynn. 33. 81 Jermyn St.
West Coast Fever. Niger. Northern
13 months. Went there Nov. 1898.
Left Dec: 1899. Had previously been in
India as a trooper in a Cavalry regt.
Had fever incurred: he arrived in
coast. Slept first night in river
in a boat in deck & got fever.

Then had fever of 10 or 12 days. Fever very much
became here a week ago & said his
attacks were getting more frequent.
No tenderness or enlargement of
liver or spleen.

Blood examined by Rees, saw no parasite.
I found what seemed like an
unpigmented parasite.

R, gave Quini 5 grains daily.

R, (today) 5 grains every Tuesday
& Sunday.

Has a spell of 6 months' duration

Feb 23:

Mr. Goldsmith. Signs of
gravel in left kidney. He
evidently passed some lately
as he had bladder irritation &
urethral irritation.

Dr. Goldsmith. Malaria in India
enlarged liver seen three months
ago. said to be better by fasting
fame complains that he was
unfit for tropical work.

Mr. A. B. Jule. Scabies better. Has skin
eruption from ointment. Still same
breast. Bellad: Benzoin &c.

Feb 24

Feb. 26th Mr. McCleymont. 25.

a nodular enlargement over globus
minor left testicle. old orchitis. Then
orchitis double in Chili. S. America. May
1899. succeeding clap.

7 killed. M. alive. B. 2. S. 3.

Has some crease in lower back.

Liver some what enlarged not tender
except on deep palpation
Spleen enlarged not tender
never had malaria.

Spent 15 months S. America. rode
across Patagonia from Atlantic
to Pacific.

Spent normal. eat. smokes 8-10
cigarettes daily.

No fleet rows. had flat until a few
weeks ago just arrived 4 weeks
ago from S. America.

Has an old injury to left elbow.

Duromy extensor. Radius dislocated
forward. Costyloid ligament gone.

27th

Mr. Tucker died 6 days ago
D^r. says "ulceration in liver". It appears
rather exhaustion from cirrhosis &c.

28th

Mr. Terrell. Earache. wax & cold
in ear.

Mr. Terrell. Influenzal asthma

Mr. Beatty. Spent a bad night
attacked yesterday with bad headache.
Today Temp. 98. Found Sugar
in urine.

R. L. S. Fer. Sulf. Mag Sulf. Acid Sulf. Di
dry Quassia.

Mr. Crane. Had ~~intermittent~~ re-
mittent fever treated next door.
with enlarged spleen liver &
diarrhoea. Now at Cambridge
quite well except a tendency
to looseness of bowels.

R. Alkaline tonic

March 1st Mr. White 37.

Syph. 2.

Under Dr. Larr 6 Fortress Road Kentish Town.

Treated for Syph. for 2 years. Valvula 2 years
ago enlarged glands in groin - hardened.

Lost hair. sore tongue - sore throat
&c. Skin spots.

March 1st D. Carey. better for 1 week.
diarrhoea still present - once a day,
sometimes twice. Stools have lost the
great looseness; but still crusty;
not so frothy; colour light.
tongue catarrhal; smokes 4 pipes a day
& cigar.

March 2nd Mr. Goode.
Recovered. no sign of appendicitis

March 3rd

Mr. Dodwell.

Shoebie Itch & foot better but some-
times

Miss Thyllis Dodwell.

Right nostril blocked.

R. nasal discharge & sneeze.

Mr. Beatty. No sugar 16 p 10/5.

Mr. Beatty. Reduced 5³/₄ lbs.

Miss Beatty Ear discharges
cured.

Mr. Jenkins. Cannot

find any trace of pregnancy.

March 5th Mr. Bower.

about closed to Spina Bifida

Mr. Wallroth.

Operated in for simple Stricture of
Rectum 3 weeks ago. Worseliened
has some pain like fissure. Passed
Speculum tonight. blood ^{advised message} for Right side hand

Mr. Armstrong

Left testicle neglected by me at N^o 12
Jan. with Iodine. Seems to have
quite cured it. some edema of scrotum
now.

