THE METROPOLIS MANAGEMENT ACT.

18th & 19th Victoria, Cap. 120.

AND THE SEVERAL ACTS AMENDING THE SAME.

The Vestry of the Parish of St. Mary, Lambeth.

FIFTEENTH ANNUAL REPORT.

PURSUANT to the 198th Section of the "Metropolis Management Act," the Vestry present the Fifteenth Report of their proceedings, under the Acts before mentioned, and of Works completed, and Improvements effected, during the year ending the 25th day of March, 1871.

During the past year, new Paving Works of great extent have been executed, Improvements effected, and Public Lighting increased, in relating to which the Vestry have been actuated by the desire of extending the benefit, thereof as widely as possible, endeavouring to avoid any serious increase of local taxation.

The Works and Improvements referred to are hereafter specifically described under the respective heads of Sewerage and Street and House Drainage, &c. at page 4; Highways, New Works, and Improvements, at page 6; Lighting matters at page 8; and Sanitary matters at page 10.

The Report also contains an account in abstract showing the Receipt and Expenditure of the Vestry for the year ending at Lady-day last; also a summary Statement of all Contracts entered into, and of monies owing to and debts and liabilities owing to the Vestry. These accounts have been duly audited, and allowed by the Auditors elected by the Parishoners.

For the purpose of efficient publication, an abstract Account, of amounts received and paid by the Lambeth Burial Board, from the 1st day April, 1870, to 31st day of March, 1871, is set forth at pages 34 and 35.

The accounts of the said Board have been duly audited.

THE VESTRY OF THE PARISH OF LAMBETH.

THE REPAIRS AND GENERAL WORKS during the past year, include the repair and maintenance of Sewers, Drains and Gullies, and comprise items of the ordinary character.

FLUSHING AND CLEANSING have been carried out as before, and the Sewers under the charge of the Vestry are in as clear condition as existing circumstances will permit. Complaints of stoppage, flooding, and other defects have been promptly examined and remedied as far as possible, where the duty of doing so has been with the Vestry.

HOUSE DRAINAGE has been constructed where new Sewers have been made, generally without notice being served upon the owners. Applications have been made for the drainage of 324 houses, upon which £630 has been paid into the office. The estimated cost of private work done by the applicants is £3500 which has been executed under the inspection and general supervision of the Officers of the Vestry.

NEW BUILDINGS. The Vestry have received notices for building 195 new houses, the drainage of which and the level of the lowest floors in relation to the Sewers, have been considered and approved as directed by the Act.

48 Applications made to the Metropolitan Board of Works for leave to bring out and alter frontages, have been referred by the Vestry and reported upon by them.

The Approval of the Metropolitan Board has been given to the formation of 13 New Streets.

STATEMENT OF NEW WORKS AND IMPROVEMENTS.

*Carried out under the direction of the General Purposes Committee, during
the Year ending 25th March, 1871.*

WARWICK STREET, VAUXHALL.—New Aberdeen 6^{in.} Edge Kerb and 2½ York paving to footways, the roadway paved throughout with 4 × 4 Mount Sorrel Pitching.

CHURCH PATH. ELFIN ROAD. WESTHALL STREET. WARRIOR ROAD. PARK ROAD.	}	Wyndham Road,	{	New 12 × 6 Granite Kerb, and 2½ York Paving to footways, the roadways made up and metalled.

PARADISE STREET.—Footway paving and kerb re-set, and made good in the worst parts.

BELVEDERE CRESCENT.—Old kerb repaired and re-set, new $2\frac{1}{2}$ York paving to footway.

ST. AUBYN STREET, WATERLOO ROAD, new 12×6 flat kerb and new $2\frac{1}{2}$ York paving to footway.

MILES STREET, SOUTH LAMBETH.—New Granite kerb and $2\frac{1}{2}$ York paving to footways and old pitchings, dressed and laid in channel.

NEVILLE STREET.—Footways kerbed and paved with old materials.

TYER'S TERRACE.—Footways kerbed and paved with old materials.

REGENT STREET.—From Princes Road to William Street, new 12×6 flat Granite kerb, and $2\frac{1}{2}$ York paving to footways.

GRESHAM ROAD.	}	New 12×6 flat Granite kerb and $2\frac{1}{2}$ York paving to footways, the roadways properly made up and metalled.
ANGEL PARK GARDENS,		

CARLISLE LANE.—Footway paving repaired and made good, the carriage way paving redressed and made good from Westminster Bridge Road to Royal Street.

