## Annual Report of the Vestry.

*(For the Year ending 25th March, 1888.)*

---

### I. Introduction.

THE PARISH OF PADDINGTON, in the County of Middlesex, extends Northward from the Marble Arch to Kilburn Gate; and Westward from the Marble Arch to Kensington Palace Gardens; it is bounded on the North by Willesden; on the South by St. George's, Hanover Square, and St. Margaret, Westminster; on the East by Marylebone; and on the West by Kensington and the detached portion of St. Luke, Chelsea; its length from North to South being nearly Two Miles, and its superficial extent about 1,280 acres.

### II. Parliamentary Electoral Divisions.

In 1885 Paddington was constituted a separate Parliamentary Borough by the Redistribution of Seats Act (48 and 49 Victoria, cap. 23). The Borough returns Two Members to Parliament, and for the purposes of election it is divided into Two Divisions,

under the names of North Paddington and South Paddington. North Paddington consists of Ward No. 2, and South Paddington of Wards Nos. 1, 3, and 4.

The number of Borough Voters, according to the Register made in 1887, is as follows :—

North Paddington	.. ..	5,959
South Paddington	.. ..	5,174
		<hr/>
TOTAL	..	11,133
		<hr/>

The number of County Voters in Paddington is 106.

The following are the particulars of the Parliamentary Elections which have taken place in the Borough, viz. :—

#### NORTH PADDINGTON.

1885, November.—LIONEL L. COHEN, M.P. (deceased).

1886, June.—                   "                   "                   "

1887, July.—JOHN AIRD, M.P.

#### SOUTH PADDINGTON.

1885, November.—Right Hon. Lord RANDOLPH CHURCHILL, M.P.

1886, June.—                   "                   "                   "

### III. Registration Districts.

The Registrar-General has divided Paddington into two Districts for the Registration of Births and Deaths, called respectively the St. Mary's District and the St. John's District. The divisional line of the two districts traverses the centre of the road in Praed Street, from Edgware Road to the Canal Basin, continues thence along the centre of the Canal Basin as far as the Bishop's Road, and passes Westward from thence along the centre of the Bishop's Road and Westbourne Grove to the Western boundary of the Parish ; the St. Mary's District lying on the North and the St. John's District on the South of such divisional line.

*Registrars of Births, Deaths, and Marriages.*

Superintendent Registrar—HENRY F. AVELING.

Registrar's Office, 287, Harrow Road.

Registrar of Marriages—WILLIAM KIRK, 78, Westbourne Park Road.

Registrars of Births and Deaths—St. Mary's District, WILLIAM KIRK, 78, Westbourne Park Road. St. John's District, MATTHEW BATTEN CRANSTONE, 35, Spring Street, Sussex Gardens.

#### IV. Poor-Law Administration.

The Paddington Workhouse and Infirmary are situate in the Harrow Road; the management is in the hands of a Board of Guardians, Eighteen of whom are Elected Guardians (elected by the Ratepayers). The resident Justices of the Peace are *ex-officio* Members of the Board. Paddington is united with St. George, Hanover Square, and Fulham, to form a District called the West London School District, the Schools being at Ashford, near Staines.

For list of Guardians see Appendix No. VII.

#### V. The School Board.

In 1870 Paddington and the parishes of St. Marylebone, St. Pancras, and St. John, Hampstead, were formed into one of the Metropolitan Districts for the purposes of the Elementary Education Act (33 and 34 Victoria, cap. 75), under the name of the Marylebone Division of the School Board for London, which Division returns Seven Members to the School Board.

For Managers of the Board School of the Marylebone Division see Appendix No. VIII.

## VI. Ecclesiastical Districts.

Paddington is divided into Seventeen Ecclesiastical Districts, viz. : —

St. James's,	St. Matthew's,	St. Mary Magdalene,
„ John's,	„ Luke's, Westbourne	„ Peter's,
„ Mary's,	Park,	„ Stephen's,
Holy Trinity,	„ Saviour's,	„ Augustine's,
St. Paul's,	„ Michael and All Angels,	Emmanuel,
All Saints',	Christ Church,	St. Luke's, Kilburn.

## VII. Gas Supply.

The Gas consumed in Paddington is supplied by The Gas Light and Coke Company.

## VIII. Water Supply.

The Water is supplied by two Companies, viz. :—the Grand Junction Waterworks Company and the West Middlesex Waterworks Company.

## IX. Municipal Electoral Divisions.

Paddington is divided into Four Wards, as follows, viz. : —

WARD No. 1 :—All that portion of the Parish which lies within a line drawn along the centre of Harrow Road from the point at which the same intersects the boundary of the said Parish, and thence along the centre of such Road to a point directly opposite the centre of the Road on Westbourne Terrace Bridge, and thence along the centre of such Road and of Westbourne Terrace, to the centre of Bishop's Road, and thence Westward along the centre of Bishop's Road and Westbourne Grove to the West boundary of the said Parish at the point where the same intersects the centre of Westbourne Grove, and thence Northward continuously along the said boundary to the point mentioned at the commencement of the foregoing description.

WARD No. 2 :—All that portion of the said Parish which lies North of Ward No. 1 and a line drawn from the boundary of such Ward Southward along the centre of Westbourne Terrace to a point directly opposite the West end of the centre of Craven Road, and thence along the centre of Craven Road and Praed Street, and thence in a direct line to the boundary of the said Parish.

WARD No. 3 :—All that portion of the said Parish which lies South of Ward No. 1 and a line drawn from the boundary of such Ward Southward along the centre of Westbourne Terrace, Sussex Gardens, and Westbourne Street, and thence in a direct line to the boundary of the said Parish.

WARD No. 4 :—All that portion of the said Parish which is not comprised within the foregoing descriptions of the other Wards.

For the purposes of Rate Collection, Ward No. 2 has been sub-divided as follows :—

WARD No. 2A EAST :—All that portion of the Ward lying North of the canal and South of a line drawn through the centre of Sutherland Avenue from Harrow Road to Shirland Road, and East of a line drawn along the centre of Shirland Road from Sutherland Avenue to Kilburn Park Road.

WARD No. 2A WEST :—All that portion of the Ward lying North of a line drawn along the centre of Sutherland Avenue from Harrow Road to Shirland Road, and West of a line drawn along the centre of Shirland Road from Sutherland Avenue to Kilburn Park Road.

WARD No. 2B :—All that portion of the Ward lying South of the line of the Grand Junction and Regent Canals from Maida Vale to Lock Bridge, Harrow Road.

The population of Paddington, at the Census taken in 1881, was as follows, viz. :—

Ward No. 2 .. ..	45,879	North Paddington.
„ „ 1 .. ..	27,921	} South Paddington.
„ „ 3 .. ..	17,918	
„ „ 4 .. ..	15,500	
Making a total of		107,218

In 1881 the number of inhabited houses was 13,231.

## X. The Vestry.

In 1855 the Vestry of Paddington was reconstituted as the Local Authority of the Parish by the Metropolis Local Management Act (18 and 19 Victoria, cap. 120). The Vestry is the Board of Works for Paddington, and as one of the Metropolitan Local Authorities it returns Two Members to the Metropolitan Board of Works.

The Vestry consists of Seventy-two Elected Members and the Vicar of Paddington, who is *ex-officio* Chairman of the Vestry. The ordinary meetings of the Vestry are held at the Vestry Hall, Harrow Road, Paddington Green, on the first and third Tuesdays in each month, the third Tuesday in August and the first Tuesday in September excepted.

In 1852 the Vestry resolved to erect a new building for the Municipal purposes of the Parish, and in 1853 the Vestry Hall in the Harrow Road was opened.

## XI. The Burial Board.

In 1854 the Paddington Cemetery, which is situated in the parish of Willesden, was purchased by the Parish. It is managed by a Burial Board, consisting of Nine Members appointed by the

Vestry. The ordinary meetings of the Burial Board are held at the Vestry Hall on the first Thursday in each month.

For Members of the Burial Board and Statement of Accounts see Section XXII.

## XII. The Baths and Wash-houses.

In 1871 Paddington adopted the Baths and Wash-houses Act (9 and 10 Victoria, cap. 74), and the Baths and Wash-houses erected in the Queen's Road, on the site of premises formerly numbered 143 and 145 were opened to the public in 1874. The Baths and Wash-houses are under the management of Seven Commissioners appointed by the Vestry.

For Commissioners of Baths and Wash-houses and Statement of Accounts see Section XXIII.

## XIII. The Parochial Charities.

There are certain charities under the control of the Vestry, managed by Trustees appointed by the Vestry and the Charity Commissioners. These Charities have an annual income of over Two Thousand Pounds, which is yearly distributed to the Poor in Coals and Blankets, in Grants to the Parochial National Schools, in apprenticing sons and daughters of poor parishioners, and in Annuities to aged persons resident in the Parish, &c.

For the Schedule of the Charities, with names of Trustees, &c., see Section XXIV.

For the Accounts of the Charities see Section XXV.

## XIV. Members of the Vestry.

During the year ending March 25th, 1888, the Vestry has been constituted as follows. (For present Vestry, &c., see Appendix No. VI.) :—

### EX-OFFICIO MEMBERS.

#### *Chairman.*

Rev. WALTER ABBOTT, M.A., Vicar of Paddington.

## XVII.—Representatives on the Metropolitan Board of Works.

FARDELL, THOS. G. | URQUHART, WM.  
*First Elected 1884.* | *First Elected 1881.*

## XVIII.—REPORT OF THE SURVEYOR.

---

The following Report on the Paving, Sewers, Lighting, and other works carried out during the year ending March 25th, 1888, was submitted to the Vestry by the Surveyor, Mr. George Weston, and ordered to be included in the Annual Report of the Vestry :—

VESTRY HALL, PADDINGTON,

*June 8th, 1888.*

*To the Vestry of Paddington.*

GENTLEMEN,

I have to submit my Annual Report of the various works that have been executed, and other matters relating thereto, during the year ended Lady-day, 1888.

The Vestry decided on the 5th of April, 1887, to amalgamate the Highway and General Purposes Committees with a view of discontinuing the dual control that had existed for the past twelve years, and the year's working clearly shows the advantage of this arrangement, a saving of over £1,634 having been effected, when compared with the previous year's working.

*Maintenance of Roads.*

The following statement will show the quantity of materials used in the maintenance and general repair of the various macadam and gravel roads in the parish :

				Tons.	cwt.
Guernsey Granite	...	...	...	4,162	16
Narboro' Granite	...	...	...	3	6
Enderly Granite...	...	...	...	2,179	2
Gravel (Sifted)	...	...	...	8,424	0
Hoggin	...	...	...	1,689	19½
Mount Sorrel Granite Cubes	...	...	...	32	8
Aberdeen ditto	...	...	...	3	0
Broken Aberdeen	...	...	...	172	4
Thames Sand	...	...	...	182	6
Thames Shingle	...	...	...	1,076	8
Total	...	...	...	17.925	9½

The repair of the macadam roads, and in some instances the gravel roads, have been carried out with the aid of the two steam rollers, the cost of working and maintaining the same including all expenses being as follows :—

	£	s.	d.
Wages to Drivers and Steerers	231	7	4½
1,677 Sacks of Coke	76	17	3
77¼ Sacks of Coal	7	14	6
214 Quarts of Lard Oil	13	7	6
20-lbs. of Russian Tallow	0	10	0
218-lbs. of Cotton Waste...	2	18	5
290 Nights Watching	48	6	8
143 Quarts of Colza Oil	5	7	3
	£386	8	11½

The old 15-ton steam road roller having been in constant use for upwards of 16 years, and requiring a thorough overhaul (which would cost at least £188, and this would not include a new boiler), the Works Committee considered it far more economical to recommend the Vestry to dispose of the old heavy roller and purchase a new 10-ton roller, which is quite heavy enough for the purpose required, as the 15-ton roller in many instances pulverizes the sharp edges of the broken granite. The lighter roller also possesses the advantages of the modern improvements, and it can be driven and steered by one man instead of two, by this means alone a saving in working is effected of £62 per annum.

### *Wood Paving General Repairs.*

During the year 35 streets have been repaired, the quantity of materials used, and the expense has been as follows :—

	£	s.	d.
Wages for Labour, &c. ... ..	251	6	6
2,912 New Wood Blocks ... ..	15	5	9
37,168 Old Wood Blocks ... ..	37	3	4
473 $\frac{1}{4}$ Bushels of Cement ... ..	39	8	9
2,421 $\frac{3}{4}$ Bushels of Sand ... ..	60	10	10
146 $\frac{1}{4}$ Bushels of Shingle ... ..	3	13	1
	<hr/>		
	£407	8	3
	<hr/>		

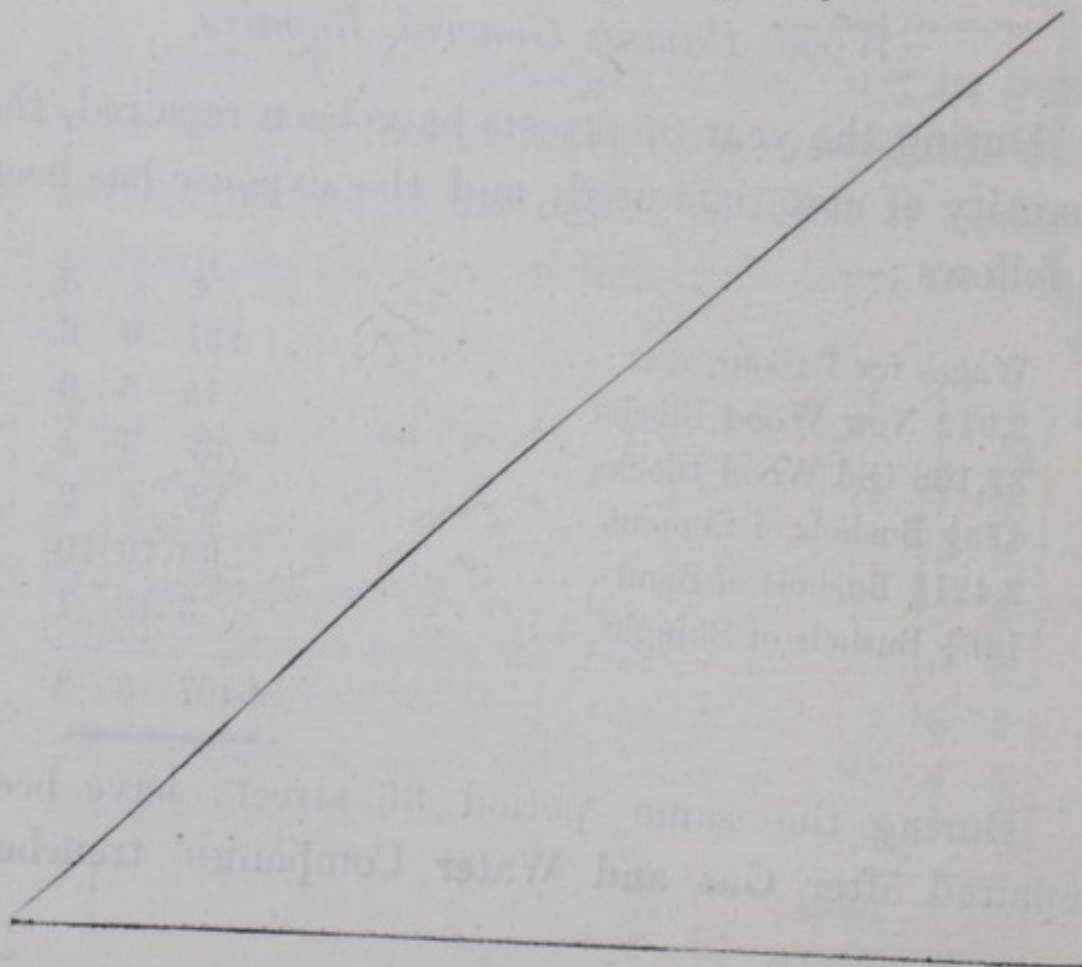

During the same period 36 streets have been repaired after Gas and Water Companies' trenches.

The quantity of materials used and the expense being as follows :—

				£	s.	d.
Wages for Labour ...	...	...	...	47	0	0
1,301 New Wood Blocks ...	...	...	...	6	15	9
4,373 Old ditto ...	...	...	...	4	7	6
221 $\frac{1}{4}$ Bushels of P. Cement ...	...	...	...	18	8	9
489 $\frac{1}{2}$ Bushels of Sand ...	...	...	...	12	4	9
44 Bushels of Shingle ...	...	...	...	1	2	0
Total ...				<u>£89 18 9</u>		

This amount being repaid the Vestry by the two Companies.

The following Table gives details of the wood paving works executed during the past year :—

The quantity of Materials used, and the Cost thereof, and Wages paid for the renewal of Wood Paving during the year has been as follows :—

Locality.	Labour.			Wood Blocks. Number.	Portland Cement. Sacks.	Thames Sand. Cub. yds.	Thames Shingle. Cub. yds.	Water. Sq. yds.	Cartage. Day Work.	TOTAL COST.		
	£	s.	d.							£	s.	d.
Southwick Street (Renewal)	22	9	9	27,117	53	18 $\frac{1}{4}$	9 $\frac{1}{2}$	700	5 $\frac{1}{2}$	183	19	4 $\frac{1}{2}$
James Street (Crossing)	4	19	3	1,273	17	1 $\frac{1}{2}$	$\frac{1}{2}$	...	1	15	5	4
Shirland Road „	6	0	9	1,550	22	2	$\frac{1}{2}$	...	1 $\frac{1}{2}$	18	19	2
South Wharf Rd. (Renewal)	22	0	8	37,600	58	31 $\frac{1}{2}$	7	950	6 $\frac{3}{4}$	243	8	9

Randolph Mews (New)	9	14	6	2,684	35	4	1	...	3 $\frac{1}{4}$	32	9	11
Bishop's Road (Renewal)	151	17	3	326,632	689	277 $\frac{1}{2}$	83 $\frac{3}{4}$	8,500	38 $\frac{1}{2}$	2,124	18	7
Totals ... ..	225	14	9	398,456	889	336 $\frac{3}{4}$	103 $\frac{1}{4}$	10,150	57 $\frac{1}{2}$	2,641	0	1 $\frac{1}{2}$

The entire area of Bishop's Road was re-laid with new wood blocks in August last, at an expenditure of £2,124 18s. 7d., or at the rate of 5s. 1d. per yard superficial. This sum being 4d. per yard less than similar work carried out in Praed Street.

The ten years' maintenance contract by the Improved Wood Pavement Company for the wood paving in Westbourne Grove will expire in November next, and it will be more economical for the Vestry not to renew the contract, but to carry out the repairs and renewals by their own workmen.

*Maintenance of Channels and Footways.*

The necessary repairs and renewals to the paved footways, crossings and channels throughout the Parish, also restoring those which were disturbed for gas and water services, drains, hoardings, and scaffoldings, have been carried out by the Vestry's workmen, and in some instances by the contractor for paving works. 2 miles, 3 furlongs, and 29 yards lineal of old footways have been thus treated, 9,996 superficial yards of wood paving renewed, and 185 yards superficial of channel and carriageway paving laid on 6 inches of concrete. During the year the Gas and Water Companies opened up a great number of trenches in the roads and footways for the purpose of repairing the mains and service pipes, also laying in mains of larger diameter. The amounts thus received from the Companies in question for this work was £1,299 10s. 2d.

The powers under the 105 Section of the Metropolis Local Management Act have been carried out in Portsdown Road, from No. 190 to 250.

