Monsieur le Docteur,

J'ai bien reçu votre estimée carte postale du 27 janvier dernier et je vous remercie beaucoup pour votre aimable offre de bien vouloir me prêter les objets en question pour la prochaine Exposition Historique de Médecine.

Je serai enchanté de pouvoir disposer de ces articles et je ne manquerai pas de vous faire savoir en temps opportun où et quand il y aura lieu de les envoyer.

Recevez, Monsieur le Docteur, mes salutations empressées.

Monsieur le Docteur
J.A. Bussière

Monsieur le Docteur,

J'ai l'avantage d'accuser la réception de votre estimée carte postale du 27 janvier dernier, par laquelle vous avez l'amabilité d'offrir deux articles persans pour la prochaine Exposition Historique de Medecine.

M. Wellcome est en ce moment à l'étranger, mais dès qu'il sera de retour, je ne manquerai pas de lui faire part de votre communication et de vous écrire de nouveau à ce sujet.

Recevez, Monsieur le Docteur, mes salutations très empressées.

Monsieur le Docteur,
J. A. Bussiere,
Bushire,

Via Bombay.

Translation of Post card received from Dr. J.A. Bussiere, Bushire
(Golfe Persique) via Bombay, dated 27th January, 1906.

1065
Description:

1. Glass breast pump or reliever, having the shape of a trumpet and having now been in use in Persia for centuries. Largest size: 0.50 x 0.25 in.; weight 3 to 4 lbs.
2. Persian opium pipe, and smoker's fittings.

P.S. I should be happy if these articles were of any interest to you and if you would accept this modest contribution to your work.

Translation of letter from Dr. Benedetto Bonacelli, Chimico,
-Farmacista, Fabbrica di Roma, Provincia di Roma, Italy,
dated 14th Feb. 1906.

Having received your address and the particulars regarding your Historical Exhibition of Medicine, I hastened to write to you proposing to send a very curious medical old book of 1683.

Now I possess a manuscript Codex of the XV century, written in fine characters on parchment, with the title in red lead and constituting a real and serious medicine treatise of that time. It is in the best condition to study it.

As a chemist amateur of historical chemistry, I am always looking for notices and I hasten to signal the existence of this work, which as yet I have had no time to examine but which I offer you as a loan for your interesting exhibition.

I should like this book to be insured for 200 frs.

In your answer please give me some particulars about your exhibition, in which I take a great interest, and believe me etc.

*acknowledge this with previous letter
"Mr. W. Hartley" abroad, I bring it up in my return*

En ayant reçu votre adresse et les renseignements sur votre Exposition historique de médecine &c, j'ai eu l'empresse de vous écrire, en proposant de vous envoyer un livre de 1683 très curieux sur le sujet.

Maintenant je possède un codex manuscrit du XV^e siècle, en beaux caractères, sur parchemin, fibres en minium, qui est un véritable traité scientifique de médecine de ce temps-là. Il est à l'état le plus satisfaisant pour y pouvoir étudier.

Moi, chimiste, et amateur de la Chimie historique sur laquelle je vais rassembler continuellement des notices, n'ayant pu encore m'occuper de ce codex, volontiers je m'empresse de vous communiquer son existence, en vous proposant de vous en servir pour votre intéressante exposition.

Le prix d'assurance que vous voudrez assigner pour ce codex sera de Fr. 200.

Je vous prie m'envoyer une réponse en vous exprimant mon désir de recevoir quelque renseignement sur votre exposition et que m'intéresse beaucoup.

Votre dévoué

Egregio Signore,

Sono in possessione della vostra pregiata cartolina postale del 14 Febbraio scorso, e vi ringrazio molto per la vostra gentilissima offerta di prestarmi un antico codice manoscritto del XV secolo per la prossima Esposizione Istorica di Medicina.

Mi piacerà molto il poter disporre di quest' opera, e tosto che sarà fissata la data dell'apertura, non mancherò di farvi sapere in tempo opportuno quando e dove dovrà essere inviata.

Faro l'assicurazione per l'ammontare indicato.

Ho il piacere di mandarvi qui accluso un programma della futura esposizione in cui troverete tutte le necessarie informazioni.

Con massima stima, di Vci

31st May 1912.

Dear Sir,

I have now had an opportunity of examining the very interesting box of old photographs of various descriptions which you have so kindly sent me for the Historical Medical Exhibition.

I have made a comprehensive selection, including the old daguerrotypes, metal prints, and some of the early paper prints, together with the manuscript book of recipes, for the purpose of the Exhibition, and regret that space will not allow me to exhibit the others, which I am returning to you by parcel post to-day, with many thanks.

I will retain the box containing the others I have kept until after the Exhibition is over, when I will return the collection to you.

Thanking you very cordially for your kindness, and for the loan of these interesting relics,

I am,

Yours very truly,

H.S.W.

H. W. Breton Esq.,
The Globe, Nuneaton.

Dear Sir,

I desire to thank you for your kind letter of the
24th inst., and regret to hear of your illness.

The box you have sent containing the early figures
and daguerrotypes has duly come to hand and as soon as I
have an opportunity I will examine the contents and make a
selection that will be suitable for Exhibition purposes.
I will return the others to you immediately.

Many thanks for mentioning the subject of the Exhibition
to your medical attendant. I shall have pleasure in com-
municating with Dr. Nason on the matter.

Again thanking you very cordially for your kindness and
the trouble you have taken in the matter,

I am,

Dear Sir

In answer to your
Letter of April 19-1912, I have
had an illness & have left
3. High St. Birmingham -
to I have packed up the
Daguerrotypes & Early Carte dev.
and a Book of Recipes 1741
which I thought you would
look over & see what would
suit your Exhibition - I have

Sent all for your
approval - Please keep
them as long as ever you
like - With kind regards
& every good wish for

Your Exhibition, I am
Dear Sir

Yours truly

H. W. Bretton.

I mentioned the matter to my medical man -

Dr Edward H. Mason

Manor Road

Inneaton -

He said he had several old medical curiosities
that belonged to his Father & grandfather
both of whom were Drs in Inneaton years ago -
If you care to write to him I think he would
be glad to lend them. —

Dear Professor Blanchard,

Mr. Wellcome has asked me to acknowledge to you the receipt of the order for the presentation medal to Sir Patrick Manson. He tells me that in July 1911 he filled in an order for four of the medals - two bronze plaquettes and two in platine silver - and sent it together with a cheque for 16-0-0 to Mr. Cantlie, 140 Harley Street, London. If this has not reached you kindly let me know.

