1018

December 14, 1905

Dear Sir,

I desire to thank you for your kind letter of the 11th inst. in which you are good enough to offer to loan me the interesting old doctor's bills in your possession. I shall be most pleased to have the same when the exhibition takes place and I can assure you they will be treated with the greatest care and will be returned to you at the close of the exhibition.

Owing to the magnitude of the work involved and my desire to make the exhibition as complete as possible, it will be some time yet before it is held, but I will advise you in due course of the time and place to which the loan should be forwarded, as soon as a definite date is fixed.

Yours very truly,

Clement Paine Esq.,
Gosport,
Finchley Road,
Hamstead,
S.W.

H.M.G.

00SS00R,
FINCHLEY ROAD,
HAMPSTEAD, N.W.

11 Dec/05

Dear Sir,

My Son, D. B. H. Pain
of Lyncombe Bath, has sent me
your letter of 29th Nov. with circular
referring to the Med: Exhibition
You are promoting, & asking me
to loan the doctors' bills from
which he extracted the particulars
he sent to the Lancet —

If you think they would be of
service to you I shall be
glad to lend them: They
are two ^{q's} dated 1759/1769 &
1769/1771 being Med: Attendance

to an Ancestor of mine
living at Kentwins Nutfield.

Yours faithfully
Clement Laine

P.S. As I greatly value them
may I have your assurance
they will be returned to me
in good condition?

Henry S. Wellcome Esq

November 29, 1905.

Dear Sir,

I was much interested in your letter on "An Eighteenth Century "Doctors Bill", which appeared in the "Lancet" on November 18th.

I should be glad to know if you would be willing to loan me the antient bills you allude to for the Historical Medical Exhibition when it takes place, of which I enclose you particulars herewith.

Trusting you will give it favourable consideration,

I am,

Yours very truly,

Basil H. Pain Esq., M.B.,
Lyncombe,
Bath.

Vacancies.

For further information regarding each vacancy reference should be made to the advertisement (see Index).

- BARRA-PARISH COUNCIL.**—Medical Officer. Salary £119 per annum.
- BIRMINGHAM AND MIDLAND HOSPITAL FOR SKIN AND URINARY DISEASES.**—Clinical Assistant. Honorarium at rate of 52 guineas per annum.
- BROADMOOR, STATE CRIMINAL LUNATIC ASYLUM, Crowthorne, Berks.**—Junior Assistant Medical Officer, unmarried. Salary £200, rising to £225 per annum, with quarters, coal, gas, and attendance.
- CHELTEHAM GENERAL HOSPITAL.**—House Surgeon, unmarried. Salary £20 per annum, with board and apartments.
- CHICHESTER, BROMPTON, AND BELGRAVE DISPENSARY, King's-road, Chelsea.**—Visiting Medical Officer.
- EVELINA HOSPITAL FOR SICK CHILDREN, Southwark.**—House Physician and House Surgeon. Salary £20 respectively, with board, residence, and washing. Also Assistant House Surgeon. Salary £70, with board, residence, and washing.
- FRENCH HOSPITAL, London.**—Honorary Ophthalmic Surgeon.
- GREAT NORTHERN CENTRAL HOSPITAL, Holloway.**—Surgeon.
- HULL ROYAL INFIRMARY.**—Casualty House Surgeon. Salary £50 per annum, with board and lodging.
- INDIAN MEDICAL SERVICE, India Office, London.**—Twenty-one Commissions in His Majesty's Indian Medical Service.
- IPSWICH, BOROUGH OF.**—Medical Officer of Health. Salary £400 per annum, increasing to £500.
- ISLE OF MAN LUNATIC ASYLUM.**—Assistant Medical Officer. Salary £120 per annum, with board, quarters, and washing.
- LOUGHBOROUGH AND DISTRICT GENERAL HOSPITAL AND DISPENSARY.**—Resident House Surgeon. Salary £20 a year, with rooms, attendance, and board.
- MANCHESTER, ST. MARY'S HOSPITAL, Clifford-street.**—House Surgeon. Salary £70 per annum.
- MARGATE, ROYAL SEA BATHING HOSPITAL.**—Honorary Visiting Surgeon.
- NATIONAL HOSPITAL FOR THE PARALYSED AND EPILEPTIC, Queen-square, Bloomsbury, W.C.**—Registrar. Honorarium of 50 guineas.
- NEWCASTLE-UPON-TYNE, UNIVERSITY OF DURHAM COLLEGE OF MEDICINE.**—Demonstrator of Physiology. Salary £200 per annum.
- NEWPORT BOROUGH ASYLUM, Caerleon, Mon.**—Assistant Medical Officer, unmarried. Salary £150 per annum, with board, apartments, and attendance.
- NORTH-EASTERN HOSPITAL FOR CHILDREN, Hackney-road, Bethnal Green, E.**—Two House Surgeons for six months. Salary at rate of £50 per annum, with board, residence, and laundry.
- NORTH-WEST LONDON HOSPITAL, Kentish Town-road.**—Resident Medical Officer, also Assistant Resident Medical Officer, both for six months. Salaries at rate of £50 per annum, with board, residence, and washing.
- QUEEN'S JUBILEE HOSPITAL, Earl's Court, S.W.**—Honorary Ophthalmic Surgeon.
- ROYAL COLLEGE OF SURGEONS OF ENGLAND.**—Election of Two Members of the Court of Examiners.
- ROYAL EAR HOSPITAL, Dean-street, Soho, W.**—House Surgeon. Honorarium at rate of £40 per annum. Also Clinical Assistants.
- ROYAL WESTMINSTER OPHTHALMIC HOSPITAL, King William-street, West Strand, W.C.**—Clinical Assistants for six months.
- ST. GEORGE'S HOSPITAL, S.W.**—Surgeon. Also Assistant Surgeon.
- ST. MARYLEBONE GENERAL DISPENSARY, 77, Welbeck-street, Cavendish-square.**—Honorary Physician.
- ST. PETR'S HOSPITAL FOR STONE, &c., Henrietta-street, Covent Garden, W.C.**—Out-patient Clinical Assistants for six months.
- ST. THOMAS'S HOSPITAL.**—Anaesthetist.
- SUNDERLAND INFIRMARY.**—Third House Surgeon for six months. Salary at rate of £80 per annum, with board, residence, and washing.
- VICTORIA HOSPITAL FOR CHILDREN, Tite-street, Chelsea, S.W.**—House Physician for six months. Honorarium of £25, with board and lodging.
- WAKEFIELD, WEST RIDING ASYLUM.**—Pathologist and Assistant Medical Officer. Salary £140, rising to £160, with apartments, board, washing, and attendance.
- WEST LONDON HOSPITAL, Hammersmith-road, W.**—House Physician for six months. Board, lodging, and laundry allowance provided.
- WHITEHAVEN AND WEST CUMBERLAND INFIRMARY.**—Resident House Surgeon. Salary £120 per annum, with board and lodging.

THE Chief Inspector of Factories, Home Office, S.W., gives notice of a vacancy as Certifying Surgeon under the Factory and Workshop Act at Lymington in the county of Hants.

Births, Marriages, and Deaths.

BIRTHS.

- SMELT.**—On Nov. 8th, at Holloway-road, N., the wife of C. A. Casterton Smelt, M.B., C.M. Edin., of a daughter.
- WILLIS.**—On Sept. 28th, at Palmerston North, New Zealand, the wife of W. F. Willis, M.R.C.S., L.R.C.P., of a son.

N.B.—A fee of 6s. is charged for the insertion of Notices of Births, Marriages, and Deaths.

Notes, Short Comments, and Answers to Correspondents.

TETOTAL SHIPS.

To the Editors of THE LANCET.

SIRS.—In reply to "G. F.'s" question which appeared in THE LANCET of Nov. 11th as far as I know the ships of the Ocean Steamship Company, sailing from Liverpool to China, Japan, and Australia (Alfred Holt, 1, Water-street, Liverpool), are run as nearly on absolute "tetotal" principles as possible. During a voyage of over four months some three years ago I never saw any alcoholic beverage taken at the captain's table and I know the same conditions prevailed at the engineers' mess. The only exception to this was Christmas Day, which was spent in Kobe (Japan), when we had a first-rate English Christmas dinner (served and cooked by Chinamen) and at which some wine was taken to honour the toast of His Majesty. These ships do not take passengers from England but only pilgrims between Jeddah and the East and Chinese coolies on the China coast, all of which are main-deck passengers.

I am, Sirs, yours faithfully,

CHARLES R. PORTER,

Ex-Surgeon, Ocean Steamship Company.

Nov. 14th, 1905.

PS.—Any further information may easily be obtained by writing to the Medical Superintendent, 1, Water-street, Liverpool.

THE COST OF A MOTOR-CAR.

To the Editors of THE LANCET.

SIRS.—Perhaps a short summary of the cost and working of a 10 h.p. Lanchester car in its second year may be of more interest to some of your readers than the recorded results of its first year which you were kind enough to publish on Dec. 3rd, 1904. During my second year, ending Oct. 2nd, 1905, I have driven 3063 miles (a few miles less than my first year) and have very few troubles to relate. Last July, when my car was being washed, I found that my differential gear was not acting. I had driven between 50 and 60 miles the previous afternoon and was unaware that anything had gone wrong. With the help of my man I took down the differential and found a tooth missing from one of the small bevel pinions; it had been knocked off and had found its way into a little recess and had practically done no harm to anything else. I obtained a new pinion from the Lanchester works, adjusted it, and have had no trouble since. I have had one puncture caused by a long nail; it took me 40 minutes to put in a new inner tube and this is the longest compulsory stop I have had on the roads. The longest run I have done in a day was to a town 15 miles west of Exeter, *via* Dorchester, Bridport, Chideock Hill, and Charmouth, and although a very wet day I had no difficulty in negotiating the two latter hills with three up and our luggage. The only skilled assistance I have had was for the fitting of a new key to flywheel. I have had no trouble from over-heating (although air-cooled) during the second year; this is, I conclude, due to a closer intimacy and consequently better management of my engine. My brake has never failed me and is, I consider, most efficient; my high intermediate and low gears have not been replaced but only readjusted as necessity arose. My appended expenses, working out at about 6d. a mile, are inclusive. The car looks almost as good as new and is far more economical and pleasurable, in my opinion, than a horse and carriage.

Expenses.

	£ s. d.		£ s. d.
Wages...	40 6 0	Lubricants...	0 17 4
Varnishing car...	5 0 0	Licences...	3 2 0
Tyres, re lining and new tread on one pair...	6 9 0	Autocar...	0 13 0

I am, Sirs, yours faithfully,

Alverstone, Hants, Nov. 14th, 1905.

F. CRADDOCK PALMER.

BACILLURIA.

To the Editors of THE LANCET.

SIRS.—Can anyone tell me the names of works on bacilluria? Or of cases of bacilluria which produce malaise, fever, and prostration due to a hitherto unrecognised bacillus in the urine?

I am, Sirs, yours faithfully,

Nov. 14th, 1905.

PRENAD.

ACTION OF SODIUM SALICYLATE IN GYNÆCOLOGICAL PRACTICE.

M. P. Dalcé has contributed to the Société de Thérapeutique of Paris an account of the action of sodium salicylate in gynecological practice, which was published in the *Journal de Pharmacie et de Chimie* of August 1st. This salt, he says, exerts a congestive action on the ovary. When its use is imprudently prolonged it deranges the menstrual flow and may produce menorrhagia. During pregnancy there is no doubt that it tends to produce miscarriage. When it is employed as an analgesic, notably in dysmenorrhœa, it often fails owing to a further increase of the congestion which is already present in the ovary.

