<i>West</i> „ —Mr. J. P. BARNARD, 251, Commercial-road	

Representative at the Metropolitan Board of Works.

FRANCIS JOHN WOOD, Esq., 1, Nicholas-street.

OFFICERS OF THE VESTRY.

Treasurer of the Vestry.

CHARLES FISHER, Esq., London and Westminster Bank (Eastern Branch), 130, Whitechapel, E.

Clerk to the Vestry.

Mr. MILLNER JUTSUM, Solicitor, 24, Finsbury-pavement, E.C.

Assistant Clerk to the Vestry.

Mr. EDWARD HALL, Vestry Hall, Bancroft-rd.

Second Assistant Clerk to the Vestry.

Mr. ALFRED GREEVES, Vestry Hall, Bancroft-road.

Medical Officer of Health.

Dr. T. TAYLOR, 131a, Mile End-road, and Vestry Hall.

Analyst.

Mr. R. H. HARLAND, Plough Court, 37, Lombard-street, E.C.

Surveyor to the Vestry.

Mr. J. M. KNIGHT, Vestry Hall.
Hours, 11 until 1.

Superintendent of Labour.

Mr. A. BAXTER, Riga Wharf, Emmott-street, and Vestry Stables, Canal-road.

Inspector of Nuisances and Inspector under the Adulteration Act.

Mr. HENRY LESHAW, 19, Cottage Grove, and Vestry Hall. Hours 10 to 11.

Sub-Inspector.

Mr. CHARLES COX, High-street, Woodford, and Vestry Hall. Hours, 9 to 7.

Messenger and Housekeeper—Mr. GILNAGH.
Office, Vestry Hall, Bancroft-road.
Hours, 10 until 4.

Constable.

Mr. JOHN STEVENS, 16, Holford-st., Globe-rd.

REPORT.

The Vestry, in presenting their Report for the year ending Meetings.
25th March, 1886, continue to adopt the same mode as hitherto.
The number of Vestry and Committee Meetings (excluding the
Weekly meetings of the Dusting Committee at the Vestry's
Stables) has been :—

MEETINGS.	YEARS.			
	1882-3.	1883-4.	1884-5.	1885-6.
Vestry	22	22	21	22
Standing Committees	108	100	93	94
Special ,, ...	6	10	10	9
TOTAL	136	132	124	125

The largest attendance at any Vestry Meeting was 61, the smallest 29, and the average about 40.

In addition to the meetings at the Vestry Hall, however, there have been many subjects of more than local interest which have been the subject of conferences with other Boards, and, as will be seen hereafter, the Vestry have appointed delegates to represent their views, and have every reason to believe that the result of such conferences have proved most useful.

The Vestry have to chronicle the death of Mr. Theodore Deaths & Moore, who had been a resident in the Parish and an active Resigna- member of the Vestry for a great number of years. tions.

Messrs. H. E. Swaffer and A. Lloyd, two of the members of the Vestry also sent in their resignations.

During the year Mr. George Dutton, the Treasurer to the Treasurer. Vestry resigned his office, and Mr. Charles Fisher, the Manager of the Eastern Branch of the London and Westminster Bank has been appointed in his stead.

Church- At the meeting of the Vestry on Easter Tuesday, 1885, wardens & Messrs. Alfred Furness and J. D. Kemp were again re-elected Overseers. Churchwardens, and Messrs. C. H. Bardouveau, A. E. Wood, T. Cook and B. Cundick were elected Overseers for the ensuing year.

Parlia- The Parliamentary Committee have again had before them, mentary. reports by the Clerk to the Vestry on nearly 100 Bills and proceedings in Parliament, to all of which they have given serious attention, and, upon the recommendation of the Committee, the Vestry took the steps mentioned in the following table with respect to the several proceedings therein mentioned.