The additional length of roadways taken during the year has been 3 furlongs and 37 yards, making a total length of 49 miles, 6 furlongs, and 198 yards, under the Vestry's maintenance.

### *New Sewers Works.*

Further improvements to Sewers have been carried out, by the construction of man-hole entrances for easier access thereto, and for flushing and other purposes in the following localities:—

Delamere Terrace,  
Hasboro' Street,  
Stalham Street,  
Hall Place,  
Cuthbert Street,  
Crompton Street,  
Hethpool Street,

Amberley Road,  
Cirencester Street,  
Woodchester Street,  
Cleveland Square,  
Princes Square (opposite Nos. 10 and 36),  
Leinster Square (opposite Nos. 1, 10, 19,  
45, and 56),  
Salem Road (by Moscow Road).

The total cost being £571 19s. 4d.

In consequence of certain defects in a portion of the arch of sewer in Edbrooke Road, owing to faulty construction, the particulars of which I fully reported on in December last, it was found necessary to rebuild the same, at a cost of £67 4s. 1d.

The severe thunderstorm, accompanied by the heavy rainfall that occurred on the 17th August last, caused certain low-lying portions of the Parish to be flooded. It will be remembered that I fully reported on this matter in November and December last.

The Metropolitan Board of Works have fixed during the year side entrances and tidal flaps at the outlets of the sewers in Lancaster Gate and Queen's Road, the latter being placed to prevent the backing up of storm water from the middle-level sewer.

They have also constructed a man-hole entrance into the Ranelagh Sewer in Chichester Road, and a side entrance by the south-eastern corner of the Ranelagh Bridge approach and opposite the Gloucester Hotel.

As complaints were received from time to time from inhabitants of the Harrow Road relative to the stench arising from the large brick gulley-pits, twelve in number, constructed by the Metropolitan Board of Works, the Vestry ordered them to be destroyed and small cesspits constructed in lieu thereof, which work has since been carried out.

The number of gulleys constructed and re-constructed being 32, and 58 have been repaired. 19 man-holes and side entrances have also been constructed.

### *New Buildings.*

Notices for the erection of ninety-three dwelling-houses and one large iron van shed have been received in accordance with the 76th Section of the Metropolis Local Management Act, 1855.

With reference to the drainage of these buildings, the Vestry have issued orders regulating the depth of outlets and other particulars. Copies of the orders are attached to the building notices and retained in this Department for future reference.

### *Drains, &c.*

Stoneware pipe drains to the extent of 5,147 lineal yards have been required for the drainage of the before-mentioned buildings. The drains, during their construction, are under the supervision of the Vestry's officers, and are tested by water in order to ensure the joints of pipes being thoroughly watertight before the

trenches are filled in. Inspection chambers with intercepting traps, properly ventilated, are also constructed by the builders in the positions stated in the orders of the Vestry.

Gulley drains, for the drainage of portions of new roads taken to as Parish Roads, have been constructed by the Vestry's Contractor at the expense of the persons building in the locality, and in some instances by the owners themselves.

Eighty-nine new pipe drains have been laid from sewers to houses and other premises in lieu of defective ones taken up. These works were completed at a cost to the applicants amounting to £790 11s. 11d.

Other jobbing work, comprising new drains for houses in Maida Vale, from No. 1 to 35, construction and re-construction of sandpits and gulley drains, providing and fixing flap traps to outlets of house and gulley drains, &c., have also been executed by the Vestry's Contractor, at a cost of £1,133 0s. 10d.

The sum of £84 15s. 5d. has been received from the Grand Junction Waterworks Company, the Gas Light Company, and others for drainage works executed for them.

One hundred and eighty-six complaints have been received in this department from various persons with reference to the unsanitary condition of house and other drains, arising either from obstructions in them

which the applicants could not remove, or from bad smells in consequence of untrapped outlets and other causes. These complaints have received attention, and prompt action taken in order to mitigate or remove the cause of the complaint where practicable.

During the year one hundred and forty-three examinations have been made from the large brick sewers by the Vestry's workmen, at the expense of persons requiring such examinations to be made, and principally rendered necessary by the foregoing complaints.

All brick and pipe sewers requiring flushing with water in order to keep them in sanitary condition, especially during the summer months, have received the usual attention and with beneficial results.

One hundred and forty-two cubic yards of deposits composed of pulverized materials from the public roads, which finds its way into the sewers from street gulleys in very wet weather, has been removed and carted away by the Vestry's workmen.

Eighteen hundred and seventeen cubic yards of slop have been removed from the catchpits of street gulleys, and which but for such removals would have added to the quantity in the sewers, and consequently been detrimental to the free flow of the sewage. The total number of removals amount to 33,211.

Workmen in the employ of the Vestry daily disinfect and flush with water, and occasionally with disinfectants, the eleven public urinals, thus keeping them in good order.

Nine street gulleys have been constructed, thirty-two re-constructed, and fifty-eight repaired, these being additional works of improvement.

Two hundred and forty-two traps have been fixed to house and gulley drains.

*Re-naming Streets and Re-numbering Houses.*

The following Orders of the Metropolitan Board of Works have been carried out in accordance with the 87th section of the Metropolis Local Management Act of 1862.

Date of Order.	Locality.	Subsidiary Names abolished.	No. of Houses in street.

## LIGHTING.

For 14 years the Average Meter System has been in operation, and experience has proved its efficiency and economy, also that the system is the most reliable and equitable method of purchasing gas for Public Street Lighting purposes.

There are now 1,959 lamps, each estimated to consume 4·6 cubic feet of gas per hour. The actual consumption per hour for the year has been 5,252 cubic feet; each lamp has burnt  $3,790\frac{3}{4}$  hours, or an average of 10·63 hours per night. The estimated consumption per lamp per annum at 4·6 cubic feet per hour is

17,897, but the actual consumption has been 17,633 cubic feet. There are 97 meters attached to the lamps.

*Refuge Lamps.*—The number, position, and power of these lamps will be found stated in the accompanying returns. [Appendix II.] During the year three additional lamps have been erected.

*Price of Gas.*—The Gas Company reduced the price of gas supplied to the public lamps, on the 1st of January last, from 2s. 5d. to 2s. 2d. per 1,000 cubic feet.

*Defective Services.*—During the year 159 notices were sent to the Gas Company for the rectification of defective services, these were promptly attended to by them, they having to maintain the service pipes to the base of the lamp-posts.

*Damages to Lamp-posts, &c* -- During the year nine lamp-posts were knocked down, twenty lamp columns broken, sixteen head irons, and twelve lanterns damaged by various parties through carelessness or accidents, the restoration being made good by the Vestry's own workmen, in twelve cases at the expense of those causing the damage, and in sixteen cases they escaped detection.

For further information in connection with the working of Public Lighting Department, see accompanying returns. [Appendix No. II.]

*Dusting.*

The number of loads collected has been 20,278, and 4,698 horses employed; the daily average number of loads being 65·62, or 4·31 loads per horse per working day. The following miscellaneous materials and quantities have been abstracted from the before-mentioned number of loads:—15 tons of coals, 204 cart loads and 20 boat loads of hard core, 3,129½ tons, or 167 boat loads, of garbage or soft core, 63 tons 6 cwt. of bones, 100 tons of rags, 59 tons 4 cwt. of old iron, 5 tons 13 cwt. of various metals, 13 tons 14 cwt. of white glass, and 52 tons of black glass. There has been sorted and sifted 15,486 chaldron of ashes and 8,327 chaldron of breeze; of this quantity, 15,486 chaldron of ashes and 8,327½ chaldron of breeze has been sent away by boats and carts.

For several years I have drawn attention to the great difficulty experienced in disposing of the vast quantity of ashes and breeze collected annually. This is due in some measure to the depressed condition of the brickmaking trade, but I attribute it principally to the vast quantity of dust now collected in the Metropolis, and to the rapid development of suburban residences around London. They are nearer to the brickfields, and formerly the dust from the Metropolitan parishes was taken from six to fourteen miles a day, but now the brickmakers can obtain it from the houses contiguous to their fields, which is more advan-

tageous to them than taking the dust from the Metropolis, as they thereby effect a large saving in the expense of haulage and tonnage, which is an item of serious consideration.

In June last Mr. Thomas Codrington, C.E., Engineering Inspector of the Local Government Board, was instructed to report on the destruction of Town Refuse, and during twelve months he visited all towns in Great Britain, where works of this description had been established. He has furnished a most exhaustive report on the subject. It is published by Messrs. Eyre and Spottiswoode, and I recommend its perusal to all interested in the future disposal of town refuse, which sooner or later will have to be got rid of by cremation.

### *Slopping.*

The contract for boating away the slop and dry sweepings taken off the Parish roads was let to Messrs. Studds & Co., at 1s. 5½d. per ton. This sum includes the haulage and tonnage to Iver, Bucks, also the free shoot. 23,342 tons were thus taken away. The maximum number of loads collected off the roads in one week was 1,009, and the minimum 162, giving a daily average of 75.05 loads—8,394 horses, vans, and carts being employed in the collecting.

### *Cleansing the Public Streets.*

As described in previous annual Reports, the Streets are swept by gangs of men, assisted whenever practic-

able by the horse-scrapers and brooms. In two or three main thoroughfares by the employment of street orderly boys.

### *Sanding Frosty Roads.*

This work has been carried out whenever requisite, special attention being given to the bridge approaches and wood-paved roads, at times men, horses, and sanding machines being sent out very late at night and early in the morning. 457 horses and carts were out on 57 occasions, the quantity of shingle scattered being 782 cubic yards.

### *Road Watering.*

The watering season commences on the 1st of March and ends on the 30th of November, and during that period the water vans were out 132 days, 4,546 horses and vans being employed, giving an average of 34·43 horses and vans per day. The streets being watered as often as required.

The quantity of water used, and the cost thereof, for road watering and road making purposes, and washing wood-paved roads during the season, has been as follows :—

Grand Junction Water Co.,	24,924,440 galls.,	at ...	£726	19	3
West Middlesex Water Co.,	5,573,110 galls.,	at ...	202	18	10
Total galls. ...			30,497,550	Cost ...	£929 18 1

## GENERAL.

*Carting Roadway Materials.*—On this description of work 2,519 horses and carts have been engaged 306 days, giving an average of 8·23 per day.

*Horses.*—The losses by deaths and sales during the year have been as follows :—

No. 8.—A chestnut mare, purchased in April, 1879 ; working eight years and three months ; being past work, was slaughtered July 21st, 1887.

No. 22.—A chestnut gelding, purchased in March, 1881 ; working six years and six months ; had a pricked foot, injuring the coffin-joint ; was slaughtered October 6th, 1887.

No. 50.—A black gelding, purchased in March, 1885 ; working only two years and nine months, injuring its foot and heel ; was slaughtered December 28th, 1887.

At the close of the watering season, five old horses not worth wintering were weeded out and sold by public auction at Mr. Rymill's Repository, Barbican, realizing an average of £4 14s. 5d. The present stock being 60, and these are in a good working condition.

*Horse Fodder.*—The following Tenders for the supply of horse fodder were accepted during the year, the average cost per horse per week for keep and bedding being 15s. 1d.·025 :—

One Week's supply per Horse.	Tenders Accepted.			
	January 4th, 1887. For Six Months.		July 19th, 1887. For Six Months.

Cost per horse per week ... ..	... ..	<u>15 5·11</u>	... ..	<u>14 8·94</u>
		Average ... £0 15 1·025		

*Hay Crop.*—The expenses attending mowing, stacking, and carting, &c, being £24 17s. 6d. From this amount £5 is taken off as received for the after-feed, thus making the total expenses £19 17s. 6d.; the value of the hay at the contract price, £4 per ton, being £54, the actual gain to the Vestry being £34 2s. 6d.

*Artizans' Work.*—The general works, repairs, &c., have been carried out by the following artizans at the Vestry's Dépôt:—The millwright, engineer, wheelwright, farriers, smiths, and harness maker. The repairs embraces work in connection with the 20-horse power engine, sifting machine, slop tank, water meter, stand-posts, general smithing work for repairs to carts, water vans, sanding, sweeping and scraping machines, horse shoeing and making, miscellaneous repairs, and the following work for the Highway Department:—

Pickaxes lined and Steeled.	TOOLS SHARPENED.			Paving Hammers lined.
	Pickaxes.	Chisels.	Paving Hammers.	
550	9,696	462	11	—

*Open Spaces.*—The work attending the maintenance of the Paddington Green and the Disused Burial Ground Garden have been most ably carried out by

the gardeners, and they have been very successful in saving several thousand bedding-out plants, which will afford much pleasure and attraction to the numerous visitors frequenting these healthful places of resort.

The accompanying accounts and details will furnish additional information in connection with the work carried out by this department.

I am, GENTLEMEN,

Your obedient Servant,

GEORGE WESTON,

*Professional Associate Surveyors' Institute,  
Surveyor.*

---

The Accounts and Details appended to the Surveyor's Report will be found in Appendix No. II.

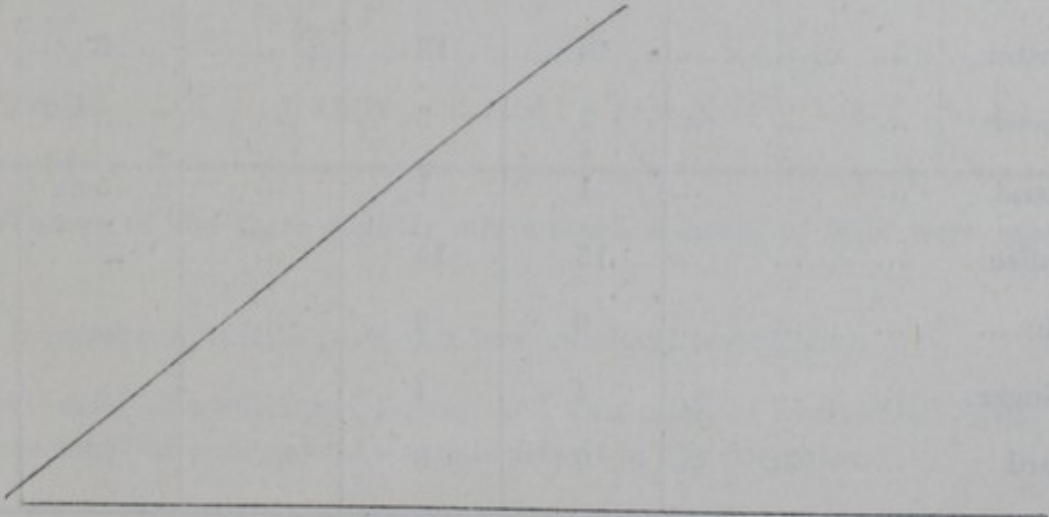

## XIX. REPORT OF THE MEDICAL OFFICER OF HEALTH.

---

The Annual Report on matters relating to the Health of the Parish and the Sanitary Department of the Vestry, was presented to the Vestry by the Medical Officer of Health, Dr. JAMES STEVENSON.

This Report, the Thirteenth Annual Report by Dr. STEVENSON, was ordered by the Vestry to be included in the Annual Report of the Vestry, and is given in full in Appendix No. 1.

## XX. REPORTS OF THE PUBLIC ANALYST.

Reports of the Public Analyst, Mr. ALFRED W. STOKES, F.C.S., F.I.C., have been presented to the Vestry each Quarter during the Year ending March 25th, 1888, and each Report has been printed.

The Reports were accompanied by Tables, showing the articles analysed under the Sale of Food and Drugs Act, 1875, with the result of the analysis in each case. The following is a summary of the returns for the year :—

*Table giving Summary of the Articles Analysed by the Public Analyst for Paddington, for the Year ending March 25th, 1888.*