AN EIGHTEENTH CENTURY "DOCTOR'S BILL."

To the Editors of THE LANCET.

SIRS,—I was much interested in the account of the "Doctor's Bill" which you published in THE LANCET of Nov. 4th. I have two such "bills" which belonged to my great-great-grandfather, Wm. Clement of Nutfield, Surrey. The first bill runs from 1759-69 and the second from 1769-71. The first one, covering ten years, contains no less than 273 entries and requires seven folio pages and amounts to £61 10s. 5d. The last entry in the account is dated Nov. 9th, 1769, and the bill is receipted on Feb. 22nd, 1770. The form of acknowledgment runs:—

"Recd. the 22 Feb., 1770, the full contents in all demands.—James Low." The descendants of this Dr. Low I am slightly acquainted with, one of them only last month taking his M.D. degree at Cambridge. Unlike the bill from which you gave extracts last week, some of these entries do give a clue as to the nature of the complaints treated. I give below some of the entries. The dates of the confinements are of interest as after each confinement a "hysteric mixture" is given, evidently the word "hysteria" referring to the uterus.

I am, Sirs, yours faithfully,

BASIL H. PAIN, M.B. Cantab.

Lyncombe, Bath, Nov. 6th, 1905.

ASPIRIN.

PARTICULARS are given in the *Journal de Médecine et de Chirurgie Pratiques* (August 25th) of unpleasant symptoms caused by the new synthetic substance aspirin. In some cases gastric pain, vomiting, and giddiness were produced. In other cases it caused painful oedema of the eyelids and the lips, extending at times to the head and to the mucous layer of the pharynx. A case is cited in which an eruption like that of scarlet fever was produced. Aspirin was given to a young girl during an acute attack of rheumatism in doses of from 60 to 75 grains daily. She was anemic and subject to epistaxis. After taking aspirin she was thrown into profuse perspiration and had frequent attacks of epistaxis with loss of blood. When the aspirin was discontinued the nasal hemorrhage was no longer produced.

THE HOME TREATMENT OF ALCOHOLISM.

To the Editors of THE LANCET.

SIRS,—Can any of your readers advise me as to the treatment at home of a bad case of alcoholism? Thanking you in anticipation,

I am, Sirs, yours faithfully,

Nov. 14th, 1905.

DICUS.

Enquirer.—The County Council acknowledges its liability to pay for the first attendance in the case of an accident happening to a child in one of its schools—that is to say, for the medical aid administered to

the child when it is taken immediately after an accident to a medical man by one of the school teachers. We consider that the Council acts rightly in so doing but we do not see upon what grounds it can be asked by the medical man to do more. When the child has returned home it is for the parents to select the medical man who shall treat their child and to pay him for his attendance. Who may ultimately be liable (whether, that is to say, the child and the parents are to be compensated for suffering and expense caused by the accident) is a matter for the courts to decide should a claim be made. The liability, if any, must depend upon the facts of each case. The educational authority (the County Council) is not at present liable (as our correspondent seems to suggest that it should be) to pay for medical attendance until the child has recovered in the case of every accident occurring in a school.

Pot-bank.—The most comprehensive treatise on theories of immunity is "Immunity in Infective Diseases," a volume containing 591 pages, by Professor Elie Metchnikoff of the Pasteur Institute, Paris, translated from the French and published by the Cambridge University Press. Information on antiseptics and disinfectants will be found in the numerous works on surgery, midwifery, and public health mentioned in the Students' Number of THE LANCET, published in September each year.

Silvacuto will probably find the information in "Pharmaceutical Formulas," published by the Chemist and Druggist, 42, Cannon-street, London, E.C.

Dr. A. G. Auld.—The article was returned to our correspondent on July 6th of this year.

ERRATUM.—In Dr. L. Humphry's article on the Parathyroid Glands in Graves's Disease in THE LANCET of Nov. 11th, p. 1390, the description of Fig. 1 refers to Fig. 2 and vice versa.

COMMUNICATIONS not noticed in our present issue will receive attention in our next.

Medical Diary for the ensuing Week.

OPERATIONS.

METROPOLITAN HOSPITALS.

MONDAY (20th).—London (2 P.M.), St. Bartholomew's (1.30 P.M.), St. Thomas's (3.30 P.M.), St. George's (2 P.M.), St. Mary's (2.30 P.M.), Middlesex (1.30 P.M.), Westminster (2 P.M.), Chelsea (2 P.M.), Samaritan (Gynaecological, by Physicians, 2 P.M.), Soho-square (2 P.M.), City Orthopaedic (4 P.M.), Gt. Northern Central (2.30 P.M.), West London (2.30 P.M.), London Throat (9.30 A.M.), Royal Free (2 P.M.), Guy's (1.30 P.M.), Royal Ear (2 P.M.), Children, Gt. Ormond-street (3 P.M.).

December 18, 1905

Dear Sir,

I desire to thank you for your letter of the 28th ult. and your kind offer to loan me the antient work, "De Secretis" for the forthcoming Historical Medical Exhibition.

I have not met with this work before and shall be pleased to have it displayed when the exhibition takes place.

As soon as a definite date is fixed I will advise you in due course.

Yours very truly,

Signor V. Perlini,
Chemist,
Zara,
Dalmatia,
Austria-Hungary.

1036

il 20 dicembre 1905.

Egregio Signore,

Vi ringrazio molto per la vostra gentilissima lettera del 28 novembre scorso offrendo di prestarmi l'antico libro "De Secretis" per la prossima Esposizione Storica di Medicina.

^e Non ho ancora visto quel libro innanzi, ^e mi piacerà moltissimo di poter esporlo nell'Esposizione di Medicina. Non mancherò di farvi sapere in tempo opportuno dove e quando dovrà essere spedito.

Con massima stima

Devotissimo

All'Egregio Sign.V.Perlini,
Chimico - Farmacista,
Zara ^a

All' Egregio sign. V. Perlini,

Chimico - Farmacista,

Lara

Dalmazia - Austria - Hungary.

28th November 1905.

From V. Perlini, Chemist, Zara, Dalmatia, Austria-Hungary.

1026

I had the opportunity to read the circular in which you invite contributions to the Historical Exhibition of Medicine, Chemistry, etc.

I have in my possession the work entitled: "De Secretis libri XVII ex variis auctoribus collecti." Lyon, 1582, in 8°, from Gian Giacomo Wecher, physician, born in Basle in the year 1528; died in Colmar in the year 1568. I have no doubt that this work, which we consider to be a rare one, is unknown in England. But anyhow I have decided to find out if the edition has become rare in asking you if you know it. If you do not know it, I am sure that through the multiplicity of its arguments, strange recipes and manner of exposing them, the work would be interesting for an Historical Medical Exhibition.

Awaiting your answer, I am, etc.

Sigs Henry S. Wellcome,

London.

Ebbi occasione di leggere una Vostra circolare con cui invitate di concorrere all'Esposizione Storica d'oggetti rari ed interessanti che riguardano la Medicina, farmacia, ecc. Io sono in possesso dell'opera "De secretis libri XVII ex variis auctoribus collecti", Lione 1582 in 8° di Wecher Gian Giacomo, medico, nato a Briller l'anno 1528 e morto a Colmar l'anno 1568. Non^{mi}mettoⁱⁿdubbio che tale opera - per quanto da noi calcolata rara - sia conosciuta in Inghilterra; ma, in ogni caso volli tentare la prova, che potrebbe benissimo darsi che questa edizione sia divenuta rara, col chiedersi se ne avete conoscenza, che in caso contrario per la molteplicità degli argomenti, stampe ricette e modo di curare, sono certo sarebbe interessante per una esposizione medico - storica. In attesa di un Vostro cenno in argomento passo a rivelarsi con distinta stima.

V. Perlini -
chimico - farmacista -

13 Gennaio 1906

Egregio Signore,

Vi Ringrazio cordialmente per la vostra gentilissima lettera del 28 dicembre scorso, mandandomi l'elenco degli antichi libri di medicina che avete la cortesia di offrirmi per la prossima Esposizione Storica di Medicina.

Debbo dirvi pure che dato il gran numero dei libri che saranno esposti, non mi sarà possibile di esporre quei che sono stati pubblicati dopo l'anno 1700. Così mi piacerà molto ricevere i libri No.35 e 36 dell'elenco che mi avete mandato; essendo gli altri troppo recenti, credo che non offrono bastante interesse per spedirli così lungo.

Troverete qui acclusi alcuni francobolli che spero vorrete accettarli coi miei ossequi.

Ringraziandovi per l'aiuto prezioso che mi date per la mia Esposizione, con massima stima mi dico di Voi

Devotissimo

All' Egregio Signor,
Dr Alfredo Tullo Patrignani,
Spilimbergo.
Italy.

11 January, 1906

Dear Sir,

I desire to thank you for your kind letter of the 28th ult, enclosing me a list of the old books on medicine which you so kindly offer to loan me for the forthcoming Historical Medical Exhibition.

Owing to the great number of books that will be exhibited I shall not be able to display any that were published after 1700. I shall be pleased to have No.35 and No.36 in the list you have sent me, but the others, being of so recent a date, would hardly be of sufficient interest to send so great a distance.

I enclose you some foreign stamps which I hope you will accept with my compliments, and thanking you again for the trouble you have taken in the matter,

I am,

Yours very truly,

Cy/AT

Dr Alfredo Tullo Patrignani,

Merlieux - Bruxelles - 1858 -
- 21- Manuale elettivo dei rimedii nuovi di Ruspini -
Bergamo - 1850 - leg -
- 22- Manuale di materie medica di Milne Edwards
e P. Valvasseur - Bologna - 1850 - leg -
- 23- Chirurgia elementare di Selli - Chirurgo Pri-
mario - Viterbo - 1839 - leg -
- 24- Formulario tascabile di Richard - Firenze - 1836 - leg -
- 25- " elettivo italiano del D. De Boue - Mi-
lano - 1863 - leg -

26. Manuale d'Istotrospia del G. Codivilla - Bologna - 1867 -
27. Istituzioni chirurgiche di G. B. Monteggia - Milano - 1843 - Vol. 2 -
28. Manuale di medicina legale di Martini - Milano - 1839 - leg -
29. Manuale pratico di magnetismo animale del G. Beste - Codogno - 1867 -
30. Manuale completo di Oftalmia di Balocchi - Firenze - 1856 - leg -
31. Manuale completo di patologia interna generale e speciale di P. Valtrassero - Firenze - 1842 - (manca no ultime pagine) -
32. Raccolta stretta di rimedi di Pellegrini - Venezia - 1732 - (volumetto a mano - rileg.) -
33. Rimedio per curare la vena fannuciale - Bologna - 1681 -
34. Grammatica delle scienze filosofiche appoggiate alle esperienze di B. Martin - Venezia - 1753 - con tav. -
35. Dei rapporti medicinali di Messer L. Fioravanti - Venezia - 1647 - rileg -
36. Anatomie chirurgicae - Joh. Suelter - Vienna - 1665 - con tavole - (manca ultima pagina indice) -
37. Raccolta delle medicine più adoperate di G. B. Capello - (manca frontispizio e prime 2 pag.) - leg -
38. Corporis humani anatomiae di Ph. Verheyen - Napoli - 1734 - leg -
39. Anatomia patologica del corpo umano di D. J. Cruveilhier - Firenze - 1843 - Vol. 4 - leg - con atlante generale dell'anatomia patologica grosso vol. leg - del peso, il solo atlante di circa 8 Kg - Opera completa e rara, in buon stato.

