BOROUGH OF BRENTFORD & CHISWICK

PUBLIC HEALTH DEPARTMENT,

TOWN HALL, CHISWICK,

To the Mayor, Aldermen and Councillors of the  
Borough of Brentford and Chiswick.

LADIES AND GENTLEMEN,

This report as in other war time reports consists entirely of tables indicating the work that has been undertaken without comment or elaboration.

It will be noted that attendances at the Clinics increased but did not reach the pre-war standard with the exception of the Immunisation Clinic (figures on pages 7, 8 & 21)

The general health of the district is indicated by the Tables on pages 3, 4, 5, 16, 19 & 20.

The incidence and distribution of infectious and notifiable diseases is shown on pages 16, 17, 18 & 20 where it will be noted that the cases of Scarlet Fever were moderate in number and there were no fatal cases. Diphtheria, 35 cases, were confined to those who had not been immunised, and there were three fatal cases. Measles was epidemic in April, May, June and July, and there were two fatal cases. Chickenpox took on an epidemic form in November and December. Whooping-Cough was present in moderate numbers through the year, with one death. Mumps was epidemic from February to July. Also, there was considerable increase in Scabies, especially during the colder months of the year.

It is to be regretted that the Infantile Mortality figure (calculated on 53 deaths under 1 year) showed an increase over last year, viz., from 51 to 67. This was caused by the increased number of deaths from Gastro-Enteritis (15) and Pneumonia (9).

There were two Maternal Deaths registered, as against nil in 1940 and 1941.

Tuberculosis continues to be very prevalent, especially between the ages of 15 and 35. The figures for the last two years of new notified cases of all types are: 1941 - 83 cases with 42 deaths, and 1942 - 87 cases with 28 deaths.

It is with very sincere regret that I have to record that our Junior Clerk, James Friar, was killed in action in North Africa on November 15th. He was a Staff Sergeant Pilot, and at one time the youngest member of the R.A.F. with "Wings". As the pilot of a Spitfire he saw considerable operational service over the North Sea and France. He went with the Expeditionary Force to North Africa, where he gave his life for his Country. He was a very bright cheery youth and will always be remembered with honour and affection by his colleagues.

Mr. R. James, the Senior Clerk and Assistant Sanitary Inspector joined the Airborne Section of the R.A.M.C., at the beginning of the year.

I am, Ladies and Gentlemen,

Your obedient Servant,

R.C. LEANING.  
Medical Officer of Health.

GENERAL PROVISION OF HEALTH SERVICES IN THE BOROUGH.

(a) Separation of Civil Ambulance Service from Fire Brigade Control.

The Home Office, Fire Service Department, Circular No.79/1941 laid it down that it would not be possible for the National Fire Service to carry out any ambulance duties as previously carried out by Local Fire Brigades.

The Ministry of Health Circular No.2502 dated 19th November, 1942 drew attention to this fact, and suggested that the Civil Ambulance Service should be attached to the Civil Defence Ambulance depots within the area.

After full consideration of the matter, the Council decided to put such suggestion into operation and that one Civil Ambulance should be stationed at C.D. Ambulance Station No.1 at Brentford and two Civil Ambulances at the C.D. Ambulance Station No.2. in the Chiswick area. They further decided to engage the services of four full time ambulance drivers for this service; and to rely on the Civil Defence personnel to supply attendants and relief drivers when necessary and possible. After the completion of the necessary details of organisation in regard to telephones, housing etc., the actual transfer took place in April, 1942, and the Service came under the control of the Medical Officer of Health.

(b) Work of Civil Ambulances during the year.

Number of public calls dealt with during 1942 = 646  
Number of private calls dealt with during 1942 = 463

HOUSING.

The difficulty experienced by builders in obtaining labour and necessary materials, the usual routine house-to-house inspection in the Borough was suspended.

Housing Act 1936.

The position in regard to the progress of programmes under this Act is exactly the same as that shown for the preceding war years.

Where cases of over-crowding have occurred these have been referred to the Council's special Housing Department and satisfactorily dealt with.