Faithfully yours,

B. J. ST.

Professor R. Blanchard,
226, Boulevard Saint-Germain,
Paris.

Mr. C.J.S.Thompson,

Herewith some papers in connection with the
International Manifestation to Sir Patrick Manson which Mr. Wellcome
instructed should be sent to you.

Will you please bring them before him. He wished
to know how many he subscribed for - I see from my records that a cheque
for £6 was sent to Mr. Cantlie in July 1911 for two of the bronze
placquettes and two in patine silver.

226, Boulevard Saint-Germain

MANIFESTATION INTERNATIONALE

EN L'HONNEUR DE SIR PATRICK MANSON, F.R.S., G.C.M.G.

Les magnifiques progrès réalisés, depuis moins de vingt ans, dans la connaissance des maladies des pays chauds, sont dus, pour une très grande part, à SIR PATRICK MANSON ou à son initiative. La création des Écoles ou Instituts de Médecine tropicale, ces foyers si actifs et si utiles d'enseignement et de recherches, est due encore à son action bienfaisante. En ces questions, il a été un initiateur de génie.

Les soussignés, persuadés que SIR PATRICK MANSON a rendu à la science et à l'humanité les plus éminents services, ont pensé que l'heure était venue de témoigner à l'illustre savant anglais leur vive admiration pour son œuvre, en même temps que leur respectueuse affection pour sa personne. Ils ont voulu provoquer en son honneur une manifestation internationale, à laquelle pussent prendre part tous ceux qui connaissent ou admirent SIR PATRICK ; tous ceux qui ont passé par l'École de Médecine tropicale de Londres, ou par les Écoles et Instituts similaires ; tous ceux qui, sans avoir été en relations plus ou moins directes avec lui, savent cependant l'immense portée de son œuvre et désirent lui témoigner leur estime et leur reconnaissance.

Dans ce but, il est ouvert une souscription internationale, à l'effet d'offrir à SIR PATRICK une médaille d'or à son effigie. Cette médaille aura la forme d'une plaquette, mesurant environ 7 centimètres de haut sur 5 de large. Elle sera l'œuvre du Dr PAUL RICHER, Membre de l'Institut et de l'Académie de Médecine, Professeur d'anatomie à l'École des Beaux-Arts. Tous ceux qui connaissent le fin talent et l'élégante exécution de ce savant médecin, doublé d'un très grand artiste, peuvent être certains que son œuvre nouvelle sera digne, en tous points, de ses devancières et de SIR PATRICK.

Les souscriptions sont reçues :

1° Chez Mr. James CANTLIE, directeur du *Journal of tropical Medicine and Hygiene*, 140, Harley street, à Londres, W. ;

2° Chez MM. ASSELIN et HOUZEAU, éditeurs des *Archives de Parasitologie*, place de l'École de Médecine, à Paris.

On peut adresser les souscriptions par bon de poste, mandat postal ou chèque. Aucune limite n'est fixée.

Tout souscripteur de 25 francs (1 £) recevra un exemplaire en bronze de la plaquette.

Tout souscripteur de 50 francs (2 £) recevra un exemplaire en argent patiné.

En vue de ces envois, dont un grand nombre devront être dirigés vers les pays étrangers, les souscripteurs sont instamment priés d'écrire très lisiblement leur nom, leurs prénoms ou initiales, leur adresse, ainsi que toutes les indications postales nécessaires.

T. S. V. P.

REMISE D'UN MÉDAILLON A SON EFFIGIE

A SIR PATRICK MANSON

Le 11 août 1913

L'œuvre du Professeur PAUL RICHER est achevée, mais la réduction mécanique ne l'est pas encore. Avec la confection des coins, elle exigera encore quelques mois. Néanmoins, le Comité n'a pas voulu laisser passer l'occasion exceptionnelle, offerte par le Congrès international de Médecine, réuni à Londres du 6 au 12 août 1913, sans témoigner à SIR PATRICK MANSON ses sentiments de respectueuse admiration.

Un médaillon en bronze, d'une admirable ressemblance, a été coulé d'après la maquette originale, puis remis à SIR PATRICK, le lundi 11 août 1913, à la Section de Médecine tropicale, au cours de la séance du matin. L'assistance était très nombreuse. La cérémonie a été des plus émouvantes.

Tant que les plaquettes destinées aux souscripteurs ne sont pas frappées et mises en distribution, *la souscription n'est pas close* et l'adhésion de nouveaux souscripteurs continue d'être accueillie avec la plus grande faveur.

Toute souscription de £ 1 (25 francs) donne droit à un exemplaire en bronze.

Toute souscription de £ 2 (50 francs) donne droit à un exemplaire en argent patiné.

On souscrit :

1^o Chez Mr. JAMES CANTLIE, Directeur du *Journal of tropical Medicine and Hygiene*, 140, Harley street, à Londres, W. ;

2^o Chez MM. ASSELIN et HOUZEAU, éditeurs des *Archives de Parasitologie*, place de l'Ecole de Médecine, à Paris.

Humm

8 September 1913.

Dear Professor Blanchard,

Your kind letter of 4th September duly to hand.

I shall be very pleased to see Mr. E.L. Ryley when he can call to inspect your medals and plaquettes. I shall also do what I can to recommend Professor Richer's very excellent work.

We have insured the medals and collection of plaquettes which you kindly lent to the Historical Medical Museum for £350-0-0.

Dr. Sambon left for the West Indies about a fortnight ago, and landed at New York last Sunday week. I have heard nothing definite from him so far.

I am sending you under separate cover a Guide Book to the Museum.

Faithfully yours,

CHALET SAINTE-CATHERINE

BRIANÇON (HAUTES-ALPES)

September 4th, 1913.

Dear Sir,

Mr E. L. Ryley, Secretary of the R.
Institute of Public Health asked
me for the name of Prof. Paul
Richer, who has engraved the
medal of Sir Patrick Manson.
I did answer him to-day and
suggested he could visit the
Museum of Medical History,
where I have exhibited a set of
French modern medical medals.

Those of R. Blanchard, Chauveau,
Delbet, Hutinel, Magnan, Marey
and Society of biology are made
by Prof. Richer. I invite Mr
Ryley to call on you and to
beg the glass-case could be
open for seeing the reverse of
above named medals.

I would be very happy if my
good friend Prof. Richer could
have the command. I will be
thankful to you to speak in
the same sense.

We have not spoken further

about the ~~issuance~~ of my medals.
A sum of £ 350 is certainly not
too high. none of my french
medical medals is now to be obtai-
ned, and many of the cholera
series are very rare.