Prende, prego ^{me} Signore, quanto potrei
mettere a sua disposizione, ed in attesa di un gra-
dito cenno di ricevimento della presente mi
resta

Di Lei Obblig ^{me}

D. Patrucco

Nb. Mi permetto rivolgerle una preghiera,
essendo appassionato collezionista di francobol-
li, non potrebbe regalarmi qualcuno dei
tanti che riceve da ogni parte del mondo
e che forse gettavi via? Tu caro affermativo,
viva grazie anticipate.

Translation of letter from Dr. Alfredo Tullo Patrignani,
Spilimbergo, Italy, dated 28th December 1905.

In answer to your favour of the 20th inst., I have much pleasure in sending you the requested list of the old medical books I can put at your disposal for the coming exhibition:-

1. ANATOMICAL COMPENDIUM, by Lorenzo Heistero, with illustrations - Venice - 1773 - bound.
2. SURGICAL ANATOMY, by Giovanni Palfino, 2 vol. Venice - 1759 - bound.
3. PHYSICAL LAWS OF CONJUGAL LOVE, by Mr. Venette - Milan 1813 - 2 vol.
4. MANUAL OF VENERIAN DISEASES, by Dr. Gambarini - Bologna 1848.
5. AUSCULTING MANUAL, by Breventani, Bologna - 1945.
6. PATHOLOGICAL INSTITUTIONS, by F.L. Fanzago, Livorno, 1822 - 2 vol.
7. ALPHABETICAL SYMPTOMOLOGY OF CLINICAL MEDICINE, by Bavoni - Parma -?
8. "ENCHIRIDION MEDICUM", by G. Hufelano, Bologna - 1851.
9. THEORETICAL AND PRACTICAL COURSE OF OBSTETRIC, by F. Capuron, Florence - 1837.
10. MEDICINE AND SOCIETY, by Dr. Rossini - Livorno - 1857 - Booklet.
11. INTERESTING DESCRIPTION, by Clandio Ambrogie Senvat, of the Anatomical Man - Udine - 1833.
12. NEW ELEMENTS OF ANATOMY, by Caldani - Bologna - 1827 - 2 vols.
13. ELEMENTARY CHEMISTRY LESSONS, by Dr. Santagata - Bologna - 1819.
14. DOMESTIC MEDICINE, by Buchan - Padova - 1789 - 4 vol - bound
15. SIMPLE MEDICINES, by Campana (First pages and frontispiece are missing).
16. MANUAL OF PHYSIOLOGY, by Prof. Medici - Bologna - 1840 - bound.
17. PRACTICAL TOXICOLOGY, by Prof. Orfila - Livorno - 1827 - with illustrations - 2 vol.
18. SHORT ANATOMICAL NOTES, by Dr. Pasi, Bologna, 1830.
19. TREATISE OF DRESSINGS AND APPARATUS, by J.B.J. Thillage - Paris, 1815 - bound.
20. PORTABLE ENCYCLOPEDIA, by M.C. Bailly de Merlieux - Bruxelles.- 1858.
21. ECLECTICAL MANUAL OF NEW REMEDIES, by Ruspini - Bergamo - 1850 - bound.
22. MANUAL OF MATERIA MEDICA, by Milne Edwards and P. Valvasseur - Bologna - 1850 - bound.
23. ELEMENTARY SURGERY, by Selli, ~~and~~ Primary Surgeon - Viterbo - 1839 - bound.
24. POCKET FORMULARY, by Richard - Florence - 1836 - bound.
25. ECLECTICAL ITALIAN FORMULARY, by Dr. De Bon - Milano - 1863 - bound.
26. MANUAL OF HYDROTHERAPY, by Dr. Codivilla- Bologna - 1867.

(continued)

27. SURGICAL INSTITUTIONS, by G.B. Monteggia - Milan - 1843 - 2 vol.
28. MANUAL OF LEGAL MEDICINE, by Martini - Milan - 1839 - bound.
29. PRACTICAL MANUAL OF ANIMAL MAGNETISM, by Dr. Teste - Cologne - 1807.
30. COMPLETE MANUAL OF OBSTETRIC, by Balocchi - Florence - 1856 - bound.
31. COMPLETE MANUAL OF GENERAL AND SPECIAL INTERNAL PATHOLOGY, by P. Valvasseur - Florence - 1842 - (the last pages are missing).
32. SHORT COMPENDIUM OF REMEDIES, by Pellegrini - Venice - 1732 - (Small vol. bound)
33. REMEDY FOR CURING FEMININE VANITY - Bologna - 1691. !
34. GRAMMAR OF PHYLOSOPHICAL SCIENCES, supported by the experiments of B. Martin - Venice - 1753 - with illustrations.
35. MEDICAL FANCIES, by L. Fioravanti - Venice - 1647 - bound.
36. SURGICAL MEMENTO, by Joh. Suelletti - Venice - 1605 - with illustrations (last page of index missing)
37. COLLECTION OF THE MOST USED MEDICINE, by G.P. Capello - bound (Frontispiece and 2 first pages missing)
38. ANATOMY OF THE HUMAN BODY, by Ph. Verheyen, Naples - 1734 - bound.
39. PATHOLOGICAL ANATOMY OF THE HUMAN BODY, by D.J. Cruveiller - Florence - 1843 - 4 vol - bound. With a general atlas of pathological anatomy - a big vol. - bound - weighing (atlas only) about 8 kilog - complete and rare work in good state.

The above are all I can put at your disposal and awaiting your answer, I am, etc.

P.S. I take the liberty of asking you a pleasure ; I am very fond of collecting foreign post stamps, and I beg you to let me have a few of the numerous ones you receive from all the parts of the world, perhaps throwing them away. In the affirmative, receive my anticipated thanks.

Dear Sir

Your "Antient Cymric
Medicine" I have read twice &
with much pleasure. it is
intensely interesting; but I am
uncertain about knowing
anyone who can add
thereto.

T. C. Peter Esq., Redruth.

is we consider an author-
-ity here, on matters antient
& has given interesting lec-

turns on Druidic remains
&c. Miss Peter is like-
-wise fond of these subjects
& has had some interesting
finds on Carn Brea near
Redruth. I think coin, ar-
-row heads; circles &c, among
the many rock runs. I
think your book wd much
interest them, & if they
could add, wd do so.
Mr Peter is a much re-
-spected solicitor.

Then there is Mr Reddie
Mallett, Harlyn Bay,
Padstow, who when build-

- and his home came up.
on these "Prehistoric Re-
-mains", buried between
flat stones in the sandy
meadow adjoining the
sea-shore, in Rullins
position. Also various items
stone bowl, needles &c &c &c
which he advertises, especially
thru the summer months. He
may possess something you
wd consider suitable &
wd be glad to lend to
further inform the public
of this very interesting locality.
Imagine.
I wd tho. scarcely leave

is Mr Burton, of the "Old
Curiosity Shop" Falmouth
well worth a visit, but
an indescribable miscellany
of everything from everywhere
& of all ages, probably he has
something you wd like, &
which he wd be pleased to
lend for the exhibition.

This dusty shop with its dusty
contents is one of the sights of
Cornwall well known.

And now Sir let me heartily
thank you for the numerous
curiosities which we nurses,
& humanity in general, owe
your name a big debt - for
yours faithfully
C. F. S. Polkinhorn

Jan. 17th 1906.

Dear Sir,

Your "Antient Cymric Medicine" I have read twice and with much pleasure, it is intensely interesting, but I am uncertain about knowing anyone who can add thereto.

J. O. Peter Esq., Redruth, is we consider an authority here on matters antient, and has given interesting lectures on Druidic remains, &c. Miss Peter is likewise fond of these subjects and has had some interesting finds on Carn Erea near Redruth, I think coin, arrow heads, circles, &c, among the many rock ruins. I think your book would much interest them, and if they could add, would do so. Mr Peter is a much respected solicitor.

Then there is Mr Reddie Mallett, Harlyn Bay, Padstow, who when building his home came upon the "Prehistoric Remains" buried between flat stones in the sandy meadow adjoining the sea-shore, in kneeling position. Also various items, stone bowl, needles, &c., &c., &c. which he advertises, especially through the summer months. He may possess something you would consider suitable and would be glad to lend to further inform the public of this very interesting locality, I imagine.

Last though scarcely least is Mr Burton of the "Old Curiosity Shop" Falmouth well worth a visit, but an indescribable mixture of everything from everywhere and of all ages, probably he has something you would like, and which he would be pleased to lend for the exhibition. This dusty shop with its dusty contents is one of the sights of Cornwall well-known.

And now Sir let me heartily thank you for the numerous luxuries which we nurses, and humanity in general, owe your name a big debt for.

Yours faithfully,

C.F.S. Polkinhorn.

in Thames -

Being this letter up again
in my relation. C.F.S.

1071
Translation of an extract of a pamphlet by Dr. C. Dell'Acqua,
Pavia, 1900.

.....
.....
Mr. Bartoli does not say anything, however, of the fine sculpture which had to be there, that is the bust of St. Bartholomew, represented as skinned, and which adorns actually the atrium of the large house of Sig. Giulio Pavesio. This much praised piece of work is attributed, not without good reasons, to the renowned artist Marco d'Agrate, or at least to one of his pupils. It is spoken of with much praise by a very erudite art critic, Dr. Diego Sant'Ambrogio, of Milan, in a study published by him in 1878, in the periodical "Il Politecnico" of Milan, under the title of "An important Sarcophagus in Milan of the sculptor Marco d'Agrate, 1556."

The fact is it has much affinity, by the fineness of the work and identity of subject, with the famous statue of St. Bartholomew that is admired in the cathedral of Milan, and which bears the exaggerated praising inscription: Non me Praxiteles ed Marcus finxit Agrates.

We reproduce with pleasure an illustration showing the bust of St. Bartholomew, admired by all the connoisseurs.

Egregio Signore,

Tornando a Londra, trovo la sua gentilissima lettera del 26 gennaio scorso insieme coll'opuscolo che l'accompagnava e per il quale vi ringrazio moltissimo.

Mi interessa molto la storia della statua di S. Bartolomeo esistente nella sua casa a Pavia e sono sicuro che sarà una delle più interessanti mostre dell'Esposizione Storica di Medicina.

Tosto che sarà fissata la data d'apertura dell'Esposizione, non mancherò di farvi sapere dove e quando dovrà spedirsi la statua.

Con massima stima, di Lei
Devotissimo

10th. April 1906.

Dear Sir,

I desire to thank you for your kind letter and the booklet you have been good enough to send which has been brought before me on my return from abroad

I have been much interested in the account of the statue of St. Bartholomew which you have in your house at Pavia, and I am sure it will make a most interesting exhibit at the Historical Medical Exhibition.

As soon as a definite date is fixed due notice will be sent to you as to where the statue should be forwarded.

I am,

Yours very truly,

Mr Giulio Pavesio,
Pavia,
Italy.

Pavia,
Italy.

Translation of postcard from Mr. Giulio Pavesio, Pavia, Italy,
dated 26th January 1906.