Mr. Gwyn.

Stilet remains. Passed N^o 18 &
N^o 12 English.

Mr. May

Consult with Dr. Mark.

on prepuce. fulness of os & mucous
membr. retroversion. a lump on
right side of helix may be
force. A Curcuc Co. Cante n^o

Mr. Berry.

Operated in for fistula.
had in left side ~~1/3~~²
102 fistula & across
hand between.

Healing well but there is a
large raw surface on 3.
Had a long & lingering cough
which has disappeared since
operation.

March 7th Mr. Beatty.

no sugar no albumen. Sp. fr 1017.
Had an attack yesterday.

Mr. Bell.

consultation with Dr. Little.

throat. give me to some trouble
say. Give 7. Lamin yesterday
about throat. He said it was
nervous.

Live no pain now.

Little prescribes. Temp. 101.5. fr 1.

and Dr. del. in XV.

Ag. del. in 30 fr.

St. Mad Shaw.

a nervous attack for two or three days.

crying. headache. pulse 80. Temp 98
at 6.30 pm. how well rest. New for
2 days.

March 8th Mr. Kenny. Injected 2nd

injection typhoid. After

1st injection had some albumen
knew to happen. reaching on
high an axilla. Temp. 101.2 day
following injection. kept up for
30 hours. felt rather seedy but
by Thursday March 1st had
recovered. after second injection
had temp. 100 but next ^{noon} ~~evening~~
March 9th temp. fell to normal
he had little trouble in getting of
illness.

Injection twice in Right flank.

March 10th Mr. Fyfe.

Pained for 12 steel English (large size)
had a lot of burning pain up to
today when large pains. test. less
pain now. There seems tenderness
of possibly commencing, stricture at
beginning, & end of bulbous portion.
Discharge less.

Bread then. L^t.

Took him to see Dr. James Taylor.
says no organic disease. Headaches
may be uraemic.

Mr. Calman

Before complained of fulness in
colon. now colon (left) empty.
I gave Carcano & it purged him
freely. put two more vials of Spavin
R Carcano Co twice weekly.
& Acid & Ferula.

March 12. Mr. Fyfe

Prostate enlarged on R. side over
reside Seminalis. Went to country.
had fever in hand.

Miss Davies. 27

with Dr. Calliston 3 Essex Rd.

old standing hip joint disease
Left hip removed. fell down
some 2 months ago. has rheumatic
pains in limb swelling round
hip & thigh. diag. Hysteria.

no limp. Dr. giving Morphine.

March 13th gave Eric McKeown Chloroform, & removed small adenoids.

Mr. Foote. March 15th 1900
Lives a little better but
not enlarged urine 1,021. no sugar
in phosphates.

Mrs. Medhurst. Shingles of Tharynx.
with hair in ear & down side of
neck.

R. fang. and Cervic.

R. P. B. B. B.

Mrs. J. J. Campbell. 63. 16th 1900.

Recurrent cancer in posterior
axillary glands.

Had? Operation by myself in
March 1897. Recured in wound
2 months later & arm removed
well nice. but stiff. Can play
organ. harmonium &c.

Pres. Can. good health but for 2 months
has had stiffness & pain in
Right Shoulder. no swelling of
hand & arm no enlarged neck
glands. Hard lump in axilla
posterior fold.

Has uterine growth. Dr. Scallen
Wincanton thinks it recurrent
cancer. Dr. John Williams says
no new tissue growth 7 years
ago.

Eric W. Kenson. 30.

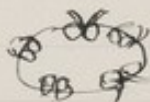

March 17th 1900.

on 13th D.D. front removed tumors &
adenooids. He has discharge from
both ears. or pretty deep.
otherwise well. He has better since
operation.

Miss Boxall. 30.