My best compliments to Dr
Sambon, if he is not yet on his
way to Western Indies.

Yours very truly

R. Blanchard

Please to send me here a Catalogue
of the museum.

7th July 1913.

Dear Professor Blanchard,

I was very pleased to hear from Dr. Sambon that you hope to be in London on the 17th inst. I trust you will be able to pay us a visit at the Historical Medical Museum at your early convenience.

With reference to the prints and documents which you kindly lent us, I am sorry you are under a misconception about the way they are exhibited. We had a great struggle to get the Museum anything like complete for the opening day, and the glass case screen that was being made for you was not ready in time. I was obliged, therefore, to show them for that day affixed to a screen which had not been covered with glass, but on that day the visitors were distinguished and limited in number. The following day the glass fronts of the screen were ready, and your exhibits were rearranged and screwed up under glass. I can assure you that there was no risk whatever of any of them being hurt, and the reason why

2.

they were exposed on the opening day was that we were anxious to show the interesting objects you had lent.

I regret to hear that we shall be unable to have some of your most precious metals on account of the regulations of the French Customs, but I hope you will be able to bring a few of the most interesting ones with you and also be good enough to let us have the bronze objects, if possible. I have had a special glass case made for these.

Trusting you will have a safe and pleasant journey, and with kind regards,

I am,

Faithfully yours,

Professor Blanchard,
Boulevard Saint-Germain 226,
Paris.

Translation of letter to Prof. Blanchard.

~~7th July 1913.~~
21 June 1913.

Dear Prof. Blanchard,

It is with great regret I learn from your letter this morning that it will be impossible for you to be with us at the Inauguration of the H.M.M. on Tuesday next. Both Dr. Sambon and myself have been looking forward with great pleasure to seeing you in London and we are extremely sorry that you are prevented from coming just now.

The case for your collection of medals is ready, and if you would kindly send them by Messrs. Stockwell they will insure them for the value you state for insurance. I am glad you are able to send us something on plague as your collection is so interesting.

I am enclosing herewith several lender's forms which I should be glad if you would kindly fill in and forward to me when you send the medals. I have pleasure in enclosing a copy of the hand book to the H.M.M., and trust that you will be able to visit us this summer.

It was with great pleasure that I made the acquaintance of your son, and was sorry that I had so little time to give to him. I trust he enjoyed his visit to London, and hope to see him again at some future time.

Thanking you very cordially for the trouble you have taken,

Faithfully yours,

C.J.S.T.

Dear Mr Thompson.

My son has written
telling me how well you received
him & his friend. I thank
you cordially.

I would upon any other
great pleasure of being present
at the inauguration of
your museum.

Unfortunately it is not
possible for me to get away
& I regret very much not
being able to take part at

This interesting ceremony.

I am busy with the medals
which I am sending. It takes
a long time. I will also
send the some relating to
Plague - as you wish.

I did not find the
time for declaration of
insurance in your last
letter.

I should be glad if you
would send me 4 or 5,
as it is probable that I

may send my & Company
in several detachments

accept the assurance.
etc.

R. Blanchard.

20 juin 1913

Cher monsieur Thompson,

Mon fils m'a écrit quel bon accueil vous lui aviez fait, ainsi qu'à son ami. Je vous en remercie bien cordialement.

Je comptais bien avoir le grand plaisir d'assister à l'inauguration de votre musée. Malheureusement il m'a été impossible de me rendre libre et j'ai le très vif regret de ne pouvoir prendre

part à cette intéressante cérémonie.

Je m'occupe des médailles que
je dois vous envoyer. C'est très
long. J'envverrai aussi des pièces
relatives à la peste, suivant
votre désir.

Je n'ai pas trouvé dans votre
dernière lettre la feuille qui
devait y être jointe, devant
servir aux déclarations pour
l'assurance. Je vous serai très
obligé de m'en envoyer trois
ou quatre, car il est probable
que je ferai mon envoi en

plusieurs fois.

Veuillez agréer, cher
Monsieur, l'assurance de mes
sentiments les plus distingués

R. Blanchard

H.M.M.

Translation of letter to Mons. Blanchard.

7th April, 1913.

Dear Prof. Blanchard,

I am sending you under separate cover a catalogue of a sale of pictures at Messrs. Christy's in London, on April 11th in which I noted there are a number of interesting oil paintings of aeronautics including three representing your ancestor M. Blanchard. I think that perhaps these may interest you.

With kind regards,

Yours etc.,

C.J.S.T.

J- viens de vous envoyer / un catalogue d'une vente
de peintures / chez mm. Christy & - à Londres. le 11 avril.
qui aura lieu

~~dans lequel~~ Il y a un nombre ~~de~~ de quads intéressants
se référant à l'aéronautique la navigation aérienne et aussi
trois peintures ^{qui} représentent votre ancêtre M. B.
je crois que celles-ci ~~peut~~ ~~pourraient~~ vous intéresser.
agréiez M. —

Translation of letter from Professor Blanchard, 6 April 1913.

Dear Mr. Thompson,

I think £100 a reasonable insurance to be placed on the documents, which you inform me have arrived safely. That is the sum I mentioned to Messrs. Stockwell for transport.

The list I have sent you only classifies these documents according to subjects, and that very inaccurately and faultily. They require to be classified correctly, as you state.

With regard to my medals, I intend to be in London from the 20th to the 25th of May.

UNIVERSITÉ DE PARIS - FACULTÉ DE MÉDECINE

LABORATOIRE DE PARASITOLOGIE

15, RUE DE L'ÉCOLE DE MÉDECINE, PARIS

TÉLÉPHONE 803-81

Paris, le 6 avril 1912.

Cher monsieur Thompson,

Je crois qu'une assurance de
100 £ (= 2500 fr.) est raisonnable
pour les documents dont vous
m'annoncez la bonne arrivée.

C'est le chiffre que j'avais indi-
qué à M. Stockwell pour le
transport.

La liste que je vous ai adressée

ne donne pour ces documents
qu'un classement par matières
très inexact et imparfait. Il

y a lieu de reprendre ce classe-
ment, ainsi que vous l'avez
sûrement remarqué.

Pour mes médailles, je compte
venir à Londres du 20 au 25
mai.

Votre bien dévoué

R. Blanchard

H.M.M.

30 Jan. 1913.

Dear Professor Blanchard,

I have pleasure in enclosing you four little brochures that I wrote some time ago, also a few engravings relating to the history of medicine. On looking through some of my papers a few days ago I came across a catalogue of books on "Aerostation", which I think will be of interest to you.