Session	TITLE OF BILL.	NATURE OF STEPS TAKEN.
1885	Water Companies (Regulation of Powers)	Petition in favor.
	Metropolis Management Amendment ..	„ to amend.
	Hyde Park Corner	„ against.
	Corporation of London (Tower Bridge) ..	„ in favor, to House of Lords.
1886	Hampstead Heath Enlargement	„ against
	Metropolitan Board of Works (Water Supply)	„ in favor of part.
	Metropolitan Board of Works (Stacking of Firewood)	„ against.
	Metropolitan Board of Works (Theatres, &c.)	„ to amend to include all public buildings.
	Sale of Intoxicating Liquors on Sunday	Petition against.
	Employers' Liability Act (1880) Amend- ment (No. 2)	„ „
	Metropolitan Street Improvement Act, 1877, Amendment	„ „
	Beer Adulteration	„ in favor.

In addition to those above mentioned attention was given to several other Bills mentioned in the previous annual report and which had not been wholly completed.

Water. The question has at last been settled as to what is the Compa- "annual value" upon which Water Companies are entitled to nies. base their charge, and it has been enacted that the new Rateable Value as it appears in the Valuation List is henceforth to be taken as such "annual value." This is one step in the right direction.

Corpratn. The Vestry find the greatest pleasure in being able to report of London that the Corporation of London succeeded in getting Parliamen- Tower tary sanction to enable them to construct a Bridge over the Thames (Bridge.) at the Tower, and have since then taken such active steps in relation to the matter, that there is every prospect of the work being completed within the time (4 years) allowed by the Act.

Metropo- Among the Bills was one for amending the Metropolis Man- litan Man- agement Acts and increasing the number of representatives at agement the Metropolitan Board of Works of certain of the Parishes in Amend- the Metropolis. The Vestry were of opinion that, before ment.

proceeding to legislate on the subject, some enquiry should be made and principle adopted applicable to the whole Metropolis, so that no Parish should be without at least two representatives.

The petition of the Vestry was to that effect but ultimately the bill was passed giving increased representation to several parishes besides those originally included therein.

The question of cleansing the Hamlet, and disposing of the refuse has received the most careful consideration, and the Vestry have taken steps which they hope will for some time at all events, enable them to deal with it. Dusting & Cleansing.

In the first place they have again hired, as yearly tenants, at £90 per annum rent, the wharf adjoining Devon Wharf in Emmott Street.

In the next place they have purchased for £1000 about 20 acres of land at Edmonton, abutting upon the Lea Navigation, and have had a portion of it embanked so that the flood water is kept out and the rubbish enabled to be burnt.

The Vestry, therefore, are now in a position to put the refuse into barges from the Wharf and take it to Edmonton direct.

This mode of course will involve considerable expense but looking at almost entire impossibility of disposing of the rubbish near the Hamlet, it appeared the most economical.

The Vestry borrowed the amount required to purchase the land.

A portion of the land held of the Carpenters Co. having been filled in, an arrangement has been come to for giving up that portion to the Company at a proportionate reduction of the rent.

The following statement gives the names of the persons who have supplied the corn and fodder for the Vestry's horses and the prices paid:— Keep of
Horses.

In January last the Vestry received a notice from the Commercial Gas Co. stating that after the 1st April, the price for gas supplied to the public lamps would be reduced from £3 : 16 : 0 to £3 : 12 : 6 per lamp per annum. Lighting
the Public
Lamps.

Paving
Streets.

The Tender of Messrs. Mowlem & Co., for executing the paving works in Devonshire-street, and White Horse-lane, was accepted by the Vestry.

The Vestry are pleased to say that they were able to obtain the loan of £6,500 necessary for executing the works, at $3\frac{1}{2}$ per cent. interest.

The Vestry have resolved to re-lay the Asphalte Paving, in the Mile End-road, between Stepney-green and Jubilee-street, and have also in contemplation the paving of Globe-road, and Ben Jonson-road.

Claims for
compensa-
tion for
Accidents.

The Claims for compensations have not been so numerous. The fact that the Vestry were not prepared to pay compensation without careful investigation, and proof of their liability has no doubt in some measure tended to check the number of applications, which followed on the result of Blackmore's case being first known.

