THE METROPOLIS MANAGEMENT ACT.

18th & 19th Victoria, Cap. 120.

AND THE SEVERAL ACTS AMENDING THE SAME.

The Vestry of the Parish of St. Mary, Lambeth.

TWELFTH ANNUAL REPORT.

As directed by the 198th Section of the "Metropolis Management Act," the Vestry present the Twelfth Report of their proceedings, under the Acts before mentioned, and of Works completed and Improvements effected, during the year ended the 25th day of March, 1868.

The Works and Improvements referred to, are hereafter specifically described under the respective heads of Sewerage and Street, and House Drainage, &c., at page 4; Highways, New Works, and Improvements at page 6; Lighting Matters at page 8; and Sanitary Matters at page 10.

The Report also contains an Account in abstract, showing the Receipt and Expenditure of the Vestry for the year ended at Lady-day last; also a summary Statement of all Contracts entered into, and of Monies owing to, and debts and liabilities owing by the Vestry. These accounts have been duly audited, and allowed by the Auditors, elected by the Parishioners.

For the purpose of efficient publication, an abstract Account, of amounts received and paid by the Lambeth Burial Board, from the 1st day of April, 1867, to 31st day of March, 1868, is set forth at pages 34 and 35.

The Accounts of the said Board have been duly audited.

SEWERAGE, AND STREET AND HOUSE DRAINAGE WORKS, &c.

THE NEW SEWERS constructed during the Year, to the 25th March, 1868, are:—

THE REPAIRS AND GENERAL WORKS during the past year include the repair and maintenance of Sewers, Drains and Gullies, and comprise items of the ordinary character.

FLUSHING AND CLEANSING have been carried out as before, and the Sewers under the charge of the Vestry are in as clear condition as existing circumstances will permit. The progress of the Main Drainage Works causes temporary difficulty and inconvenience, but their completion will, it is hoped, afford improved outfalls, and enable the sewers to be kept free from deposit. Complaints of stoppage, flooding, and other defects, have been promptly examined and remedied as far as possible, where the duty of doing so has been with the Vestry.

THE HOUSE DRAINAGE has been constructed where new Sewers have been made, generally without notice being served upon the owners, applications have been made for the drainage of 1385 houses, upon which above £2,600 has been paid into the Office. The estimated cost of private work done by applicants is £9,600, which has been executed under the inspection and general supervision of the Officers of the Vestry.

NEW BUILDINGS. The Vestry have received notice for building 876 new houses, the drainage of which, and the level of the lowest floors in relation to the Sewers, have been considered and approved as directed by the Act.

108 Applications made to the Metropolitan Board of Works for leave to bring out and alter frontages, have been referred to the Vestry and reported upon by them.

The approval of the Metropolitan Board of Works has been given for the formation of 21 New Streets.

LIGHTING.

IN the past year 62 memorials and applications have been received for improved lighting in various parts of the Parish; 47 of which were acceded to by the erection of new lamps or removals, and 15 were refused.

There have been 83 new lamps erected, and 18 removed to positions, which increased their utility.

The total number of lamps lighted by the Vestry, is 2586 ; and the cost of lighting for the year ending the 25th of March, 1868, including the erection of new columns, removals, and other expenses, amounts to £10,956 2s. 6d.

The Chemical Examiner has made frequent periodical experiments with the Photometer, and his monthly reports have shewn that the illuminating power and purity of the gas supplied by the Companies, have been up to the Standard which they are bound to supply ; although, in the case of the Phoenix Gas, from the Works at Bankside, also that of the Crystal Palace District Company, ammonia in small quantities is frequently found to be present ; as will be seen by the following tabular statement furnished by the Examiner :—

Clerk to the Vestry.

ANNUAL REPORT

FOR THE YEAR 1867-68,

BY GEORGE PUCKLE, M.D.

