SALOMONSEN, PROF. J.C. COPENHAGEN

'87/'13

Gifts.

7th July 1913.

Dear Sir,

I desire to thank you very cordially for your kindness in presenting your medal, which Dr. Sambon has handed to me for the Historical Medical Museum. I have placed it with the other celebrities we have in the scientific world, and we shall value it as an interesting addition to the Museum.

Again thanking you for your kindness,

I am,

Faithfully yours,

Professor J.C. Salomonsen,
The University,
Copenhagen.

SALOMONSEN, PROFESSOR J.C.

5th June, 1909.

Dear Sir,

On behalf of Mr Henry S. Wellcome, who is still engaged in organising the Historical Medical Exhibition, I am expecting to pay a visit to Copenhagen towards the end of August next in the hope of finding something of interest connected with early Danish medicine, which we want to have well represented in the forth-coming Exhibition.

I hope, at the same time, to be allowed to inspect your Historical Medical Museum of which you told me when I saw you in London some time ago, and which is, no doubt, now completed.

If you could kindly inform me of any libraries in Copenhagen or the district which would be likely to yield interesting materials in the way of pictures connected with the history of medicine, surgery, pharmacy or other early sciences, I should be greatly indebted to you.

Trusting you are well, and with kind regards,

I am,

Faithfully yours,

Dear Dr. Salomonsen.

I desire to thank you for so kindly sending me the prospectus of the Historical Medical Museum which, I understand, you are about to establish in Copenhagen.

The history of medicine is, as you are aware, a subject in which I take considerable interest, and I heartily wish you and your collection every success in your labours. I trust I may be able to give you some assistance after the Historical Medical Exhibition which I am at present organising to be held in London has taken place.

Will you kindly let me know the date on which the Museum will be open?

I am,

Yours very truly,

Professor C. J. Salomonsen.

Dear Sir,

My best thanks for your letter. The Historical Medical Museum, that I have founded in collaboration with my two colleagues A. Johansson and A. Caröe is still in a quite embryonic state. We are occupied in collecting and saving from destruction all the little that we can find in our country, but as we have very small means and are mainly reduced to donations the collection grows very slowly. I think that two or three years will go before we can open the Museum.

Permit me to seize the opportunity of congratulating you to the interesting researches that are made in the Wellcome Research Laboratory of Khartoum. Mr. Bal. Four kindly sent me the II Report some time ago.

I am Yours very truly
Carl Fuld Salomonson