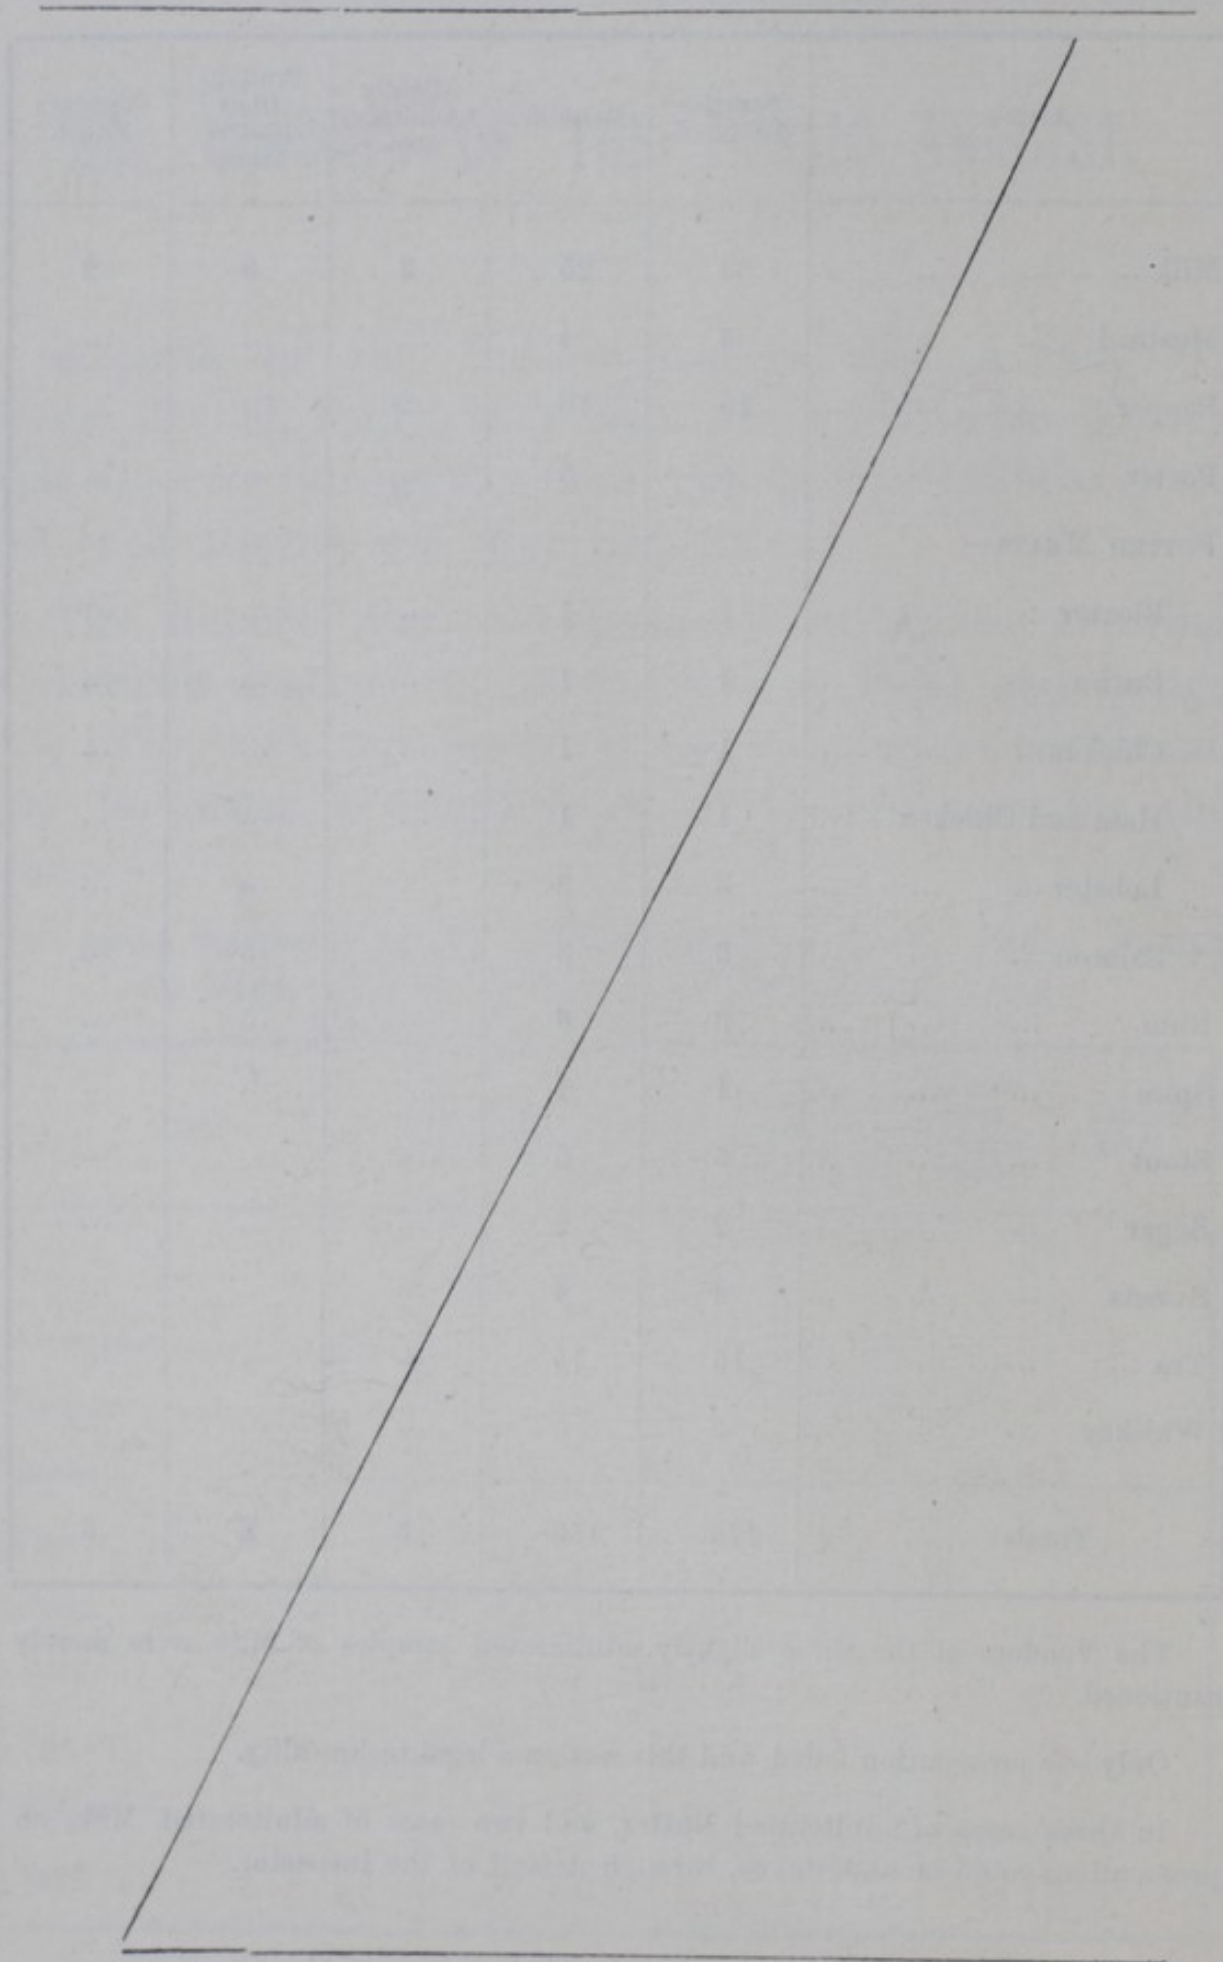

Article.	Samples Analysed.	Genuine.	Slightly Adulter- ated.	Prosecu- tions under- taken.	Vendors Fined.

Totals ... ..	170	156	3	6	5

The Vendors of the three slightly adulterated samples of Milk were merely cautioned.

Only one prosecution failed, and this was on a legal technicality.

In three cases of adulterated Butter, and two cases of adulterated Milk, no prosecutions could be undertaken, through default of the Inspector.

## XXI.—ABSTRACT OF ACCOUNTS, SUMMARY OF CONTRACTS, STATISTICAL TABLES, &c.

---

The following ABSTRACT OF ACCOUNTS for the Year ending March 25th, 1888, SUMMARY OF CONTRACTS, and STATISTICAL TABLES, &c., were submitted to the Vestry by the Vestry Clerk, Mr. Frank Dethridge, and ordered to be included in the Annual Report of the Vestry :—

We, the undersigned, being the Auditors appointed under the provisions of the "Metropolis Local Management Act," for the purpose of auditing the Accounts of the Vestry of the Parish of Paddington, do state that we have audited and allowed the Accounts of the Vestry for the year ending 25th March, 1888, of which the foregoing Account, marked A, is an abstract. And we state that the several Contracts entered into by the Vestry during the year ending 25th March, 1888, are specified in the foregoing Statement of such Contracts marked B. And that the Moneys owing to, and the Debts and Liabilities owing and incurred by, such Vestry respectively, are specified in the foregoing Statement of such Credits, Debts, and Liabilities respectively, marked C. And we further wish to state that the manner in which the Accounts are kept has met with our entire approbation, and we beg to thank Mr. Dethridge, the Vestry Clerk, for the able and courteous assistance he has rendered during the investigation.

I. BRUNEL  
F. CALDER-TURNER,

SUNDRY PAYMENTS MADE TO OR BY THE VESTRY AND  
CHURCHWARDENS UNDER VARIOUS ACTS OF PARLIAMENT.

---

1. A sum of £12 is paid annually under 26 Geo. 2, cap. 43, to the Ecclesiastical Commissioners by the Churchwardens out of moneys supplied by the Vestry as rent for land granted by a former Bishop of London for the enlargement of the Churchyard. The Vestry is recouped a portion of this £12 by an annual payment of £3 under the same Act to the Churchwardens by the Vicar of Paddington, and of £3 by the Parish Clerk (if any).
2. A sum of £15 is paid annually under the private Act 35 Geo. 3, cap. 83, to the Churchwardens by the Ecclesiastical Commissioners as compensation for the enclosure of waste lands by a former Bishop of London, and is paid by the Churchwardens to the credit of the Vestry General Account.
3. A sum of £2 is paid annually under 3 Geo. 3, cap. 50, to the Vestry by the Churchwardens of St. George's, Hanover Square, in lieu of parochial rates for the burial ground in Uxbridge Road, and is placed to the credit of the Vestry General Account.

4. HARVIST'S ESTATE.

A proportion of the rents of this Estate (amounting in the year ending Lady-day, 1888, to £118 0s. 2d.) is paid annually under 10 Geo. 4, cap. 59, and private Act 18 and 19 Vic., cap. 11, to the Vestry by the Hendon Union Rural Sanitary Authority, and is applied towards the repair of the Highway of the Edgware Road.

5. LYON'S ESTATE.

A proportion of the rents of this Estate (amounting in the year ending Lady-day, 1888, to £474 4s. 11d.) is paid annually to the Vestry under the same Acts and by the same Authority as in Harvist's Estate, and is applied towards the repair of the Highway of the Harrow Road,

RETURN showing the amount in the Pound levied by the Vestry during the nineteen Years ending October, 1885, in respect of Rates made for payment of Liabilities of the Vestry, distinguishing those over which the Vestry has control from those over which it has no control:—

## Rates Levied since 1855.

The Rates levied since the passing of the Metropolis Local Management Act in 1855 have been as follows :—

	s.	d.		£	
For the year 1856 ..	2	1	{ based upon a rateable value of }	522,570	
1857 ..	2	6	„	538,879	
1858 ..	2	4	„	582,995	
1859 ..	2	7	„	605,382	
1860 ..	3	0	„	625,479	
1861 ..	2	8	„	643,063	
1862 ..	2	8	„	617,840	
1863 ..	2	8½	„	646,256	
1864 ..	3	0	„	663,172	
1865 ..	3	0	„	685,434	
1866 ..	3	2	„	704,714	
1867 ..	3	6	„	729,838	
1868 ..	3	5½	„	740,686	
1869 ..	3	9	„	759,158	
1870 ..	4	0	„	773,524	
1871 ..	3	4	„	954,868	
1872 ..	3	1½	„	968,340	
1873 ..	3	4½	„	984,582	
1874 ..	3	7½	„	995,009	
1875 ..	3	6	„	1,004,095	
1876 ..	3	6	„	1,091,656	
1877 ..	3	6½	„	1,098,262	
Under the Provisions of the Valuation (Metropolis) Act, 1869.	1878 ..	3	7	„	1,115,550
	1879 ..	3	9	„	1,125,644
	1880 ..	3	11½	„	1,140,100
	1881 ..	3	10	„	1,214,844
	1882 ..	3	10	„	1,234,626
	1883 ..	4	0	„	1,243,708
	1884 ..	4	2	„	1,249,968
	1885 ..	4	6½	„	1,259,732
	1886 ..	4	5	„	1,276,254
	1887 ..	4	4½	„	1,273,030

*Rates Levied during 1887.*

Date.	Poor.	Lighting.	General.	Sewers.	Metro. Consoli- dated.	TOTAL.	
	d.	d.	d.	d.	d.	s.	d.
April .. ..	10½	1	11	1	4	2	3½
October .. ..	10½	½	9½	½	4	2	1
TOTAL . . .	1s. 9d.	1½d.	1s. 8½d.	1½d.	8d.	4s.	4½d.

The Rateable Value of the Parish, based upon the Rate made in October, 1887, was £1,273,030.

*List of the Principal Statutes under which Rates are Levied.*

\* \* The earliest Acts are alone given in this List, the object being to show the dates at which the duty of levying a rate was in each case imposed on the Parochial Authorities:—

- I. *Poor Rate*.—18 & 19 Vic., Cap. 120 (A.D. 1855). (Transferring to the existing Vestry the powers and duties given or reserved to the Vestry elected under the Local Act of 1824, 5 Geo. IV., Cap. 126, which superseded the Open Common Law Vestry).
- II. *Lighting Rate*.—The same.
- III. *General Rate*.—The same.
- IV. *Sewers Rate*.—The same.
- V. *Main Drainage and Metropolitan Consolidated Rate*.—The same.
- VI. *Church Building Rate*.—58 Geo. III., Cap. 45 (A.D. 1818).
- VII. *Poor Rate proper*.—43 Eliz., Cap. 2 (A.D. 1601).
- VIII. *Police Rate*.—10 Geo. IV., Cap. 44 (A.D. 1829).
- IX. *County Rate*.—12 Geo. II., Cap. 29 (A.D. 1738).
- X. *Common Poor Fund Rate*.—30 and 31 Vic., Cap. 6 (A.D. 1867).
- XI. *Metropolitan Asylum District Rate*.—The same.
- XII. *West London District School Rate*.—7 & 8 Vic., Cap. 101 (A.D. 1844).
- XIII. *Metropolitan Fire Brigade Rate*.—28 & 29 Vic., Cap. 90 (A.D. 1865).
- XIV. *Baths and Wash-houses Rate*.—9 and 10 Vic., Cap. 74 (A.D. 1846).
- XV. *Sewers Rate*.—18 and 19 Vic., Cap. 120 (A.D. 1855).
- XVI. *School Board Rate*.—33 and 34 Vic., Cap. 75 (A.D. 1870).
- XVII. *Main Drainage Rate*.—18 and 19 Vic., Cap. 120 (A.D. 1855).
- XVIII. *Metropolitan Consolidated Rate*.—32 & 33 Vic., Cap. 102 (A.D. 1869).

## XXIV.—SCHEDULE OF THE PAROCHIAL CHARITIES.

---

This Schedule gives the names and addresses of the Trustees, the description and income of the Property, and the mode of distributing the Funds ; prepared by the Vestry Clerk, pursuant to the following Section of the “ Metropolis Local Management Act, 1855 ” (18 and 19 Vic. c. 120) :—

“ 199.—Every such Vestry as aforesaid shall  
“ cause to be made out once at least in every year,  
“ a list of the several freehold, copyhold, and lease-  
“ hold estates, and of all charitable foundations and  
“ bequests if any belonging to the parish, and under  
“ the control of the Vestry, the list to contain a  
“ true and detailed account of the place where such  
“ estate or charitable foundation may be situate, or  
“ in what mode and security such bequest may be  
“ invested, specifying also the yearly rental of each,  
“ and the particular appropriation thereof, together  
“ with the names of the persons partaking of their  
“ benefit (except where such benefit shall be allotted  
“ to the poor of the parish generally), and to what

“amount in each case, and also stating the name  
“and description of the persons in whom such  
“estates are vested, and the names and description  
“of the trustees for each charity; and such lists  
“shall be open for the inspection of the ratepayers  
“at the office of the Vestry Clerk at the same time  
“with the accounts when audited, according to the  
“provisions of this Act.”

Name of Charity.	Names and Descriptions of the Trustees for the Current Year.	Detailed Description of the Property.

{ Ward No. 3 .. .. JOHN GORDON.

{ Ward No. 4 .. .. ROBERT CHEADLE.

Vestry Hall Keeper .. .. WILLIAM MATTHEWS.

Beadles .. .. { GEORGE DARLEY OSTERFIELD.  
JOHN CROXFORD.

## XXVIII. The Works Department.

A considerable reform has been effected in the Works Department since the issue of the last Annual Report by the amalgamation of the old Highway Committee and the old General Purposes Committee as the Works Committee, thus bringing the whole of the Works Department under one management.

## XXIX. The Parish Boundaries.

The Chairman of the Vestry, the Churchwardens and the Overseers, together with several Members of the Vestry, perambulated the boundaries of the Parish in October, 1887, and a series of orders were

issued for re-adjusting old landmarks, and erecting new ones where required.

---

### XXX. Open Spaces.

The Vestry decided to improve the Churchyard attached to St. Mary's Church. Application was made for the necessary faculty, and in due course the Churchyard will be laid out as a public garden.

An effort was made by the Vestry to add a Recreation Ground to the Parish, in celebration of the Jubilee of Her Majesty Queen Victoria's reign, and for this purpose a Special Committee was appointed to co-operate with a Committee of Ratepayers, for acquiring about 30 acres of land, north of Elgin Avenue. Owing to insuperable difficulties with the Paddington Trustees and the Ecclesiastical Commissioners, the joint owners of the land, the scheme had ultimately to be abandoned. Subsequently, however, a number of ratepayers secured a portion of the land referred to for a term of 3 years, for the purposes named, and doubtless efforts will be made to secure the land as a permanent Recreation Ground for the Parish. During the winter a large number of "Unemployed" were engaged in levelling, draining, and laying out the ground. The report of the Committee which carried out this work will be found in the Minutes of the Vestry.

### XXXI. Street Nomenclature.

Harrow Road, one of the longest thoroughfares in the Metropolis, was re-numbered throughout in May, 1887, and the subsidiary names abolished. Sutherland Gardens and Sutherland Avenue have been incorporated and renumbered as one thoroughfare under the name of Sutherland Avenue.

---

### XXXII. Street Improvements.

Efforts were made during the year to widen Ossington Street, and Moscow Road, but owing to the large amounts asked by the owners of the land required to effect such widening, the desired improvement had to be abandoned.

---

### XXXIII. Tramways.

The Harrow Road and Paddington Tramways Company have succeeded in obtaining an Act of Parliament authorising them to lay down Tramways from the Lock Bridge to Harlesden Green and Cricklewood, and the works in connection therewith are in progress.

---

### XXXIV. Electric Lighting.

The question of providing Electric Lighting for the Parish was referred to the Legal Committee, and this Committee prepared a digest of the law relating thereto. It also reported on the cost of producing, storing, and supplying electricity for lighting purposes throughout the Borough. The question is still under consideration.

## XXXV. Measures before Parliament.

Among the Bills introduced into Parliament during the year, the following have received attention by the Vestry :—

CORONERS' ELECTION.

HYDE PARK CORNER (New Streets).

PERSONAL PROPERTY (Exemption from Sale).

RAILWAY AND CANAL TRAFFIC.

SANITARY REGISTRATION OF BUILDINGS.

TECHNICAL INSTRUCTION BILL.

SANITATION OF HOUSES (Metropolis).

WATER COMPANIES (Regulation of Powers).

METROPOLIS MANAGEMENT ELECTIONS (Ballot).

ELECTRIC LIGHTING ACT (Amendments) 1882 & 1888.

LONDON COAL AND WINE DUES CONTINUANCE.

METROPOLIS LOCAL GOVERNMENT.

METROPOLITAN BOARD OF WORKS (Local Management, &c.)

METROPOLITAN BOARD OF WORKS (Theatres, &c.)

METROPOLITAN BOARD OF WORKS (Various Powers).

METROPOLITAN FIRE BRIGADE.

SCHOOL BOARD FOR LONDON (Elections).

THAMES TUNNEL (Blackwall).

UNITED TELEPHONE COMPANY.

LOCAL GOVERNMENT BILL.

### *The Coroners' Election Bill.*

The Vestry passed the following resolution :—

“ That this Vestry, whilst recognising the necessity for a reform in the mode of electing Coroners, cannot approve of the Bill brought in by the Government for vesting the appointment of Coroners in all counties and boroughs in the Lord Chancellor.”

### *The School Board Election Bill.*

The Vestry resolved to convene a Conference of the Metropolitan Vestries and District Boards to

consider the following resolutions, which were passed by the Vestry. [The Conference was held in April, 1888.]

(a) "That the most convenient areas for School Board electoral purposes in the Metropolis would be the Parliamentary Divisions, with one Member for each Division.

(b) "That the cumulative system of voting at School Board Elections should be abolished.

(c) "That casual vacancies occurring on the School Board should be filled up by a vote of the Ratepayers, and not as at present, by the Members of such Board.

(d) "That a Returning Officer should be appointed for each School Board Division, and that the office of Returning Officer for the whole of the Metropolis should be abolished.

(e) "That the Returning Officer should be nominated by the Education Department from the Vestry Clerks, or other officers appointed under the Metropolis Local Management Act.

(f) "That all expenditure for School Board Election purposes, paid for out of the rates, should be subject to revision by taxation or otherwise.

(g) "That the total cost of carrying out an election of members of the School Board in the suggested increased number of constituencies should not exceed the total cost of carrying out an election in the existing constituencies, upon the revised scale laid down by the Education Department."

### *The Local Government Bill.*

This Bill has been generally approved by the Vestry, and is receiving the special attention which it deserves as a great measure of reform affecting the Metropolis.

## XXXVI. Municipal Reference Library.

On the 4th of October, 1887, the Vestry had under consideration a proposal to form a Reference Library for the use of its Members, and the following resolution was unanimously passed thereon :—

“That it be referred to the Legal and Parliamentary Committee to consider and report as to whether any, and, if so, what better arrangements can be made for preserving and utilizing the books and papers acquired by the Vestry from time to time”:—

The Legal Committee have appointed a Sub-Committee who are now preparing a report as to how the proposal may best be carried out.

