Medicines - Wide Prescriptions on the other side.

- No 1 - Preservative - One to be taken night and morning, as a tonic, in the event of Cholera prevailing in this quarter.
- No 2 - A large teaspoonful to be thrown into half a tumbler of water, and a table spoonful of this mixture to be taken every half hour, for cases of common bowel complaint (Loosengs).
- No 3 - Two to be taken, should opening medicine be required.
- No 4 - In the event of a person being attacked with Cholera, (known by the general coldness of the skin, especially of the extremities, spasms, great depression, with vomiting & purging &c) one may be given every half hour, until relief be obtained. It will be necessary at the same time to apply bottles filled with hot water, or heat in any convenient form to the stomach, and upper and lower extremities. Rubbing the extremities is also useful. Should the depression continue, a teaspoonful of Brandy may be given occasionally.

No 1

℞ Pulv. Capsici  
 Camphoræ  
 Quinæ, Dissectæ: ā ā ʒss,  
 Extract: Gentianæ, ʒss,  
 Olij Cajaputi q.s. fiat Pulv.