Thanking you very cordially for your kindness to me during my recent visit to Paris, and with kind regards to Madame Blanchard and yourself,

I am,

Faithfully yours,

P.S. - Je suis en vacances
et ne rentrerai à Paris que
le 2 ou 3 avril.

Mr Thompson, Londres.

Dear Sir

I herewith send
you the summary
catalogue of the
158 engravings which
I sent you recently
through Stockwell & Co.

I think you have
received them. I asked
an insurance of
2500 francs.

As I arranged with you,
I shall be seeing
you in London this
Spring, & will bring
you a number of

my medals.

Kindest regards.

I am on my holiday
& shall not be in
Paris til the 2nd or
3rd April.

Blanchard

Translation of letter to Professor Blanchard, 26 January 1914.

Dear Professor Blanchard,

Very many thanks for sending me the introductions to your friends in Constantinople. I am sure they will prove of the greatest assistance to me in my work.

I am glad to say we have found your prints alright. There are 4 of them altogether. The reason why we had not got them here is now explained. I mentioned the matter to Dr. Sambon a few day ago and he ^{at once} said that he had taken 4 of them home last June to have caricatures made and that he had them still. Of course Dr. Sambon should have told me that they had been taken from the Museum for the purpose of having the caricatures made, but he did not do so.

Besides the four I am enclosing Dr. Sambon says he has another which he thinks must be No. 35 on your list. He says he lent this to Mr. Munro Orr for the caricature and he is going to call upon him to get it back. Dr. Sambon will bring it to Paris with him on Feb. 8th and return it to you personally.

Many thanks for sending some weeks ago the package containing the copies of the engraving representing the French delegates at the I.C.M. also the copies of Mr. Orr's drawing "Parasitological Mission". I am distributing these as you suggest and we are very pleased to have them. I was under the impression I had acknowledged their receipt to you at once but now I remember they came at a time when I was out of London and I did not receive them until quite recently. Also allow me to thank you for your interesting pamphlet "Emploi abusif des Armes.

Trusting you are well and with kind regards,

Translation of letter from Prof. Blanchard, 23 Jan. 1914.

Dear Mr. Thompson,

The prints which are lacking are only three in number. They are nos. 34, 35 and 36 on my list of which I send you a copy which you may keep. Nos. 35 and 36 are very rare; these are very interesting engravings equally interesting from the point of view of art as from that of anthropology. Their loss would be a cause of deep regret.

I sent you some time ago a package containing:

1. About a dozen engravings sent to me by mistake and which did not belong to me; French
2. Several copies of a large engraving representing the/delegates at the International Congress of Medicine from a photograph which appeared in a London paper.
3. Several copies of the engraving of Mr. Orr's drawing "Parasitological Mission".

I should be glad if you would kindly distribute these engravings at your convenience, particularly to Mr. Orr whose address I do not know.

I wrote yesterday evening to Dr. Sambon of whose safe return I learned with pleasure.

A safe journey to Constantinople! Dr. Torkomian can be very useful to you.

ARCHIVES DE PARASITOLOGIE

15, RUE DE L'ÉCOLE DE MÉDECINE, PARIS

TÉLÉPHONE 803-81

23 janvier 1914

Cher Monsieur Thompson,

Les estampes qui me manquent sont seulement au nombre de trois. Ce sont les numéros 34, 35 et 36 de ma liste, dont je vous retourne un exemplaire, que vous pourriez garder. Les numéros 35 et 36 sont très rares; ce sont de très belles gravures,

ARCHIVES DE PARASITOLOGIE

aussi intéressantes au point
de vue artistique qu'au
point de vue anthropologique.
Leur perte serait très regrettable

Je vous ai envoyé, voilà
quelque temps déjà, un colis
renfermant :

1° une dizaine d'estampes
qui m'avaient été envoyées
par erreur et qui ne m'ap-
partiennent pas ;

2° plusieurs exemplaires
d'une grande gravure représen-
tant les délégués français au

Congrès international de médecine,
d'après une photographie parue
dans un journal de Londres ;

3° plusieurs exemplaires de
la gravure faite d'après le dessin
de M. Orr : mission parasito-
logique.

Je vous prie de distribuer ces
gravures à votre convenance,
notamment à M. Orr, dont
l'adresse m'est inconnue.

J'ai écrit hier soir au
Dr Sambon, dont j'ai appris
avec plaisir l'heureux retour.

Bon voyage à Constantinople!
Le Docteur Gorkomian pourra
vous être très utile.

Votre bien dévoué

R. Blanchard

Translation of letter to Prof. Blanchard, 16 January 1914.

Dear Professor Blanchard,

Dr Sambon who has now returned from the West Indies is coming to Paris shortly, and if within the next few days you can kindly let me have a list of the 12 engravings of yours which we still have, I will see that they are packed and handed to him for delivery to you.

I am leaving London in a fortnight's time for Constantinople to make a research among the early manuscripts on medicine in the Imperial Library at the Old Seraglio and those that were found at the Yıldız Kiosk. Dr. Sambon tells me that he thinks you have some influential friends in Constantinople. If you know anybody who can give me some assistance in obtaining access to them I should be very grateful if you would kindly give me a letter of introduction to them.

Trusting you are well and with every good wish for the New Year,

C.T.

Trans. of letter to Prof. Blanchard.

20 Oct. 1913.

Dear Prof. Blanchard,

Many thanks for your very kind letter of the 16th inst., and for the kind information you have sent me about your watches in the form of human skulls. I will inform Dr. Parkes Weber of what you say, and when you are able to send me a picture of your watch I will send it to him as he is very much interested in anything connected with skeletons on account of the work which he is shortly publishing on 'Death in Art'.

I am sorry we shall not have the pleasure of seeing you in London, but at the end of the month I will have your medals and plaquettes and engravings very carefully packed and forwarded to you fully insured through Messrs. Stockwell. The medals shall be in the cases, and I will advise you when they are sent off.

I hope to be in Paris myself about the middle of November, and will see that your things are properly packed before then.

I take this opportunity of thanking you also in Mr. Wellcome's name for so kindly lending us your splendid collection of plaquettes, medals and engravings, and assure you we fully appreciate the honour you have done the H.M.M. by exhibiting the same in London.

I have had two letters from Dr. Sambon since he has been away. The last was dated from Jamaica in the West Indies where he had just arrived. He found there 170 patients suffering from Pellagra in one asylum for the insane. We are hoping to have further news from him before long.

