[c.1500]

MS. No.97.

69673

PRESS MARK

PALSCELLANEA MISCELLANEA MEDICA ET VARIA .- Petit in-4 de

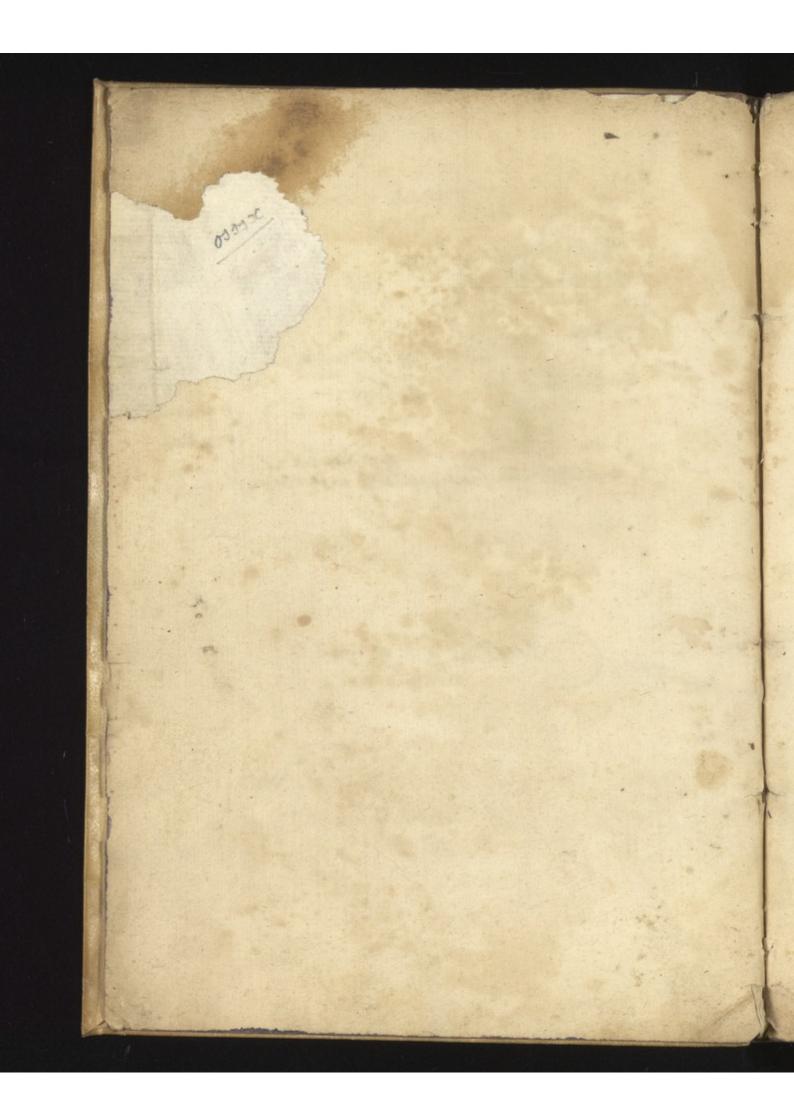

ASTROLOGY, Medigeral 68 ff. vélin ancien.

3045

Intéressant manuscrit de la fin du XVe siècle et début du xVIe sièche, en italien et en latin; écrit de plusieurs mains .- Les ff. I-I5, en italien, contiennent des recettes médicales suivies de préceptes sur les ventouses, et sur les jours néfastes ou favorables pour la saignee .-

Les ff. 14-42 sont occupés par des traités et des notes astrologiques (en latin) sur les planètes, les jours et les heures, les maisons planétaires, etc.; aux ff. 46-48 des figures représentent des éclipses de lune de l'année 1489 à 1530; suit au f.49 une petite notice (en italien) sur le calcul des phases de la lune; puis viennent des tables de comput (ff.50-61) avec des diagrammes pour trouver la lettre dominicale, le nombre d'or, etc .-Une notice sur la "complexion" des signes du Zodiaque; le tableau des signes figurés employés en astronomie, diverses notes de comput, etc .-

ce curieux recueil, bien conservé dans sa reliure primitive, nous paraît être une sorte de manuel ou d'aide mémoire à l'usage d'un médecin-astrologue.-L'écriture est très abrégée, et assez difficile à lire, excepté dans les premiers ff. (6-122 ou les préceptes sur les ventouses, la saignée, les jours de la lune, etc. sont d'une écriture plus soignée. dough tugle 1984 12 1 30 - Fi 410 l'elifazione ede 200gaziz mujolik 10 organso Justo 01060 on month of a syste of introverse to the sound. andmas denilo da vo My Then