STANGATE STREET.—Paving and kerb re-laid and made good with new.

CROZIER STREET.—Kerb re-dressed and new $2\frac{1}{2}$ paving to footways.

HINTON ROAD.—New 12×6 Granite kerb, and new $2\frac{1}{2}$ York paving to footways.

MONTFORD PLACE, KENNINGTON GREEN. PILGRIM STREET.	{	Paving and kerb re-used as far as good, the deficiency laid with new.
--	---	---

HERCULES BUILDINGS.—New paved crossing at end of North Street.

HOMER STREET. ALLEN STREET.	}	Paving and kerb redressed and used as far as suitable, the remainder made good with new.
--------------------------------	---	--

OAKLEY STREET.—Repairing and making good kerb and footway, on North side, from Charles Street to Frazier Street.

GUILDFORD STREET.—New 12×6 flat Granite kerb and $2\frac{1}{2}$ York paving to footways.

LIGHTING.

For the year ended 25th March, 1871, the total number of Public Lamps lighted by the Vestry is 2875. The cost of lighting, including new columns, removal of lamps to more desirable positions, and other expenses, amounted to £12,490 15s. 6d.

There have been 60 applications and memorials received for increasing the lighting in various parts of the Parish ; 56 of which have been acceded to, and 4 refused.

The Chemical Examiner has reported monthly, the experiments he has made with great regularity, on the illuminating power, and purity of the gas supplied to the Parish ; and such experiments have shewn that the illuminating power have always been in excess of the requirements of the Act, and the gas has been free from impurities, excepting on one occasion traces of ammonia were present in that of the Crystal Palace Company ; as may be seen by the following tabular statement furnished by Dr. Puckle the Chemical Examiner :—

RESULT OF 1860 OBSERVATIONS
OF THE
ILLUMINATING POWER OF THE GAS

Made on 93 occasions, during the year 1870-71.

GAS COMPANY.	No. of occasions Gas tested.	Where tested.	Average Illuminating power.	Tests for purity, Ammonia, Sulphuretted Hydrogen.
The London.	41	The Vestry-hall, Kennington.	Equal to 15.35 Sperm Candles.	Pure.
The Crystal Palace District.	11	The Works, Lower Sydenham.	15.11 Sperm Candles.	Pure, except on one occasion, traces of Ammonia present.
The Phoenix.	41	The Vestry-hall, Kennington.	14.90 Sperm Candles.	Pure.

(By Order)

THOMAS ROFFEY,

Vestry Clerk.

ANNUAL REPORT

FOR THE YEAR 1870-71,

BY GEORGE PUCKLE, M.D.

GENTLEMEN,

In presenting another Annual Report on the Health and Mortality of Lambeth for the year 1870, I avail myself of the census since taken, to calculate more accurately the number of the population of each of its Districts.

Since the year 1861, in the absence of any exact data, I have been in the habit of estimating the increase of the population of Lambeth and its Districts at the same ratio that occurred between the censuses of 1851 and 1861. In so doing, as I remarked in my last Annual Report, I was certain that I understated the population of some of its Districts which has proved correct. Notwithstanding an under-estimate of the population, I have, year after year, shown that the healthiness of the Parish as indicated by the annual number of deaths in it, has habitually contrasted very favorably with the entire Metropolis of which it forms so large a part ; had I calculated the death-rate on the actual increased population, the contrast would have been still more favorable for Lambeth.

The number of Births registered in the Parish during the year 1870 were 7715 ; of which 2031 were registered in the first quarter ; 1957 in the second quarter, 1874 in the third quarter, and 1853 in the fourth quarter of the year.

The Births exceeded those of the previous year by 43.

The Deaths during the year were 4593; the excess of births over deaths amounted to 3122.

In the first quarter of 1870, the deaths numbered 1281; in the second quarter 985; in the third quarter 1152; and in the last quarter 1175.

The Deaths were 219 above those in 1869.