GENTLEMEN,

In presenting another Annual Report it is very gratifying to find that the healthiness of the Parish, as indicated by its mortality during the year 1867, has been satisfactory.

The number of births registered in the year 1867 amounted to 7,387, exceeding those in 1864 by 948; those in 1865 by 535; and those in 1866 by 314.

The births in the first quarter of the year were 2,001; in the second quarter 1,832; in the third quarter 1,747; and in the last quarter of the year 1,807.

The births exceeded the total number of deaths recorded during the year by 3,334, an excess of births over deaths not previously known.

The deaths recorded during 1867 were 4,053, being 182 less than in 1864; 44 less than in 1865; and 116 less than in 1866.

In the first quarter of the year the deaths numbered 1,165; in the second quarter 870; in the third quarter 932; and in the fourth quarter 1,086.

The births and deaths during each quarter of the year, in each of the Eight Ecclesiastical Divisions of the Parish, are shown in Table II. In the Waterloo Road, 1st part district, there were

597 births, and 313 deaths during the year; in the Waterloo Road, 2nd part district, 999 births, and 469 deaths; in the Lambeth Church, 1st part district, 812 births, and 420 deaths; in the Lambeth Church, 2nd part district, 1,407 births, and 1,033 deaths, 390 of which occurred in the Workhouse; in the Kennington 1st part district, 1,424 births, and 769 deaths; in the Kennington 2nd part district, 851 births, and 430 deaths; in the Brixton district 899 births, and 424 deaths; and in the Norwood district, 398 births, and 195 deaths, 40 of which occurred in the Children's Workhouse.

The death rate of the Parish of Lambeth has for a series of years contrasted very favourably with that of the entire metropolis.

In the year 1867 the respective death rates very nearly corresponded, owing to an extraordinary low death rate having prevailed in London, in which the deaths were nearly 10,000 less than in the previous year.

The comparative mortality of Lambeth, the entire metropolis, and the South District, of which Lambeth forms a part, is shown in Table III., which gives the estimated increased population as well of each of the Divisions of the Parish, upon which the death rate of each is calculated; from which it will be seen that the most healthy districts of Lambeth during 1867, were the Norwood, Brixton, Waterloo Road, 1st part, Kennington, 2nd part, and Lambeth Church, 1st part, districts; the Mortality being in the Norwood district (excluding the Workhouse) at the rate of 157 per 10,000 of the estimated population; in the Brixton district 177; in the Waterloo Road, 1st part, 195; in the Kennington, 2nd part district, 200; and in the Lambeth Church, 1st part, 202 per 10,000 of the population; in the other three Districts, viz:—the Kennington, 1st part; the Waterloo Road, 2nd part; and the Lambeth Church, 2nd part: the Mortality was 218 per 10,000 of the estimated population in the Kennington, 1st part; 249 in the Waterloo Road, 2nd part; and 333 in the Lambeth

Church, 2nd part; excluding the Workhouse the death rate of the Lambeth Church, 2nd part district, was 215 instead of 333 per 10,000 inhabitants.

In the Norwood district (excluding the Children's Workhouse) one person out of 61 living died during the year; in the Brixton district one out of 56; in the Waterloo Road, 1st part, one out of 51; in the Kennington, 2nd part, and Lambeth Church, 1st part districts, each, one out of 49; in the Kennington, 1st part, one out of 45; in the Waterloo Road, 2nd part, one out of 40; and in the Lambeth Church, 2nd part, one out of 29, or, excluding the Workhouse, one out of 45 living.

The deaths from Epidemic diseases during 1867 are shown in Table IV., they amounted to 716, and were in the proportion of only $17\frac{1}{2}$ per cent. of the Mortality from all causes.

In the two preceding years they formed $21\frac{1}{4}$ per cent., and in 1863 and 1864, $23\frac{1}{2}$ and 22 per cent. of the entire Mortality.