---

## XXXVII. Metropolitan Board of Works Inquiry.

Upon the motion of Mr. MARK H. JUDGE, the Vestry in August, 1887, unanimously passed the following resolution :—

“That in the opinion of the Vestry, the serious charges which have been brought against the Assistant Surveyor Robertson, by a section of the Metropolitan Board of Works, involve the conduct of the Board itself, and ought to be the subject of a public enquiry, and this Vestry therefore cordially approves of the Motion of which its Representative, Mr. THOMAS G. FARDELL, has given notice, viz. :—‘That the Government be requested to appoint a Commission to enquire into the past and present system of this Board (the Metropolitan Board of Works), in reference to its dealings with surplus lands, or any other lands, and other matters collateral thereto :’”—

A copy of the resolution was sent to each Vestry and District Board in the Metropolis, as well as to the Metropolitan Board of Works. The majority of the bodies referred to expressed their approval of the resolution. The steps taken by the Vestry, supported in the House of Commons by the Member for South Paddington, Lord Randolph Churchill, led to the appointment of the Royal Commission of Inquiry into the working of the Metropolitan Board of Works, and the alleged irregularities connected with the said Board.

---

### XXXVIII. Baths and Wash-houses Inquiry.

In consequence of the absconding of the Superintendent of the Baths and Wash-houses, and alleged defalcation in the Accounts, a Special Committee was appointed by the Vestry in December, 1887, to inquire into the affairs of the institution. The Inquiry was a very exhaustive one, and the Report of the Committee which was published on March 19th, 1888 (consisting of 146 pages), furnished information on various matters connected with the administration of the Baths, including the following:—

List of Commissioners from the commencement.

The Accounts in detail from the opening of the Baths.

The Annual Statements of Accounts.

The Bye Laws.

Returns from Paddington and ten other Metropolitan Baths.

Resolutions of the Vestry authorising the Commissioners to pay Salaries.

The Minutes of the Commissioners.

The Auditors—Correspondence and Reports.

The Defalcations.

The Loan of £48,500.

The Baths and Wash-houses Acts.

The Report was ordered by the Vestry to be entered on the Minutes of its proceedings, where it may be seen by any Ratepayer.

---

## XXXIX. Meetings of the Vestry and its Committees.

During the year ending March 25th, 1888,  
**36** Meetings of the Vestry have been held.

Of the Standing Committees there have been Meetings as follows:—

Works Committee, 34 Meetings.

Finance Committee, 23 Meetings.

Sanitary Committee, 22 Meetings.

Legal Committee, 21 Meetings.

The Assessment Committee held 9 Meetings.

Three Special Committees have been appointed during the year, and have held meetings as follows:—

Burial Ground Improvement Committee,  
3 Meetings.

Tramway Joint Committee, 2 Meetings.

Baths Investigation Committee, 31 Meetings.

Total number of Meetings held during the year, exclusive of Sub-Committees, **181.**

---

## XL. Preparation of the Report.

This Report was prepared under the direction of a Special Committee, appointed by the Vestry for the purpose in June, 1888. The following is the section of the Metropolis Local Management Act of 1855 (18 & 19 Vic., cap. 120), under which it is published, viz. :—

198 “Every such Vestry as aforesaid and District Board shall, in the month of June in every year, cause to be printed the said account in abstract and summary statement for the preceding year, relating to such Vestry or Board, and also make and cause to be printed therewith a report of their proceedings in the execution of this Act, and of the works commenced and completed respectively in the preceding year by such Vestry or Board, and the works remaining in progress at the termination of such year, and also of any proceedings taken by them or under their authority in the preceding year in pursuance of any regulations of the general Board of Health for the time being in force, or otherwise, for the removal of nuisances or the improvement of the sanitary condition of their parish or district; and to every such report

there shall be appended a copy of every report made to such Vestry or Board during the preceding year by the officer or officers of health for their parish or district; and every such Vestry and Board shall in the said month of June send a copy of every such account in abstract, statement, and report, together with a printed list of the names and addresses of the members of such Vestry and Board, and of their officers, to the Metropolitan Board of Works; and every Vestry and District Board shall permit inspection at their office of a copy of any such account in abstract, statement, and report by any ratepayer in their parish or district, without payment, at all reasonable times, and shall also permit the like inspection by the public generally of such list of officers; and copies of such account in abstract, statement, and report, and list of officers, shall be delivered to any person applying for the same, on payment of such reasonable sums, not exceeding 2d. for each such copy, as may be fixed by such Vestry or Board in this behalf."

Printed and Published by Order of the Vestry  
of Paddington.

FRANK DETHRIDGE,

*Vestry Clerk.*

VESTRY HALL, HARROW ROAD,

*June 30th, 1888.*

are shall be appended a copy of every report  
also to any other or others during the preceding  
year or years; and every such report and  
copy shall be in the said month of June and a copy  
of every such account in abstract statement, and  
short, together with a printed list of the names  
of addresses of the members of such Vestry and  
ward, and of their officers, to the Metropolitan  
Board of Works; and every Vestry and District  
ward shall permit inspection at their office of a  
copy of any such account in abstract statement, and  
report by any ratepayer in their parish or district  
without payment, at all reasonable times, and shall  
also permit the inspection by the public  
of any such list of officers and copies of  
any accounts in abstract statement and reports  
and list of officers, shall be delivered to any person  
paying for the same or payment of such report  
the sum of one shilling for each such copy, or  
may be fixed by such Vestry or Board in this behalf.

## REPORT

OF THE

## MEDICAL OFFICER OF HEALTH

*For the Year 1887.*

---

*To the Vestry of the Parish of Paddington.*

GENTLEMEN,

During the fifty-two weeks of the registration year ending 31st December, 1887, 2,916 births, and 2,023 deaths were registered in Paddington.

### *Births.*

Of the 2,916 births, comprising 1,488 male and 1,428 female children, 2,368 — 1,214 males and 1,154 females — were registered in St. Mary's, and 548 — 274 males and 274 females — in St. John's Sub-district.

The proportion of the sexes of the children born in the Parish during the year 1887 was 100 males to 96 females, whereas in the Metropolis it was 100 males to 97 females.

In St Mary's Sub-district the proportion was 100 males to 95 females, and in St. John's 100 males to 100 females.

The births were most numerous during the first and least so in the second quarter of the year.

The ratio of births to the entire population of the Parish was 1 to every 39 inhabitants, or 25·5 per 1,000 persons of all ages.

In St. Mary's Sub-district the ratio of births to the population was 1 to every 33 persons living, or 30·5 per 1,000 inhabitants.

In St. John's the ratio of births to population was 1 to 67, or 14·9 per 1,000 inhabitants.

Some of the preceding particulars are shown in the subjoined table :—

Sub-District.	Estimated Population.	Births.	Ratio of Births to Population.	Rate per 1,000.
St. Mary's .. ..	77,578	2,368	1 to 33	30·5
St. John's .. ..	36,884	548	1 to 67	14·9
Paddington .. ..	114,462	2,916	1 to 39	25·5

The Birth-rate for London was ... .. 31·7 per 1,000

„ „ „ England & Wales was... 31·4 „

*Deaths.*

As already stated, 2,023 deaths were registered in Paddington. But of these 305 deaths—272 in St. Mary's Hospital, 29 in the Children's Hospital, and 4 in the Lock Hospital—were of non-parishioners, and are therefore not dealt with in this Report.

Deducting these it will be seen that 1,718 parishioners actually died in Paddington. To this number (1,718) must be added the deaths within the year of 67 parishioners in extra-parochial hospitals and public institutions, making a corrected total of 1,785 deaths—850 males and 935 females—equivalent to an annual death-rate of 15·6 per 1,000 inhabitants.

The natural increase of the population from the excess of births over deaths was 1,131 as compared with 989 in the previous year.

Of the 1,785 deaths, 1,346 occurred in St. Mary's and 439 in St. John's Sub-district. The deaths in St. Mary's include 70 deaths—29 males and 41 females—in the Workhouse, and 111 deaths—70 males and 41 females—in the Paddington Infirmary.

The deaths were most numerous during the first, and least so in the second quarter of the year.

The following table shows the ratio of deaths to the population, together with the death-rate per 1,000

of the population of the parish and of its two Sub-districts :—

Sub-District.	Estimated Population.	Deaths.	Ratio of Deaths to Population.	Rate per 1,000.
St. Mary's .. ..	77,578	1,346	1 to 58	17·4
St. John's .. ..	36,884	439	1 to 84	11·9
Paddington .. ..	114,462	1,785	1 to 64	15·6

In 1887 the Death-rate was in London ...	...	19·6
Do. do. in Edinburgh ...	...	19·8
Do. do. in Glasgow ...	...	23·2
Do. do. in Dublin ...	...	30·6
Do. do. in England & Wales	...	18·78

The death-rate in London—19·6 per 1,000 inhabitants—was, the Registrar-General remarks, “the lowest rate recorded since the present system of civil registration began, and, moreover, the two next lowest were those recorded in the two immediately preceding years, 1885 and 1886, when the figures were respectively 19·8 and 19·9.”

The death-rate from all causes in each one of the five groups of districts into which London is divided is shown as under :—

North Districts	...	...	...	17·7
West „	...	...	...	18·0
South „	...	...	...	18·7
East „	...	...	...	21·9
Central „	...	...	...	26·2

The subjoined figures showing the number of deaths from all causes in Paddington during each of the last ten years may be more intelligible to some than if expressed in the form of a death-rate:—

Years.					No. of Deaths.
1878	...	...	...	...	1,761
1879	...	...	...	...	1,939
1880	...	...	...	...	1,667
1881	...	...	...	...	1,679
1882	...	...	...	...	1,766
1883	...	...	...	...	1,762
1884	...	...	...	...	1,802
1885	...	...	...	...	1,877
1886	...	...	...	...	1,909
1887	...	...	...	...	1,785

When considering these figures, not only must the annual increase of population (averaging more than 1,000 a year) be borne in mind, but also the fact that since 1885 the deaths of parishioners in out-lying Public Institutions have been included. The 67 deaths of parishioners—51 from St. Mary's and 16 from St. John's Sub-District—which occurred in 1887 in the following extra-Parochial Hospitals and Institutions, are throughout this Report dealt with in the same manner as if they had actually taken place in the Parish, and are assigned in the Tables to the Sub-districts from which the deceased were admitted:—

Bethlem Royal Hospital ...	1	St. George's Hospital ...	4
Brompton „ ...	4	St. Thomas's „ ...	1
Chelsea Hospital for Women	1	Station Hospital, Vincent	
French „ (Soho) ...	2	Square ...	1
Guy's „ ...	1	South Eastern Fever Hosp.	3
King's College Hospital ...	3	Western Fever „ ...	9
London „ ...	2	West London „ ...	1
London Fever „ ...	1	Aged Pilgrims' Asylum ...	1
Middlesex „ ...	2	Bethnal House Asylum ...	13
New Hospital for Women,		Camberwell House Asylum	1
Marylebone Road ..	1	Hoxton House Asylum ...	1
Northern Fever Hospital...	1	Lying-in House, Gunter's	
North London Consump-		Grove ...	1
tion Hospital ...	2	Westminster Union Work-

Royal Free Hospital ...	1	In an Omnibus ...	1
St. Elizabeth's „ ...	1		

TABLE III.—Mortality at different Ages.

Sub-Districts,	Under 1 Year.	Under 5 Years.	65 Years and Upwards.	Percentage of Deaths of Infants under 1 year to Registered Births.	Percentage of Deaths of Children under 5 years of Total Deaths.
St. Mary's ..	307	475	312	12·96	35·3
St. John's ..	50	89	116	9·1	20·3
Paddington ..	357	564	428	12·2	31·6

During the year there were 357 deaths of infants under one year, 564 of children under five years of age, and 428 of persons aged 65 years and upwards.

The rate of infantile mortality in Paddington was 122 to 1,000 registered births. In London the

infantile death-rate was 158, and in the 27 largest provincial towns it ranged from 142 in Derby to 214 in Preston. In England and Wales it was 145.

### ZYMOTIC DISEASES.

*Small-pox* caused no death in Paddington. During the first quarter of the year 1 case was removed from St. Mary's Sub-district to one of the hospitals of the Metropolitan Asylums Board. No other case came under the notice of the Inspectors. In London there were 9 deaths.

On October 10th, 1887, a child from St. Mary's Sub-District suffering from Scarlet Fever was admitted into the South-Eastern Hospital. On November 4th it was transferred to the small-pox wards of the same Hospital, and died on November 5th.

*Measles* caused 33 deaths—30 in St. Mary's Sub-district, and 3 in St. John's—equivalent to an annual rate of 0·29 per 1,000 inhabitants.

In London the rate was 0·69.

*Scarlet Fever* caused 35 deaths—32 were of parishioners of St. Mary's Sub-district, and 3 of parishioners of St. John's—equivalent to an annual death-rate of 0·31 per 1,000 inhabitants. 227 cases—206 from St. Mary's and 21 from St. John's Sub-district—were removed to the hospitals, 220 being sent to the Asylums Hospitals and 7 (not at the expense of the Parish) to the London Fever Hospital.

In London the rate was 0·34 per 1,000.

*Diphtheria* caused 27 deaths—16 in St. Mary's and 11 in St. John's Sub-district—equivalent to an annual rate of 0·24 per 1,000 inhabitants. All the houses in which the deaths occurred were carefully inspected. 12 of them were in a fair sanitary condition. In 5 houses bell-traps were the only sanitary defects observed; in 2 the soil pipe was perforated, in 2 the drainage was defective throughout, in 1 the cistern overflow pipe opened into the D trap of W.C., in another the water supply to W.C. was insufficient, and in the remaining houses there were defective brick connections and untrapped surface inlets. In 4 cases the disease was believed not to have been contracted in Paddington.

In London the rate was 0.23.

*Whooping Cough* caused 19 deaths, 14 in St. Mary's and 5 in St. John's Sub-district—equivalent to an annual rate of 0·17 per 1,000 inhabitants.

In London the rate was 0·70.

*Fever (Typhoid)* caused 10 deaths—8 in St. Mary's and 2 in St. John's Sub-district—equivalent to an annual rate of 0·09 per 1,000 inhabitants. In 3 of the cases the disease was not contracted in Paddington. The houses in which the deaths occurred were with two exceptions in a fair sanitary condition. In these the house drains were badly constructed, with irregular fall, open joints, and imperfect connections.

In London the rate was 0·16.

*Diarrhœa* caused 63 deaths—54 in St. Mary's and 9 in St. John's Sub-district—equivalent to an annual rate of 0·55 per 1,000 inhabitants. 53 of the deaths were of infants under one year of age, and 59 of children under 5 years. 2 of the 63 deaths were certified as "Choleraic *Diarrhœa*."

In London the rate was 0·90.

### *The Scarlet Fever Epidemic.*

In the latter half of the year 1887 Scarlet Fever, which had prevailed somewhat extensively in the Metropolis since the summer of 1886, assumed epidemic proportions.

Reference to the statistics of the Metropolitan Asylums hospitals, the most trustworthy index of the extent of the disease in London, shows that the number of patients under treatment for scarlet fever in the various hospitals of the Board was

592	on	November	20th,	1886
476	„	July	2nd,	1887
633	„	July	28th,	„
842	„	August	25th,	„
1443	„	September	22nd,	„
2269	„	October	20th,	„
2789	„	November	23rd,	„

when the maximum number was attained. From that date there was a gradual but steady diminution, the latest return giving 895 on June 23rd, 1888, as the

number under treatment. The epidemic may, therefore, be said to have commenced in the beginning of July, 1887, to have attained its full development in November of that year, and gradually to have declined from January to June of this year.

Much misapprehension existed as to the character of the epidemic. Whilst the returns published daily of the number of cases admitted for treatment into the hospitals of the Metropolitan Asylums Board countenanced the idea that an epidemic much severer than previous ones existed in the Metropolis, the weekly death returns of the Registrar-General gave no indication of there being any epidemic at all.

This apparent discrepancy was owing to two causes.

In the first place the disease was of a very mild type, so that whilst attacking many it killed but few, and thus did not appreciably affect the Scarlatinal death rate. This was 0·34 per 1,000 living in 1887, as compared with 0·17 per 1,000 living in 1886, and 0·18 per 1,000 living in 1885, and 0·47 per 1,000 living in the preceding decennial period.

Thus, although the mortality from scarlet fever was higher in 1887 than in the two preceding years, it was 28 per cent. below the decennial average.

In the second place the magnitude of the number applying for treatment in the hospitals of the Asylums

Board was due in great measure to the increased facilities now existing for the removal of patients to the hospitals, and to the growing tendency on the part of Londoners to avail themselves in the case of scarlet fever of the means of isolation afforded by the Metropolitan Asylums Hospitals. This tendency is shown by the increasing proportion borne by the hospital deaths to the deaths outside those institutions. Thus in 1878 the deaths from scarlet fever in the London Fever Hospital and Metropolitan Asylums Hospitals were only 7 per cent. of the whole mortality from that disease in London, in 1879-82 they were from 9 to 11 per cent., in 1883 the percentage rose to 13·2, in 1884 to 17·6, in 1885 to 20·2, in 1886 to 22·7, while finally in 1887 it reached the high figure of 36·6 ; that is to say, considerably more than a third of the deaths from this disease in 1887 occurred in these hospitals. If, as is contemplated, the managers of the Metropolitan Asylums Board be empowered to receive any patient suffering from fever (or smallpox) upon the certificate of any duly qualified medical practitioner, without the intervention of the Relieving Officer or Medical Officer of Health, then it is to be expected that the Hospitals of the Board will be made use of to a still greater extent than hitherto.

As regards the extent of the epidemic in London, assuming that the case-mortality in the hospitals represented the case-mortality of the whole of London,

then the total number of persons attacked by the disease in 1887 may be estimated at 13,841.

Paddington was affected by the epidemic simultaneously with the rest of London.

The total number of deaths of parishioners in 1887 was 35, equivalent to a rate of 0·31 per 1,000 inhabitants, as compared with a rate of 0·34 in London as a whole.

The number of cases of scarlet fever removed from Paddington to the hospitals of the Metropolitan Asylums Board and to the London Fever Hospital was

During the 1st quarter of 1887				...	...	32
"	2nd	"	"	...	...	16
"	3rd	"	"	...	...	55
"	4th	"	"	...	...	124
"	1st	"	1888	...	...	53
"	2nd	"	"	...	...	32

The total number of persons suffering from scarlet fever removed to the hospitals in 1887 was 227. Assuming the case-mortality in the parish to have been the same as in the hospitals, the total number of persons attacked by the disease in Paddington in 1887 may be estimated at 568.

As regards the distribution of the disease in Paddington, of the 227 cases removed to hospital, 206 were from St. Mary's Sub-district and 21 from St. John's. Of the 35 deaths (including those that

occurred in hospitals) 32 were of parishioners of St. Mary's and three of parishioners of St. John's Sub-district.

Now, inasmuch as the population of St. Mary's (77,578) is rather more than double that of St. John's (36,884), the number of persons attacked and the number of deaths in St. Mary's Sub-district should *ceteris paribus* be rather more than double those numbers in St. John's. But it will be seen from the above figures that *ten* times as many persons were attacked and ten times as many persons died in St. Mary's as in St. John's, proving thus the much greater healthiness of the St. John's Sub-district.

The means adopted by the Sanitary Department to limit the spread of the epidemic in Paddington were the same as in other parts of the Metropolis. For information of the occurrence of cases of the disease the department was almost entirely indebted to the medical practitioner in attendance on the patient. On receipt of such information, notification of the name and address of the patient was telegraphed to the managers of the Asylums Board, who at once despatched an ambulance and nurse and removed the patient on the same day to one of their hospitals. Next day the premises were visited by one of the sanitary inspectors of the parish, and the necessary disinfection carried out.