I am in receipt of your letter and I thank you
for what you tell me. By the same post, I send you to-day
a booklet edited in Roma and containing illustrations of
the statue of St. Bartholomew existing in my own house, in
Pavia, and of the one which is in the Cathedral of Milan
and the connoisseurs think to be a master piece of
sculpture as far as anatomy is concerned. You will be
able to make the comparison yourself.

Londra

S. BARTOLOMEO SCORTICATO (Scultura del Secolo XVI).

Pavia - 26. 1. 1906 -

Signore.

Ho ricevuto la sua lettera e la ringrazio. Le spedisco unitamente a questa l'opuscolo edito a Roma con illustrazioni della statua di S. Bartolomeo esistente a Pavia nella mia casa e quella conservata nel Duomo di Milano. La quale ultima è considerata dagli intelligenti del mondo intero come un capolavoro di scultura per la parte anatomica. Ella potrà farne il confronto.

Con stima mi professo.

Pavese Giulio

I.M.C.

7th June 1913.

Dear Sir,

Dr. Raymond Crawford has forwarded me your letter of the 4th inst. with reference to the books on 'King's Evil' which he tells me you have kindly offered to loan for the Historical Medical Museum. If you would kindly send per bearer Beckett's and Badger's works, I should be much obliged. I am enclosing you herewith a lender's form and should be glad if you would kindly fill in the value for insurance.

I understand that you wish to dispose of these books, and if you will let me know the price of the same, I will see if I can sell them for you.

Thanking you very cordially for your kindness,

I am,

Faithfully yours,

C.J.S.T.

Dr. Peachey,

11a Oxford and Cambridge Mansions,

N. W.

227

11^A Oxford & Cambridge Manuscripts Nov.
4 June 1873

Dear Mr. Crawford,

Your remarks not sent
for the books on King's trail:
means while I am disposing of
my library. Do you care to
buy them, or ^{can} you suggest
any one who does? ~~if not~~
I have had no offer for them.

They are as follows.

3 Great Lakes Tracts in 2 vols.

Beckwith

Budger

Ferne

Merrill (Mounting & Coronation) 1723

Sholes (Tracings).

By the way did not by any means regard ~~the~~^{the} last meeting of the
Society of Med. History as somewhat unsatisfactory. Too
many papers, or too much time given to each; with
consequently too little time for discussion. There were
many things one would have liked to say on that paper
on *Scandin. Medicine*, but they would have opened up
a long discussion.

Surely one distinction might be made between
one paper & another: Dr. Saloway's 'Rorces valles' allows
of no discussion, but the first paper, which was distinctly
controversial from start to finish, required more time

than either the former. Three of Dr. Saloway's
would be enough for a sitting: two controversial
articles would probably fill the time.

I know of one member at least who holds the same
opinion.

Feb.

(2)

I would prefer to sell among ~~books~~ as
medical history in what : fragments
of anyone who ~~wants~~ wants them perhaps
furnish them know.

And as I am contemplating an auction
I am putting with some small pieces
of genuine furniture : they are not
specially valuable (i.e. not special pieces)
but they are good of their kind :
2 or 3 oil paintings. Some of them
I saw. Anyone can see them
the books by appointment.

But I want to effect a sale at once
so perhaps you will drop me a line

Yours truly
Edw. Stanley

Over

Mons. Jules Sambon

7th June 1913.

Dear Mrs. Sambon,

I desire to thank you very cordially for so kindly sending me the statue of St. Anthony. Unfortunately the hand of the figure was broken when it arrived here, but it can be repaired.

Will you kindly let me know as soon as possible the amount you wish claimed for insurance.

Faithfully yours,

C.J.S.Thompson

Mr. C.J.S.Thompson,

I return herewith the correspondence in connection
with Mr. Clark Bell, as I understand you will write to him on the
matter.

10th June, 1913

E. Maund

Mr. C.J.S.Thompson,

re Attached letter from Mr. Clark Bell.
=====

We have searched here but cannot trace having received the group Mr. Bell refers to. As his letter was addressed to Mr. Wellcome at 54a, Wigmore Street, it is most probable that he would also send the article referred to there also. When advising him that it has not come to hand, perhaps you would ask him to what address it was sent. Mr. Clark Bell is the editor of the ~~Eng~~ Medico-Legal Journal, of 39, Broadway, New York.

Under separate cover I am forwarding a copy of The St. Paul Globe, Golden Jubilee Edition, a menu of the Savage Club Dinner, 4th Nov. 1905 for the Library, and a catalogue received this morning.

London. 27th May 1913.

Dear Sir,

In confirmation of our telephone message, we are sending you herewith the metal mount from the original apparatus for Ether administration, a copy of the 9th. Edition of Squire's Companion to the British Pharmacopoeia, and at the same time we are returning the glass vessel which you were under the impression might form the base of the apparatus.

We hope you will be able to get a Model made in time, and will be pleased if you will return us the Companion and the metal mount when you have finished with them.

We are, Sir,

Yours faithfully,

Squire & Sons

H. M. M.

June 9th.

Dear Prof. Blanchard,

Your kind letter of the 2nd inst duly to hand yesterday morning, and I desire to thank you very cordially for the trouble you are taking on behalf of the H.M.M.

I note that you are making a selection comprising two series of medals from your valuable collection to lend us for the Museum. If you could add to these about 25 medals on Plague we should be very much indebted to you.

I am having a special glass case made in which to exhibit the specimens from your collection, this will accomodate about 250 medals. They shall be insured for the amount you name from the time they leave your possession, if you will kindly fill in the amount of insurance on the inclosed form and return it to me at your earliest convenience. Will you also please instruct Messrs Stockwell when you send the medals to insure them during transit for the same amount.

With regard to your kind suggestion to prepare a descriptive catalogue with illustrated plates of this section of your collection, I think this would be very desirable. For the present session of the Museum when it is opened on the 24th inst, in the time at our command we have only been able to prepare a handbook or descriptive guide to the various sections of the Museum, but I understand it is Mr Wellcome's intention to have prepared later on, a full and complete catalogue with illustrations of all the valuable objects lent to the Museum, which will act as a permanant souvenir of the Museum, in this I shall be glad to include the full description and plates of your collection which will be a most valuable addition to it. When you are able to let me

have the manuscript of the same I shall be glad to receive it, but there need be no hurry for this for the next month or two.

I note with pleasure that you hope to be able to be with us at the opening Ceremony on the 24th. and I shall hope to see you on that day.

Again thanking you for all the trouble you have taken in the matter.

Yours etc,

Mon le Prof^r Blanchard,

Institute de Medicine Coloniale,

15, Rue de l'Ecole de Medicine,

Paris.

Dear Sir

I promised to send you
a series of medical models
for your Medical Historical
Exhibition, to which I have
sent 15-8 enclosures -

I am preparing this package
at the present time & I
believe it will be very interesting.

As it has been necessary to make
a choice in my collection,
I thought of sending you two
series -

I a very complete collection²
of modern French Medical
medals - I possess them
all & I believe they number
more than a hundred.

II The series of medals
relating to cholera &
they must number almost
a hundred.

But should be sufficient,
for I could not think of
further monopolizing war
class cases & also because
the package which I am
making is one of great
value.

I must be ³unsaid for a
large sum - I have not yet
the exact figures, but it
will come to 8 or 10,000 francs

unless I hear from the contrary
from you, I will interest
the despatch with the Stockholm
& Co. I am now making
a descriptive catalogue,
& which is worth putting
with various plates &
phototype. If you could
draft such a publication
the necessary sum, ~~at~~
~~and then~~ Be welcome

4
Exhibition would leave
on artistic work of great
interest. Which could be divided
into two parts, one concerning
chorea & the other concerning
modern French humanistic
sculpture.

I can assure that no one
in the world has such an
important collection as my
own & in consequence we
need not fear to see a
descriptive & illustrated
catalogue published elsewhere
which could compete with
the one which I speak.

kernel of the coco-nut, don't scrape all, but only the inner side of the kernel, mix this together with a small piece of prepared turmeric, and wrap them in some laua'a. Then get a banana leaf which has been exposed to the sun and is well withered, then pour some water on it, the

I should be obliged ^{S-} if you
will write me a prompt
reply on these direct
points.

I have just received your
card letter which is in answer
of the museum, which
is to take place on June 24.

I hope to have the pleasure
of being there.

Yours very respectfully.

R. Blanchard.

M. Thomson, Londres.

C.d.H.

Cher Monsieur,

J'ai promis de vous envoyer une série de médailles médicales pour votre Exposition d'Histoire de la Médecine, à laquelle j'ai envoyé déjà 158 estampes. Je m'occupe actuellement de préparer cet envoi, qui, je crois, sera très intéressant. Comme il faut faire un choix dans ma collection, j'ai songé à vous envoyer deux séries:

1^{re}.—Une collection très complète de médailles médicales françaises modernes. Je les possède toutes et je crois que leur nombre dépasse une centaine.

2^{re}.—La série entière de mes médailles relatives au choléra et leur nombre doit se monter aussi aux environs de la centaine.

Cela devra suffire, car je ne puis songer à accaparer davantage vos vitrines et aussi parce que l'envoi que je vais faire est d'une grande valeur et devra être assuré pour une somme importante. Je n'en ai pas encore le chiffre précis, mais cela devra monter à 8 ou 10.000 fr.

A moins d'avis contraire de votre part, je confierai cet envoi à la maison Stockwell. Je fais actuellement de tout cela un catalogue descriptif, qui mériterait d'être publié avec de

R. Bl.

nombreuses planches en phototypie. Si vous pouvez consacrer à une telle publication la somme nécessaire, il resterait de l'Exposition Wellcome un ouvrage artistique d'un grand intérêt, qui pourrait être divisé en deux parties, l'une concernant le choléra, l'autre concernant la numismatique médicale française moderne. Je puis vous affirmer que personne au monde n'a une collection aussi importante que la mienne et que, par conséquent, nous n'avons pas à craindre de voir publier ailleurs un catalogue descriptif et illustré pouvant faire concurrence à celui dont je viens de parler. Je vous serai obligé de me donner promptement une réponse sur ces divers points. [Je reçois à l'instant votre invitation à l'inauguration du musée, qui doit avoir lieu le 24 juin. J'espère avoir le plaisir d'y assister.

Votre bien dévoué

R. Blanchard

Dempster. I have today sent
the old Swining sign, a
curiosity in the present day.
It is difficult to say its exact
age. It formerly belonged
to a Mr John Short and
was handed down to a Mr
Richard Short very early
in the last century. This
gentleman died in 1833. and
he was succeeded in the
practice ^{by} Mr. Thomas Lowe
who died in 1883 and it then
became my property. if as
I think it must have some
interest. I gladly present it.
The general opinion is that
it is about 135 or 140 years

Old and is in a remarkable
good state of preservation

I shall be glad to hear
that you are willing to
accept it

Believe me
yours faithfully
E. Sutton Page

Southern 1138
10 May 1906

Dear Sir

In my letter to
you of to day date, I
Made an error in the date
the old sign came into
my possession. It should
have been in April 1866
and not when my late
partner Mr Thorpe
died in 1883 as our
partnership was dissolved
and I succeeded entirely in
1875 but the sign became
my property in joining the
partnership ^{in 1865}. Please correct
Yours faithfully

Mr. J. Macvie Hill.

re Historical Medical Exhibition.

