ANNUAL REPORT  
OF THE  
**Medical Officer of Health**  
FOR THE  
ROMFORD URBAN DISTRICT  
For the Year 1906.

---

---

ROMFORD:

WILSON AND WHITWORTH LTD., PRINTERS, HIGH STREET.

# ANNUAL REPORT.

---

*To the Romford Urban District Council.*

GENTLEMEN,

I beg to present my Annual Report on the health of the Romford Urban District, for the year ending December 31st, 1906.

305 deaths were registered as having occurred in the Urban District of Romford, during the year; I do not include amongst this number those deaths which took place amongst the inmates of the Union Workhouse, except the deaths of actual residents of the district who have died there. 98 deaths were registered as having occurred at that Institution, mainly of aged people, most of whom came from those parts of the Romford Union beyond the limits of the Urban District. Eliminating these and including the deaths of town residents removed to the Union Workhouse, the deaths for the district were 207. The population of the district was estimated to be 16,260. The death-rate would

therefore be 12·1 per 1,000 of the population. The number of births registered during the year was 371, the birth-rate being 22·8 per 1,000.

The following table shows the birth-rate and death-rate for the last five years.

ROMFORD.	BIRTH RATE.	DEATH RATE.
1902	29·5	12·2
1903	29·4	11·6
1904	28·4	10·06
1905	27·4	12·4
1906	22·8	12·1

I think the Council will be satisfied that Romford maintained its reputation for a low mortality.

1.—*Summary of Action taken to prevent the spread of Disease.*

No.	Date.	Locality.	Disease.	Source of Disease. Action taken.	Result.
1	Jan. 1	Marks Road	Diphtheria	One case. Origin obscure. Removed to Hospital.	No other case
2	" 5	Hainault Road	Scarlet Fever	One case. Removed.	No other case
3	" 5	Drummond Road	Diphtheria	One case. Isolation at home.	No other case
4	" 5	Medora Road	Diphtheria	Ditto	No other case
5	" 27	Cromer Road	Scarlet Fever	Two cases. Infected by a case out of the district. Removed.	No other case
6	Feb. 20	Victoria Road	Diphtheria	One case. Removed.	No other case
7	" 20	Shakespeare Road	Enteric Fever	One case, contracted away. Removed.	No other case
8	Mar. 15	Victoria Road	Diphtheria	One case.	
9	" 12	Prospect Place	Scarlet Fever	One case. Contracted beyond the district. Removed.	No other case
10	April 2	High Street	Diphtheria	One case. Local insanitary defect. Removed.	No other case
11	" 13	Marks Road	Scarlet Fever	One case. Contracted beyond the district. Removed.	No other case
12	" 26	Marks Road	Diphtheria	One case. Local insanitary condition. Removed.	No other case
13	May 2	Richmond Road	Diphtheria	One case. Removed.	No other case

30	.. 10	Woiseley Road	Scarlet Fever	Ditto	No other case
31	.. 28	Victoria Road	Diphtheria	One case. Local sanitary defect. Removed.	
32	.. 28	Eastern Road	Diphtheria	One case. Origin obscure.	
33	.. 29	South Street	Scarlet Fever	One case. Brought from London.	See No.

No.	Date.	Locality.	Disease.	Source of Disease. Action taken.	Result.
34	Sep. 16	Heath Park	Scarlet Fever	One case. Brought from London.	
35	" 19	London Road	Scarlet Fever	One case. Origin obscure. Removed.	No other case
36	" 21	Albion Place	Diphtheria	Ditto	No other case
37	" 22	Carlisle Road	Scarlet Fever	Three cases in one family. Disease brought by a visitor. Removed.	
38	" 24	Eastern Road	Diphtheria	One case. Contracted in London.	
39	" 25	Mawney Road	Diphtheria	One case. A case in this house two months previously. Drain in bad condition. Remedied.	No other case
40	Oct. 7	S. Andrew's Road	Enteric Fever	One case. Origin obscure. Removed.	No other case
41	" 8	Albert Road	Scarlet Fever	Ditto	No other case
42	" 14	Albert Road	Diphtheria	One case. Contracted beyond the district. Removed.	No other case
43	" 17	London Road	Enteric Fever	Two cases. See No. 46.	
44	" 24	Victoria Road	Scarlet Fever	One case. Removed.	No other case
45	" 28	King Edward Road	Scarlet Fever	Ditto	See No. 47
46	" 29	London Road	Enteric Fever	Nine cases in a row of Cottages where two cases had been previously notified. (No. 43.) Foul refuse pit close to back of dwelling. Report to Council. Removed.	No other case
47	" 31	King Edward Road	Scarlet Fever	One case. Infected by No. 41. Removed.	No other case
48	Nov. 6	George Street	Scarlet Fever	One case. Origin obscure. Removed.	No other case
49	" 9	Carlisle Road	Scarlet Fever	Two cases. Infected by a return case from Hospital. Removed.	No other case