In one case the party actually commenced proceedings, no doubt in the hope that the Vestry would try and make terms. The non-liability of the Vestry, however, appeared so clear that they determined to go to trial, and after the lapse of some time the action was dismissed for want of prosecution. As may be guessed the plaintiff possessed nothing which the Vestry could take to repay the expenses they had been put to.

In one case only did the Vestry pay any compensation, and then only the sum of £3.

Trafalgar-
square.

As mentioned in the last report the Metropolitan Public Garden and Boulevard Association, applied to the Vestry to be allowed to lay out Trafalgar-square, and the request was acceded to.

The Vestry then proceeded to make bye-laws for regulating the mode of user of the Square, and the same were confirmed by the Home Secretary, as provided by statute.

Street
Improve-
ments.

The Improvement of Sidney-street, Harford-street, Globe-road, and Bull-lane, have not been lost sight of. Application has been made to the Metropolitan Board of Works to widen Globe-road, as a Metropolitan Improvement.

Tram-
ways.

During the year the Tramway lines generally throughout the Hamlet have been allowed to get into a bad state of repair, and the hard winter has rendered their condition worse than ever.

Repeated communications having been addressed to the Company without any effect, the Vestry have now served a formal notice requiring the immediate repair of all the lines and unless the works are at once proceeded with the Vestry will certainly take the most stringent proceedings against the Company, which they legally can do.

Whilst the Tramway is undoubtedly a great boon to the larger part of the community, it cannot be denied that, even if

kept in good repair, it necessarily causes harm to others, and, therefore, when the Company ignore what amount almost to friendly notices they must not complain if, when they compel the Vestry to act strictly, they find that it is an expensive operation.

During the year Orders have been received from the Metropolitan Board of Works directing that :—

Woolmore Street be re-named Baythorne Street, and Ashcroft Road re-numbered. Renaming
& Renum-
bering of
Streets.

Applications have also been made to the Metropolitan Board of Works to make Orders that :—

Blenheim Terrace	}	be re-named Morgan Street.
Rayment Road		
Trinity Terrace		
and Morgan Street		
Chapel Terrace	}	,, Upper Montague Street.
and Upper Montague Street...		

and that

Cantrell Road	}	be severally re-numbered.
Edinburgh Road		
Bale Street		
Harford Street		
Ely Terrace		
and Garden Street		

The Tender of Mr. Finch, to execute the Jobbing Sewers work was again accepted. Sanitary.
Jobbing
Sewers

The Sewer from Greenfield-street to Plummers-row has been re-constructed. Contract.
Recon-
struction
of Sewers.

The Vestry are pleased to be able to report that the clause in the Act of Parliament enabling the owner in certain cases where proceedings under the Artizans' and Labourers' Dwellings Act, 1868, had been taken to compel the local authority to purchase the property, has recently been repealed and the Vestry at once took advantage of the fact. Artizans'
and
Laborers'
Dwellings
Act.

Proceedings under the Act named have been taken in respect of the following properties :—

128, Carr Street.
Norfolk House, Stepney Green.
5, 7 and 7½, Yalford Street.
13, Romford Street.
26 and 28 St. Dunstan's Road.
46 and 54, Wilson Street.
23, 24, 25, 30, 31, 32 and 33, South Grove.
2 and 3, Salmen Street.
40, Maplin Street.
8, Alma Road.
39, Wentworth Road.
23, 25, 26, 27, 28, 29 and 30, Old Church Road.

In all the cases, except that of Norfolk House, steps were taken by the owners to comply with the Orders.

In the case of Norfolk House the owner has appealed to the Court of Quarter Sessions and an opportunity will now be afforded of seeing the delay which can be caused by a litigious person unless some terms be come to.

Government
Enquiry.

From time to time during the year 1885 the local officers of the Mansion House Council on the Dwellings of the Poor lodged a number of complaints with regard to alleged sanitary defects existing on various premises in the Hamlet.

The complaints were investigated and such proceedings as the Vestry were advised they could legally and properly adopt were taken.

These did not satisfy the Council, who ultimately lodged complaints with the Local Government Board, and in the result the Home Secretary appointed Mr. D. Cubitt Nichols as an Inspector, to hold an enquiry into the immediate Sanitary requirements of the Hamlet.