*Disinfection.*

The disinfection of premises and of small articles of clothing and furniture is done without charge by the Sanitary Inspectors. As there is no disinfecting chamber in the Parish, bedding, carpets, and large woollen fabrics belonging to the poor are cleansed and disinfected by Messrs. Armfield, at a cost to the Parish of 30s. per cwt., no charge being made by them for the temporary loan of bedding. During the year  $9\frac{1}{2}$  tons were thus dealt with by Messrs. Armfield, involving an expenditure of £280 2s. 7d. A further sum of £28 19s. 7d. was paid for chemicals and carbolic soap, thus raising the cost incurred by the Sanitary Department for disinfection during an epidemic year to the sum of £309 2s. 2d.

*Canal Basin.*

The Canal Basin was emptied on Saturday, the 9th, and refilled on the 13th April. About 700 tons of mud were removed, and something further done in the way of concreting the bottom of the basin. During the year only one or two complaints were made, and these, on investigation, were found to be caused by foul cargoes in the boats.

*Uncertified Deaths.*

During the year 1886, 537,276 deaths were registered in England and Wales. Of that number 490,264,

or 91.3 per cent. were certified by registered medical practitioners, and 28,690, or 5.3 per cent. were certified by coroners after inquest. The causes of 18,322, or 3.4 per cent. of the total deaths were not certified.

Whilst the proportion of uncertified deaths has steadily declined from 4.7 per cent. of the total deaths in 1879, to 3.5 per cent. in 1885, it has at the same time varied considerably in different localities. Thus in 1886 in the Metropolis, the proportion did not exceed 1.1 per cent. of the registered deaths, whilst it ranged from 1.2 in Wiltshire, to 8.1 in Wales. In 1887 the percentage of uncertified deaths was 1.1 of the total deaths registered in London, whilst in twenty-seven of the largest provincial towns it averaged 3.2, ranging from 1.0 in Portsmouth to 5.0 in Liverpool, 5.9 in Sheffield, and 7.0 in Halifax. In Paddington in 1885 there were no uncertified deaths ; in 1886 there were 2 ; in 1887 there were 3.

The necessity of a complete and authentic registration of deaths has long been recognized. Apart from its manifold bearings upon social life, and the aid which it supplies in the tracing of pedigrees and in facilitating the legal distribution of property, it furnishes those vital statistics which have both a present and a future value as trustworthy indications of the public health, and are the basis, not only of sanitary science, but also of preventive medicine.

Although much benefit has already accrued from the present system it is in many respects imperfect, seeing that some deaths, more particularly those of infants, escape registration altogether. It is however in the matter of the certification of the causes of death, which is the most important branch of vital statistics, that there is the greatest need of improvement. Owing to the loose phraseology employed, vital statistics are deprived of much of their value, one and the same disease commonly appearing under various names. The chances of error and the want of exactness are further increased from the duty of investigation being intrusted to persons ignorant of the names and nature of disease. With the adoption of a uniform system of classification, and greater precision of nomenclature, greater accuracy of the record would be secured, and more correct views obtained of the character, the prevalence, and the modifications of disease.

The most unsatisfactory feature however of the present system is, that in many cases the cause of death is not certified at all. In the more remote parts of the country many old persons, and young children, in consequence of neglect, or of the difficulties of communication, die without any medical attendance whatever, whilst in large manufacturing towns it is often the case, that the attendant during a fatal illness is an unqualified practitioner, who is precluded from giving any certificate of the cause of death.

When a death occurs under such circumstances, information is given to the local registrar, or to the police, who refer the matter to the Coroner. The Coroner directs his officer, who is sometimes a police constable, to make enquiries and report to him. If the circumstances of the death as reported to the coroner do not in his opinion call for an inquest, he so informs the local registrar, who enters the death as arising from natural causes. Thus there having been no inquest, and no medical certificate, the cause of death remains uncertified. Now as the Registrar-General has pointed out, such certificates as "natural causes," "visitation of God," "found dead," &c., are valueless for statistical purposes, and he justly remarks in his forty-fifth annual report "I feel bound to repeat the complaint made in my last report that the class of cases in which more than in any other there is a right to expect careful and complete statement of the cause of death, namely, those cases in which there is public enquiry at public expense into the circumstances attending deaths, by no means fulfils the just expectation."

There is said to be an advantage in employing the Coroner's Officer to make these enquiries, seeing that the greater number of uncertified deaths occur amongst the poor, who are found to give information more readily to anyone of their own class than to a medical man, probably a stranger to them.

On the other hand, there are objections to the present system. The Coroner's Officer in some districts does not see the deceased, and knowing neither more nor less of the symptoms and causes of disease than his informants, he accepts what he is told, and his judgment is likely to be as inaccurate as it is hasty. Moreover, both he and his informants, must often err in regarding as the disease itself what may be after all only a prominent symptom.

The Coroner, moreover, knowing that his officer is ignorant of the nature of disease, and in too many instances not being a medical man himself, does not entirely rely upon the report, and feels bound in many cases to hold inquests which would not have been necessary had the previous inquiry been made by a medical man.

It has been alleged that at present the Coroner gets more information from his own officer in a case of uncertified death, than from the medical man, but this is simply because the medical man does not consider himself authorized to make any enquiry. When he has been called to a case of sudden death, or to a person found dead, he notifies the fact to the Coroner, and at the same time informs him that he is unable to give a certificate of the cause of death; and there his duty ceases.

It cannot be seriously contended that if a medical man were charged with the duty of investigating

the causes of uncertified deaths, which are often obscure, his professional opinion and report would carry less weight with the Coroner, and the community at large, than that of one who had no medical training whatever.

Furthermore, the knowledge that every case of uncertified death was subject to medical investigation, would in some measure deter men from crime, and in some instances lead to its discovery.

Accordingly it has been recently proposed that the Medical Officer of Health for the district should be charged with the duty of enquiring into all uncertified deaths with a view to certify forthwith all such deaths as in his opinion do not require formal inquest by a Coroner and Jury. It is further suggested that to avoid conflict between the Medical Officer of Health and the Coroner the latter should retain the power of ordering an inquest in any case in which representations were made to him.

The obvious and sufficient objection to this proposal which could not be effected without legislation, is that it gives to the Medical Officer of Health the determination as to whether or not an inquest is necessary in the greater number of uncertified deaths, and thus trenches upon the office of the Coroner, whose duty it has been for centuries to enquire into the causes of sudden and violent deaths.

Nevertheless, considerable advantage would follow from the adoption of a modification of the proposal.

If it be conceded that the investigation would be most satisfactorily made by a medical man, there would clearly be no need to create a new appointment, since the Medical Officer of Health is immediately concerned in all that relates to the deaths and the death-rates of the district, and is the fittest person to undertake the duty.

It is not, however, suggested that he should supersede the Coroner's officer, but that his action should be limited to an enquiry into every death occurring without medical attendance in his district, with the view of ascertaining the cause, and of recording it as correctly as is practicable in the present state of medical science.

If this modified proposal were adopted it would naturally follow that the duty of conducting such post-mortem examinations as might be necessary in cases of uncertified deaths would, subject to the authorization of the Coroner, devolve upon the Medical Officer of Health.

Such was the course advocated by the late Dr. Farr, who says that the Medical Officer should be specially qualified to conduct post-mortem examinations, and on being summoned might appear as the medical witness at the inquest. By practice he would acquire

aptitude in the investigation of the obscurer causes of death and in the detection of crime.

It may fairly be assumed that if the Coroner deputed the Medical Officer of Health to investigate all uncertified deaths occurring in his district, a fuller and more reliable enquiry would be instituted, the necessity of holding some inquests would be avoided, and greater accuracy of registration would be secured.

As to making Medical Officers of Health, Superintendent-Registrars of Districts, as vacancies occur, it is not very evident that any advantage would result, seeing that Superintendent-Registrars do not themselves register either certified or uncertified deaths, but merely supervise and attest the correctness of the returns of the local registrars.

---

*Water.*

A remarkably small rainfall during the year 1887 occasioned in many parts of the country great difficulties in maintaining an abundant supply of water, and necessitated in several large provincial towns its limitation to an inconvenient extent in order to obviate the greater calamity of a water-famine. In London the supply throughout the year was fortunately as abundant as usual, and no extra precautionary measures to prevent the daily waste or to limit its consumption were adopted except in the East London Company's district, in which it was for a time necessary to discontinue the constant supply. The average daily quantity of water delivered by the London Companies during the year 1887 was 163,735,855 gallons, of which about 134,263,401 gallons were probably used for domestic purposes. The average quantity used daily for domestic purposes in each house was 185 gallons, corresponding to 23·7 gallons by each person. Of the total quantity 83,809,838 gallons were taken from the Thames, and 79,926,017 from the Lea and from other sources.

Owing to the exceptionally small rainfall the Thames and the Lea were during the year unusually free from floods, and consequently the water taken from them contained but little impurity either in solution or suspension, and was clear and bright, thus maintaining

the general improvement in the quality of the water which has for some years been observed.

The temperature of the water chiefly from the Thames supplied by the Chelsea, West Middlesex, Southwark, Grand Junction, and Lambeth Companies, was practically identical with that of the water chiefly from the Lea, distributed by the New River and East London Companies, and ranged from  $38^{\circ}3$  Fahr. in January to  $68^{\circ}4$  Fahr. in July.

The temperature of the deep well water delivered by the Kent Company varied only from  $54^{\circ}3$  Fahr. in November to  $56^{\circ}3$  Fahr. in July, and is therefore refreshing and palatable in summer and less likely to be frozen in the service pipes in winter.

The largest amount of solid matter, consisting almost entirely of mineral ingredients, principally the salts of lime and magnesia, which are quite immaterial as regards the fitness of the waters for drinking purposes, but render the water hard and unfit for washing, was found in the deep well supplies of the Kent Company and of the Tottenham Local Board of Health. The deep well water furnished by the Colne Valley Company being treated with lime before delivery contains less than one-half of the solid matter in the river waters, and less than one-third of that in the deep well waters, either of the Kent Company or of the Tottenham Local Board of Health.

On the other hand the deep well waters invariably contain much less organic impurity, as they are filtered through porous strata of considerable thickness, instead of through a few feet of sand.

The importance of organic impurity depends upon its origin. Seeing that the rivers Thames and Lea, though pure at their source, receive (especially in the winter months) in their downward course the sewage of towns and the washings of cultivated land, which may at any time contain matter capable of producing zymotic disease, the efforts of the Water Companies to prevent morbid matter reaching the consumer should be supplemented by the enforcement of the laws prohibiting the discharge of sewage into the Thames and Lea.

Of the deep well waters, that supplied by the Kent Company contained least organic matter, whilst of the river waters the New River Company's was the best in this respect; the East London Company's water ranking with the best of the Thames waters.

Paddington is supplied with water by the Grand Junction and West Middlesex Companies, which draw their supplies from the Thames, as do also the Chelsea, the Lambeth, and the Southwark Companies. To Dr. Frankland's Annual Report to the Registrar-General I am indebted for many of the preceding

remarks, and for the Tables A and B showing the condition of the London water.

I have the honour to be,

Gentlemen,

Your obedient Servant,

JAMES STEVENSON,

*Medical Officer of Health.*

VESTRY HALL, PADDINGTON,

*June, 1888.*

---

\* \* Tables appended to this Report :—

A., B., I., II., III., IV., V., and VI.

TABLE A.

Taking the mean proportion of organic impurity in the Thames water delivered in London in 1868 as 1,000, in the subsequent years the following proportions were present respectively in the Thames water and in the Lea water, the latter being delivered by the New River and East London Companies :—

Year.				Proportion of organic impurity present in Thames water as delivered in London.	Proportion of organic impurity present in Lea water as delivered in London.
1868	..	..	.	1,000	484
1869	..	..	..	1,016	618
1870	..	..	..	795	550
1871	..	..	..	928	604
1872	..	..	..	1,243	819
1873	..	..	..	917	693
1874	..	..	..	933	583
1875	..	..	..	1,030	751
1876	..	..	..	903	562
1877	..	..	..	907	596
1878	..	..	..	1,056	747
1879	..	..	..	1,165	947
1880	..	..	..	1,254	1,013
1881	..	..	..	993	765
1882	..	..	..	1,033	711
1883	..	..	..	850	620
1884	..	..	..	723	500
1885	..	..	..	839	603
1886	..	..	..	756	500
1887	..	..	..	690	473

TABLE B.

TABLE showing the efficiency of filtration of Thames and Lea water, also the maximum, minimum, and average proportions of organic impurity in the water delivered by the different Companies during the year 1887 :—

Names of Companies and Sources.	Number of occasions when clear and trans- parent.	Number of occasions when slightly turbid.	Number of occasions when turbid.	Number of occasions when very turbid.	Proportion of Organic Impurity.		
					Maximum.*	Minimum.*	Average.*
<i>Thames.</i>							
West Middlesex ..	12	0	0	0	5·5	2·1	2·9
Grand Junction ..	11	1	0	0	6·1	0·9	2·6
Lambeth .. ..	12	0	0	0	5·7	1·9	2·8

1877	65,190	37,630	13,032	2,226	695	1,220	486
Average of } 10 years, 1877-1886 }	70,587	37,293	13,979	2,252	653	1,305	482

## NOTES.

1. *Population at Census, 1881, 107,218.*
2. *Area in Acres, 1,280.*
3. *Average No. of Persons in each House at Census, 1881, 8.1.*

\* For statistical purposes the Registrar-General estimates the population to the middle of the year on the basis of the rate of increase ruling between the two preceding Census periods. The estimate of population may be checked by the known number of inhabited houses, and by the average number of inmates per house, as ascertained at the preceding Census.

\*\* Since 1876 the deaths of non-parishioners in the public institutions (St. Mary's Hospital, the Lock Hospital, and the Children's Hospital) within the Parish are deducted. Since 1884 the deaths of parishioners in outlying public institutions of the Metropolis are included.

TABLE II.

TABLE showing the Annual Birth Rate, Rate of Mortality, Death Rates among Children, and Deaths in Public Institutions for the Year 1887, and 10 Years preceding :—

Year.	Birth Rate per 1,000 of the Population.	Annual Rate of Mortality per 1,000 living.	Deaths of Children under 1 year ; percentage of Total Deaths.	Percentage of Deaths of Children under 1 year to Registered Births.	Deaths of Children under 5 years ; percentage of Total Deaths.	Total Number of Deaths in Public Institutions.		
						Saint Mary's Hospital.	The Lock Hospital.	The Children's Hospital.

Botting's Plugs.

## APPENDIX No. IV.

---

### BYE-LAWS OF THE VESTRY.

*Adopted January 10th, 1888;*

*Confirmed January 17th, 1888.*

---

#### 1.

##### ORDINARY MEETINGS.

The ordinary meetings of the Vestry shall be held on the first and third Tuesdays in every month, at half-past nine o'clock in the morning; but no such Meeting shall be held after the first Tuesday in August, until the third Tuesday in September.

#### 2.

##### SPECIAL MEETINGS.

Special Meetings of the Vestry shall be convened by the Vestry Clerk when ordered by the Vestry, or on receipt of a requisition signed by not less than five Members of the Vestry, in accordance with the Metropolis Local Management Act, 1855; also in every case of a notice being given under Section 76 of the said Act, in time to enable the Vestry to make the necessary order in relation thereto, unless an ordinary meeting of the Vestry will be held within the period of fourteen days after service of such notice.

## 3.

### AGENDA AND NOTICE OF MEETINGS— SUPPLEMENTAL AGENDA.

**A.** An Agenda of the business to be brought forward at each meeting of the Vestry, shall be inserted in the notice convening the same, with each item of business numbered in consecutive order; a copy of such notice and Agenda shall be affixed on the Notice Board in the Vestry Hall, and a copy sent to each member of the Vestry.

**B.** The Vestry Clerk shall prepare at least four copies of a Supplemental Agenda Paper, which shall be placed on the Vestry Table immediately after the signing of the minutes by the Chairman, at the ordinary meetings of the Vestry. The notices in the Supplemental Agenda Paper, shall be confined to such matters as, in the opinion of the Vestry Clerk, require the immediate attention of the Vestry.

## 4.

### ADMITTANCE OF STRANGERS.

Ratepayers and authorised representatives of the press shall be admitted to all meetings of the Vestry, except when otherwise ordered by the Vestry.

## 5.

### COMMENCEMENT OF PROCEEDINGS.

At all meetings the chair shall be taken at the precise hour specified in the notice convening the meeting, or as soon after as the statutory quorum of nine members is assembled; but if nine members be not assembled within half an hour after the time appointed for the meeting, no meeting shall be held on that day.

## 6.

### ORDER OF PROCEEDINGS.

The order of business at all Ordinary and Special Meetings of the Vestry shall be as follows, viz. :—

**A.** In the absence of the Chairman of the Vestry, to elect a Chairman.

**B.** To read and sign the Minutes of all preceding meetings which have not been signed.

**C.** To open tenders.

**D.** Nominations and Elections for Standing Committees; Assessment Committee; Churchwardens; Overseers; Representatives on the Metropolitan Board of Works; Burial Board; and Commissioners of Baths and Wash-houses.

**E.** The Acts of the Standing Committees of the Vestry according to a regular rota, giving precedence to the Acts of each of such Committees in turn. Building notices and matters deemed urgent by the Chairman or Vice-Chairman of such Committees to be taken at the conclusion of the business of the Committee to which they have reference. At the meetings of the Vestry, the Chairman shall call out the number of the Acts of the Committees in their consecutive order, and the Vestry shall be deemed to have approved the same, unless some member desires a vote to be taken, in which case the Act of the Committee in question shall be put to the vote in the same manner as if its approval had been proposed and seconded as an ordinary motion.

**F.** The Reports or Acts of Joint Committees.

**G.** Communications from the Metropolitan Board of Works.

**H.** Communications from Imperial Authorities.

**I.** Communications from the Parliamentary Representatives of the Borough of Paddington.

**J.** Reports or Acts of Special Committees.

**K.** Notices of Motion.

**L.** Communications from Officers of the Vestry.

**M.** Communications intended for the Vestry from rate-payers of Paddington.

**N.** Communications from Local Authorities.

**O.** General Communications intended for the Vestry.

**P.** Matters which may be on the Supplemental Agenda at Ordinary Meetings.

## 7.

## ADJOURNMENTS.

**A.** All meetings of the Vestry, whether ordinary or special, shall close at one o'clock, p.m., except for the purpose of fixing the time to which the Vestry shall adjourn if an adjournment be deemed necessary, and, if not agreed upon by 1.15, p.m., the chairman shall fix the day and hour.

**B.** All adjourned business shall be placed on the Agenda in the order set forth in the Bye-law regulating the order of proceedings, and at the beginning of the new business under each head, unless otherwise ordered at the time of adjournment.

## 8.

## PRINTED PAPERS.

All printed papers which have been sent to each member of the Vestry two days previous to the meeting at which such papers may come on for consideration, shall be taken as read.

## 9.

## MOTIONS WITHOUT NOTICE.

Motions (whether original or by way of amendment), dealing with matters included in the Agenda, or Supplemental Agenda, may be moved without notice, but every such motion not included in the printed Agenda, shall, when required by the Chairman, be handed to him in writing.

## 10.

## MOTIONS WITHOUT NOTICE AND WITHOUT DISCUSSION OR DIVISION.

The following motions may be made, without previous notice, and no speech, remark, or debate, shall be permitted on any of them—provided always, that in case of emergency the grounds for the motion may be explained shortly by the Chairman, or by some member at his request, and the question shall

be forthwith put by the Chairman and it shall be decided by show of hands without a division, unless at least ten members vote against the motion—that is to say:—

- A.** To appoint a Chairman.
- B.** To alter the order of business.
- C.** To adjourn the meeting, debate, or consideration of any motion or subject on the Agenda.
- D.** “To proceed to the next business.”
- E.** To suspend a Bye-law. (See “Suspension of Bye-laws.”)
- F.** To permit a person to address the Vestry.
- G.** To receive a deputation.
- H.** To temporarily adjourn in order to hold a Special Meeting, of which due notice has been given.
- I.** To permit a member to propose an original motion in the absence of the member who has given notice for such motion.