March 19th 1900.

operated today at 4 5 Devonshire
St. D. Calticant. Bruce gave (died).
for Proctitis. Both D. Kenson
myself agreed that the rectum
was funnel shaped the Sphincter
Anni was relaxed but enor-
mously hypertrophied no
signs of any congestion or
piles. We agreed that there
had been 'unnatural' con-
vulsion. Tied the protrusion
with 5 double ligatures.

Mr Frank Barnes.

March 19th 1900

Itching of back & blotchy
ring-worm looking eruption
taking RT for some time now
about 5 weeks.

Heretofore she had before
was justate chiefly on
arm & legs. cleared up with
RT.

R. Limit Jodi. 9h¹
Limit Jodi. 1h¹.

Mr. C. J. Toovey 43. March 19 '1900

177. Piccadilly.

Congestion of base of Left lung & some wheeze in bronchial tubes.

Tunit Camp Co. anellin.

R Codia Eucaper.

R Dinnie when medicine finished

Mr. Kay. 35. March 19 '1900

Came here before with many abdominal & dyspeptic troubles.

Recommended massage & cascara with Rutnow. &c.

Per. Cond: Looks much better but she has whites? &c. & frequent desire to pass water.

Examined found uterus tender fixed, with adhesions to the right. Could not find entrance to bladder even with speculum so could not draw off water urine passed by herself clear.

Sp. fr. 1015. no albumen in sugar.

R. Suppt. Uteri Ext. Hamamel frt

Ext: Bellad: fr $\frac{1}{6}$ Cve. Hyd. frt

and then fr $\frac{1}{2}$. Ol. Theob

R Soda Sulph. Efferves. S.S. even ^{more}

Mr. J. J. Campbell. 63. March 20 '1900

Dr. Sick gave an anæsthetic & I cleared out the Right axilla. No artery & vein (axillary) are

involved in a cicatricial tissue
it was impossible to free them.
There were one very large hemi-
pleura excision & a number of
small nodules.

I cleared the anterior aspect
of the subscapularis muscle
& the nerve was cut off.

In the evening a good deal of
hemi-rhine vomiting but no
fever.

Mr. Dodwell 45. March 21st 1890.

Recovered from a long spell of
uterine hemorrhage. began in
October. lasted until 6 weeks
ago. at the time there was a wide
dilated os & protruding mucous.
with a hardened base.

Pres. Cond. uterus pink & small. No
sign of any malignant
tumor about os

Mr. Dodwell. Eczema inter-trig. - inter-
scapular - & some on neck & on
scalp. Oily. in latter two places.
I believed he had *Abholbie* Hth.
of the scalp & hair & skin.

Pres. Cond. that seems fine & only eczema
inter-trig. left.

R. Turku's bath. R. Salicylatipowder
& Cuticura at night.

Mr. Cooke.

25.

March 22 1900

Swollen mucous membrane of nose better. a passage in the right nostril can be seen between septum & inferior turbinate.

Mr. Duke.

32.

March 23 1900

seen with Dr. Crombie.

Patient lived in the Hufli in India for 8 years. Kept fairly well for 8 years. Then for 2 years his illness occurred. Sept. 1899. Went to Vienna saw Rothfels' assistant who told him Dr. Frederiksen - and Chatter, then Dr. Rudolf Swickland. Said he would be all right 3 mos. Patient got worse. Came to England December saw Dr. Crombie he found liver enlarged upwards, aspirator found in centre of liver broken down debris - a small quantity in aspirator. 10 days later aspirator again found in Sept. of liver.

Patient went to Scotland

Present. Looks bright & active. Tongue clean, bowels regular, appetite excellent.

Liver not enlarged downwards, rather retracted if any thing.

Hyperaemia little liver on compression. Dulness upwards, umbilic up to 1/2 in. and keels high reaching to umbilic.

Evidently hepato-parietis. old

Spleen large. nodule beyond middle
line & down as far as iliac fossa &
Bernard's pelvis

unilateral

I came to the conclusion that there was
no sign of peritoneal cavity between
hepatic triangle & that the daily
fever & night sweat were due to
Spleen.