Replying to your letter of the 28th ult. in which you have brought to our notice the collection of fossils owned by Dr. Piggett of Clare, Suffolk, we must ask you in all these cases not to definitely accept these kind offers, but to bring the matter to our notice. It is quite possible that Mr. Wellcome already has for the exhibition, duplicate sets of the particular exhibits proposed by you and hence he is placed in the difficult position of having to decline that which has been so kindly offered.

Please therefore note in future that what is required is information as to the willingness of medical men or others to loan specimens and you should not definitely accept them.

P.T.O.

9-4-06

Dear Sirs

I accepted Dr. Pirotte
kind offer solely because he
told me some little time must
be given to him to select and
mount only those slides which
would be of greatest interest
to the Medical Profession.

The slides are I understand
unique because he himself
discovered them locally, where
the New Waterworks by tension
took place at Clare security.

I note and follow your
remarks Re - duplication

Yours truly
J. J. J. J.

1249

Paris 7 June 1906.

Monsieur Henry, S. Welcome. London.

Vous préparez, m'annonce "la chronique médicale"
du 1^{er} juin c'est une exposition historique d'objets anciens
se rapportant à la médecine — Vous accepteriez,
j'espère, dans votre collection, un objet qui, pour un
saisirer ancien n'en est pas moins historique,
quoiqu'il ne date que de quelques années à peine.

C'est un instrument de guérison et de conservation
de la santé, qui par conséquent rend le plus grand
service à la médecine et à l'hygiène. C'est la
"Sanatorium-Tourneisol". J'ai l'honneur de vous
adresser une brochure explicative et une
photographie qui vous feront comprendre
l'ingéniosité et les avantages de notre construction.

Voici d'ailleurs concernant l'appréciation le secrétaire
général de l'Association des Cités-Jardins de
France, Monsieur G. Benoit-Lévy:

- "La Cité-jardin et la Villa-Tourneisol" destinées à
 - "former la ville future de Vicence actuellement
 - "un aide pour multiplier leurs avantages réciproques,
 - "la Cité-jardin donne l'air et l'espace autour
 - "d'elle; la Villa-Tourneisol, tout en conservant
- et

" cette grande aération y ajoutée, avec son
" renouvellement générateur, les bienfaits, des rayons
" solaires pendant tout le temps que l'astre
" est à l'horizon; elle quadruple ainsi l'insol-
" ration même quelquefois malgré l'ingratitude
" de l'exposition du terrain.

" avec ses murailles respiratoires, ses cloisons
" en laiton et ses brancards, elle assèche,
" sans refroidissement, la formation de l'air
" confiné, cette principale cause de tuberculose.
" Dérivés de leur habitat, rassis, abrasés
" d'air pur, inondés de lumière microbicide
" scientifiquement distribuée, pourront librement
" s'y épanouir au jeu, au saut, au songe, etc. »

Nous avons fait construire une maquette qui
a une mètre de hauteur. elle a été à l'exposition
de Londres où elle nous a valu une médaille
d'argent, à Milan, à Paris à l'exposition
de l'hygiène et l'habitation où elle a obtenu
des Diplômes d'honneur. nous en avons
une, en ce moment à l'exposition de Milan.
Nous serions heureux avec Monsieur E. Petit

mon associé, si vous voulez bien recevoir,
dans votre exposition, cette dernière. Selon
votre réponse nous nous engagerons de
vous la faire tenir dès qu'elle serait de retour
de Milan.

Entre temps si nos affaires vous conduiraient
à Paris, vous ou quelques uns de vos amis,
Monsieur Petit, qui a une maquette dans
son cabinet se ferait un plaisir de la
faire fonctionner devant vous.

En attendant veuillez agréer Monsieur et
honorié coadjuteur, l'assurance de mes
sentiments respectueux et distingués

Belleguin

Translation

Paris, 7 June

(249)

Dear Sir,

As I learned from 'The Chronique
Médicale' of the 4th June, you are
preparing an Historical Exhibition
of old Medical objects. I hope,
you would accept ^{for your collection} an object, ^{which} if
not old is nevertheless an his-
torical one. (It dates ~~from~~ ^{some} years
only). It is an instrument for curing
and preserving health, and is therefore
of great value for Medicine and Hy-
giene. It is called 'Sanatorium Fournesol'.
I try to send you an explanatory
pamphlet and a photograph, which
will enable you to understand the
ingenuity and the advantages of
our ~~new~~ construction. The General
Secretary of 'The Cite's-jardin ^(city-gardens) Asso-
ciation' of France, Mr. Benoit-Leroy
gives the following appreciation con-
cerning our instrument.

"The Cite-jardin and 'The Villa
Fournesol', which are to form the
future towns aid themselves
mutually to multiply their
reciprocal advantages. The Cite-
jardin gives air and space
all around ~~her~~ ^{and} the 'Villa-Fourn-
sol' secures ~~conserving~~ that perfect
ventilation, adding, by its
giratory movement, the benefit
of sun beams as long as the
sun shines. She quadruples the

light of the sun, even if the exposure of the piece of ground not being favourable.

With her respiratory walls, her woollen maincoating and (armed linens) clothes, she prevents the formation of confined air, the principal cause of tuberculosis. Henceforth, their inhabitants, provided with pure air and microbicide light, will be able to live there in good health, and in gladness and longevity."

We have had made a small rough model, measuring one meter in the height; it was ~~exhibited~~ ^{displayed} at the London Exhibition, where it was awarded with a silver medal in *Hygiene*, Paris at the *Habitation* Exhibition of *Swellings Hygiene*, where it obtains several Diplomas of Honour. At the present time, we have one of them at the *Philan* Exhibition. We shall be glad with my partner M^r. Petit, if you could accept the late for your Exhibition. I would send it to you as soon as returned from Milan.

In the mean time, if you have ^{the} opportunity to come to Paris, M^r. Petit should be glad to show you the model, he has got it in his private study.

I am, dear Sir,

Yours very respectfully
Pellegrin

Illustrissimo Signore,

Sono stato informato della di Lei domanda rispetto all'Esposizione storico-medica, e all'antica opera di medicina che ebbe la cortesia di prestarmi alcuni anni addietro. L'Esposizione si terrà a Londra il prossimo anno allorché i membri del Congresso medico internazionale si riuniranno in questa città. Col medesimo corriere Le invio il nuovo prospetto della medesima.

L'opera è conservata con gran cura ed apprezzerai sommamente la di Lei cortesia se Ella avesse la bontà di prestarmelo fino all'epoca dell'esposizione, oppure se preferisce lo rinvierei. Il titolo esatto del volume è "La Commare o Raccoglitrice," Scopione Mercurio, pubblicato a Venezia nel 1612.

Appena in possesso di una di Lei cortese risposta Le manderò il libro, oppure lo conserverò ancora, come Ella desidera.

Ringraziandola sommamente, La prego di gradire i miei cortesi ossequi.

Di Lei devmo.

H.S.W.

All'Egregio Signore
Dott. Oliviero Pini,

12th February 1912.

Dear Sir,

I have been informed from Milan of your enquiry respecting the Historical Medical Exhibition, and the ancient medical ~~book~~ work which you so kindly loaned to me some years ago. for that purpose. The Exhibition is to be held in London next year, at the time of the Meeting of the International Medical Congress in this city, and I ^{send under sep. cover} am ~~envisaging~~ you ~~xxxxxx~~ a new Syllabus of the same.

The old medical work is safely stored at the present time, and if you will still leave it with me until the Exhibition is over, I shall appreciate your kindness, or should you prefer it returned now I will do so. The exact title of the volume is "Della Commare," published in Venice, 1612.

On hearing from you, I will return it at once, or keep it, as you desire.

Thanking you,

I am,

Yours very truly,

H.S.W.

Re H.M. Exhibition 1913.

Dr Oliviero Pini, Manicomio Castel Pulci,
Firenze per S. Martino alle Palme, having written to us asking for the
return of an ancient Medical Work, loaned by him to Mr. Wellcome for the
abovementioned exhibition in 1908, we replied advising him that the
exhibition had now been definitely fixed to take place next year and
asking him whether he would not be disposed to leave the volume in Mr.
Wellcome's care until after the close of the exhibition.

Dr. Pini now writes that he is quite willing
to do so, but would be glad to receive the following particulars re-
garding the work, as he is making an inventory of his library;

- 1) The exact title of the volume
- 2) The date and place of publication.

If you will supply us with this information
we shall be pleased to transmit same to Dr. Pini.

Dear Madam,

I desire to thank you very heartily for your kindness in sending me the collection of Chinese native remedies for the forthcoming Historical Medical Exhibition. They are most interesting, and will form a valuable addition to the section on Chinese medicines.

Again thanking you for your kindness, and for the trouble you have taken on my behalf,

I am,

Yours very truly,

Dr. Ross W. Palenborg,
West Gate,
Shanghai.

REC'D
ANSW'D
15 SEP 1906

West Gate, Shanghai
July 22 - 1906

1289

Mr H. S. Melcome,
Snow Hill Buildings
London E, E.

Dear Sir:

The following Chinese remedies have been collected by Dr Rose W. Pemberton and I am forwarding them in her behalf to you. There is a number on each paper corresponding to the number below.

No 1 - Vegetable growth called "Gold haired Lin" applied to stop hemorrhages.

No 2 - Centipede and lizard made into an application for leg ulcers.

No 3. Wasps' nest, also for leg ulcers.

No 4. Snake skin. If a woman in labour fastens it around the waist it is said to make labour more rapid and easy. Also used on sores from which there is no discharge of pus.

No 5 - Shell. If a woman in labour for several days and unable to deliver the child swallows this shell the child will not only be born at once but, if a boy, it will have the shell in the left hand, if a girl in the right hand. The shell comes from the Island of Pootoo. It will also cure some eye diseases.

No 6, A fossil called by the Chinese a "Stone Swallow" mixed with other things and used as an eye medicine.

No 7, Fossil Crab used as the former

No 8. "Stone Bamboo" " " " "

No. 9. "Silver Mica" In the eyes

No. 10 "Gold Mica"

" " "

No. 11 - Green-quill eye medicine.

The medicine is dry and
taken out and rubbed in the eye.

No. 12, Roasted Tortoise shell - a tonic

No. 13 Turtle shell - a tonic

No 14 Dragon Bone, Made into
a powder and applied to
open sores.

No 15 Leaven or the "mother" in vinegar.

Bran, orange peel and
other things - said to be an
aid to digestion.

No 16 Leaven, turnips seed,
orange peel, a fungus
like substance found in the
western provinces on the roots
of fir trees (*Pachyma cocos*)
The oval carpels of a species of
Achusa and other things
made into pills and used for in-
digestion.

(1289)

No 17 - Deer's horn, rubbed with
a little water as you would rub
a whet-stone and the ointment
promised is used cold in
the breast, "broken breast &c"
Also put in wine and taken
internally for the same purpose.
This specimen was used yester-
day for the wife of the Chinese
teacher who has added it to the
collection today.

Trusting these are not too
late for your purpose I am
Very sincerely yours

S. M. Burdick
for Dr Palmborg.

July 28th, 1908.

Dear Sir,

I desire to thank you for your letter of the 25th inst., in which you kindly offer me the loan of Dodoeus' "History of Plants" and a collection of plates, anatomical, etc., and some manuscripts for the forthcoming Historical Medical Exhibition.

I have a copy of the "History of Plants" of Dodoeus in my library, but I should be pleased to accept your kind offer of the loan of the other books, containing anatomical plates, diagrams, etc.