## 11.

### MOTIONS WITH NOTICE.

**A.** Every original motion, except as provided for in any other Bye-law, shall be sent in writing to the Vestry Clerk, at least four days before the meeting, duly signed by the member intending to propose it, and every original motion of which such notice has been given shall be inserted in the printed Agenda paper, but not so as to include any recital, statement, document, remark, or argument, prefacing or leading up to the motion, or incorporated or connected therewith, which the written notice may contain, and if in the opinion of the Vestry Clerk, any notice of motion infringes this Bye-law, it shall be his duty to omit so much of the notice as shall appear to him to do so.

**B.** In case of the absence of any member who has given notice of motion, another member may move it at his request, or, failing this, any member may move it by permission of the Vestry.

**C.** If a motion, of which notice is duly inserted in the Agenda paper, be not moved at the meeting when it is reached, unless postponed by leave of the Vestry, such motion shall be considered as dropped, and shall not be again moved without fresh notice.

**D.** When a motion has been considered and negatived by the Vestry, it shall not be competent for any member of the Vestry to introduce the same motion, or a motion, which in the opinion of the chairman, is substantially the same, within a period of six months next ensuing.

## 12.

### LIMITATION OF SPEECHES.

**A.** Whenever a member has addressed the Vestry for eight minutes, it shall be competent for the Chairman to inform the Vestry that in his opinion it is the evident sense of the Vestry that the member has addressed the Vestry at sufficient length upon the question under consideration, and any two members may then propose and second a motion (without remark or debate) "That the speaker be no longer heard," and thereupon the Chairman shall put it to the vote, and it shall be decided by show of hands, and no division shall be taken unless at least ten members vote against the motion.

**B.** No member other than the mover of an original motion included in the printed Agenda paper shall be permitted to speak a second time on the same motion.

## 13.

### CLOSING A DEBATE.

Whenever it shall appear to the Chairman that a motion (or an amendment) has been adequately discussed, and that it is the evident sense of the Vestry that the question be now put, he may so inform the Vestry, whereupon it shall be competent for any two members to propose and second a motion, but without remark or debate, "That the debate on that motion (or that amendment) be now closed;" and thereupon the Chairman shall put it to the vote, and it shall be decided by show of hands, and no division shall be taken unless at least ten members vote against the motion.

**14.****THE RULING OF THE CHAIRMAN.**

**A.** The ruling of the Chairman on all points of order shall be accepted as final by the meeting, and such ruling can only be discussed at the following meeting of the Vestry, after notice of motion, and then only with the permission of the Vestry.

**B.** Whenever the Chairman has called a speaker to order, and subsequently "named" him, it shall be competent for any two members to propose and second a motion, but without remark or debate, "That the speaker, having been 'named' by the Chairman, be no longer heard upon the question before the Chair:" whereupon the Chairman shall put the motion to the vote, and it shall be decided by show of hands, and no division shall be taken unless at least ten members vote against the motion.

**15.****DIVISIONS.**

The ordinary manner of deciding a question, except as provided by any other Bye-law, shall be by show of hands; but where not expressly precluded from doing so by any other Bye-law, any member, if less than fifteen members are present, or any five members if fifteen or more than fifteen are present, may stand up and call for a division, and in such case the Chairman shall appoint one teller for each side, who must give the Chairman the names and number of the members voting on the side which they respectively tell, and the Vestry Clerk shall give the names of all members present after the tellers are appointed, and not voting on either side; provided, however, that it shall be competent for any member of the Vestry when he has called for a division, and a division has not been granted upon giving his name to the Chairman in writing, stating in which way he votes, to have the same recorded upon the minutes.

**16.****STANDING COMMITTEES.**

**A.** There shall be four Standing Committees of the Vestry, as follows, viz.:—The Works Committee; the Finance Com-

mittee; the Sanitary Committee; and the Legal Committee. Each Standing Committee shall have power to act until its successor has been appointed.

**B.** The Works Committee shall consist of twenty-five elected members, and the other three Standing Committees shall each consist of sixteen elected members. In addition to the elected members, the Churchwardens, the Overseers, and the Representatives of the Vestry on the Metropolitan Board of Works shall be *ex officio* members of each Standing Committee. With the exception of the *ex officio* members, no one shall be a member of more than two of the Standing Committees.

**C.** At the first meeting of the Vestry, after the Vestry election in May, the nomination of candidates for the Standing Committees shall take place immediately after the reading of the minutes and the opening of the tenders; and at the next meeting of the Vestry the election shall be proceeded with. No member shall be nominated for any committee unless the member nominating him has reason to believe that he is willing to serve. No member may nominate a larger number of persons than would suffice to fill up the existing vacancies, and after the nomination no name shall be withdrawn without the permission of the Vestry.

**D.** The election of each Standing Committee shall be conducted as follows:—The voting to be by show of hands, at the conclusion of which any member may demand a poll, which is to be taken forthwith. When a poll is demanded, the voting shall be by voting papers, supplied by the Vestry, each of which must contain a list of all the nominees, and on which each member voting is to strike out the name of every nominee for whom he declines to vote, leaving the names of as many nominees as he chooses to vote for, not exceeding the number to be elected. Every voting paper must be signed, and every voting paper not signed, or on which the number of names left standing exceeds the prescribed number, shall be rejected. Ties, if any, to be decided in a similar manner. As soon as the names of all the nominees have been voted on, and the ties, if any, decided, the election to be over, and the Chairman shall announce the names of so many of the nominees, who have

obtained the greatest number of votes, as will make up the number of members to be elected, and shall declare those nominees elected for the ensuing year.

**E.** Notice of every vacancy in any of the Standing Committees shall be placed on the Agenda Paper for the Vestry meeting to be held next after such vacancy has occurred, and the nomination of candidates to fill up the vacancy shall take place at such meeting, and the voting for the nominees at the next ensuing meeting of the Vestry, the voting to be in the same manner as at the annual election of members of the Standing Committees.

## 17.

### SPECIAL COMMITTEES.

Whenever the Vestry resolves to appoint a Special Committee, the members to form such Committee shall be at once nominated and elected, unless otherwise directed by the Vestry, and the voting shall be by show of hands, or poll, if demanded by five members, when the poll shall be taken as prescribed by Bye-law regulating the election of Standing Committees.

## 18.

### PROCEEDINGS OF COMMITTEES.

**A.** The proceedings of all Committees, whether Standing Committees or Committees appointed for any special purpose, shall be fairly entered in a book, and signed by the Chairman.

**B.** The Standing Committees shall be competent to call before them and to consult any of the Officers of the Vestry.

**C.** Every Committee to whom a matter has been referred shall be convened within one month to consider the same, and shall report thereon to the Vestry within three months next after such reference has been ordered, or within such other time as may be fixed by the Vestry, and if no report be submitted to the Vestry before the expiration of such three months, or such other time as aforesaid, it shall be incumbent on the Vestry Clerk to place on the next Vestry Agenda Paper a notice to that effect, and if after this notice has appeared on

the Agenda Paper no report be presented by the next ordinary meeting of the Vestry, the reference shall be deemed to be discharged, and a report that the reference has thus been discharged shall be made to the Vestry by the Vestry Clerk.

## 19.

### CHURCHWARDENS, OVERSEERS, AND THE REPRESENTATIVES ON THE METROPOLITAN BOARD OF WORKS.

**A.** The nomination and election of Churchwardens shall take place on the Tuesday following Easter Tuesday in each year at a meeting of the Vestry, to be convened for that purpose, if there be no ordinary meeting of the Vestry on that day.

**B.** The nomination of Overseers shall take place at the first meeting of the Vestry in April in each year.

**C.** Notice of any vacancy, or approaching vacancy, in the representation of the Vestry on the Metropolitan Board of Works, shall be placed on the Agenda Paper issued next after such vacancy, or approaching vacancy, has been notified to the Vestry Clerk, and the nomination and election of a representative to fill up the vacancy shall take place at the next ensuing Ordinary or Special meeting of the Vestry.

**D.** The voting for the election of Churchwardens, nomination of Overseers, and election of Representatives on the Metropolitan Board of Works, shall be by show of hands, or poll, if demanded, as prescribed by Bye-law regulating the election of Standing Committees.

## 20.

### ASSESSMENT COMMITTEE, BURIAL BOARD, AND THE COMMISSION OF BATHS AND WASH-HOUSES.

Notice of every vacancy or approaching vacancy in the Assessment Committee or the Burial Board, or the Commission of Public Baths and Wash-houses, shall be placed on the Agenda paper, for the Vestry meeting to be held next after such vacancy or approaching vacancy has been notified to the Vestry

Clerk, and the nomination of candidates to fill up the vacancy shall take place at such meeting, and the voting for the nominees at the next ensuing ordinary or special meeting of the Vestry, such voting to be by show of hands, or poll if demanded, as prescribed by Bye-law regulating the election of Standing Committees.

## 21.

### WORKS DEPARTMENT.

**A.** All money paid into the hands of the Surveyor or of the Accountant, shall be deposited in the Bank appointed by the Vestry from time to time, and credited to an account to be opened in the names of the Vestry Clerk, the Surveyor, and the Accountant. As soon as the sum in the hands of the Surveyor or the Accountant amounts to £20, it shall be forthwith paid in. All sums drawn out of such account shall be drawn upon the joint signatures of the Vestry Clerk, the Surveyor, and the Accountant.

**B.** All matters connected with the paving of streets under the Metropolis Local Management Acts, and the duties relating thereto, shall be performed by the Works Department.

**C.** The list of duties for the government of the Surveyor's office shall be entered in a book and signed by the respective officers, and such signatures shall be evidence of the knowledge by the officers of their duties, and the said book shall be laid on the table at all ordinary Vestry meetings and all meetings of the Works Committee.

**D.** All cheques drawn for weekly wages shall be drawn to the order of the Accountant or "Checking Clerk."

## 22.

### FINANCE.

**A.** The Vestry Clerk shall lay before the Vestry at the first ordinary meeting in each month, a statement shewing the Treasurer's account and the financial condition of the Parish, and the said statement shall be sent to each member with the agenda for that meeting.

**B.** All payments for weekly wages shall be reported to the Vestry at the meeting next after such payment has been made.

**C.** All payments of £5 and upwards shall be made by cheque, payable to order, and no such payment, except for weekly wages, shall be made till the account has been recommended by the Finance Committee, and ordered for payment by the Vestry, and all cheques shall be signed by three members of the Vestry, and countersigned by the Vestry Clerk.

## 23.

### PUBLIC HEALTH STATUTES.

**A.** The Sanitary Committee shall be the Committee appointed by the Vestry to exercise the powers and act for the purposes mentioned in the fifth section of the Nuisances Removal Act for England, 1855 (18 and 19 Vict. c. 121).

**B.** The Medical Officer shall be competent to put in force the 22nd sec. of the Sanitary Act, 1866 (29 and 30 Vict. c. 90), for enforcing the disinfection of premises in all cases where, in his opinion, the same shall be requisite.

**C.** The Inspectors of Nuisances shall be "Sanitary Inspectors" for the purposes of the Nuisances Removal Acts and Sanitary Acts and the Public Health Acts.

**D.** The Medical Officer, and at least one Inspector of Nuisances, shall attend all meetings of the Vestry when sanitary questions appear on the notice paper convening the meeting of the Vestry, and each of them shall be furnished with a copy of such notice paper.

## 24.

### APPOINTMENT OF OFFICERS.

**A.** At every election to an office of pecuniary profit under the Vestry, each member present and voting shall record his vote on a slip of paper, whereon shall be written the member's name and that of the candidate for whom he votes. If there

be more than two candidates, and no candidate obtain the votes of a majority of the vestrymen present, the names of the two candidates obtaining the greatest number of votes shall be put to a second vote.

**B.** No member of the Vestry shall be eligible as a candidate for any office of pecuniary profit under the Vestry.

**C.** No person who has been a member of the Vestry within twelve months of the date of election to an appointment of pecuniary profit under the Vestry shall be eligible as a Candidate for such appointment.

## 25.

### SUSPENSION OF BYE-LAWS.

In case of urgency any Bye-law of the Vestry may at any time be suspended, without notice, by the vote of a majority of two-thirds of the members present.

---

to more than two candidates, and no candidate obtains the vote of a majority of the registered persons, the number of the two candidates obtaining the greatest number of votes shall be put in a second vote.

B. No member of the Vestry shall be eligible as a candidate for any office of pecuniary profit under the Vestry.

C. No person who has been a member of the Vestry within twelve months of the date of election to an appointment of pecuniary profit under the Vestry shall be eligible as a candidate for such appointment.

## 25.

### RESOLUTION ON BY-LAWS

In case of vacancy any day of the Vestry may be called to order, and the same may be called to order by the vote of a majority of two-thirds of the members present.

# APPENDIX V.

## PADDINGTON VESTRY HALL.

### *Rules and Regulations as to Letting.*

#### REGULATIONS.

- 1st.—All applications for the use of the Hall must be made in writing to the Vestry Clerk, on forms to be obtained at the Hall, stating the nature of the purpose for which it is required.
- 2nd.—The Committee will not consider the Hall engaged until the deposit and charges are paid, and no public announcement is to be made until the Hall is so engaged. None but printed receipts will be considered as valid.
- 3rd.—The person in whose name the Hall is engaged, and whose name is on the application and receipt, shall be held responsible for any damage, whether a deposit is taken or not.
- 4th.—Except by special permission of the Vestry, the Hall will not be let for any Meeting, Lecture, Concert, &c., at which the doors will be required to be open before Seven o'clock in the Evening.

#### Scale of Charges for the Use of the Vestry Hall. (PAYABLE IN ADVANCE.)

# APPENDIX V

## PADDINGTON VESTRY HALL

Rules and Regulations as to Booking

### REGULATIONS

1. All applications for the use of the Hall must be made in writing to the Vestry Clerk, and must be obtained at the Hall, within the limits of the program for which it is required.

2. The Committee will not consider any Hall engaged until the details and charges are paid, and no public announcement is to be made until the Hall is so engaged. None but formal requests will be considered as valid.

3. The person in whose name the Hall is engaged, and whose name is on the application and receipt, shall be held responsible for any damage, whether a deposit is taken or not.

4. Except by special permission of the Vestry, the Hall will not be let for any religious, literary, or social purpose, which the Board will be required to be open before seven o'clock in the morning.

### Scale of Charges for the Use of the Vestry Hall

Description of Booking		Rate per Week	
1. Booking of Vestry Hall for religious or social purposes	per week	£ 10 0	0

---

*Clerk to the Guardians* ... ... AVELING, HENRY F.

London, Jan. 18, 1857. My dear Mr. May, I have just received your letter of the 15th inst. and am glad to hear that you are well. I am writing you a few lines to let you know that I am still in the same old place, and that I am still as usual. I have not much news to write you at present, but I thought I would write you a few lines to let you know that I am still in the same old place, and that I am still as usual. I have not much news to write you at present, but I thought I would write you a few lines to let you know that I am still in the same old place, and that I am still as usual.

I am, dear Mr. May, very truly yours, Wm. Lloyd Garrison.

Enclosed find a copy of the Boston Herald, which contains a full account of the proceedings of the Convention of the American Anti-Slavery Society, held in New York City, on the 15th inst.

## APPENDIX No. VIII.

## MANAGERS OF BOARD SCHOOLS.

The Parish of Paddington, with the Parishes of Marylebone, St. Pancras, and Hampstead, form the "MARYLEBONE DIVISION" of the School Board for London. The several Schools in the Division overlap in regard to the areas from which the Scholars are drawn, and therefore it is thought desirable to give in this Appendix the complete List of the Managers for the whole Division.

The following is taken from the Annual Return of the Minuting and Educational Endowments Department of the School Board for London in September, 1887 :—

It may be added that the Members of the School Board are *ex-officio* Managers of all Schools in their Division, and that the other Managers are appointed by the Board.

## MARYLEBONE DIVISION.

*Correspondent for all Schools except Hawley-crescent* :—Rev. M. E. Browne, M.A.,  
Divisional Offices, 25, Stanhope-street, Hampstead-road, N.W.

April 2.....	62	11	27	8	44·0
Total .....	644	121	386	143	37·6

During the 13 weeks ending April 2nd, 1887, being the first quarter of the registration year, 765 births and 578 deaths were registered in Paddington. Of the 765 births, comprising 382 male and 383 female children, 644 occurred in St. Mary's, and 121 in St. John's Sub-district. The 765 births were equivalent to an annual rate of 27·0 per 1,000 of the estimated population of the parish. In London the births were equal to an annual rate of 32·8 per 1,000,

Deducting from the total deaths (578) those of 66 non-parishioners—58 in St. Mary's Hospital, 6 in the Children's Hospital, Paddington Green, and 2 in the Lock Hospital—the corrected number of deaths of parishioners in the parish is seen to be 512. To this number must be added the deaths of 17 parishioners in extra-parochial hospitals and institutions, within the Metropolis during the same period, making a total of 529 deaths—241 males and 288 females—equivalent to an annual death-rate of 18·7 per 1,000 inhabitants.

The number of births and of deaths, together with the birth and death-rates in the parish, and in its two sub-districts, during the quarter is shown in the subjoined table :—

TABLE II.

Sub-Districts.	Estimated Population.	Births.	Birth-rate per 1,000 of the Population.	Deaths.	Death-rate per 1,000 of the Population.
St. Mary's ... ..	76,240	644	33·8	386	20·2
St. John's ... ..	36,958	121	13·08	143	15·5
Paddington ... ..	113,198	765	27·0	529	18·7

In London the death-rate for the quarter was	20·7
In Edinburgh ... ..	21·6
In Glasgow... ..	28·0
In Dublin ... ..	31·0
In England and Wales ... ..	20·6
In Paddington ... ..	18·7

The corrected number of deaths in the parish from all causes during the corresponding quarter of the years 1877-1887 was as under :—

First Quarter of Year.								Total Deaths.
1877	...	...	...	...	...	...	..	409
1878	...	...	...	...	...	...	...	497
1879	...	...	...	...	...	...	...	587
1880	...	...	...	...	...	...	...	506
1881	...	...	...	...	...	...	...	487
1882	...	...	...	...	...	...	...	571
1883	...	..	...	...	...	...	...	461
1884	...	...	...	...	...	...	...	474
1885	...	...	...	...	...	...	...	534
1886	...	...	...	...	...	...	...	594
1887	....	...	...	...	...	...	...	529

In the public institutions in the parish there were 140 deaths, viz., 18 in the Workhouse, 23 in the Paddington Infirmary, 12 in the Children's Hospital, 2 in the Lock Hospital, and 85 in St. Mary's Hospital. The 18 deaths in the Workhouse—8 males and 10 females—and the 23 deaths in the Paddington Infirmary—12 males and 11 females—being regarded as those of parishioners, are included in the 386 deaths in St. Mary's Sub-district. 58 of the deaths in St. Mary's Hospital were of non-parishioners, as were also 6 of the deaths in the Children's Hospital, and the two deaths in the Lock Hospital, and are therefore not dealt with in this report.