The births and deaths during each quarter of the year in each of the Eight Ecclesiastical Divisions of the Parish are shown in Table II.; from which it will be seen, that in Waterloo Road 1st part district, there were 598 births, and 334 deaths during the year; in the Waterloo Road, 2nd part district, 923 births, and 473 deaths; in the Lambeth Church, 1st part district, 798 births, and 473 deaths; in the Lambeth Church, 2nd part district, 1584 births, and 1112 deaths, 341 of which occurred in the Workhouse; in the Kennington 1st part district, 1383 births, and 837 deaths; in the Kennington 2nd part district, 901 births, and 550 deaths; in the Brixton district, 1109 births, and 580 deaths; and in the Norwood district, 419 births, and 234 deaths, 6 of which occurred in the Children's Workhouse.

The comparative Mortality of Lambeth; the entire Metropolis; and the South District, of which Lambeth forms a large part, is shown in Table III; which also gives the increased Population of each of the Divisions of the Parish, upon which the death-rate of each is founded. This Table is calculated on the rate of increase between 1861 and 1871 shown by the Census taken since the close of the year 1870, so that the death-rate for 1870 can be very correctly calculated. In the nine years from 1861, the population of the Waterloo Road 1st and 2nd part districts, and the Lambeth Church 1st part district, rather decreased, whilst that of the five other districts largely increased.

In 1861 the population of the parish formed rather more

than one-eighteenth of the entire Metropolis ; in 1870, having increased more rapidly, the population of the parish of Lambeth formed more than one-sixteenth of the whole Metropolis.

The Mortality of Lambeth continues to compare very favourably with that of the whole Metropolis ; as well as that of the Southern District, of which it is part. The Mortality of the whole of London for the year, being at the rate of 240 per ten thousand of the inhabitants ; that of the Southern District, 234 per ten thousand inhabitants, and of Lambeth, 225 per ten thousand inhabitants.

The four most healthy districts during the year were the Brixton, Kennington 2nd part, Norwood, and Kennington 1st part districts. The mortality in the Brixton district being 171 per ten thousand inhabitants ; in the Kennington 2nd part, 182 per ten thousand inhabitants ; in the Norwood, 194 per ten thousand inhabitants, and in the Kennington 1st part, 208 per ten thousand inhabitants. The four less healthy districts were the Waterloo Road 1st part, Lambeth Church 1st and 2nd parts, and Waterloo Road 2nd part districts. The mortality in the Waterloo Road, 1st part district, being 235 per ten thousand inhabitants ; In the Lambeth Church 1st part, 242 per ten thousand inhabitants ; in the Lambeth Church 2nd part, 254 per ten thousand inhabitants ; and in the Waterloo Road, 2nd part, 256 per ten thousand inhabitants.

By the same Table it is also shown that one person amongst every 41 living, died in London during the year ; one amongst 42 living, died in the South District ; and one amongst every 44 living, died in the whole of Lambeth. In the Waterloo Road 1st part district, one amongst 42 living died during the year ; in the Waterloo Road 2nd part district, one amongst 39 living ; in the Lambeth Church 1st part district, one amongst 41 living ; in the Lambeth Church 2nd part district (including the Workhouse) one amongst 31 living ; in the Kennington

1st part district, one amongst 46 living; in the Kennington 2nd part district, one amongst 54 living; in the Brixton district, one amongst 58 living; and in the Norwood district, one amongst 51 living.

The deaths from Epidemic Diseases during 1870 are shown in Table IV., they amounted to 1121, and were $24\frac{1}{4}$ per cent. of the entire mortality; in the previous year they were 21 per cent. of the whole mortality.

The increase in the deaths from Epidemic diseases was mainly due to Scarlet Fever.

Scarlet Fever caused 479 deaths, Diarrhœa 247, Whooping Cough 164, Measles 94, Fever (including Typhus and Typhoid) 90, Small Pox 28, and Diphtheria 19 deaths.

The deaths from Scarlet Fever were much more numerous than in 1869, and those from Diarrhœa, and Small Pox, rather increased; whilst the deaths from Whooping Cough, Measles, Fever (including Typhus and Typhoid), and Diphtheria all diminished.

At Table V. is seen the number of cases of Illness from Epidemic Diseases attended by the Poor Law Medical Officers during each quarter of the year.

The number of cases were 1173, of which 143 arose in the first quarter of the year, 195 in the second quarter, 470 in the third quarter, and 365 in the fourth quarter. There were 424 cases of Scarlet Fever, 393 cases of Diarrhœa, 154 cases of Measles, 100 cases Small Pox, 67 cases of Fever (including Typhus and Typhoid) and 35 cases of Whooping Cough.