If you care to send them for inspection as early as possible, I shall be glad to report to you upon them.

I am,

Yours very truly,

Mr. S. T. Pattinson,
412, Bethnal Green Road

1299

October 28rd, 1903.

Madam,

I desire to thank you for your kind letter of the 17th inst., and to acknowledge the receipt of the medicine-man's staff, which has safely come to hand.

I am writing to Dr. J. S. Purdy, telling him that I have received it.

Thanking you for your kindness and for the trouble you have taken in the matter,

I am,

Yours very truly,

Miss N. E. Purdy,
81, Howard Terrace,
Worpeth.

SERVICE SANITAIRE
MARITIME ET QUARANTENAIRE
D'EGYPTE

4299
Port Said, le 15 August 1906

Dear M^r Wellcome:

My niece, Miss Nellie Purdy,
Howard Terrace, Morpeth, Northumberland
has promised to forward to you a
curio which may be worthy of a place
in your forthcoming exhibition

It is a staff with a carved head
covered by the skin of a monkey's
face and used among the Bataks
or Head Hunters of Central Sumatra.
The chief medicine man carries this
talisman into battle marching in
front of the army. It is said that
the act of flourishing this staff
in the face of the foe is equivalent
to the slaying of a thousand men.

It was given to my brother M^r Henry
Benjamin Purdy of the British and

Foreign Bible Society when he passed
through Sumatra fifteen years ago
in company with M^r Fager, another
missionary, this being probably
the first time that any expedition
consisting of white men crossed the
Island. The Batakos are a very
ferocious race up to recent times
addicted to Cannibalism.

A record of the exhibition is to be
found in the publications of
the Brit & Foreign Bible
Society. Further information with
photographs and notes on the
strange rites, ceremonies and medical
lore of this people and other
tribes in Sumatra and Malayan
might be obtained from my
brother M^r Perry Purdy, Agent
Brit & Foreign Bible Society,
Kuala Lumpur. Should I come across
anything of special interest on my
next visit to Siam I will be
pleased to forward it. Yours sincerely

J. Purdy

Henry S Wellcome Esq.
Snow Hill Buildings.
London. E.C.

Contribution: Talisman of Medicine
Men of Bataks, "Head Hunters"
of Sumatra obtained by Mr.
Berg Purdy, Kuala Lumpur, sent
by J. S. Purdy, M.D., F.R.C.S.
Egyptian Administrative Service.
Port Said.

WELLCOME

Mr. Wellcome.

Re Mr. Purdy's letter.

List of objects to be obtained.

Deities and idols connected with medicine or
healing.

Native instruments used in surgery.

Amulets and charms.

Objects employed in magical rites and ceremonies.
connected with the treatment of diseases.

Totems.

Skulls showing the remains of trepanning.

Representations or models of Mihuaka
Mahuika of Whaktane
Who, I understand, is used as a talisman
of life and death.

PORT OF LONDON

SANITARY AUTHORITY.

From

To

26th July 1906.

Dear Mr Wellcome:

I must thank you very much for the most useful presents you have sent me. Wiring to my friend Fred Reynolds last night I said that you were well named as I had been inundated with kindnesses & loaded with presents.

I have written to my niece.

Miss Nellie Purdy.

Harvard Terrace

Marpleth.

to forward you the baton carried by the Medicine Men of the Batiks in Samatra during war time.

The baton holding up of this staff which is covered with the skin of a monkey's face is said to ensure the death of 1000 enemies.

On my return to Egypt I hope to collect some interesting information from some of my colleagues in the Suez Canal Service on native remedies.

Yours sincerely

J. Purdy

REPLY ON THIS FORM.

Purdy

1299

1299

February 26th, 1908.

Dear Dr. Purdy,

Please excuse delay in replying to your letter of September 20th, 1907, owing to great pressure of work.

I am pleased to learn that you have received an appointment in the Department of Public Health in Auckland, and trust you find the post a congenial one.

I have forwarded to you under separate cover a copy of the "A.B.C. Medical Guide" to which I think you refer. I trust you will receive it safely.

I note your kind offer of trying to secure for me some of the armentaria of the old Maori medicine men. I shall be most pleased to receive any objects of interest of this kind for the Historical Medical Exhibition which I am still organising.

At present I am particularly desirous of obtaining if possible a picture of the Maori god of medicine, or the deity to which the natives formerly appealed to relieve them of sickness and disease. There is one such, I believe, called Mahuika of Whaktane, which is used as a talisman of life and death. Do you think it would be possible for you to obtain for me a model or photograph of this deity? If so I should greatly appreciate your kindness, but the matter is pressing, and I should like it as early as possible.

If any of the skulls you mention should have traces of trepanning they would be very interesting for the Historical Medical Exhibition.

Kindly let me know whether you received a copy of the Second Balfour Report. If not I shall be pleased to send you one.

I am,

Yours very truly,

Dr. J. Purdy,
Department of Public Health,
Auckland.

NEW ZEALAND

1299

DEPARTMENT OF PUBLIC HEALTH,

District Office: Auckland, N.Z., 20th September 1907.

Henry Wellcome Esq.,

Messrs. Burroughs, Wellcome, & Co.,

Snow Hill, LONDON.

Dear Mr. Wellcome,

Since I had the pleasure of meeting you in July last year I have returned to New Zealand, having received an appointment in the Public Health Department. I resigned my appointment in the Egyptian Quarantine Service in April of this year.

One of my rather multitudinous duties is the sending out of orders for the supply of medicines for schools of the Natives. I have suggested to Dr. Mason, Chief Health Officer, the drawing up of a pamphlet somewhat similar to the one you sent to me, which I think is used by missionaries and travellers. Unfortunately I have mislaid my copy, would you kindly send me another.

I have not forgot^{ten} your request that I should send you any curios of interest associated with Native folk lore and medicine, and have already asked two of my colleagues, Drs. Pomare and Buck, Native Health Officers, to try and secure some of the armentaria of the old ~~to~~ ^{to}hungas or Maori medicine men. I will also forward to you later two papers on native remedies of the Maoris. I do not know if you collect skulls, but I could supply you with a fine specimen of a Maori skull with a complete set of teeth.

I hope when Dr. Balfour's next

med. exp.

The following
Dr. Balfour
to

Exp'd he use 20
Xf
report comes out that you will send me a copy.

I am lecturing in Auckland tonight on the role of insects as carriers of disease, and referring to the work in your laboratory in Khartoum.

I was extremely sorry to hear of the death of our mutual friend, Mr. Fred Reynolds.

Yours sincerely,

Murdy
District Health Officer.

W. H. J. Wellcome

Dear Sir,

Your letter was wrongly directed
of the 26th April, being directed to a Physician
now in Australia & I did not get it for
a week.

Re the vases, of which I enclose a Photograph
which you ~~are~~ may keep, I advise them
for £300, any one vase not to exceed ¹⁵ £.

They have been handed down by apothecaries
since Henry VIII I believe - we trace them to
a Johnson whose daughter died in 1732
bequeathing some £6,000 to charities still existing
in this burrough.

The vases are of Braye ware, that ill-fated city -
the labels, experts say, have been painted 'over' again.

All the syringe needles are perfect. I can
remember them being in use about 20 years ago.

The lids are more modern.

I would suggest that you send down an
expert packer to take them away & bring

them back again, & insure them for the
sum for which the London & Lancashire did &
the Guardian Company now do, each having
sent over an inspector to value them.

If you do not see your way to send over
a packer, I would suggest Mr J. B. Chepney
Smith St., Warwick if you would instruct
him & take on all responsibility.

I am open to an offer for them &
they rather eat their heads off here.

With compliments. I remain

Yours faithfully

Charles Pratt.

1344

April 26th, 1907.

Dear Sir,

I am informed by my representative, Mr. Thornton Jones, that you have a number of old syring and other jars of pharmaceutical interest. From the photographs which you kindly lent to him I am sure that your jars would form an exhibit of interest at the forthcoming Historical Medical Exhibition, and I trust you will see your way to loaning them to me when the exhibition takes place. As soon as I am able to fix a definite date for holding it I will duly inform you.

The greatest possible care will be taken of the jars while they remain in my possession, and I am willing to pay cost of packing and carriage both ways, and to insure them for a reasonable sum that you may mention.

I am,

Yours very truly,

J. E. Pratt, Esq.,
West Brow,

Warwick.

SNOW HILL BUILDINGS

LONDON, E.C. 6th March, 1914.

Dear Sir,

One of my firm's representatives recently called upon Mr. Pratt, Chemist, Warwick, and the following is a copy of his report regarding the interview.

I have no doubt that there is some misunderstanding in regard to this matter, but for business reasons I would be glad to know how it really stands, and whether you propose writing Mr. Pratt.

"He has a fine collection of old pharmacy pot ware and the representative reported this. Since then the C & D sent down a representative to see it. Mr. Pratt heard from the H.M.M. and had some difficulty in persuading his father, to whom they belong, to lend them for the H.M.M. He was sent a form to fill up, he says, relating to insurance, and had a photo specially taken to send. He returned the form and has heard nothing more of it. He wrote when he saw the Museum was open and asked if this was the exhibition in respect of which he was asked to loan his pots, but still received no reply. He considers this is ungentlemanly treatment, and I suppose there is some error.

From what I saw of the pots, they were worthy of inclusion in the Museum, and his willingness to loan them should certainly have been acknowledged.

Perhaps you will look into the matter as it has put us on a wrong basis. I have explained the position and that the H.M.M. is not B.W & Co. but we get the blame for it."

Yours truly,
H.S. Wellcome,

"vedi retro"

Scoperta della circolazione del sangue:

L'importante scoperta si deve a Cesalpino e Rudio
però ne fu precursore Cecco d'Ascoli, medico e fa-
ta il quale in riguardo dell'albero vendicare e del
circolo nel nostro organismo, così si esprime:

" Io ven dal sangue che nel cor s'inorga
Per ciascuna artaria movendo toto,
Avegna de se zo l'hom non s'accorga.
..... Da cerebro procedano li nervi,
Nate dal core ciascuna artaria,
Taglio de questi dicti in se riserva.
Et artaria sempre dove è vena
Artaria in se adopia ogni via,
Per l'una al core lo sangue se mena.
.....
Il sangue poi si move cum quiete, ecc....
.....

Questa scoperta fu più tardi constatata
e posta nel retaggio delle scienze positive dal
l'inglese Arveyo e pure l'apprese in Italia.
Harvey ha dimostrato quello che altri hanno
veduto ma la circolazione generale del san-
gue è stata scoperta da Cesalpino e dimostrata
più tardi da Harvey.

Vì hanno contribuito:

Cesalio che scoprì che il setto medio dei ven-
tricoli del cuore non è pervio;

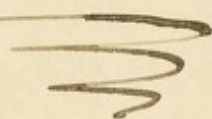

Perveto che scoprì che il sangue non passa
dal ventr. destro al sinistro attraverso il

sotto interventricolare, ma traversando i polmoni,
dando così per primo l'idea della piccola
circolazione o circol. polmonare.

Colombo, sei anni dopo Serveto senza che nulla
sapesse sopra da se la piccola circol.
Fabrizio d'Aquapendente che scopre le valvole
delle vene e le mostra ad Harvey che è
suo discepolo.