Again thanking you for the trouble you have taken on our behalf,

Faithfully yours,

CJ.S.T.

H. M. M.

13 October 1913.

Dear Professor Blanchard,

Many thanks for your kind letter of the 9th inst, and I shall look forward with much pleasure to seeing you in London again soon.

Although the Museum closes on the 31st inst., you can have the medals and plaquettes at any time if you will kindly advise me a day or two beforehand when you are coming.

Dr. Parkes Weber, the son of Mr. Herman Weber whom I think you know, has been here to see me this morning. He is writing a book on 'Death in Art', and he wanted to know if I could tell him where he could obtain a photograph of any of the watches of the 16th or 17th century that were made in the form of a skull. It occurred to me that you might know of some specimens of this type in some of the Paris Museums where he could obtain a photograph for his book which I believe is to be published soon. If you know of any such, I should much appreciate your kindness if you would let me know.

-2-

With apologies for troubling you on the matter, and
trusting you are well,

With kind regards,

Faithfully yours,

J. S. T.

9 octobre 1913

Mon cher monsieur Thompson,

Je suis très heureux d'apprendre que Mr H. Wellcome a souscrit si généreusement à la médaille de Sir Patrick Manson. Je n'en savais rien encore, parce que Mr Pantlie ne m'a pas encore donné la liste des souscriptions recueillies par lui. Je lui écris précisément pour la lui demander.

me voici rentré définitivement
à Paris, depuis quelques jours. Je songe
maintenant à venir à Londres pour
chercher mes estampes et mes médailles.
J'espère donc avoir bientôt le
plaisir de vous voir.

Votre très dévoué

R. Blanchard

I am very pleased to hear that
Mrs. W. has very generously subscribed
to the medal for Sir P. Manson.

I knew nothing about it since Mr.
Caulie has not yet sent me the
list of subscribers. I am writing
to him & now to this effect.

At last I have returned definitely
to Paris since a few days & I am
thinking to come soon to London to
collect my prints & medals.

I therefore hope to have soon
the pleasure of seeing you.

Translation of letter to Prof. Blanchard, 4 Dec. 1913.

Dear Prof. Blanchard,

I regret delay in replying to your letter owing to absence from London.
I enclose herewith the list of engravings which you sent us. Will you kindly mark with a blue cross those that have not been returned to you, and send the list back to me again. I will then see that they are forwarded to you at once.

With kind regards,

G.J.S.T,

20 nov. 1913

Cher monsieur,

J'ai grand plaisir à vous faire connaître l'arrivée de mes médailles en parfait état. Il ne manque rien à l'appel. Je suis heureux d'avoir contribué au succès du musée, comme vous avez la bonté de me le dire, mais je ne me dissimule pas combien peu étaient importants les objets que je vous avais confiés,

en comparaison des merveilles et
des richesses réunies par M. H.
Wellcome. Ses magnifiques col-
lections ont dépassé toute prévision
et ont intéressé au plus haut
point la curiosité de tous ceux
qui les ont visitées.

Veuillez exprimer à M. H.
Wellcome mes sentiments les
plus dévoués et agréer l'assu-
rance de ma sincère amitié

R. Blanchard

X
Pour les estampes qui me man-
quent (une dizaine environ), je
voudrais vous en donner la liste.
Je n'ai pu le faire jusqu'à présent,
parce que je n'ai pu encore
mettre la main sur le catalogue
dactylographié dont je vous ai
envoyé une copie. Pourriez-vous
me communiquer cette ~~piece~~ copie?
Je vous dirai aussitôt quelles
gravures me font défaut.

R. Bl.

Translation of letter from Prof. Blanchard Nov 20th 1913.

Dear Sir,

I have great pleasure in letting you know of the arrival of my medals in perfect condition. There is nothing missing. I am happy to have contributed to the success of the Museum, as you are kind enough to say to me, but I cannot conceal from myself the small importance of the objects which I confided to you, in comparison with the wonders and the riches collected by Mr H. Wellcome. His wonderful collection has surpassed all prevision and has interested to the very highest point all those who have visited it.

Will you express to Mr Wellcome my kindest regards and accept the assurance of my sincere good wishes.

R. Blanchard

As for the engravings which are missing (about ten) I intended to send you a list of them. I have not been able to do so at present because I have not been able to lay my hand on the dactylographated catalogue of which I sent you a copy. Could you send me that copy? I could then tell you at once which engravings are missing.

Trans. of letter to Prof. Blanchard

13 Nov. 1913.

Dear Prof. Blanchard,

I desire to thank you for your letter of the 11th inst. to hand this morning acknowledging the receipt of your engravings.

I am very sorry our packers have made some error in not sending you all your engravings, and am glad you have let me know at once. All the others that were on similar screens to yours are still here and I will go through them myself. You may make quite sure that we shall find them all right, and if you could let me have a list of the names of those that are missing to assist me it would be very helpful.

Your collection of plaquettes and medals I have today delivered at the French Embassy, and they will be taken to Paris to night by the Ambassador's messenger and delivered at the ^{Ministry of Foreign} British Consulate ^{affairs - Quai d'Orsay} ^{Ministere}. If you will kindly present the enclosed card at the Brit. Consul. ^{and ask for the large parcel} any time after to-morrow they will deliver the medals to you.

I am sorry to give you this trouble, but this was the only way of sending them without having trouble with the Customs House authorities who would insist that they should be taken to the Mint to be stamped if we sent them in the ordinary way. There should be no charge to pay on the carriage as I have paid it here to the Ambassador's Secretary.

Trusting to hear of their safe arrival,

Faithfully yours,

11 novembre 1913

Cher monsieur,

Je m'empresse de vous accuser réception de vos estampes. J'en trouve exactement 150 m'appartenant; il m'en manque donc environ une dizaine.

J'en trouve précisément dix qui ne sont pas à moi et qui toutes portent au dos la signature S.H.B. Il y a eu évidemment une erreur commise; je m'empresse de vous la signaler, en vous priant

de faire tout votre possible pour
retrouver mes estampes. Je
pourrai demain vous dire
lesquelles me manquent.

Je vous renvoie par l'agence
Stockwell celles qui ne sont
pas à moi.

Pas de nouvelles de médailles,
jusqu'à ce jour. S'il en est
temps encore, vous pouvez
garder la mienne pour le
Musée. Je l'offre très volontiers.

Veuillez agréer, je vous

prié, l'expression de mes sentiments
 le plus dévoué

A. Blanchard

Dear Sir,

I hasten to acknowledge receipt
of my engravings. 150 of them
are mine but about a dozen of mine
have not been sent.