Mr. J. H. Hayes. 47. March 23rd 1900.

The lower lobe left lung wheezy.
dull on percussion & a few bronchial
rales. Sonorous resonance on R.S.
His breath is short & he has a
slight whistling evidently from
old injury to forehead & nose.
The hemorrhage from the
lung not any lately has
been gone for 2^{1/2} months
before that only had monthly
during 2-3 months, having
then been taking KI for some
time improved on it. I diagnosed
the trouble as Syphilis.

Mr. Beatty. Look better. Urine left
for examination thrown away

Mr. Turrell

March 24th 1900

Fish bone in throat?

Bunions in both blains? on both feet

Mr. Sachs

46.

March 25 1880

Injury to knee over Lig. Patella
6 weeks ago. There is now no
effusion into knee joint
but there is some swelling
& tenderness in extension
flexion in region of ligamentum
alarium.

R. knee cap. from Montague

Miss Griswold

with Patellar Curvature.

wearing Pro-plastic jacket
with two steel ~~rod~~ hand
supports behind ^{displacement}

There is marked ~~distortion~~
of inner end of left clavicle.

Shin & ankle thickened there
in Right Foot.

Mr. George M. Smith 20. March ³⁰~~20~~th 1900

never laid up with any illness
since baby hood.

never typhoid. never small pox
vaccinated when a baby never since.

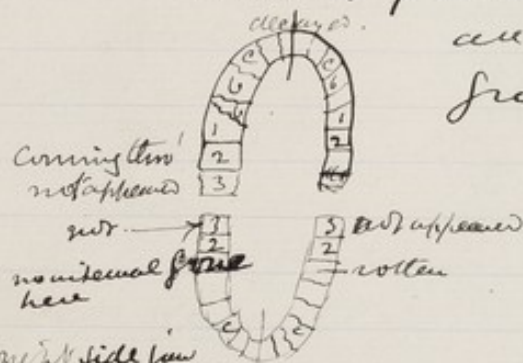

Height. 6 feet. W. 10 Stone. 8 lbs.

Heart clumps normal. Ch. M. 34-3 $\frac{1}{2}$

Liver & ali organs normal.

There a peculiar scar - red hard &
depressed between umbilicus
& cartilage of ribs over edge of
left Rectus abdominis muscle.

Teeth fairly good but upper incisors
all going at upper front near
gum

Right side jaw
now well developed
as left - C. M. R. L.

removed.

Urine normal

Miss Fullaway.

March 30th 1900

Worn. Thread & Round.

year standing.

Is much better than formerly.

Came here October 1898.

Has only spinal cancer & pain
round waist.

R. Hyposul. 1 gram. twice daily.
for weakness.

R. Salt water injections.

R. Lubb! Anac.

Mrs. Walroth

April 9th 1900

Structure of Rectifier Operated -

There is a tendency to a half moon
stricture in posterior & right wall
1 1/4 inch up.

Passed the wheel expanded the
constriction. a shot or two of blood
only came away.

R. pers. boyie 2. : with most the
shaken a painful H² nit at top
or neuralgia pain along the
nit. Her abdominal again as
much greater! She feels much
better.

Mr. Peacock. The lump on the
foot 'Fatty tumor' seems to
me somewhat large as if it
was growing again.

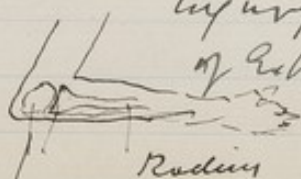

Mr. Bellie. Found under beneath
2 Portman hall of front Ave of Right Fort.
Mammals walking on pavement. seemed it
likely. Their feet large & very light
& no accustomed to pavement.

Mr. McClymont. 28.

Examined for Melchior Anterior testis
He came here with a nodule in globus
major of L. minor of left testis
with dense shell. Shell now covered
nodules remain.