In extra-parochial hospitals and institutions, within the Metropolis, there were 17 deaths of parishioners, as under :—

Hospitals and Institutions.					Deaths.
King's College Hospital	...	...	...	...	1
Queen's Charlotte Hospital	...	...	...	...	1

Hospitals and Institutions.	Deaths.
St. George's Hospital ... ..	1
Station Hospital, Vincent Square...	1
Western District Hospital ... ..	3
West London Hospital ... ..	1
Bethlem Royal Hospital ... ..	1
Bethnal House Asylum... ..	5
Hoxton House Asylum... ..	1
Westminster Union Workhouse ... ..	1
St. Peter's Home, Kilburn ... ..	1

These 17 deaths—14 of parishioners from St. Mary's Sub-district, and 3 of parishioners from St. John's—are included in the total deaths (529), and throughout this report are dealt with in the same manner as if they had actually occurred in the parish.

TABLE III.—MORTALITY AT DIFFERENT AGES.

Sub-districts.	Under 1 year.	Under 5 years.	65 years and upwards.	Percentage of Deaths of Infants under 1 year to Registered Births.	Percentage of Deaths of Children under 5 years of Total Deaths.
St. Mary's.....	72	122	101	11·2	31·6
St. John's .....	14	27	44	11·6	18·9
Paddington .....	86	149	145	11·2	28·2

Of the 529 deaths, 86 were of Infants under 1 year of age, 149 of children under 5 years, and 145 of persons aged 65 years and upwards.

The rate of infantile mortality in Paddington was 112 deaths to 1,000 registered births. In London it was 131;

in the twenty-seven largest provincial towns it averaged 156, ranging from 120 in Portsmouth to 212 in Plymouth. Of 50 other large provincial towns, the highest rate was reached by Dudley, where it was 221 per 1,000 births.

The deaths of children under 5 years of age constituted 28·2 per cent. of the total deaths. 33 were due to one or other of the seven principal zymotic diseases, of which 27 occurred in St. Mary's, and 6 in St. John's Sub-district.

TABLE IV.—*Principal causes of death in Paddington during the 13 weeks ending 2nd April, 1887.*

					ST. MARY'S.	ST. JOHN'S.	TOTAL.	Total Deaths from the seven principal Zymotic diseases, 43.
Smallpox	...	...	...	...	...	...	...	
Measles	...	...	...	...	15	...	15	
Scarlet Fever	...	...	...	...	11	...	11	
Diphtheria	...	...	...	...	6	4	10	
Whooping Cough	...	...	...	...	3	1	4	
Fever (Typhoid)...	...	...	...	...	...	1	1	
Diarrhoea	...	...	...	...	1	1	2	
Diseases of Respiratory Organs	...	...	...	...	106	46	152	
Phthisis	...	...	...	...	33	12	45	
Heart Disease	...	...	...	...	21	11	32	
Cancer	...	...	...	...	15	5	20	
Violence	...	...	...	...	14	7	21	

The number of deaths from the seven principal preventable diseases was 43, as compared with 51 during the corresponding quarter of last year, and was equivalent to an annual rate of 1·52 per 1,000 inhabitants. In London the death-rate was equivalent to an annual rate of 1·90 per 1,000 inhabitants. In the 27 largest provincial towns it ranged from 0·82 in Brighton

to 5·44 in Huddersfield. In England and Wales the deaths corresponded to an annual rate of 1·77 per 1,000, against an average annual rate of 2·27 for the 10 preceding first quarters.

*Small Pox* caused no death in Paddington, 1 case was removed from St. Mary's Sub-district to one of the Hospitals of the Asylums Board.

*Measles* caused 15 deaths, equivalent to annual rate of 0·52 per 1,000 inhabitants. All occurred in St. Mary's Sub-district. In London the rate was 0·82.

*Scarlet Fever* caused 11 deaths, all of which occurred in St. Mary's Sub-district. 32 cases were sent to the Hospitals of the Asylums Board. All with one exception were removed from St. Mary's Sub-district.

*Diphtheria* caused 10 deaths—6 in St. Mary's and 4 in St. John's Sub-district—equivalent to an annual rate of 0·35 per 1,000 inhabitants. In London the rate was 0·19.

All the houses in which the deaths occurred were carefully inspected. Three were in a fair sanitary condition, in three bell traps were the only observable defects, in one the drainage was at fault, in another the water supply to W.C. was defective. In two cases the disease was not contracted in the parish.

*Typhoid Fever* caused 1 death in St. John's Sub-district—(1), Hyde Park Square, Son of a Merchant, aged 21 years, disease believed not to have been contracted in Paddington.

TABLE V., showing the localities in which deaths from the seven principal Zymotic diseases occurred during the first quarter of the year ending 2nd April, 1887.

## METEOROLOGY.

Mr. James Glaisher, F.R.S., in his report to the Registrar-General, remarks that the first eighteen days of January were very cold, with frequent falls of snow, the mean daily deficiency of temperature being  $5^{\circ}\cdot3$ , and that during the latter part of the month there was an average excess of  $3^{\circ}\cdot8$  of daily temperature.

In February the weather was cold and dry, with sharp frosts at night between the 6th and 18th. The temperature during the first five days, and from the 19th to the 25th, was above the average, on all other days it was below.

In March the weather was very cold till the 21st, and during nine days of that period it was  $10\frac{1}{2}^{\circ}$  below the average, after that date the weather was milder. The mean temperature of the month was  $4^{\circ}$  below the average of 46 years.

The mean temperature of the quarter was  $37^{\circ}\cdot6$  in London.

The rainfall, which in each month was below the average, was 3·22 inches.

VESTRY HALL, PADDINGTON.

*June, 1887.*

## METEOROLOGY.

Mr. James Glaisher, F.R.S., in his report to the Registrar-General on the Meteorology of England, remarks that in October the weather was warmer than in any October back to 1861. The fall of rain was above the average at most stations.

The mean temperature of the air for October was  $53^{\circ}3$ , being  $3^{\circ}8$  above the average of 115 years.

In November the weather was unsettled, the temperature being variable, the mean being  $44^{\circ}$ . The latter part of the month was cloudy, foggy, and dull.

December was characterised by, for the most part, dull and cold weather. The mean temperature was  $36^{\circ}5$ . The atmospheric pressure was very remarkable, the barometer showing some extraordinary low readings, the lowest being  $28^{\circ}14$  on the 9th December.

The mean temperature of the quarter was  $44^{\circ}6$ , being  $0^{\circ}9$  higher than the average of 115 years.

The rain-fall in London during the quarter was 8.38 inches.

VESTRY HALL, PADDINGTON.

*March, 1887.*

The June Climate Table, in his report to the General Assembly, remarks that the first eighteen days of June were cool, with frequent falls of snow, the mean daily del. being 32.5, and that during the latter part of the month there was an average excess of 3.8 in fall.

In February the weather was cold and dry, with many of the days being below the 32. The temperature was 32.5, and from the 15th to the 25th, was the average, on all other days it was below.

In March the weather was very cold till the 21st, and then days of 32.5, and 32.5 below the average. The mean temperature was 32.5, and the average of 32.5.

The mean temperature of the month was 37.5 in Jan. The highest wind in each month was below the average 3.32 inches.

THE CLIMATE OF THE YEAR 1887.

July	2.....	47	12	16	12	62·9
Total .....		580	131	301	101	52·2

During the 13 weeks ending July 2nd, 1887, being the second quarter of the registration year, 711 births and 469 deaths were registered in Paddington. Of the 711 births, comprising 369 male and 342 female children, 580 occurred in St. Mary's, and 131 in St. John's Sub-district. The 711 births were equivalent to an annual rate of 25·1 per 1,000 of the estimated population of the parish. In London the births were equivalent to an annual rate of 31·5 per 1,000.

Deducting from the total deaths (469) those of 76 non-parishioners—64 in St. Mary's Hospital, 11 in the Children's Hospital, Paddington Green, and 1 in the Lock Hospital—the corrected number of deaths in the parish is seen to be 393. To this number must be added the deaths of 9 parishioners in extra-parochial hospitals and institutions, within the Metropolis during the same period, making a total of 402 deaths—194 males and 208 females—equivalent to an annual death-rate of 14·4 per 1,000 inhabitants.

The number of births and deaths, together with the birth and death-rates in the parish, and in its two sub-districts, during the quarter is shown in the subjoined table :—

TABLE II.

Sub-Districts.	Estimated Population.	Births.	Birth-rate per 1,000 of the Population.	Deaths.	Death-rate per 1,000 of the Population.
St. Mary's ... ..	76,240	580	30·4	301	15·6
St. John's ... ..	36,958	131	14·0	101	10·8
Paddington ... ..	113,198	711	25·1	402	14·4

In London the death-rate for the quarter was 18·0

In Edinburgh ... .. 19·4

In Glasgow... .. 23·3

In Dublin ... .. 28·7

In England and Wales ... .. 18·2

---

In Paddington ... .. 14·4

The corrected number of deaths in the parish from all causes during the corresponding quarters of the years 1877-1887 was as under :—

Second Quarter of Year.								Total Deaths.
1877	...	...	...	...	...	...	..	489
1878	...	...	...	...	...	...	...	440
1879	...	...	...	...	...	...	...	503
1880	...	...	...	...	...	...	...	361
1881	...	...	...	...	..	...	...	392
1882	...	...	...	...	...	...	...	424
1883	...	..	...	...	...	...	...	456
1884	...	...	...	...	...	...	...	414
1885	...	...	...	...	...	...	...	469
1886	...	...	...	...	...	...	...	401
1887	....	..	...	...	...	...	...	402

In the public institutions in the parish there were 144 deaths, viz., 17 in the Workhouse, 34 in the Paddington Infirmary, 17 in the Children's Hospital, 1 in the Lock Hospital, and 75 in St. Mary's Hospital. The 17 deaths in the Workhouse and the 34 deaths in the Paddington Infirmary being regarded as those of parishioners, are included in the 301 deaths in St. Mary's Sub-district. 64 of the deaths in St. Mary's Hospital were of non-parishioners, as were also 11 of the deaths in the Children's Hospital, and the one death in the Lock Hospital, and are therefore not dealt with in this report.

In extra-parochial hospitals and institutions, within the Metropolis, there were 9 deaths of parishioners, as under :—

Hospitals and Institutions.					Deaths.
Brompton Hospital	...	...	...	...	2
London Hospital	...	...	...	...	1

Hospitals and Institutions.	Deaths.
New Hospital for Women (Marylebone Road) ... ..	1
St. George's Hospital ... ..	1
Lying-in House (Gunter Grove) ... ..	1
Bethnal House Asylum... ..	2
Camberwell House Asylum ... ..	1

These 9 deaths—4 of parishioners from St. Mary's Sub-district, and 5 of parishioners from St. John's—are included in the total deaths (402), and throughout this report are dealt with in the same manner as if they had actually occurred in the parish.

TABLE III.—MORTALITY AT DIFFERENT AGES.

Sub-districts.	Under 1 year.	Under 5 years.	65 years and upwards.	Percentage of Deaths of Infants under 1 year to Registered Births.	Percentage of Deaths of Children under 5 years of Total Deaths.
St. Mary's.....	59	97	79	10·2	32·2
St. John's .....	8	15	32	6·1	14·9
Paddington .....	67	112	111	9·4	27·9

Of the 402 deaths, 67 were of Infants under 1 year of age, 112 of children under 5 years, and 111 of persons aged 65 years and upwards.

The rate of infantile mortality in Paddington was 94 deaths to 1,000 registered births. In London it was 128. In the twenty-eight great towns the deaths of infants were in

the proportion of 142 per 1,000 registered births, ranging from 101 in Portsmouth and Derby to 224 in Huddersfield. In 50 other large provincial towns, the highest rate was reached by Bury, where it was 190 per 1,000 births.

The deaths of children under 5 years of age constituted 27·9 per cent. of the total deaths. 20 were due to one or other of the seven principal zymotic diseases, of which 18 occurred in St. Mary's, and 2 in St. John's Sub-district.

TABLE IV.—*Principal causes of death in Paddington during the 13 weeks ending 2nd July, 1887.*

	ST. MARY'S.	ST. JOHN'S.	TOTAL.	Total Deaths from the seven principal Zymotic diseases, 27.
Smallpox ... ..	...	...	...	
Measles ... ..	7	2	9	
Scarlet Fever ... ..	4	...	4	
Diphtheria ... ..	1	2	3	
Whooping Cough ... ..	6	1	7	
Fever (Typhoid)... ..	1	...	1	
Diarrhœa ... ..	3	...	3	
Diseases of Respiratory Organs ...	53	23	76	
Phthisis ... ..	31	8	39	
Heart Disease ... ..	26	12	38	
Cancer ... ..	15	9	24	
Violence... ..	15	4	19	

The number of deaths from the seven principal preventable diseases was 27, as compared with 38 during the corresponding quarter of last year, and was equivalent to an annual rate of 0·96 per 1,000 inhabitants. In London the death-rate was equivalent to an annual rate of 2·61 per 1,000 inhabitants. In

the 27 largest provincial towns it ranged from 0·74 in Wolverhampton to 6·48 in Norwich. In England and Wales the deaths corresponded to an annual rate of 1·99 per 1,000, against an average annual rate of 2·16 for the 10 preceding second quarters.

*Small Pox* caused no death in Paddington, nor did any case during the quarter come under the notice of the Inspectors.

*Measles* caused 9 deaths, equivalent to an annual rate of 0·32 per 1,000 inhabitants. Seven of them occurred in St. Mary's Sub-district. In London the rate was 1·17.

*Scarlet Fever* caused 4 deaths, all of which occurred in St. Mary's Sub-district. 16 cases were removed to the Asylum Hospitals, 14 of which were from St. Mary's and 2 from St. John's Sub-district.

*Diphtheria* caused 3 deaths—1 in St. Mary's and 2 in St. John's Sub-district. The houses in which the deaths occurred were carefully inspected. One was in a fair sanitary condition, in another the soil-pipe within the house was perforated and the surface inlets open, in the third there were bell traps within and without the house, the surface inlet in yard was defective, and the cistern overflow pipe opened into the D trap of the W.C.

*Typhoid Fever* caused 1 death in St. Mary's Sub-district—(1), Shirland Road; an Upholsterer, aged 25 years; disease contracted abroad.

TABLE V., showing the localities in which deaths from the seven principal Zymotic diseases occurred during the first quarter of the year ending 2nd July, 1887.

## METEOROLOGY.

Mr. James Glaisher, F.R.S., in his report to the Registrar-General, remarks that the weather in April was very cold and dry. The temperature of the air was every day throughout the month, with the exception of four days, below the average.

In May the weather was generally cold and unseasonable. The temperature, with the exception of five days, was constantly below the average.