There are exactly 10 which do not belong to me & all of these are marked on the back S.H.B.

It is clear that a mistake has been made & I tell you of it at once & request you to do your best to recover my engravings. I shall be able to tell you

tomorrow which ones are missing.
I am returning to you per Messrs
Stockwell those which do not
belong to me.

Up to today I have heard
nothing of the medals. If not
too late, you may keep the
one of myself for the Museum.
I offer it very willingly.

Yours etc.

Blanchard

Translation of letter to Professor Blanchard, 11 Nov. 1913.

Dear Professor Blanchard,

I have had the collection of medals, plaquettes, engravings, etc. very carefully packed today and as I have been informed by the transport agents that there would be some difficulty in passing the medals through the French Custom House, I communicated with the French Ambassador, who has very kindly offered to allow his messenger, who is travelling to Paris next week, to take them with him and frank them through the Custom House and deliver them to you. I trust therefore you will have no trouble or inconvenience in the matter, and I shall be glad to know that you have received them quite safely. The portfolio of engravings, documents, etc I have packed separately and am forwarding them per Messrs. Stockwell direct to you.

I take this opportunity of thanking you very cordially on behalf of Mr. Wellcome and myself for the great assistance you have given us in the H.M.M. by the loan of your interesting and valuable exhibit. It has always been a centre of interest to our visitors and we thank you very heartily for your kind co-operation.

I expect to be in Paris from the 17th to the 21st inst., and if possible I will call upon you to see if you have received the medals, coins, etc. quite safely.

With kind regards,

Faithfully yours,

C

1086

January 4th, 1907.

Dear Professor Blanchard,

I have today sent you under separate cover one copy each of the First and Second Reports of the Wellcome Research Laboratories at the Gordon Memorial College, Khartoum, which Mr. Wellcome will be pleased if you will kindly present in his name and with his compliments to the Library of the Paris Academy of Medicine. I have placed the name of this Library on the list for future copies of the Report.

Trusting you are well,

Believe me,

Yours faithfully,

Professor E. Blanchard,

15, Rue de l'Ecole de Médecine,

Paris VI.

10866

December 7th, 1906.

Dear Professor Blanchard,

I am sending to-day, under separate cover, a parcel of foreign and colonial postage stamps, which I trust your sons will find of some use to them.

At the same time permit me to thank you again very cordially for your kindness and courtesy to me during my recent visit to Paris.

Mr. Walloome has been very pleased to learn that you have kindly offered to loan a selection of your medical medals for the Historical Medical Exhibition when it takes place.

As soon as we can fix a definite date you will be duly advised.

With many thanks and kind regards,

Believe me,

Faithfully yours,

Prof. R. Blanchard,

226, Boulevard Saint-Germain,

For translation into French.

1086
February 7th 1906

Dear Sir,

In reply to your enquiry re the Historical Medical Exhibition I am organising, I would say that owing to the magnitude of the work involved in making the exhibition as complete as possible, I have not yet been able to fix a date.

As soon as a date is fixed you shall be duly notified.

I am,

Yours very truly,

Prof. Dr. Blanchard,
13 Rue de l'École de Médecine,
Paris,
France.

1086
8 Février 1906.

Monsieur le Professeur,

En réponse à votre carte postale du 6 ct. je m'empresse de vous faire savoir qu'en présence du très grand travail qu'exige l'organisation d'une entreprise de ce genre, il ne m'a pas encore été possible de fixer la date de l'ouverture de la prochaine Exposition Historique de Médecine.

Je ne manquerai pas, soyez en certain, de vous prévenir en temps opportun, et je vous prie s'agréer, Monsieur le Professeur, l'assurance de ma considération distinguée.

Monsieur le Professeur Dr. Blanchard.

4th. April 1896.

Madam,

I desire to thank you for your letter of the 29th. January which has been brought before me on my return from abroad. I have been much interested in your description of the several things you kindly offer to loan me for the Historical Medical Exhibition, and should be pleased to have the surgical instrument you speak of, the oil painting of the man riding on a goat, and the stein of crimson silk which was placed round the neck of a child to stop bleeding of the nose. As soon as the date of the exhibition is definitely fixed I shall be pleased to inform you where these should be forwarded.

Again thanking you for your kind letter,

I am,

Yours very truly,

Miss A. E. Boar

To Mr. Wellcome

Dear Sir - I have been

carefully reading your books

etc and sincerely thank

you - your samples I am

also using and should like

to know if you furnish

supplies the soap mention

as sample and the price

of same - I must tell you

we have started an

Apartment house here

Boar

and 2 foot wide then
I have a very old Almanack
then there is a piece
of hammered out bark of
a tree - done by the
natives of Australia it was
used by the natives as a
covering - for safety. Then I have
a Buckle from the Tasmanian
Museum - a strange old thing
please let me know if
any of these things will
interest you - I must tell
you about 70 years ago - people
used to tie a skin of
crimson silk around a child's
neck to stop bleeding from
the nose - this had 3 knots,
in it and was always believed
in too. I could send you one if
you like also. I remain yours
Faithfully Sister Agnes E

And it will give me pleasure
to introduce your soap to
visitors (if you so desire) &
by placing a small sample
in the - toilet - on their
arrival - Now in answer
to the question about
have we anything of interest
I do not know if you would
care for any of the following
if so you are welcome
and it will give me pleasure
I have a little instrument
used a hundred years ago
when my grandma had a
head - put in the back of
her neck - I have a very
interesting small Indian box
which is much prized about
as old - which contains

Several - divisions to keep the precious
medicines or - treated with -; then there is
an old - picture painted upon wood - it
looks like an oil painting upon wood of
a Goat - and a gentleman sat
thereon - with high boots a coat with lace
sleeves - a hat with a {feather} a whip in
his hand - and the {or leather} in the other
hand - his knapsack on is back - and a
leak and spoons at his side, he was told
it was a Welsh King who had to ride upon
his Goat to claim his lands its a curious
old panel or picture it is about 3 feet
long

Re Letter Reference

Dated

re "Wellcome" Medical Exhibition.

We wish to draw your attention to the report which MR. J. S. Lang makes on his letter folio 73, dated March. 12th.

We presume as in the former instance, you will communicate with the Doctor and thank him for his kindness in giving our representative the information re the relics which he holds.

YH.