The Home Secretary invited the Vestry to appoint two gentlemen to sit with the Inspector on the enquiry and the Vestry accordingly appointed Messrs. F. J. Wood and H. Cushen, but owing to illness the former was unfortunately unable to be present.

The enquiry was opened on the 11th of January, 1886. Several days were taken by the Inspector and Mr. Cushen, accompanied by the Medical Officer and local Hon. Sec. of the Council, and by the Surveyor, the Acting Medical Officer of Health, the Inspector of Nuisances and the Chairman of the Sanitary Committee of the Vestry, in inspecting the properties complained of.

On the 18th January there was a public sitting held at the Vestry Hall, at which Mr. Thomas, (Barrister), appeared for the Mansion House Council, and Mr. Jutsum, the Clerk to the Vestry, for the Vestry, and several witnesses were examined, after which the enquiry closed.

In March, 1886, Mr. D. Cubitt Nichols made his report, which is rather a lengthy document, and the Vestry have not considered it necessary to cause it to be printed, as a copy can be obtained, as a Parliamentary paper, from the Queen's Printers, at the small cost of 1½d.

It may be well, however, to say that Mr. Cubitt Nichols states that the total number of houses complained of was 508 and that the alleged defects consisted of:—

Water-closets without water supply	367
Water-closets with defective pans, &c.	72
Dust-bins wanting or defective	365
Defective cisterns	32
Defective gullies or sinks	168
Defective drains	61
Defective paving to yards	174

After stating the contentions urged in respect thereof by the several parties, Mr. Cubitt Nichols gives his own views on the several matters, which may be shortly summarised thus:—

1. That all the closets in the Hamlet are water-closets and not privies, and that they should be provided with a suitable water supply.
2. That moveable receptacles for dust should be provided, but, failing to get this done, the Vestry should insist on dustbins with covers being provided.
3. That the regulations made by the Vestry under the Sanitary Act of 1866, with regard to houses let in lodgings or to members of more than one family, and approved by the Local Government Board, should be put in force in a greater number of cases.
4. That although the Artizans' and Labourers' Dwelling Act, 1868, had been put in force to some extent, further action thereunder ought to be taken in several streets mentioned.
5. That the staff of inspectors should be increased.
6. That additional powers are necessary in order to regulate the building of houses of the type of Norfolk House, Stepney-green.
7. That the death rate as given by the Medical Officer to the Vestry, showed that the death rate when compared with the rest of the Metropolis was low considering the inhabitants are generally of the poorer classes, and that the death rate as contended for on behalf of the Mansion House Council shewed a still more favourable state of affairs.

And speaking generally Mr. Cubitt Nichols reports "Although I think it most desirable some additional sanitary precautions should be adopted and a better supervision exercised, I do not consider the Hamlet to be in a bad sanitary condition, as the total number of houses reported by the Mansion House Council is but 508 or about 5 per cent. of the houses occupied either as lodging or tenement houses (10,000) and many of the defects complained of are not of a serious character."

The Vestry consider that the Report of Mr. Cubitt Nichols, completely exonerates them from the charges of serious dereliction of duty which had been so frequently made against them.

The Vestry had for some time previous to the enquiry been considering how certain of the sanitary works in the Hamlet might be better carried out and had referred the subject to a Committee.

Carrying
out Sanitary
Work.

One of the evils existing is the inability of the Vestry to compel any receptacle for dust except an ashpit to be provided.

The Vestry are advised that it is better in a sanitary point of view not to have ashpits but some moveable receptacle.

They have accordingly issued circulars advising the use of galvanized iron pails. It will be observed that Mr. Cubitt Nichols concurs in this view.

The Vestry have also determined that in certain of the poorer districts the dust shall be removed by men who are paid by the day, so that there shall not be any incentive for them to neglect their work.

Assistant
Inspector
of Nuis-
ances.

The Vestry have also appointed an assistant inspector of nuisances so as to enable a more efficient supervision of the various works.

Medical
Officer of
Health.