Syph: doubtful history, 20 years ago
taken Hg. of course.

R KI. gr. viii increasing doses.

R Cocaine for tongue & a mouthwash

Mr. Fitzgerald. 40.

believed he had Lymphatic inflammation
(but found cord as if blocked vein (interne
Thoracic) on side of right chest -
where marked. When he raises
arm there is a groove over course
of vein. No fluctuation or adenoma
R. Bellasphy

Mr. Barnes

April 11th 1900.

Tender lines with pain along
the lower ribs. Tongue fairly clean
Stomach with fluid & some gaseous
gurgling. Bowels kept free. Headaches,
feels dull especially after lunch,
getting heavier. Liver tender on
palpation & percussion.

R. Aurochlor. Ann. & Jodine
& Sulph. soda.

Mr. Bell

Has aches in liver, throat
better but in throat improves
the liver aches vice versa
He has palpitation lately

but not had. Feel it as joining up
Darius at W.C. Heart sounds - see
breast but seem diffused & running
into each other. Then occasional digz near.
Wm. Sh. fr. 1023.

Bp. Testicle

Small (measured by 1/2 inch)
cyst on top of Right
testicle.

seem connected with W. of testicle
a globus major. S. N. tender
a movement + Ref. pain
running up the cord.
been taking

Darius - Gull fr. 1.

and Gull die in XV.

G. Adm. at Bp.

Bp. N.S. for 4 weeks

This is likely the cause of the
heart irregularity in Darius.

April 19 1900

Caledonian Asylum

April 15.

abscess in arm - opened - has up round
shoulder joint. all are run into. Dr. Reid
thought it was rheumatism. Shoulder
joint seems free

Mr. J. J. J. Feverish attack last night

Temp: 102.5. Two hours after com-
mencement of rigor. Patient lies
well below with cast up.

Wm. Sh. fr. 1025. no albumen ^{no blood}

sent blood to Rees.

Mr. Lowe.

Feb. 19th 1900

Tongue much better

Rt. Mti in face & back

Complains of wet dreams at 1-3 week
intervals & coming to some with
women.

Mr. T. J. Bourn.

33.

April 20th 1900.

old case of abscess in liver

Operated upon by me in January
8 years ago.

Then two years later in fact
above left ribs near costiph
where Dr. Rammie opened an
abscess probably of wall.
He had two Supravahenatic
abscesses evidently when I saw
him. He had two Trepan
one after the other

Now been in Trepan for 6 1/2 years
Gut well. except occasionally
muddy urine.

Look well. Liver normal in size
not tender. Spleen normal.

Heart sound. Looks bilious, conjunctivae
rather white & glistening

Tongue dry & rather red.

Urine Phosphatic no alb. no sugar

R₁. Acid & Benzoic acid & Glyc. sentin.

R₂. Sod: Sulph. Sphenescen.

sterilized in diet

Whisky & Vichy

Mr. Elliott Bruce.

April 21st 1900

Hernia right hip. hernia
coming for medical care.

April 23. Operated

Found external opening then all the
way to the internal ring.

Could not find sac. Stitched puller of
ring together with 5 (or 6) silk worm
gut sutures. Sewed up skin with
horsehair.

Mr. Boxall

April 23rd 1900.

Operated for prolapse of anus & rectum
some 6 weeks ago.

Went home for rectal hernia.

Found a large abscess, peri-proctal
fistula. Opened - much striking
hemorrhoidal tissue removed.

The external sphincter which was
wide opened is still inclined to
keep open.

Mr. Dorey. Catarrh of Right ear.

Mr. Forde. Recurring tenderness in
the right iliac fossa.

Mr. Steel Dodwell & Co for exam.
see note

Mr. Janssen Dodwell & Co for exam.
see note.

Count Blücher

April 24th 1900

Dyspepsia. comes on after meals, after
breakfast, especially after walking
to office. Craving between 12 & 1.