No.	Date.	Locality.	Disease.	Source of Disease. Action taken.	Result.
50	Nov. 22	Albert Road	Enteric Fever	One case. Contracted from home. Removed.	No other case
51	„ 22	Kings Road	Diphtheria	One case. Supposed to have been contracted out of the district.	
52	„ 28	Princes Road	Diphtheria	One case. Infected by No. 51.	
53	„ 29	London Road	Diphtheria	One case. Origin obscure. Re- moved.	No other case
54	Dec. 4	Princes Road	Diphtheria	One case. Presumed to have been infected by No. 51	
55	„ 4	St Andrew's Road	Diphtheria	One case. Origin obscure. Re- moved.	No other case
56	„ 18	Victoria Road	Diphtheria	Ditto	No other case
57	„ 29	Pretoria Road	Enteric Fever	One case. Contracted in London.	No other case

*Small Pox.* No case of this disease occurred in the District during the year.

*Scarlet Fever.* 24 cases of this disease were notified. The disease occurred in isolated instances and nowhere assumed the character of an epidemic. No fatal case.

*Diphtheria.* 26 cases were notified, several associated with defective sanitary conditions which were remedied by the action of the Sanitary Inspector. One death was caused by this disease.

*Enteric Fever.* 17 cases occurred in the District, 5 of which were contracted away from home; 12 occurred in a row of cottages, and was attributed to a very foul collection of sewage within a few yards of the back of the houses.— This was remedied by the Landlord as soon as it was brought to his notice. 3 deaths resulted from this disease.

*Infantile Diarrhoea* caused 18 deaths. This was much above the average. This disease was unusually prevalent in this and other Districts, a circumstance which was probably due to morbid changes taking place in the milk, owing to the exceptionally hot weather.

*Whooping Cough* was prevalent to a considerable extent, and caused 3 deaths.

The death-rate from zymotic disease was 0·2. The death-rate from this class of disease for last five years being, respectively, 0·2, 0·8, 0·2, 0·4, 0·4, 0·2.

The following represent the total number of infectious diseases notified during the year :—

Scarlet Fever	..	..	24
Diphtheria	..	..	26
Enteric Fever	..	..	17
Erysipelas	.	..	19
Puerperal Fever	..	..	2
			<hr/>
Total	..	..	88
			<hr/>

Every case of Infectious Disease notified to me is reported to the Sanitary Inspector, who visits and reports to me in all cases which I do not personally investigate, and who also supplies disinfectants, sees to the patients removal to the Isolation Hospital, when such a course is adopted, and disinfects the premises, bedding, clothing, &c.

At the end of the year the district was in a healthy condition, few cases of Infectious Disease having been notified.

Periodical inspection of the various parts of the district have been made, a few samples of drinking water, whose purity was suspected, have been analysed by me, and when found to be impure the South Essex Company's water has been laid on. Insanitary conditions have where ascertained been remedied by the intervention of the Sanitary Inspector, a detailed report of such instances being incorporated with this report.

The following are instances in which my action as Medical Officer of Health was required, by your instructions, or by request of the Sanitary Inspector.

*Jan. 17th.*—Knighton Road.—Complaint made of house refuse being deposited close to dwelling houses. On inspection it was found that all trace of nuisance had been obliterated.

*Jan. 17th.*—Knighton Road.—Complaint being made that premises and drains were in an insanitary condition, inspection was made, and the same found to be in good condition.

*Feb. 23rd.*—Attwell's Yard.—Inspected two houses and certified them to be unfit for habitation. Notice served by Inspector, and houses satisfactorily repaired.