For some considerable time Dr. Corner, the Medical Officer of Health, has suffered much from ill health, and the Vestry have felt bound to address communications to him, and on the 17th March, 1886, Dr. Corner sent in his resignation as Medical Officer of Health and Public Analyst, and the same was accepted.

It has been referred to the sanitary committee to consider as to the duties and emoluments of the office and to bring up their report thereon along with that on the reference as to the sanitary requirements of the Hamlet.

Superan-
nuation of
Dr. Cor-
ner.

It has also been referred to them to consider and report upon the amount of Superannuation which shall be awarded to Dr. Corner, after his lengthy services.

Acting
Medical
Officer.

Dr. Arthur Cæsar, has been appointed Acting Medical Officer pending the consideration of the matter.

Sewer
Ventila-
tors.

The Apparatus patented by Mr. J. M. Knight, the Vestry's Surveyor, for disinfecting the vapours arising from sewer ventilators, has continued to work satisfactorily, and several of them have been fixed in the Hamlet.

Confer-
ences.

As has been before stated, the Vestry have from time to time appointed delegates to confer with delegates from other Boards, on subjects of more than mere local interest.

This course enabled an interchange of views and the result has been of great advantage in securing concerted action.

The following statement gives the name of the Board convening the conference, the subject matter of consideration, and the names of the delegates appointed by the Vestry to attend:—

Board convening Conference.	Subject Matter.	Names of Delegates appointed by by Vestry.
St. George, Hanover Square	Condition of the Thames	Messrs. J. D. Kemp, A. E. Wood, & F. J. Wood, with Mr. J. M. Knight, the Surveyor.
St. James, Westminster	London School Board	Messrs. H. Cushen, O. W. Peacock & G. Coker.
St. Mary Abbots, Kensington	Use of Steam Rollers	Messrs. A. Furness, J. Ginn, and J. M. Knight, Surveyor.
St. Mary, Newington	Obstructions by costermongers, and duties of police with respect there- to	Messrs. B. Cundick, J. Ginn, A. Furness, W. Parfett and J. Loftus.
St. Pancras.....	Municipal Govern- ment of London	Messrs. A. Furness, H. Cushen and J. D. Kemp.
Westminster	Ditto.....	Messrs. A. Furness, H. Cushen, F. J. Wood and J. D. Kemp.

The Expense of the annual election of Vestrymen and Auditors, Financial.
in 1885, was £25 17s. od. Expenses
of Election
of Vestry-
men.

The precept of the Returning Officer for the proportion payable by this Hamlet, of the expenses of the election of the School Board for London, in November 1885, amounted to £121 17s. 1d. Expenses
of School
Board
Election.

The Vestry agreed with other parishes that the expenses were very great, and that there ought to be some detailed statement given of how the expenses were made up.

Communications have been addressed to the Education Department, asking for the details, but up to the present they are declined to be given.

The grant on account of disturnpiked roads has again been received. Disturn-
piked
Road.

The poor rate shows a slight reduction having been 2s. 11d. in the £ as against 3s. 1d. last year. PoorRate.

The Vestry's Calls for General, Lighting and Sewers Rates has been as follows:— General,
Lighting,
and
Sewers'
Rates.

For General Rate, equal to 2s. 1½d. in the £.

Lighting	„	„	3d.	„
Sewers	„	„	1d.	„

As has been frequently before pointed out, the School Board Precept has to be paid out of the General Rate, and so also has a part of the precept of the Metropolitan Board of Works.

The School Board precept represents a rate equal to 9½d. in the £

And the portion of the Metropolitan Board precept represents a rate of rather more than ½d. „

Making in all ... 10d. „

so that the amount of the General Rate would be 1s. 3½d. in the £, and the total rates of the Vestry for its own purposes 1s. 7½d. in the £.

This is the same as the expenditure of the previous year, and compares favourably with former years, as appears by the following Table:—

The Amount required by the Vestry } in £.			
1875	{ for its own purposes was equal to }		1s. 8d.
1876	ditto	ditto	1s. 8d.
1877	ditto	ditto	1s. 8d.
1878	ditto	ditto	1s. 8½d.
1879	ditto	ditto	1s. 8½d.
1880	ditto	ditto	1s. 9d.
1881	ditto	ditto	1s. 8d.
1882	ditto	ditto	1s. 7½d.
1883	ditto	ditto	1s. 5½d.
1884	ditto	ditto	1s. 8d.
1885	ditto	ditto	1s. 7½d.
1886	ditto	ditto	1s. 7½d.