There was a diminution from the usual annual Mortality in nearly all the Epidemic diseases, except Small Pox, which was prevalent during part of the year, particularly in the Lambeth Church, 2nd part district.

The number of deaths from Diarrhœa were 175, and from Choleraic Diarrhœa 11; Whooping Cough 121; Fever, including Typhus, 118; Measles 98; Scarlatina 82; Small Pox 80; and Diptheria 31.

In Table I. is shown the number and nature of Nuisances brought under the notice of the General Purposes Committee, with the results and Sanitary Improvements effected.

The number of Nuisances removed or abated, and Sanitary Improvement effected, amounted to 3,766, comprising 586 unwholesome houses cleansed or whitewashed; 554 houses with bad drainage improved; 476 drain obstructions removed; 247 cess-pools emptied or abolished; 97 gullies and 18 foul urinals cleansed; 87 offensive smells, from trades, &c., abated; 45 lots of swine, consisting of 213 pigs, removed; 773 accumulations of dust, dung,

or garbage, removed ; 188 new ashpits or dustbins erected ; 201 houses provided with a proper water supply ; 90 water receptacles cleansed ; 198 houses provided with means of ventilation ; 85 dilapidated houses repaired ; 65 dangerous structures attended to ; 46 yards cleansed or improved ; and 10 lots of unwholesome food seized, conveyed to the Police Courts, and afterwards destroyed. There were also 229 bake-houses, 115 slaughter-houses, and 93 cow-houses inspected and white-washed several times.

Before the completion of the above works 645 notices were required to be served, and 25 summonses were heard at the Lambeth and Southwark Police Courts. It is estimated that nearly 12,000 visits were paid by the Inspectors during the year. The diseased or unwholesome fish and meat destroyed during the twelve months consisted of 57 carcasses of diseased sheep and lambs, weighing 13cwt. 3qrs. 14lbs., and 43 dozen plaice, &c., weighing about 5cwt. Three applications for licenses for slaughter-houses were opposed at the Newington Sessions and refused. Several licenses for cow-houses were discontinued, and one new application granted. An inspection was made of bake-houses during the night, to ascertain whether boys were employed at night, contrary to the bake-houses regulation act ; at two places boys were found so employed, summonses were taken out in consequence, and fines inflicted.

I remain,

Your obedient servant,

GEORGE PUCKLE, M.D.,

Medical Officer of Health.

METROPOLIS MANAGEMENT ACT,
18th & 19th Vict., Cap. 120.

Notice is hereby given that, in accordance with the provisions of the above mentioned Act, the Vestry has the entire power and control in all matters affecting Sewers and Drains; and it is required, that before begining to lay, or dig out, the foundation of any new House or Building, or to re-build any House or Building, and also before making any Drain, for the Draining, directly or indirectly, into the Sewer; seven days' Notice in writing, shall be given to the Vestry by the person intending to build or re-build such House or Building, or to make such Drains, and that the work shall be done under the survey and control of the Vestry, in such manner as they may direct.

That in all cases of Alterations, Stoppages, Re-constructions, and Repair of exsisting Drains, Notice shall be given to the Vestry, and their sanction obtained, previous to the work being done.

That no Bricks, Building Materials, &c., be laid in any Street, or Lime slacked for the purpose of making Mortar, without the same being protected, by a proper and sufficient hoarding.

That no person, or persons, shall wheel any Truck, or Barrow, upon the Footpath of any Road, or Street.

That all persons causing obstructions to Traffic on the Footpaths, or Carriageways, by placing Goods, &c., thereon for sale, will be proceeded against for such offence.

That no Pavement, or surface of any Street, shall be broken up or disturbed, and that no Hoarding or Scaffolding shall be erected, without the previous consent of the Vestry.

All Applications, Notices, and Complaints, are to be made or forwarded to the Vestry Hall, Kennington Green, where information may be obtained on these matters.

(By Order),

THOMAS ROFFEY,

Clerk to the Vestry.