Let fresh bread. Champagne fruitfulness.
Food eat little.

Organs sound except Liver enlarged a
little full perhaps mildly. Stomach below fall-
bladder. Shown not to be felt. Urine
with Shreds. Has a Stricture of urethra
passed a small catheter last night
in himself. Passed me every few months.
Has been in N. Africa on Lambert &
Portuguese Coast. Had malaria there
also since coming home. Engaged to be
married.

R. Dinnick Jr. in weekly.

water morning instead of one

Frederick Ed. Richards 36. May 14th 1890
Went to Farcham. & Shamploin.
1884. home frequently came home
August 1887. Been home 2 1/2 years
for 12 months family well. but
in Spring 1889 & again in this
year 1890 had fever. More persistent
than year than before. about 7"
Temperature for 4 weeks has
been up daily. in the evening
101.5° about that.
Examined find liver enlarged
& tender. Spleen a little full
not tender. Bowels irregular
constipation.

Remained in Mrs. Kershaw 45
Dwight Street. May, 21st - 26th
During the time had fever up to
101°. every evening. Liver tender
but the threatened liver abscess
disappeared. By the 5th day after
severe purging by rhubarb. fever
left.
antiseptic treatment for some time
3 days but did not improve
attempts to type cleaned. Put on
mixed diet. before for coated
but liver went down immediately
had all back to abdomen.

Mr. May.

May 19th 1900.

Anaemia. but improving generally.

Mr. Walford

May 21st

Removed prepue. at 45 Devonshire St.

D. Silk gave anaesthetic

stitched with horse hair - healed
snickly. the prepue was adherent
to flaps - Cause unknown.

no history of syphilis but his
hair is coming out in patches, using
a battery for it.

Has a varicose vein over left testicle
tendency to varicose veins in the legs

Mr. Kemp.

26th

Fell down coal shaft. 3 weeks ago
injured - bruised right leg & bumped
abdomen.

Now no mark & evidence of injury
other than a nervous alcoholic person.

Mr. Ford.

26th

Seen with Dr. Bruce

no organic lesion.

found alkaline urine

in India 12th years.

Central Provinces. Ind. civil service.
has been home for 3 months, leave
3 times previously, but never on
long leave.

Came home 2 months.

He never by phosid.

Had first attack of fever after
47 years residence. Came on during
the rains during considerable
fatigue. He only 2 or 3 days tertian.
Since then occasional attacks of

fever. End of hot weather often had fever.
Dysentery, no. diarrhoea, few nervous
crises.

Recently had liver with fever June 1900.
Laid up 10 days in bed.

No suspicion of abscess. Hepatitis
evidently not much pain no cough
Temp. 102° almost monthly.

Recovered & came home.

On way home good.

Since coming home fairly fit.

Stomach clean. 2 cigars. 4-5 cigarettes

Bowel regular. no nausea.

Piles - bleeding occasionally

Have been replaced daily.

Married 1 1/2 years - no children - wife
never pregnant.

Liver not tender not enlarged
Spleen normal.

Heart sounds feeble.

Lungs normal.

Colon tender all the way along
& dilated in splenic flexure.

with pain in left shoulder.

Pain towards middle when
catheter pressed upon.

No forces felt in sigmoid.

Pile. Slight but inter-external
& with a raw rather ulcerative
surface on me.

Have pale skin 1007.

no alb.

John W. J. Presland 31 Nov. 22 1900

Tender Tongue.

dent food & depart. L & N. W. Railway
keeps weight fairly well.

Tongue red at edges tender excoriated
with some ulceration on left side
as if from tooth. Teeth however
are sound. except two in upper jaw
Tongue dorsum rather more uneven
as if from bumps. streaks of different
color on surface. The under surface
is raw & red - true. The roof of the
mouth (the palate is very high)
is raw & red.