School Board. The Vestry hope that the newly constituted School Board for London will exercise a greater economy than its predecessors did.

A Statement of the various School Board Precepts are appended as usual. The Precept for 1886-7, has not yet been received.

Metropolitan Board Precepts. A Statement of the Precepts of the Metropolitan Board of Works, are appended. The Precept for the year 1886-7, has not yet been received.

Loans. The Vestry has contracted two Loans during the year, both of the amounts having been advanced by the Metropolitan Board of Works, viz. :—£6,500 at £3½ per cent., for the expenses of Paving Works in Devonshire-street, and White Horse-lane, and £1,000 at £3½ per cent. for purchase of Land at Edmonton.

Assessment Committee Appeals. Connected with finance may properly be stated that the Vestry have given their sanction to the Assessment Committee to appear as Respondents in three appeals against the Valuation List, which have been lodged by (1) Messrs. Hollington; (2) The East London Water Works Company; (3) The East London Railway Company. The appeal of the Water Works Company is by far the most important as, if their contention be correct, their assessment will be reduced by over half their present one.

Contracts. A list of the formal contracts sealed during the year will be found set out at the end of the audited accounts.

Annual Accounts. The Annual Accounts of the Vestry were duly audited, found correct, and allowed by the Auditors, and are printed and published with this Report.

Auditors' Fees. The work attending the audit has now become so heavy that upon the application of the Auditors, the Vestry felt justified in allowing them £1 1s. od. each as some remuneration for their services.

Officers' Reports. The Reports of the several Officers of the Board are appended, from which fuller details of several of the matters hereinbefore referred to may be gathered.

(By Order),

MILLNER JUTSUM,

Clerk to the Vestry.

VESTRY HALL,

BANCROFT ROAD,

MILE END, E.

June, 1886.

SURVEYOR'S DEPARTMENT.

REPORT AND ACCOUNTS

OF THE

SURVEYOR TO THE VESTRY,

FOR THE YEAR ENDING MARCH 25TH, 1886.

LONDON :

PRINTED BY PENNY & HULL, LEMAN STREET, WHITECHAPEL, E.

1886.

REPORT.

To the Vestry of the Hamlet of Mile End Old Town.

GENTLEMEN,

I beg again to lay before you a summary of the various works executed under the direction of my department during the year, and must once more express a regret that they are not of greater extent and importance, the funds at your disposal for paving being insufficient for the repairs necessitated by the ordinary traffic of the district, but I trust that during the coming year such financial arrangements may be made as will permit considerable work to be undertaken. The following Table shews the quantity of work done, the cost of which was £647 19s. 5d. for labor, and £800 8s. 3d. for material.

New Paving, squared and laid	10,394	ft. sup.
Old do. taken up and relaid	37,309	" "
Ditto, redressed and relaid	658	" "
New Pitching laid	246	yds. "
Old Pitching relaid	2,573	" "
New Curb laid	267	ft. run.
Old Curb relaid	5,531	" "
Ditto, redressed and relaid	535	" "
Old Channel relaid	4,228	" "
New Tees Scoræ Brick Channel laid	5,778	" "

ROAD REPAIRS.

The following table will shew the quantity of material used on the various roads; this tabular statement will I think be deemed satisfactory, as shewing that the cost has not much increased beyond that of last year; it is much below the year 1884.

of water	of water	of water.....
£1122 2 10	£1098 18 3	£1042 8 0

REMOVAL OF DUST.

The quantity of refuse collected from houses by your carts and men during the year was 14,986 loads, being 1,942 more than the year 1885.