*Feb. 23rd.*—Well Yard.—Inspected a house here and certified it as unfit for habitation. Notice served by Inspector, and house satisfactorily repaired.

*Feb. 23rd.*—Well Yard.—Inspected a house and certified it to be overcrowded. Notice served by Inspector, and nuisance abated.

*May 7th.*—Bird's Farm, Collier Row.—Inspected a farm house, and certified it as unfit for habitation. Notice served by Inspector, and house closed.

*May 7th.*—Bird's Farm, Collier Row.—Inspected cowsheds, stables, etc. Notice served by Inspector to ventilate, drain, re-pave, and limewash these buildings. Work carried out.

*May 13th.*—London Road.—Bone boiling carried on on premises here, causing a serious nuisance. Notice served by Inspector. Business removed to Rural District, where similar notice was served, and the business was discontinued.

*July 9th.*—Slaughter House, St. Andrew's Road.—Inspected the carcasses of three beasts which had been slaughtered. One was certified as unfit for food, and this was removed to Mr. Poel's yard for conveyance to a knacker's yard. Licensee was cautioned, no proof being obtained that the carcass was intended for human food.

*July 17th.*—Mowbray's Farm, Prospect Place.—Inspected this house and certified part of it to be in insanitary condition. Notice served by Inspector. Nothing was done here in obedience to notice.

*July 18th.*—White Hart Lane, Collier Row.—Cowsheds inspected and certified to be unfit for use as such. Notice served. Use of cowsheds discontinued, and new buildings now in course of erection.

*July 20th.*—Slaughter House, St. Andrew's Road.—Examined the offal of a beast which had been slaughtered

here. Certified that the beast had suffered from tuberculosis. The carcass was stated to have been taken to a knacker's yard at Bow.

*Sept. 3rd.*—Willow Street.—Houses in this street with an imperfect water supply, the well having dried up during the dry weather. Notices served by Inspector. Wells deepened, and a plentiful supply of water obtained, which, on being analysed by me, was found to be good.

*Nov. 5th.*—Mowbray's Farm, Prospect Place.—This farm house (visited July 17th), was again inspected. Further defects were discovered. Notice again served by Inspector. House closed by owner.

*Nov. 5th.*—Crown Cottages, London Road.—Several inspections of these cottages, where cases of Enteric Fever had occurred. Found a large accumulation of refuse (some faecal) at the rear of the houses. This was carted away and buried, and arrangements made by the landlord for proper disposal of refuse, etc.

*Dec. 4th.*—St. Malo, Junction Road.—Attended with the Inspector when testing the drains here, several cases of sore throat having occurred amongst members of the family. Drains found to be defective. These were re-laid, and the insanitary condition thus remedied.

*Dec. 19th.*—Carcass of a slaughtered pig brought to me by the Inspector for examination, and found to be fit for human consumption.

The Dairies, Bakehouses, Slaughter Houses, and Cowsheds have been periodically inspected. No insanitary conditions have been discovered except one instance of a bakehouse, where coal in considerable quantity was kept in the bakehouse where bread was made. This sanitary defect was pointed out to the occupier and remedied. The lodging houses (two) have been periodically inspected, and at the present time there is nothing insanitary to report as to their condition.

The following is a succinct account of the work done by the Sanitary Inspector, in some of which, where necessary, he has consulted me as to the proceedings connected therewith.

Nuisances abated .. .. .	329
Convictions at Petty Sessions .. .. .	8
Filthy houses cleansed .. .. .	2
Houses disinfected .. .. .	45
Overcrowding abated .. .. .	1
Houses placed in habitable repair .. .. .	3
Houses closed .. .. .	1
Improved water supply .. .. .	1
Wells closed .. .. .	1
Houses connected with sewer .. .. .	4
Privies abolished .. .. .	4
Privies and w.c.'s repaired, &c. . . . .	29
Cisterns cleansed, &c. .. .. .	1
Animals improperly kept .. .. .	5
Water analysed .. .. .	5

Tables of mortality and of sickness, compiled in accordance with the Local Government Board's instructions, are appended to this report.

I have the honour to be, Gentlemen,

Your obedient Servant,

ALFRED WRIGHT,

MARCH 14th, 1907.

*Medical Officer of Health.*
