Dear Sir,

I desire to thank you for your kind letter of the 9th inst. and for informing me of the interesting MSS in the British Museum. I hope to have the pleasure of examining it shortly.

Thanks also for forwarding me the address of your brother, and the kind offer of his assistance which I shall be pleased to avail myself of if necessary.

Again thanking you for your kind interest in the matter,

Dear Sir,

When I was in London last week my brother told me of an interesting manuscript he had come across in the British Museum. You will find it in the Sloane M.S.S. No. 153, and it consists of notes of cases by a Dr. Binns with remarks as to treatment and results. The notes are mostly on the backs of letters and some of them on letters received from a Mr. Baildon who was a friend of his. This will explain my brother's interest in the matter.

Should you wish to communicate with my brother his address is 5, Stone Buildings, Lincoln's Inn. Mr. W. Paley Baildon. I am sure he will assist you in any way he can.

Yours faithfully,

"Dr Baillon expressed surprise at receiving no reply
to his offer to loan a book and instrument to Mr Wellcome, this
reply was written in January almost by return in reply to Mr W's
letter. He said he thought the exhibit must have fallen through."

Dear Sir,

I learnt quite recently from my representative, Mr T. H. Moore, that you did not receive a reply to your kind offer which you made on the 21st December 1903, to loan me an old medical dictionary and some old surgical instruments.

I find your letter was duly acknowledged, but I am afraid the reply must have miscarried in the post. I trust you will accept my apology for this seeming discourtesy, as I shall be most pleased to have the loan of the interesting articles. When the date of the exhibition is finally fixed, notice shall be sent you of the time and place to which the articles should be delivered.

Dear Sir,

I have your circular in connection with the Historical Exhibition. You have already the particulars of the only items which are in my possession which may be of interest. However the other day I purchased a small book entitled 'Accademical Discourses.

Upon several Choric and Pleasant Subjects.
Written Originally in Italian by the
Learned and Famous
Loredano

Englished by J. B. Gent.

London 1664.

It contains a curious chapter on
'Wherefore Physicians affect to Wear
great Beards'

The J. B. Gent. is probably the
Joshua Baildon who published a
translation of The Rarities of the World
from the Spanish of Don Petrus Messie

which was published in London
in 1651.

This is also a curious book &
contains a lot of information. I give
you the headings of 2 or 3 of the chapters.
Chap. XXVI. Of some properties of the viper,
and how the flesh of it may be safely
eaten.

Chap. XXVII. Of the admirable property of
a little beast, whose biting is cured by
the sound of musick; and also of some
other infirmities that are cured by the
same means.

Chap. XXVIII. Of a strange medicine where-
-with Faustus was cured of dishonest
love. And of divers other remedies
against that passion.

If you care to see these books I will
send them up to you with pleasure
either for making extracts from them
or for the Exhibition if you think
them of sufficient interest.

As I said in my previous letter I am
very much interested & will help in any
way I can.

Yours faithfully

31st May 1912.

Dear Sir,

I understand that you had a conversation respecting the forth-coming Historical Medical Exhibition with a member of my staff at the recent Photographic Exhibition, and that you were somewhat puzzled why I should have sent you a circular asking for particulars of a promised loan. The reason was as follows: I had a letter from you dated 15th Jan. 1904, when I first projected the Historical Medical Exhibition, in which you state, "I have one or two things which might possibly be of interest to you for the exhibition to which you refer. As I was the organiser of probably the largest and most complete historical exhibition ever got together in connection with photography I might possibly be able to assist you in suggesting other sources for exhibits."

I replied to you on 18th Jan. of the same year thanking you for your kind offer of assistance and asking you for particulars of any objects you could loan, but apparently received no reply, but your name was entered on our register. Should you still be able to assist me in any way in obtaining photos of interesting objects to exhibit in the Historical Photographic Section I should greatly appreciate your kindness.

Dear Sir,

Thank you very heartily for your kind offer of assistance in connection with my proposed historical medical exhibition. At your convenience I shall be glad to have particulars of any exhibits which you can loan, particularly of anything connected with the early history of photography.

By the word "Private" I meant to convey that I did not wish the letter in question published as from me, but if you can see your way to make reference in the columns of your valuable journal to the proposed exhibition, I shall esteem it a favour.

Dear Sir,

LANE
In reply to your letter of the 13th. January I have one or two things which might possibly be of interest to you for the exhibition to which you refer. As I was the organiser of probably the largest and most complete historical exhibition ever got together in connection with photography I might possibly be able to assist you in suggesting other sources for exhibits possibly unknown to you and if I can be of any service (without of course entrenching too much upon my time) I should be very pleased to give you any information in my power.

The exhibition seems to be one calculated to be of great interest and anything that the columns of "Photography" can do to facilitate it will be done.

I do not know, as your letter is marked "private," whether you wish any statement as to the exhibition to be made or not. Perhaps you will let me know on this subject.

I am,

Yours faithfully.

Dear Sir Thomas,

Very many thanks for your kind offer to loan me the book of pictorial chemical formulae that belonged to John Elickmann. It will form a most interesting object for display at the forthcoming historical medical exhibition.

As soon as the date is definitely fixed, you will be duly advised of the time and place to which this book should be delivered

Again thanking you,

I am,

Yours very truly,

Sir Thos. Lauder Brunton, LL.D., M.D.,

My dear friend,
I have just received your letter of the 10th inst. and
am very glad to hear from you. I am
very sorry to hear that you are
ill, but I hope you will soon be
able to resume your usual work.
I am, dear friend,
Very truly,
Your friend,

Dear Sir;

Thanks very much for visiting
last 4th
with my son & some Exhibition. I
Can lunch you

1. John Hunter. by Sir John Reynolds
approved by W. Sharp. 1st Jan 1788
but I don't think it is very rare.

2 "Systema Medicinale a Compleat
System of Physic Theoretical and
Practical by Wm Salmon Jan
24. 1686.

also

a system of medicine by
Boyle of a much earlier
date, but I cannot lay my
hand out at present, but
will find it -

I have no old instruments
nor do I know of any. I saw
plenty when I viewed the
in Pompeii museum in Naples.
Many having been brought out as
novelties during the last few
years.