The following Table shews the cost of this work:

1884.	1885.	1886.
£ s. d.	£ s. d.	£ s. d.
Wages of Dust- } men } 553 11 7	Wages of } Dustmen .. } 645 13 0	Wages of Dust- } men } 695 4 5
Keep of horses, } =2930 working } 882 1 0 days	Keep of horses } =3396 work- } 1011 14 6 ing days.... }	Keep of horses } =3130 working } 1050 13 7 days
	Horse-hire for do. 49 12 0	Horse-hire for } dusting } 15 15 0
£1435 12 7	£1706 19 6	£1761 13 0

DISPOSAL OF HOUSE REFUSE.

This ever troublesome duty has been satisfactorily performed by you in various ways ; as much material as possible being utilised for brick-making and the amount receivable for the year is £358 18s. 10d.

The cost of sifting and loading however was £709 19s. 10d.

The sum expended for carriage of the unmarketable material by rail, road and river was £731 9s. 11d. in addition to £70 9s. 6d. for the use of a place of deposit in an adjoining parish.

The total cost of disposing of refuse may be stated as follows :—

Carriage.....	£731	9	11
Use of Shoot.....	70	9	6
Siiting and Loading	709	19	10
Rent of Wharf	90	0	0
Rent of Arch.....	10	0	0
	<hr/>		
	£1611	19	3

The quantity of ashes sifted and put on rail was 3500 tons, and at the wharf 3780 tons were loaded into barges.

DISPOSAL OF STREET REFUSE.

The following Table will shew the nominal cost at which this has been done. No difficulty or complaint has arisen during the year.

1884.	1885.	1886.
£ s. d.	£ s. d.	£ s. d.
Rent of Shoots...158 17 0	Carpenters Co. } Shoot at } 70 0 0 Stratford ... }	Carpenters Co. } Shoot at } 69 0 0 Stratford ... }
<hr/>	<hr/>	<hr/>
£158 17 0	£70 0 0	£69 0 0

SCAVENGING.

There has been a considerable increase in the cost of this work over that of last year as shewn by the Statement.

1884.				1885.				1886.

	£4224	10	8		£3786	0	8		£4527	10	11

HORSE KEEPING.

The cost of keeping the Vestry's horses for the year was £2661 19s. od., made up as follows:—

Rent of Stables.....	£130	0	0
Wages	296	6	1
Superintendent's Salary.....	200	0	0
Corn	580	18	4
Hay, Straw and Clover	676	12	7
Green-meat	21	15	0
Shoeing and Veterinary Expenses	156	5	0
Repairs to Harness	61	11	10
Depreciation	406	19	6
Rates, Taxes, Coals, Gas, Water, &c.....	131	10	8

The work done was equal to 8960 working days for one horse at 6s. 1½d. per day. This time was divided as follow:—

1065 days for drawing materials for road repairs.
3260 „ carting street refuse.
3430 „ „ house „
935 „ watering roads.

The Vestry have lost by death three horses and purchased three additional ones during the year.

STEAM ROLLER.

During the year the Roller has been worked 186 days on the Vestry's roads, the cost of which, if hired, would have been

The Vestry have received for hire of Roller	£418	10	0
Cost of working:—Wages	85	8	3
Fuel	£120	18	3
Repairs and Wheels...	38	18	6
Fares, Oil, &c.	87	10	3
	6	5	2
	253	12	2

Result of the year's work..... £250 6 1

LIGHTING.

The Public lamps, 920 in number, have been supplied, lighted, painted and cleaned by the Commercial Gas Co., at a cost of £3,536 19s. 11d. No complaint has arisen during the year of want of pressure, or quality of the gas.

SEWERS.

The cost of labor for cleansing Sewers and Gullies, and other matters chargeable to Sewers has been £649 8s. 4d.

The amount paid for water for flushing sewers was £169 4s. od.

Small works of construction and repairs to Sewers including cleansing and relaying pipe sewers, necessitated an expenditure of £440 5s. 5d., including 10 New Gullies and 8 Deodorising Chambers to Sewer Ventilators.

The Deodorisers made upon the plan I patented last year continue to work satisfactorily, the annual cost not exceeding 1/6 each.