Of these the greatest number of cases of Scarlet Fever occurred in the third and fourth quarters of the year, the greatest number of Diarrhœa in the third, and the greatest number of Measles and Small Pox in the fourth quarter. The total number of cases of Epidemic Sickness amongst the Poor, were more numerous than in 1869 but less than in 1868.

In Table I. the number and nature of Nuisances removed, and Sanitary Work effected is set forth.

The number of Nuisances removed amounted to 2896, irrespective of the Sanitary Work effected by systematic house inspection.

There were 770 houses disinfected and cleansed, in which Small Pox, and Fever occurred; 262 dirty houses cleansed; 155 houses without proper drainage, drained; 33 cesspools emptied or abolished; 357 obstructed drains remedied; 150 defective drains trapped; 224 houses provided with proper water supply; 49 closets provided or improved; 30 houses provided with means of ventilation; 21 houses with smells from dampness remedied; 16 yards of houses paved or improved; 218 dust bins erected; 535 accumulations of dung, &c., removed; 17 cases of decomposed animal or vegetable matter removed; 16 foul urinals cleansed or improved; 87 dangerous structures removed; 8 smoke nuisances removed; 3 Trade Nuisances removed; 32 lots of swine, consisting of 167 Pigs removed; 15 lots of unwholesome Fish, consisting of 2447 fish of various descriptions, condemned and destroyed; 4 sieves of currants unfit for food, destroyed; 1 case of Infringement of the "Workshop Regulation Act," and 2 cases of illegal slaughtering of Sheep were fined; and 19 lots of infected bedding were burnt.

In addition to the above, 1466 houses were systematically inspected, and the following improvements carried out in them; 230 dirty houses were cleansed and whitewashed; 144 delapidated houses were repaired; 106 houses were provided with means of ventilation; 101 houses were provided with new water supply, or the supply improved; 81 yards were paved or improved; 41 cases of defective drainage remedied; and 5 cases of bad smells from dampness removed.

Before the completion of the Works, 1974 Notices were required to be served, and 38 Summonses and Orders were issued.

There were also 104 Licensed Slaughthouses, 95 Licensed Cowhouses, and 219 Bakehouses inspected, all of which were cleansed and whitewashed, and other improvements effected.

I remain,

Your obedient Servant,

GEORGE PUCKLE, M.D.

Medical Officer of Health.

TABLE I.

RETURN showing the Number and Nature of Nuisances attended to in the Parish of SAINT MARY, LAMBETH, from the 25th MARCH, 1870, to the 25th MARCH, 1871.

Houses in an unwholesome state cleansed.	Houses in which Small Pox and Fever occurred Disinfectd.	Houses with bad drainage, drained.	Cesspools emptied or abolished.	Obstructed drains remedied. THOMAS ROFFEY,

VESTRY CLERK.

*Vestry Offices, Kennington Green,
 1871.*

THE VESTRY OF THE
Parish of St. Mary, Lambeth.

METROPOLIS MANAGEMENT ACT,
18th & 19th Vic., Cap. 120.

Notice is hereby Given that, in accordance with the provisions of the above mentioned Act, the Vestry has the entire power and control in all matters affecting Sewers and Drains; and it is required, that before beginning to lay, or dig out, the foundation of any new House or Building, or to re-build any House or Building, and also before making any Drain for the Draining, directly or indirectly, into the Sewer; seven days' Notice in writing shall be given to the Vestry by the person intending to build or re-build such House or Building, or to make such Drains, and that the work shall be done under the survey and control of the Vestry, in such manner as they may direct.

That in all cases of Alterations, Stoppages, Re-constructions, and Repair of existing Drains, Notice shall be given to the Vestry, and their sanction obtained, previous to the work being done.

That no Bricks, Building Materials, &c., be laid in any Street, or Lime slacked for the purpose of making Mortar, without the same being protected by a proper and sufficient hoarding.

That no person or persons, shall wheel any Truck or Barrow upon the Footpath of any Road or Street.

That all persons causing obstructions to the Traffic on the Footpaths or Carriageways by placing Goods, &c., thereon for sale, will be proceeded against for such offence.

That no Pavement or surface of any Street shall be broken up or disturbed, and that no Hoarding or Scaffolding shall be erected, without the previous consent of the Vestry.

All Applications, Notices, and Complaints, are to be made or forwarded to the Vestry Hall, Kennington Green, where information may be obtained on these matters.

(By Order),

THOMAS ROFFEY,

Vestry Clerk.