If what I have said of use
to you let me know. I am
as much under an obligation
to you from as there is to

me & more so - you bring things
before us in an unobtrusive
way & keep us up to the times -
I have used your preparations
ever since your travels from
visited in when in practice
in Chatham - In any way
I can help you I shall be
pleased I have plenty of
time on hand as I now
only work for amusement -
When I saw Mr. Nelson I
told him that you were not
well represented in the far
East. I could have done
some work for you out

in the shape of a Taper

Yours sincerely

269 THE PLAGUE IN THE SIXTEENTH CENTURY.—A Very Important and Interesting Collection of Papers of the Elizabethan Period, consisting of Receipts, chiefly for Ailments and Diseases of the Human Body, including many Papers referring to the Plague, bound in 1 vol, sm. 4to, half calf, £6 15s

These papers, though by different hands, were all written in the sixteenth century. The Plague was such a fearsome scourge, and occupied so much of the attention of the authorities of the day, that a volume like this, throwing much light on the subject, is of great importance. The contents of the volume cannot be adequately described here, but the following heads will give some idea of its character: I. AN ORIGINAL AUTOGRAPH LETTER FROM WILLIAM PITT to his Father at Blandford, referring to the Plague. II. A paper containing Directions for the Plague, subscribed "FFOR MY LADIE PITTE." III. A Medicine for the Pestylence that was taught Kinge Henry the VIth by his Physician. IV. Dr. Burges' Water for the Plague. V. Medicines for the Plague from Lady Coston. And many other medicines for the Plague.

Among the other contents are: I. A BRIEF TREATISE TOUCHINGE THE PRESERVATION OF THE EYE-SIGHT, BY WALTER BARLYE, 15 pages, preceded by a letter written by the author, dated 1586. II. A TREATISE ON SHORT AND DIFFICULT BREATHING, BY RICHARD BLUNDELL, 15 pages, preceded by a letter written by the author. And many very curious recipes, such as—To Cause Marvelous Dreames; For to See Wilde Beastes in a Dreame; To Make Women's Milke Increase; Water Imperiall; Biting of Beastes; Gascoigne's Cordiall Powder; For Deafnes; The Yeallowes; For an Ague; To make a Candell that cannot be Put Out; To make Hennes Laye Egges all the Winter, &c., &c.

Heires females—The Judges' Opinion in the Earl of Oxford's Case—The Privileges of Barons as well Spiritual as Temporal, MANUSCRIPTS *on paper* (in all 221 ll.), *neatly written in various hands*, in 1 vol, calf, folio, £1 16s SÆC. XVII.

278 SOVRANI D'EUROPA.—Breve Trattato delle Famiglie de' Principi Sovrani d'Europa, MANUSCRIPT *on paper* (268 ll.), *neatly written*, vellum, sm. 4to, 7s 6d SÆC. XVIII.

279 TASSONI (Aless.) La Secchia Rapita, Poema Eroicomico del Bisquadro Accademico Umorista, MANUSCRIPT *on paper* (195 ll.), *neatly written*, vellum, sm. 4to, 8s 6d SÆC. XVIII.

280 TEMPO (Antonio de) Incipit Suma Artis rithmi vulgaris dictaminis composita ab Antonio de Tempo inclite Paduano año dñi MCCCXXXII. indictione quintadecim, MANUSCRIPT *on paper* (20 ll.), *written in neat small characters, double columns, with rubrics*, SÆC. XVI.—Modo Novo e Sicuro per difendersi dalla Peste dedicato al Doge di Venezia, MANUSCRIPT *on paper* (47 ll.), *neatly written*, SÆC. XVI.—Sonetti (14) del Co. Gio della Mirandola (3 ll.), &c., in 1 vol., vellum, folio, 12s 6d

281 THOMAS de Veritatibus cum aliis Parvis Sevitiis de Creatione Mundi, cum Tractatu Foundationis Religionis atque aliis, MANUSCRIPT ON VELLUM (100 ll., 6½ by 4½ in.), *written in small gothic letters, much contracted, long lines, 34 to a full page, rubricated in red and blue, modern russet gilt*, SÆC. XIV.

Dear Sir,

I beg to thank you for your letter of the 28th inst, enclosing a suggestion in regard to the Medical Diary for 1905. This will receive consideration in due course.

I also thank you for your kind offer to loan the work "A History of the Craft of Surgery" published by Cassell & Co, for inclusion in my Historical Medical Exhibition.

I shall be very pleased to receive this, and will advise you in due course of the time and place to which it should be delivered.

I am,

Yours very truly,

Dear Sir,

Very many thanks
for your kindness in forwarding
me your diary. In the enclosed
I have ventured to make a
suggestion which would increase
the usefulness of the diary, to
me personally. I am not
voicing the opinion of my
brother-officers as I am the
only one of the Corps here &
so cannot know what others might like.

How very much wish I
could help you in your
forthcoming most interesting
Exhibition. I have only
A History of the Craft of
Surgery, published some
years since by Cassell &
G. Lamafraid This would
be of no service to you but
should it be, I would most
willingly forward it to you

Yours faithfully
J. Rutherford Major
Ramsay.