I trust the day may not be far distant when all the sewer ventilators of the District will be fitted with this cheap but effective mode of obviating what has hitherto been an offensive and dangerous nuisance.

During the year, 70 houses have been connected with the sewers of the Hamlet.

The quantity of material removed from the Sewers, was 261 yards and that from Gullies 480 yards cube.

THE UNEMPLOYED.

In order to provide employment for the numerous hands out of work during the winter you ordered a serviceable (though not absolutely necessary) alteration in the formation of the roadway of Nottingham Place. The road was one made at the end of the last century and was constructed with one channel in the centre. The work done was to raise the centre and form a channel on either side. Owing to the numerous vaults, some of which extend to the centre of the road, the work was equal to making an entirely new road. I have every reason to speak well of the men who received casual employment during the trying period we have passed through, and an inspection of the place will at once convince everyone of the quality and utility of the work done. Between thirty and forty extra men were employed during the period of distress at a cost of £450, the work done in addition to that above described being the removal of snow and street refuse.

In conclusion, I desire to thank the members of the various Committees for assistance they have rendered me and permit me to remain

Your obedient Servant,

JNO. M. KNIGHT.

REPORT.

To the Vestry of the Hamlet of Mile End Old Town.

GENTLEMEN,

In accordance with your request I have the honor to forward you the usual Annual Report of the Hamlet, for the year ending March 25th, 1886. The difficulties which naturally present themselves in dealing with the Sanitary Work of a period, not under my cognisance have been greatly increased by the information not being forthcoming from which the usual statistical particulars are obtained.

The mortality from all causes was 2,232, this included all people that have died in the district, and also the proportion of those that have died in Hospitals and Public Institutions outside the district that were admitted into such Institution *from* Mile End previous to their death.

Taking the population at 111,607, 2,232 deaths give an Annual Death-rate of 19.9 per 1,000.

The number of births was 4,010 giving a birth-rate of 35.9 per 1,000.

The mortality from zymotic diseases was 417 showing a death-rate from these diseases at 3.7 per 1,000. 137 of the deaths were due to Whooping Cough and 106 from Measles, this is accounted for to a great extent from the trivial manner parents treat these complaints, in fact, the majority of them never seeking medical advice until some serious complication has taken place.

The number of deaths that have occurred under 1 year of age was 563, and those over 60 years of age 529, so that the mortality of young people and adult life have been comparatively small.

No epidemics of a serious character have occurred during the year

The most noteworthy event of the year was the enquiry instituted by the Mansion House Committee, and as this already has been made the subject of a special report by the Sanitary Committee, I think I need not allude further to this matter.

Tables No. 1 and 2, will sufficiently explain themselves.

Appended is the Sanitary Inspector's Report from which it will be seen, much very useful work has been carried out in that department.

In my next report, which will really be my first annual one, as your Health Officer, I hope to deal at length with the whole sanitary work of the District.

I am, GENTLEMEN,

Your obedient Servant,

THOMAS TAYLOR,

Medical Officer of Health.

SANITARY INSPECTOR'S REPORT OF WORKS
EXECUTED DURING THE YEAR 1885-6.

Houses and premises connected with sewers	70
Old drains abolished	24
Closets cleansed and repaired	47
New closets provided	30
Houses cleansed	170
Sinks disconnected from closets and drains	54
Traps provided to drains	362
Drains cleansed and repaired	174
Houses disinfected in consequence of infectious diseases having occurred therein	221
Number of articles of Bedding and clothing disinfected	1285
Closets provided with water supply	602
Yards of house paved	386
Dust bins provided	506
Water supply provided to houses	12
Accumulations of offensive matter removed from different premises	19
Overcrowding abated	33

Very numerous inspections of premises, where offensive work are carried on, have been made during the year, and the necessary orders given for the abatement of nuisances.

In all cases coming to knowledge, I have removed and properly disinfected (with the consent of the owners) all bedding and clothing used by persons suffering from infectious diseases.

The Slaughter and Cowhouses in the Hamlet have also been frequently visited during the year.

I am, GENTLEMEN,

Your obedient Servant,

HENRY LESHAW,

SANITARY INSPECTOR.