1101
Mr C. J. S. Thompson.

Extract from Mr. J. S. Lang's letter dated from Hamilton
the 12th inst. Folio 73

"Re Mr. Wellcome's Medical Exhibition. Dr.

"Burrows of Lindsay, Ontario has a few relics of the
Indian Doctor's outfit. He would be willing to
loan them to Mr. Wellcome if he should like to have them.

"I. Chain of bear's claws. This is quite a large chain
composed of bear's claws. It was worn around the neck
by the Indian Doctor.

"II. Sacred Amulet

"III. Medicine Bag. This has very pretty workmanship
on it.

"IV. Doctor's Mitts.

"V. Doctor's Pipe.

"VI. Also a skull Cracker. This is composed of a
buffalo horn weighted with a long handle. This looks the
part.

The Doctor was very kind and took a lot of
trouble to show me these different articles. I would
suggest you write him a note of thanks."

N.W.

April 12th, 1907.

Dear Sir,

I am informed by my representative, Mr. J. S. Lang, that you have kindly offered to loan us several relics of a native doctor's out-fit for the forthcoming Historical Medical Exhibition. I need hardly say that I shall be most pleased to avail myself of your kind offer and as soon as I am able to fix a definite date for holding the Exhibition I will communicate with you at once.

Thanking you very heartily for the trouble you took in explaining the articles to my representative, and for your kindness in offering to loan them to us.

I am,

Yours very truly,

Dr. Burrows,
Lindsay,
Ontario.

4th. April 1906.

Dear Sir,

I desire to thank you for your kind letter of the 22nd. ult. and for sending me the prints of your North American Indian man's outfit which are most interesting. I hope, when the Historical Medical Exhibition takes place, you will see your way to loan me the outfit for display. I shall be pleased to pay cost of transit, and also to insure it while in my possession for any reasonable value you may place upon it.

Again thanking you for your kind interest and for the trouble you have taken in the matter,

I am,

Yours very truly,

P.S. I am returning prints herewith.

Dear Sir

I am very popularly
your publication and find them
very interesting. I have a complete
North American Indian
manuscript I do not wish to
part with it. I have it why I
write you but I thought perhaps
in your ancient and aboriginal
manuscripts you would like to
copy the manuscript I will be in
London in a few days enroute to the
International Indian Congress to meet
at London April 16th to 21st at home here to
see I go on the "Cedric" your very truly
Robert Burrows.

Dear Sir,

I desire to thank you for so kindly sending me the three interesting books on loan for display at the forthcoming Historical Medical Exhibition. As the exhibition will not be opened yet for some months I shall be glad if you will kindly let me know if you would like the books returned to you now or if I should retain them until the exhibition takes place.

Again thanking you for your kindness,

I am,

Yours very truly,

Dear Sir,

In reply to your communication on the subject of the exhibition of Medical Archaeology which you are organising, I regret that I have nothing of interest that I could contribute, except an original letter of Edward Jenner (the discoverer of vaccination). If you cannot find anything more effective as an epistolary exhibit of Jenner you are quite welcome to it, but I apprehend there must be many other letters of his available, the contents of which are more interesting than those of mine. There was a rather good collection of Jenner

relics some years ago in this
County, but I have heard nothing
about it for some time & may it was
sent away to London or somewhere
else. It is probably I could learn what
had become of it if you would care
to know. Under any circumstances,
I think that Jenner's name should
in some way be represented in
our historical Exhibition of Medicine.

Yours faithfully
Francis Bond

Dear Sir,

I desire to thank you for your kind letter of the 1st. inst and your offer to loan me the autograph letter of Edward Jenner. I shall be most pleased to have this interesting relic for display at the Historical Medical Exhibition when it takes place. I hope to have a thoroughly representative collection of objects connected with the discoverer of vaccination, and if you could furnish me with any information respecting the whereabouts of the collection of Jenner relics which you allude to I shall be very grateful.

Again thanking you for the trouble you have taken, and for your kind interest in the matter,

I am,

Yours very truly,

Dr Bond,
Gloucester

Henry S. Wellcome Esq.

Dear Sir

The book, title of which I have given on enclosed card, has been in my possession for some years and I would be glad to dispose of it to some one of antiquarian taste who could make better use of it than can I.

It is in fair condition and can be read easily and its exposition of the cause and treatment of diseases (alphabetically arranged) in the time of Henry VIII is extremely interesting.

If desired I would gladly send it for exhibition and would like to have protection by insurance for nominal amount
Yours sincerely C. W. Belton

May 30, 1906.

Dear Sir,

I desire to thank you for your kind letter of the 8th inst., which has been brought before me on my return from abroad. I shall be very pleased to have the loan of your old manuscript book of recipes for the Historical Medical Exhibition, when it takes place.

If your friend, who has the collection of engravings of portraits of eminent medical men, would be so good as to furnish me with a list I shall be most pleased to consider his kind offer, and will communicate with him if you will kindly let me have his name and address.

With respect to your kind offer of assistance, my staff in connection with the organizing of the Exhibition is, at present, complete, but should there be a vacancy at any future time I may communicate with you again.

I am,

Yours very truly,

Dr. S. Haly,
130, Derby Road,
Seven Kings.

1228

8th. May 1908.

Dear Sir,

In reply to your letter of the 2nd. inst addressed to Mr H.S Welleome, I am sure he will be most pleased to accept your kind offer of the loan of the old manuscript book of recipes for the forthcoming Historical Medical Exhibition. Also the series of engravings of eminent Medical men would be of great interest, and I should be pleased if your friend would kindly send me a list of the same. On Mr Welleome's return I will bring your letter before him, and will communicate with you again.

Yours very truly,

Dr E. Baly

and Wm. W. Hall*

R-51.