Dear Sir,

In reply to your letter of the 28th ult., the
Historical Medical Exhibition will be held in London
at the time of the meeting of the International
Medical Congress in this city, in the year 1913.
The exact date of opening has not yet been fixed, but
I will duly advise you when it has been decided upon.
I am enclosing you a syllabus of the Exhibition.

Yours very truly,

Senor Tomas Roman, *Pulido*
Subdelegado de Medicina,
Distrito de Villacarrillo,
SPAIN.

Muy Sr. nuestro:

En contestación á su carta del 28 ppdo, paso á manifestarle que la Exposición Médica Historica se celebrará en Lohdres cuando tenga lugar el Congreso Médico Internacional en esta ciudad, el año 1913. No ha sido fijado todavía la fecha exacta para la apertura, pero le informaré oportunamente tan pronto se haya acordado.

Me es grato remitir adjunto un compendio de dicha Exposición.

De Vd. affmo y S. S.

Q. S. M. B.

Señor Don Tomas Roman,
Subdelegado de Medicina,
Distrito de Villacarrillo,
España.
F. R.

Translation of letter addressed to Mr. Henry S. Wellcome,
by Tomas Roman, Subdelegado de Medicina, Distrito de Villacarrillo,
Spain; dated March 28th, received April 2nd, 1910.

Mr. B. J. S.
To my first offer to lend you some medical antique
objects for the Medical Historical Exhibition, you replied that
as soon as you would decide on the date, you would advise me of
same. As time is elapsing and you do not say anything, I am writing
again in case some of your communications have gone astray, so
that you may advise me whether the opening date has been fixed
for certain.

Muy Señor mío,

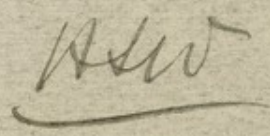

Deseo agradecer á Vd. por su atenta del 22 corriente, y tendré sumo gusto de aprovecharme de su amable oferta de prestarme las antigüedades médicas que Vd. menciona, para la Exposición Médica Histórica.

Tan pronto quede fijada una fecha definitiva para que se celebre la Exposición no descuidaré de avisarle cuando se habrá de remitir los objetos y á donde.

Bajo cubierta separada remito nuevos ejemplares del sílabo de la Exposición Médica Histórica, de manera que pueda Vd. hacer distribución entre los amigos de Vd. que puedan tener también objetos de interés para prestar. Oportunamente se atenderá á su ruego para ejemplares de la Agenda.

Agradeciendo á Vd. por su amabilidad y por la molestia que se ha servido Vd. tomar en este asunto, quedo á sus órdenes

Atto. y S. S.,

Mr. Lane A.D.

Please have the following translated into Spanish,
and return to Mr. C.J.S.T.

Dear Sir,

I desire to thank you for your letter of the 22nd inst, and shall be pleased to avail myself of your kind offer to loan me the medical antiquities you mention for the Historical Medical Exhibition. As soon as a definite date is fixed for holding it, I shall not fail to advise you when and where the objects should be forwarded.

I am forwarding, under separate cover, further copies of the syllabus of the Historical Medical Exhibition, so that you may distribute them among your friends, who may also have objects of interest to loan. Your request for copies of Agenda will receive attention in due course.

Thanking you for your kindness and for the trouble you have taken in the matter,

Yours very truly,

Sr. Dr. D. Tomás Román Pulido,

Médico Titular,

Villacarrillo,
Jaen, SPAIN.

Very enthusiastic of the idea which you explain in your circular about the Historical Medical Exhibition, I place at your disposal the following objects:

A Roman coin of TRAJANO

with the inscription SALUS PUBLICA

Several books printed in the XVIII century (of Medicine & Surgery)

A collection of Surgical Instruments of the beginning of the XIX Century.

A prescription written in Latin of the same period.

Besides this I am arranging to be forwarded to you also, bottles and pots of pharmacy.

I hope you will kindly inform me whether you accept my offer and when and in what form must I forward the loans.

Please send me prospectuses of propaganda re the exhibition, and some Agendas to distribute them with the same object.

I am expecting your news and I take this opportunity to offer myself at your service.

ao.

Yours etc.

Please have the following translated into Spanish,
and return to Mr. C.J.S.T.

Dear Sir,

I desire to thank you for your letter of the 24th,
and for your kind wishes respecting the forthcoming
Historical Medical Exhibition.

I shall be very pleased to avail myself of your
the
kind offer to loan various objects of historical and
medical interest, which you mention you have in your
collection. The Exhibition, I expect, will be held in
at
London in 1913, the time of the Meeting of the Inter-
national Medical Congress in this city. As soon as
I am able to fix a definite date, I will duly advise
you where and when the objects you are kindly loaning
me should be forwarded.

Again thanking you,

Yours very truly,

Drl A. Gonzalez Prats,

Calle Guillermo Tell 49 torre,

Barcelona. Spain.

Translation of letter addressed to Mr. Wellcome, by Dr. A. Gonzalez Prats, Calle Guillermo Tell 49 torre, Barcelona, Spain, dated Oct. 24 received October 27th 1909.

I have in my possession your useful medical pocket book which the firm B.W. & Co. has been very good to send me. Please receive my great esteem at the same time as my best thanks for such a liberal presentation. For many years I have been enthusiastic of the medical preparations of your renowned firm, and I have been always satisfied with them on every occasion I have employed them or prescribed them. They are good and honest drugs which keep admirably.

Enclosed with the Agenda I have also had the pleasure of receiving and taken the information about the Historical Medical Exhibition, which with so much perseverance, good taste, splendour and discretion you are undertaking. It is besides very interesting, and your noble and intelligent determination will never be sufficiently applauded.

I am an enthusiast on that kind of erudite studies. I am enamoured with the knowledge of those historical lines. Owing to this, when I entered the Royal Academy of Medicine at Barcelona, I wrote a speech about the medicine of the Andalusian Arabs. I shall be gratified if you will kindly accept the copy I intend to send you.

To this purpose I should like to offer you my co-operation although a modest one, because I possess something which perhaps I will detail if you do not mind. I will proceed to state it in case you should accept it, and if you think it useful kindly let me know, informing me at the same time the way and form of placing it in your hands.

Dilapidated instrument of Bronze from the Roman Colony of Ampurdan

Lachrymal glass implement found in the necropolis of Ampurias

Roman Ivory style

Earthen vessels for essences from the Iberians of Tarragona

Skulls, funeral collar, funeral chord of the antient Guanches or aborigines of Canary Islands.

Skulls of primitive man.

Bronze mortar of the XVIII Century

Pharmaceutical pot, glazed earthenware.

Catalan fayen of the XVIII Century with inscription St Annun.

Angl. which formed part of the medical implements of the Gerona Hospital.

White earthenware vessel, Catalan ceramic art.

Sr. Henry J. Wellcome

Londres

Muy distinguido Señor:

En mi poder la útil Cartera médica
que la casa Burroughs Wellcome and Co.
se ha servido mandarme. Ruego le re-
ciban mi estimación y las más cumpli-
das gracias por tan liberal obsequio.

Hace años soy entusiasta de los pre-
parados médicos de tan renom-
brada casa y quedé satisfecho siem-
pre que los usé y los prescribí.
Son sencillamente buenas honradas
drogas que admirablemente se conser-
van.

Incluida en la Agenda también
he tenido el grato gusto de recibir
y enterarme de la Exposición médica

histórica que con tanta perseveran-
cia, buen gusto, esplendor y dis-
creción viene Ud. elaborando. Es
por demás interesantísima, y no
será nunca bastante bien aplau-
dida su noble inteligente determi-
nación.

Soy entusiasta por esa clase de
eruditos estudios. Me enamoran los
conoceros de esos repletones históri-
cos. Por esto para mi ingreso en
la Real Academia de Medicina
de Barcelona escribí un discurso
sobre la medicina en los árabes
andaluces, que tendré mucho gus-
to se sirva aceptar el ejemplar
que le remitiré.

A este propósito quisiera ofrecer
a Ud. mi cooperación aunque modesta,
dado poseer algo que quizá pu-
diera exponerse si a Ud. le parece. Paso
a decirselo para si lo acepta porque

lo creyera útil a su labor sea lo
diga expresándose modo y forma
de ponerlo en sus manos.

- Puñon depilador de bronce de
la colonia romana del ampurdan
- Lacrimatorios de cristal halla-
dos en la necrópolis de Ampurias
- Estilo de marfil de los romanos
- Esencieros de barro cocido de
los iberos tarraconenses.
- Ceraeos, collar funerario,
cuerda id de antiguo Gnauchos
o canarios primitivos.
- Ceraeos de hombre primitivo
- Mortero de bronce del s. XVIII.
- Tarro de botica, barro arulejo, fayau
Catalana s. XVII. con letrero que dice:
Stannum
Angl. / que formó parte del botamen
del Hospital de Gerona.
- Porron de barro blanco, cerámica
Catalana.

- De Epitome Galeni, de Lacuna, im-
preso en Lugduni, MDCXLIII, con magní-
ficas capitales polícoras, in folio pergan-
mino con grabados. En latín

- De Bartholini, Anatomia, con precio-
sos grabados y láminas sobre todo de lin-
fáticos; impreso en Haga-Comitis en el
año 1656. En latín

- De Anatomia completa del hombre por el
Dr. M. Martínez, médico de cámara de S. M.
magnífica portada representando Amphithea-
trum Matritense, profusión de grabados; im-
preso en Madrid en MDCCXXXVIII. En castellano.

De Instituciones chirurgicas de L. Heister, trad.
del latín al castellano por Carvajal Lancaster. Im-
preso en Madrid en 1747. En la portada magní-
fico metalen retrato del Prof. Heisterus de Helm-
stao.

De Tratado de Vendages por Canivell, con
estampas, en castellano; impreso en Bar-
celona, 1763.

De Cirugia expurgada de J. Gorter de Har-
terwick; trad. del latín al castellano por Galisteo
impreso en Madrid, 1780. Con láminas ne-
gras y en colores.

- Un Tratado teórico práctico de las Heridas de arma de fuego que da á luz F.^{co} Puig. impreso en Barcelona 1782. En castellano.
- Un taron, barro negro, ibérico.
- Carrito caña, labrado, para transportar sanguijuelas en Marruecos.

Estos son los principales que apunto dejando otros para otra ocasión comunicárselos si tiene á bien honrarme diciéndome su opinión ó aceptación de los antes indicados.

Quisiera buen deseo de coadyuvar á tu obra y mi entusiasmo por tales recuerdos.

Queda más por ahora. Tengo especial gusto en ofrecer á Ud mis valimientos en esta, y alta consideración de tu apdo L. S.

REPLY SENT.

2 JUL 1912

Illustrissimo Signore,

Non troverei alcuna difficoltà inviare
i libri e manoscritti di cui nella mia pre-
cedente Le feci cenno, ma appartenendo
esp. ad un mio congiunto, ora affetto, non
posso assumermi responsabilità di sorta,
dato il caso lontano, di possibile dispersione
di qualche Documento, quantunque egli
mi avesse lasciato facoltà di cederli.