The inside of the lips swollen &
soft. with 2 or 3 small pin head
looking ulcers in inner aspect of
left cheek near angle of mouth
Two or three hypertrophied looking
nodules on inside Right cheek
has no ulcers.

The ^{roof} palate & uvula look red &
raw & there are marks of a
scar. on roof palate of right
side.

Bowels. Usually open once a day
opened according to time of duty
he sometimes is right duty.

no he says, however any how.

For past week has had diarrhoea.

but on only one or two occasions.

As a rule rather hard.

Bilious occasionally. feels sick but
latter evening & that puts him right
often bilious at school here & there.

Never sick after meals, very rarely
feels sick. by biliousness ^{he means} he believes
wind & a sour substance come into
mouth. He gets at times as yellow
as a guinea & has white at a day
or two at times.

Mr. alive. B. 2. S. 1.

only 4 in family, never any serious
diseases. Mother & Anne & sister
and kidneys at school.

Organ sound. no tenderness of
liver the liver is full size
not in any way contracted
muscular well developed. Mus-
cular & well developed.

no tenderness over Coeliac the
Sigmoid cannot be felt. Heart
things normal.

Recurrent attack with worst he has
had for years generally worst
when he has a cold.

He had an attack 14 days ago
it improved but never.

Is quite tender in eating. Potatoes
have to be roasted. Also salt
mustard pepper. Bread also hard.
Vegetables or meat don't seem much

Patient can give no account of
stool, he has never observed them.
Pulse $16 \times 6 = 96$. rather full & small
beat.

(8) Breakfast. Bacon & eggs. Tea - 3 cups. he is a
pretty fair drinker. ^{1/2} cup of bread & cheese milk
Dinner 4. meat & vegetable. Succotash
mudding - fond of buttermilk. no cheese. drink
coffee with dinner.

Tea. about 7. bread & butter 2 cups tea
no meat with tea.

nothing before going to bed.

Miss Osborn

Nov. 28th 1890.

House maid, here - left.

noticed 3 weeks. began with
pain down front of left leg.

This first attracted attention. The effusion
in the Bursa is moderate - no great
feeling - no redness.

Patient is considerably bothered with consti-
pation & passes stool at every stool
almost. Sometimes she has to go back to
stool to pass blood after motion fin-
ished. She does not know of any
piles. She has had this for about 3 mos.
She has been nursing mother who died
about 78. hence her run down
condition.

Rx. Hyg. Hydrate. 2nd P.N. Jod. & Saline.
for knee. bread & egg.

Cascara tubercul. & Sodii Sulph. for Const.

G. J. Soper.

25

Dec: 19 '90.

In Clinic 18 months 1899-'90.

Before then in Glasgow for 7 years. Of whom.
no typhoid.

In Clinic at P. Arthur ^{60 miles up in railway} engaged in Dock
harbour engineer.

Remained there 1 year. before getting
ill. no fever known to development
of fever. got ill in July 1900. in
rainy season.

Known exactly when he got ill.
began to diarrhoea for 24 hours a
more & after 2-3 days dysentery
developed. Never much blood.
but much mucus & blood.

never in bed. given Opium & bismuth
& no special diet.

Two weeks taking this medicine
of Opium. went on for 2 months
lying up now & again.

The bismuth & Opium caused
constipation. took Castor oil
& Opium to all relief in bed for
a few days. collapsed in P. Arthur.

Went to Glasgow. put to bed. Salol &
Calomel. in a week got better
& with enemata after every stool.
first boric then tannic acid.

Kept in milk as there was much
vomiting.

Vicaria. Healthy. Liver; lessened
darker upwards; downwards the
area is increased by not tender
Rect. length. 4 inches. Chiefly below the

cartilage. Skin not lig. synoid not tender.
Coacum not tender.

Anus sore.

Head by ph. for which he was treated
w/ Hydropneumia. Ph. for 3 months
He was then in South of Russia.

R. RT. for XII. Low. Joints for II
Irit. in the IV. Apr. w/ BII