1228

160 Derby Road
Seven Kings
Essex
May 2nd 1906

Dear Sir

I have an old manuscript
book of recipes which, from the
handwriting, I should judge dated
from the middle of the 17th century.
This I should be pleased to send
up for exhibition if it is any
use to you. A lay friend of
mine has an interesting series
of engravings of portraits of
medical men eminent in their
day which I will ask him
to lend you; of course if they too
are of any use. I suppose you
have no need of any assistance
in the preparations for the
Exhibition? I ask the question
as I am looking out for
something which will add

My private income which has
a good deal diminished the
past year or so & which necessi-
tates my working again. I am
not particularly anxious to go
into practice again if I can get
any other work in which my
medical knowledge would be
useful & ^{from} which I could derive
a small income. The latter &
occupation for my spare time
are what I particularly want to
obtain. The work of arranging &
classifying objects for exhibition
I am well fitted for & it would
be a labour of love for me -
I merely mention this as I know
that friends like yours can
sometimes put a man in the
way of getting what he seeks -
On hearing from you that the
book Myravings would be useful
for the exhibition, I will forward
the book & ask my friend

about the Engravings. Please
accept my apologies for troubling
you about personal matters -

Remain dear Sir

Yours faithfully,
Ernest Baly

HS Wellcome Esq
Snow Hill

(1236)

160 Berby Road
Seven Kings
Essex
May 31st 06

Dear Sir,

I am obliged to you for
your letter of today. My Mrs.
book shall be ready whenever you
want it. My friend's name &
address are as under

S B Beresford Esq
76 Cambridge Rd
Seven Kings
Essex

His collection of prints (about 150
in number) is well worth your
inspection. I shall be glad, if at
any time, you can put me in
the way of getting employment.
I only want a small post to
make up for the deficit in my

private means. Thanking you for
your kind reference to the
matter

I am

Yours very truly

Ernest Baly

Henry S Wellcome Esq

Snow Hill Buildings

I have told Mr Beresford
that you are writing him

(1236)

June 25th, 1908.

Dear Sir,

Dr. Haly, of 183, Derby Road, Seven
Kings, has kindly informed me that you have an
interesting collection of portraits of old medi-
cal men, which you would be willing to loan
for the forthcoming historical medical exhibi-
tion. If not troubling you too much, could you
let me have a list of the names of the doctors
represented, so that I may compare it with the
prints I have?

Thanking you for your kindness,

I am,

Yours very truly,

S. E. Sorenford, Esq.,
78, Cambridge Road,
Seven Kings.

1236

August 29th, 1906.

Dear Sir,

Many thanks for your letter of the 31st ult., and for the additional list of pictures.

I shall be very pleased to have the loan of those which I have marked with blue for the Historical Medical Exhibition, when it takes place.

Thanking you for your kindness, and for the trouble you have taken in the matter,

I am,

Yours very truly,

July 28th, 1908.

Dear Sir,

Please excuse the delay in replying to your letter of the 11th ult., in which you kindly enclose me a list of the portraits of scientific and medical men in your collection, together with a list of medical books.

I have now been able to compare your list with the portraits I have myself, and I shall be pleased to have the loan of the portraits I have marked with a blue cross in your list, when the historical Medical Exhibition takes place.

With respect to the books which you kindly offer to loan us, owing to the demands on space, I find that we shall be obliged to limit the exhibition of books to those printed before 1700.

As soon as the date of the exhibition is definitely fixed, I will duly inform you of the time and place to which the prints should be forwarded.

Again thanking you for your kindness, and for the trouble you have taken in the matter,

I am,

Yours very truly,

S. B. Horsford, Esq.,
Hilford.

Dear Sir,

In reply to your favour
re portraits of "old Medical
men". It will afford me
pleasure to loan such as
you may select for
that purpose.

The list of names &
other information I hope
to let you have next

Monday; they number
about 140.

I am, dear Sir

Yours faithfully

Dear Sir,

I have now the
pleasure of sending a
list of portraits of old
Medical men which I
have in my collection.
About eight or ten
are framed, the
remainder being
mounted.

Should you think

Well I should be
pleased to let you
have the parcel for
perusal in order
that you may
have a better
idea of the list.

I have also sent
a list of Books
that may be
within your idea

of exhibits.

Yours faithfully

S. B. Percusford

THE WELLCOME
PHYSIOLOGICAL
RESEARCH LABORATORIES.

1741
BROCKWELL HALL,
HERNE HILL,
LONDON, S.E.

June 18. 1906.

Dear Mr. Wellcome,

In receipt of your request
for a reference to some notice about
Dr Talbot of Cambridge. I wrote to
a friend in Holland, who originally drew
my attention to the tomb stone. I have
not had a reply till this morning.

In the Pharmacographia of Flückiger-
Hanbury p. 344, 766 there is an
account of Talbot, with reference to his
use of cinchona. The tomb stone, of which
I sent you a photograph, is also figured
in the French and Dutch edition of a
recent book with plates: "Les grandes
cultures du monde".

My friend (Dr. M. Greshoff. of the Colonial
Museum, Haarlem) has offered to write out
an account of Dr Talbot in case the
information in the Pharmacographia is
insufficient. I think Dr Power has this
work in his laboratory.

I am

Yours very truly

George Barger.

June 21st, 1906.

Dear Dr. Barger,

I desire to thank you for the trouble you have taken in furnishing me with the details with respect to Dr. Talbot, of Cambridge. I have been much interested in them.

Again thanking you for the kind interest you have taken in the matter,

I am,

Yours very truly,

Dr. G. Barger,
Brookwell Hall,
Herne Hill.

with a photograph.

BROCKWELL HALL,
HERNE HILL,
LONDON, S.E.

June 7. 1906

Dear Mr Wellcome,

I am sending you
here with a photograph, which possibly
may be of some interest in connexion with
your historico-medical exhibition. It
represents a tablet in the church of
St Andrews the Great, at Cambridge, and
is in memory of a certain Dr Talbor
or Tabor, who died about 1680 and
was one of the first to employ quinine as
a febrifuge. As far as I can make out
from the photograph, the ^{translation of the} ~~same~~ inscription
is somewhat as follows:
"The ^{very honourable} ~~worthy gentleman~~ Sir Robert Talbor or Tabor
"Golden knight (baronet?) and distinguished

THE WELLCOME

.. doctor, sole hammer of fevers, to
.. Charles II and Lewis XIV, the former of Britain
.. the latter of France most serene king,
.. to Louise Maria. Queen of Spain and the Indies,
.. to the most serene Dauphin of France ^{dukes}
.. to many princes and not a few ~~lands~~
.. of minor peoples, as well as to most
.. noble lords.

The rest of the inscription refers to other
members of the Tabor family.

If you care to include the photograph in the
exhibition, please do with it what ever you
think fit.

I remain

Very truly yours

George Barger.

H. S. Wellcome Esq

Snow Hill Buildings E.C.

June 8th, 1906.

June 10th, 1906.

Dear Dr. Barger,

Please accept my cordial thanks for so kindly sending me the photograph of the tablet to the memory of Dr. Fellows in the church of Saint Andrew the Great, at Cambridge.

I should be glad if you could let me know whether it is correct that he was the first to use aniline as a reagent. It seems you mean aniline.

Again thanking you for your kindness in sending me this interesting photograph.

Yours very truly,

Dr. G. Barger,
Brookwell Hall.