Del resto, la S. V. avrà certamente in
Italia qualche incaricato, a cui potrebbe
affidare la visita di detti libri e ma-
noscritti -

In un solo modo, io potrei assu-
mervi la responsabilità di spedirle

tutti gl' inventariati Documenti,
mediante l'invio contro assegno
per lire Cinquemila, salvo poi pagarne
il saldo, Dopo la visita che la S.V.
avrà compiuto -

In attesa di Sua decisione,
Le porgo i miei doverosi ossequi
e con ogni considerazione mi
creda

Di Lei

Devotissimo
Giuseppe Labrizzi

I find no difficulty in sending you the
books & MSS. mentioned in my preceding
letter, but as they belong to a relative of mine,
who is now absent, I cannot take it upon myself
to send them so far; some MSS. may get lost,

At any rate you will certainly know someone
in Italy whom you could charge to come
to see the MSS.

There is only one way in which I could
take the responsibility. I'll the documents
enlisted & that is, if you I send
them carriage forward against payment
of lire 5000.- reserving the payment
of the balance after inspection.

Awaiting your kind reply
Yours &c.

Egregio Signore,

La ringrazio immensamente della sua lettera del 22 corr. e per l'interesse che prende nella prossima Esposizione Storica Medica. Sarò molto contento di ottenere in prestito i vecchi libri di farmacia che mi ha gentilmente offerto, quando l'Esposizione avrà luogo.

Forse lei potrebbe mandarmene 5 o 6 dei vasi di ceramica bianca per farmacia che lei desidera. Sarà inutile il dirle che saranno accompagnati colla più grande cura e li saranno ritornati quando l'Esposizione sarà finita. Le invio un altro prospetto nella speranza che la troverà interessante.

Ringraziandola di nuovo, le saluto distintamente

Suo dev^{mo}

Farmacia Clinica Pettini,
V i s t o r i o,
I t a l i a.

Translation of letter received from Farmacia Chimica, Petitti, Vistrorio, Italy, dated January 22nd, 1910, received, January 24th, 1910; addressed to Mr. Wellcome.

Only a few days ago I learnt of your excellent idea of arranging the Historical Exhibition of Medical, Chemical and Pharmaceutical objects and kindred sciences, and as I take an enthusiastic interest in this work which I hope will afford an opportunity of becoming acquainted with the interesting details of distant foreign countries, I beg to inform you in compliance with your request contained in the syllabus of your exhibition that I have conserved the following treatise of pharmacy:-

1. History of Plants, MDCCXIX in French
2. Ferrarese Pharmacopoeia of Campana, 1827
3. The Chemical Elements of Michelotti, 1831
4. A Pharmacopoeia Tauriensis MDCCCXXXIII

In my pharmacy which was established by my forefathers in 1740, I keep still about 40 receptacles of white maiolica with inscriptions which are burnt in in the vases in blue colour.

These are very much requested nowadays, as they get more rare every day. I can have photos made of some if you should consider them of use. Of course very good photographs would be required in order to show well all features of the name of the medicinal preparations and of the design.

Awaiting your reply concerning the matter.

Yours etc.

REPLY SENT.
20 JUN 1912

Dear Sir,

I acknowledge with thanks the receipt of a pamphlet addressed to the Library of the local District Hospital, containing instructions and particulars in connection with the Historical Medical Exhibition which is in contemplation of being held in the year 1913. I am unable to adequately describe the various substantial advantages that the attempt is calculated to turn out. The exhibition will indeed furnish important and interesting informations both to the members of the profession and others on matters which from a historical legendary and observational point of view, ought to engage the interesting attention of all.

I for one would avail myself of this blessed opportunity to thank you for your strenuous efforts in this direction with a view to the elucidation

2/

of matters of curious interest but not widely known to the world at large. I fervently wish and earnestly pray that the attempt be crowned with success with the hearty cooperation of your friends and well wishers in different parts of the Globe.

I feel exquisite pleasure in being able to encourage you in my own humble way by sending herewith for submission a few stray things of old used by the (Dhanwantari physicians (Section I classification of Strib to page 5.) with the necessary descriptions to make you understand the different purposes for which they were meant.

The articles that I send herewith have been obtained after much laborious effort amidst my busy hours. They are samples of Curios which are indispensably necessary for the renowned Dhanwantari mode of treatment that has been commanding the confidence of many a patient in the length & breadth of India prior to the advent of the Allopathic mode of treatment. If these things succeed in creating in the minds of the many great men who condescend to grace the assembly by their presence, a sort of curious pleasure, I shall feel

feel proud to think that my purpose also has been accomplished. I have my own doubts as to how far these would suit your requirements, nevertheless I have the consolation that you are prepared to accept "any little help in regard to early traditions" as mentioned in the ^{3rd} ~~first~~ page of your pamphlet. Trivial as they may be, "they may form important connecting links in the chain of historical evidence" in connection with your researches.

These, as the agents of ancient medical relief, may be serviceable as things eliciting curiosity and may bring back to our minds certain medical usages which were in vogue in early times. The wood cut picture of Dhanwantari given on the 5th page of your booklet has attracted my attention. To him is due the creditable authorship of the Ayur vedic mode of treatment, the one which under the name of native treatment is widely prevalent throughout India.

I shall not inflict you with any lengthy discourse on the subject "native treatment and medicine"

I

I remain Dear Sir
yours faithfully
A. M. Phillipose

W. H. Harvey

10 January 1914.

Dear Sir,

Referring to my letter to you of November 13th with reference to the plaster bust of William Harvey that you so kindly lent us for the Historical Medical Museum, will you kindly let me know if you will give us permission to have a copy made of it for the Museum which is to be a permanent institution in London. There will be no risk whatever of your cast suffering any damage while the copy is being made, and directly the work is completed, I will return the bust to you. I should be glad if you would let me know your decision per enclosed telegraph form.

Thanking you in anticipation,

I am,

Faithfully yours,

G. E. Paget

13 November 1913.

Dear Sir,

Before returning the cast of the bust of William Harvey which you so kindly lent us for the Historical Medical Museum, I write to know if you would be good enough to allow us to have a copy of it made for this Museum, which is to be a permanent institution in London. There will be no risk whatever of your cast suffering damage while the copy is being made.

Thanking you in anticipation of an early reply,

I am,

Faithfully yours,

Dear Sir,

I desire to acknowledge the receipt of the plaster bust of Harvey which came to hand safely this morning. I am requested to thank you very cordially for your kindness in lending us the same for the Historical Medical Museum. Great care will be taken of it, and it will be returned to you at the close of the Museum.

Please let me know the cost of packing and carriage and I will send you a cheque for the amount.

Faithfully yours,

G. E. Paget Esq., M.A.,

Feb 5th 1913

Dear Sir.

I have to acknowledge receipt of
your letter of the 26th ult., and regret that
absence from home prevents my sending
the bust of Harvey at once -

I shall however be returning to Salcombe
about the 22nd and will then forward it
as soon as possible -

I hope the unavoidable delay will not
be very inconvenient -

Enclose the form you sent me filled in

Yours faithfully

H. E. Paget

HkZ

26 March 1913.

Dear Sir,

I desire to thank you for your kind letter of the 20th inst. with reference to the bust of Harvey. Unfortunately the bust in Caius College is inaccessible and cannot be sent to the Museum, neither can the one from the College of Physicians, so if you would lend us yours we should greatly appreciate your kindness.

We should like to have the bust as early as possible as we are preparing a special alcove for William Harvey's works and relics, and it will be necessary to have a pedestal made for your exhibit. It will be very carefully handled and will be insured for the value you place upon it.

The bust should be sent to the above address, and I shall be pleased to pay cost of packing and carriage if you will kindly let me know the amount.

Thanking you in anticipation,

I am,

Yours faithfully,

G.E. Paget Esq.,
"Redcot",
Salcombe.

March 20. 1913

Dear Sir

Your letter of the 17th inst.
has now reached me.

The cast of a bust of Harvey you
mention is in my possession,
and I have it here.

I believe my Father had three
casts made, and gave one to the
College of Physicians, and another
to Cairns College - Probably both
of these are in better condition
than mine, and more
accessible -

But if not I shall be

pleased to lend my cast to the
Historical Medical Museum
this summer, if you will
be good enough to let me know
when it would be wanted, and
to what address it should be
sent

Yours faithfully
J. E. Payet

17 March 1913.

Dear Sir,

In connection with the Historical Medical Museum, which is being held in London this summer at the time of the meeting of the International Medical Congress, we are desirous of getting together all the most interesting relics of William Harvey.

I have been in communication with Dr. Charles Paget of Great Houghton House with respect to a cast of a bust of Harvey, which, I understand, was in your father's possession. He has kindly furnished me with your address, and I write to ask if you know in whose possession this cast is at present, and if you think it would be possible to obtain it for the Historical Medical Museum.

Thanking you in anticipation,

I am,

Faithfully yours,

G. Edmund Paget Esq.,
Oak Lodge,
Broomhill,
Tunbridge Wells.

I.M.C.

12th March 1913.

Dear Sir,

In conversation with Dr. Norman Moore the other day, he told me that he understood that you had a cast of the original bust of Harvey, the only one, he believes, that was taken from life, and he thought that you might be willing to loan the same for the Historical Medical Museum which is to be held in London very shortly in connection with the International Medical Congress.

We are making a very special effort to get together all relics of Harvey we can, and we should very much like to have the cast if possible. We undertake all the cost of packing, carriage and insurance of same from the time it leaves your hands until it is returned to you.

I am enclosing a syllabus, a lender's form and some labels.

I am,

Faithfully yours,

C.J.S.T.

Dr. C.E. Paget,
Medical Officer of Health,
Northampton.

31 October 1913.

Dear Madam,

With reference to your letter respecting the portrait of Sydenham which you kindly lent to the Historical Medical Museum, I note that you would be willing to sell the same. Knowing the interest which the late Dr. Payne took in the history of medicine, I thought that you might perhaps have some other objects of historical medical interest of which you might be willing to dispose. Will you kindly let me know at your early convenience, and I will give the whole matter early consideration.

Faithfully yours,

C. T. S. T.

Mrs. Payne,

Dear Sir

In answer to your letter
about returning the object
lent to the Historical and
Museum - They say
we should like to dispose
of the Portrait of Sydney
which we lent to the
Museum in July -
I ought to have written

Soon, but unless
your letter about the
closing of the Museum -
We should like to
get \$40 for the
painting -

Yours faithfully

4th July 1913.

Dear Madam,

Dr. Selpe Bennett in conversation a few days ago informed me that you had an oil painting of Sydenham, and he suggested that you might possibly be good enough to lend it for the Historical Medical Museum, which is being held in London in connection with the meeting of the International Medical Congress. We should very much like to have something which belonged to the late Dr. Payne in the Museum, as I am well aware of the great interest he took in the subject.

Thanking you in anticipation,

I am,

Faithfully yours,

Mrs. Payne,

from

5 November 1913.

Dear Sir,

I am informed that you have a copy of a work entitled "An Inquiry into Variola and Vaccina" by Edward Jenner, dated 1798, which you are good enough to offer to lend to the Historical Medical Museum. We should be very pleased to have it and should much appreciate your kindness if you would forward it to me at the above address at your early convenience.

Thanking you in anticipation,

I am,

Faithfully yours,

ETST

Mr. C.J.S. Thompson, Wigmore Street, W.

re Dr. Phillips, Addiscombe Road, Croydon.

One of our London representatives has written in
as follows:-

"This doctor showed me a book he has which he thinks might
be of interest to the Historical Medical Museum. It is a
copy of a work by Jenner dated 1798, and entitled 'An
enquiry into Variola and Vaccinia'. Will you please write
him and say if he shall send it up."

We will leave it to you to deal with the matter
as you consider best.