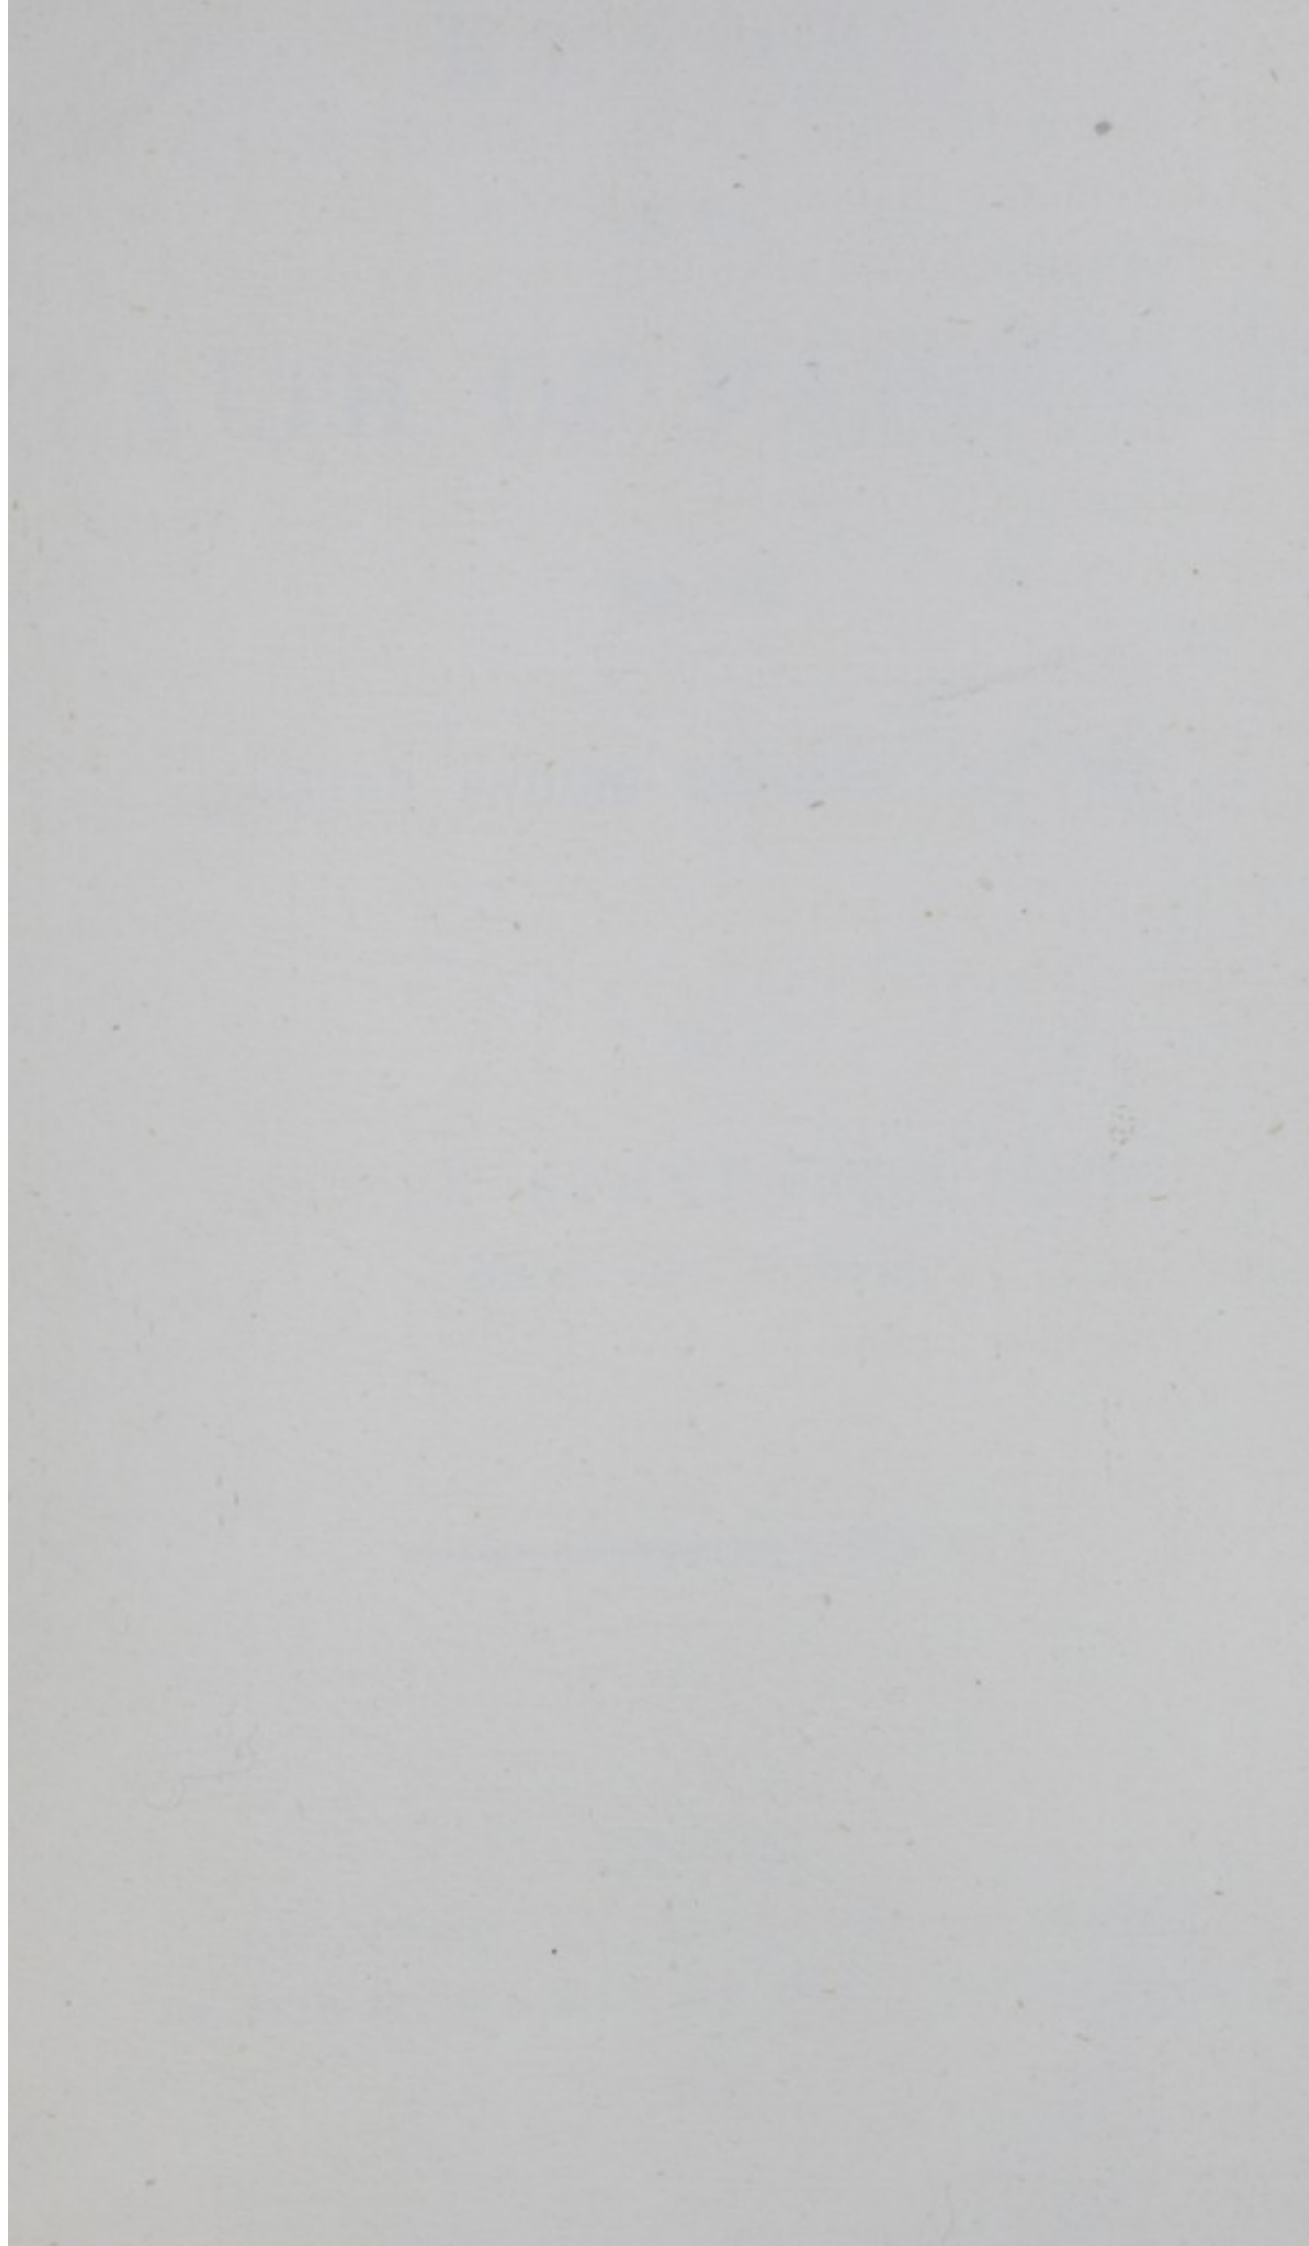

In June the weather was very fine and dry. From the 6th to the 20th the days were hot. During the few first and last days of the month the temperature was rather low.

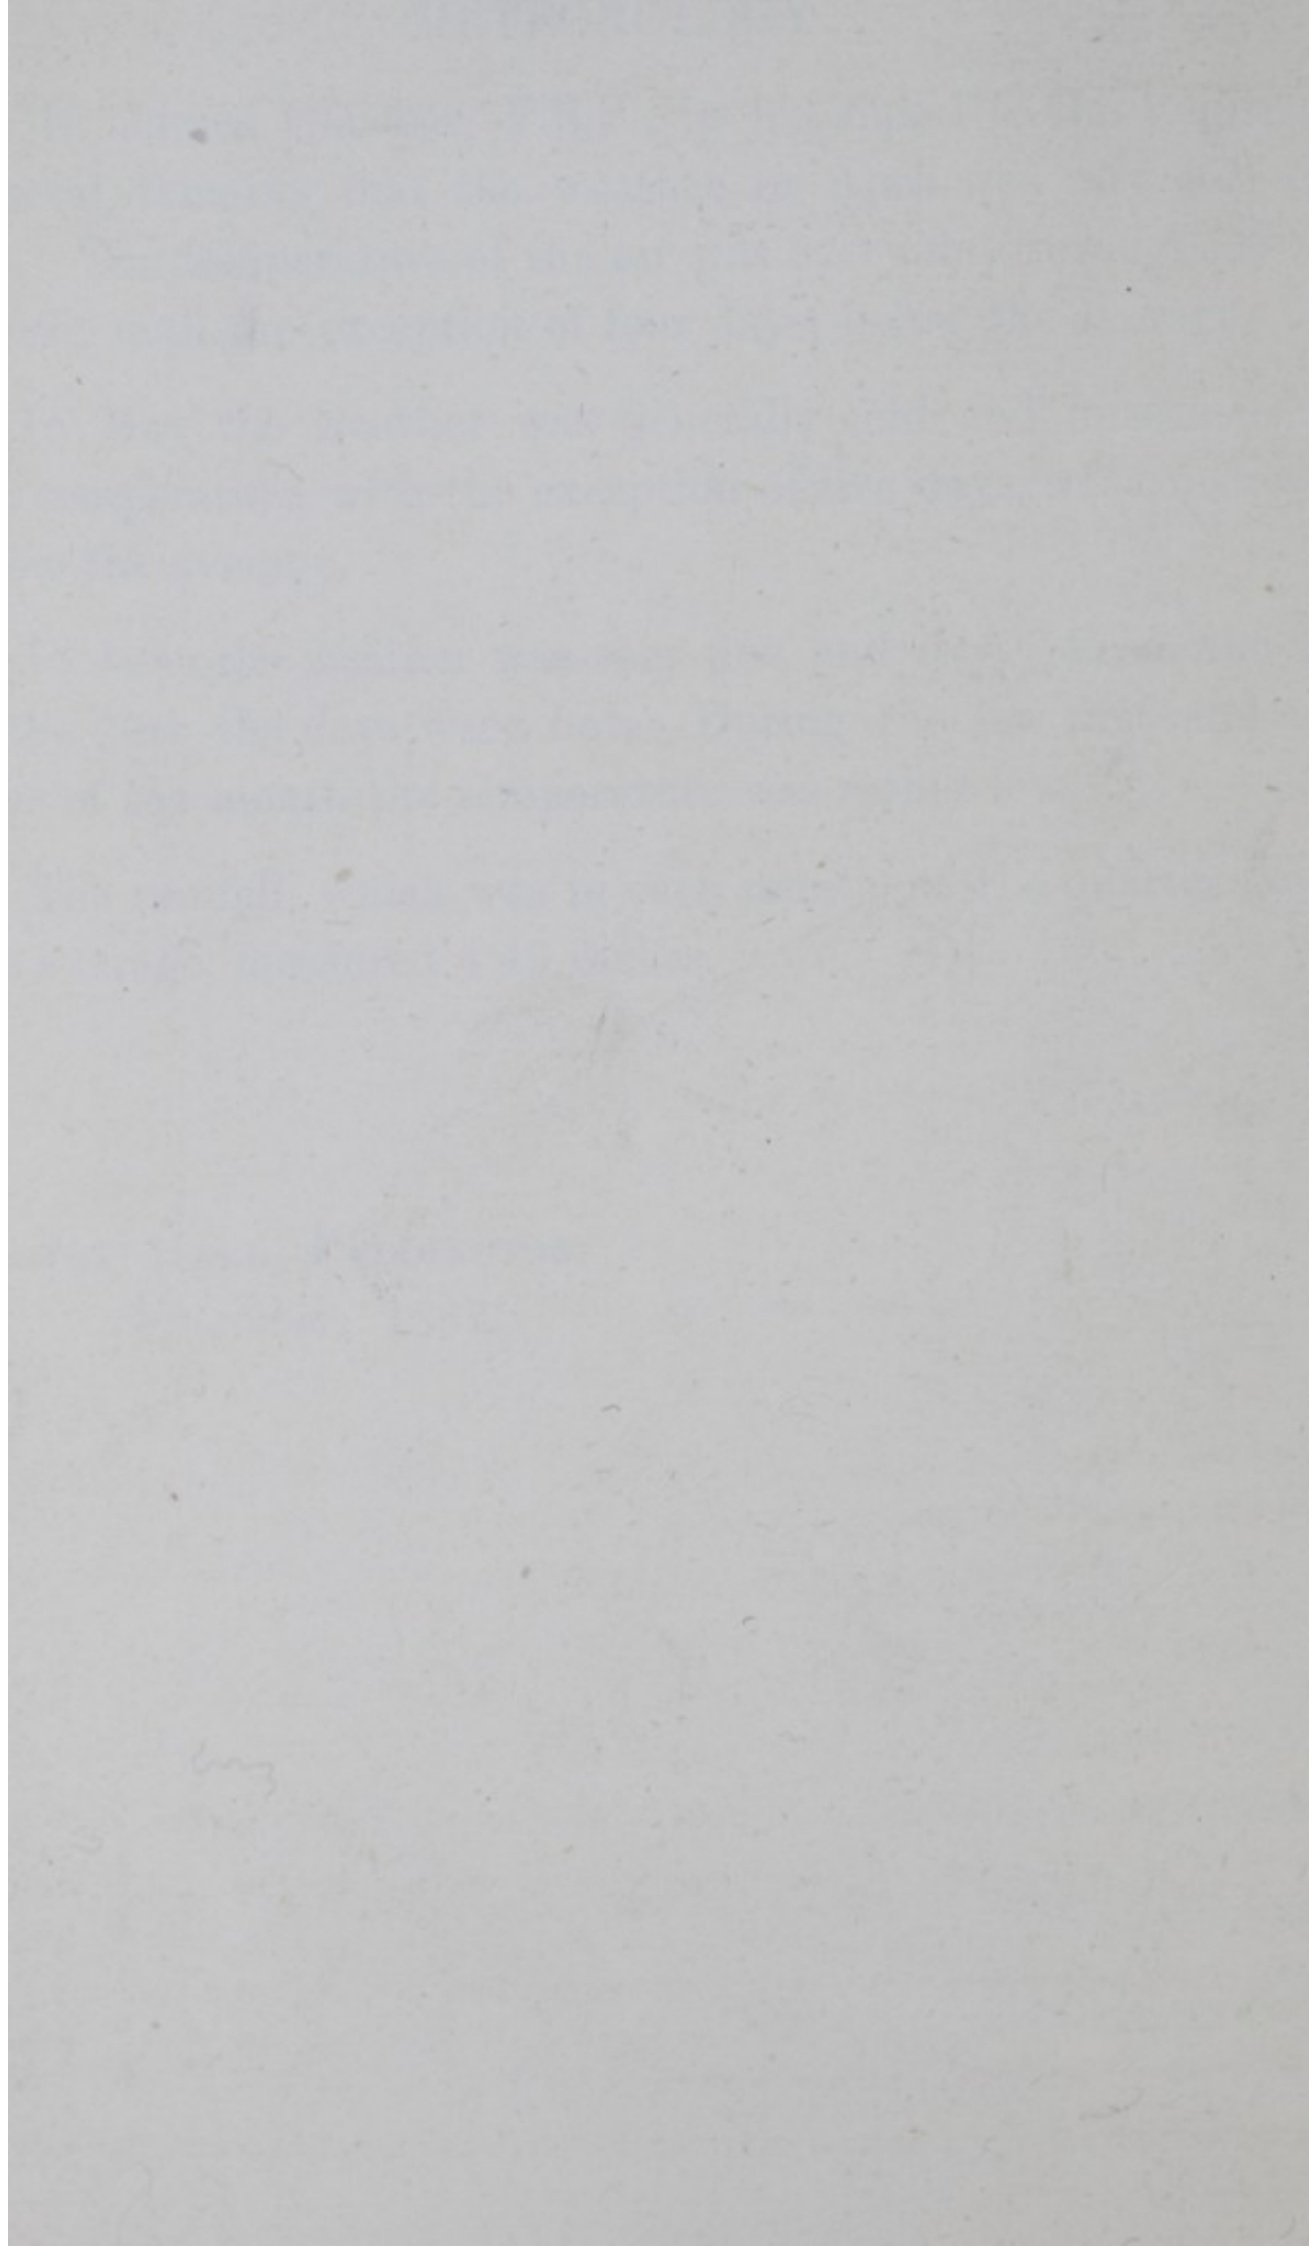

The rainfall, which was in each month of the quarter below the average, measured 4.49 inches.

VESTRY HALL, PADDINGTON.

October 1.....	34	11	16	8	49·6
Total .....	571	145	315	89	60·9

During the 13 weeks ending 1st October, 1887, being the third quarter of the registration year, 716 births and 455 deaths were registered in Paddington. Of the 716 births, comprising 362 male and 354 female children, 571 occurred in St. Mary's, and 145 in St. John's Sub-district. The 716 births were equivalent to an annual rate of 25·0 per 1,000 of the estimated population of the parish. In London the births were equivalent to an annual rate of 31·2 per 1,000.

Deducting from the total deaths (455) those of 71 non-parishioners—68 in St. Mary's Hospital and 3 in the Children's Hospital—the corrected number of deaths of parishioners in the parish is seen to be 384. To this number must be added the deaths of 20 parishioners in extra-parochial hospitals and institutions within the Metropolis during the same period, making a total of 404 deaths—206 males and 198 females—equivalent to an annual death-rate of 14·1 per 1,000 inhabitants.

The number of births and deaths, together with the birth and death-rates in the parish, and in its two sub-districts, during the quarter, is shown in the subjoined table :—

TABLE II.

Sub-Districts.	Estimated Population.	Births.	Birth-rate per 1,000 of the Population.	Deaths.	Death-rate per 1,000 of the Population.
St. Mary's ... ..	77,578	571	29·4	315	16·2
St. John's ... ..	36,884	145	15·7	89	9·6
Paddington ... ..	114,462	716	25·0	404	14·1

In London the death-rate for the quarter was 19·6

In Edinburgh ... .. 18·2

In Glasgow... .. 18·5

In Dublin ... .. 30·9

In England and Wales ... .. 17·6

---

In Paddington ... .. 14·1

The corrected number of deaths in the parish from all causes during the corresponding quarters of the years 1877-1887 was as under :—

Third Quarter of Year.								Total Deaths.
1877	...	...	...	...	...	...	..	398
1878	...	...	...	...	...	...	...	377
1879	...	...	...	...	...	...	...	327
1880	...	...	...	...	...	...	...	385
1881	...	...	...	...	..	...	...	385
1882	...	...	...	...	...	...	...	337
1883	...	..	...	...	...	...	...	396
1884	...	...	...	...	...	...	...	398
1885	...	...	...	...	...	...	...	440
1886	...	...	...	...	...	...	...	456
1887	....	..	...	...	...	...	...	404

In the public institutions in the parish there were 135 deaths, viz., 10 in the Workhouse, 25 in the Paddington Infirmary, 6 in the Children's Hospital, 1 in the Lock Hospital, and 93 in St. Mary's Hospital.

The 10 deaths in the Workhouse—3 males and 7 females—and the 25 deaths in the Paddington Infirmary—18 males and 7 females—being regarded as those of parishioners, are included in the 315 deaths in St. Mary's Sub-district. 68 of the deaths in St. Mary's Hospital were of non-parishioners, as were 3 of the deaths in the Children's Hospital, and are therefore not dealt with in this Report.

In extra-parochial hospitals and institutions, within the Metropolis, there were 20 deaths of parishioners, as under :—

Hospitals and Institutions.					Deaths.
Brompton Hospital	...	...	...	...	2
Chelsea Hospital for Women	...	...	...	...	1

Hospitals and Institutions.	Deaths
French Hospital, Soho ... ..	1
King's College Hospital ... ..	2
London Hospital ... ..	1
North London Consumption Hospital ...	2
North-Western Fever Hospital ... ..	1
Queen Charlotte's Hospital ... ..	2
St. George's Hospital ... ..	1
St. Thomas's Hospital ... ..	1
South-Eastern Fever Hospital ... ..	1
Western District Hospital ... ..	5

These 20 deaths—14 of parishioners from St. Mary's Sub-district, and 6 of parishioners from St. John's—are included in the total deaths (404), and throughout this Report are dealt with in the same manner as if they had actually occurred in the parish.

TABLE III.—MORTALITY AT DIFFERENT AGES.

Sub-districts.	Under 1 year.	Under 5 years.	65 years and upwards.	Percentage of Deaths of Infants under 1 year to Registered Births.	Percentage of Deaths of Children under 5 years of Total Deaths.
St. Mary's.....	109	143	48	19·1	45·4
St. John's .....	14	21	14	9·7	23·6
Paddington .....	123	164	62	17·2	40·6

Of the 404 deaths, 123 were of Infants under 1 year of age, 164 of children under 5 years, and 62 of persons aged 65 years and upwards.

The rate of infantile mortality in Paddington was 172 deaths to 1,000 registered births. In London it was 230.

In the twenty-eight great towns the deaths of infants were in the proportion of 232 per 1,000 registered births, ranging from 138 in Halifax to 345 in Preston. In 50 other large provincial towns, the highest rate was reached in Lincoln, where it was 304 per 1,000 births.

The deaths of children under 5 years of age constituted 40·6 per cent. of the total deaths. 68 were due to one or other of the seven principal zymotic diseases, of which 57 occurred in St. Mary's, and 11 in St. John's Sub-district.

TABLE IV.—*Principal causes of death in Paddington during the 13 weeks ending 1st October, 1887.*

	ST. MARY'S.	ST. JOHN'S.	TOTAL.	Total Deaths from the seven principal Zymotic diseases, 80.
Smallpox ... ..	...	...	...	
Measles ... ..	1	...	1	
Scarlet Fever ... ..	7	1	8	
Diphtheria ... ..	4	3	7	
Whooping Cough ... ..	3	1	4	
Fever (Typhoid)... ..	4	1	5	
Diarrhoea ... ..	48	7	55	
Diseases of Respiratory Organs ...	26	2	28	
Phthisis ... ..	37	8	45	
Heart Disease ... ..	25	10	35	
Cancer ... ..	17	6	23	
Violence... ..	9	6	15	

The number of deaths from the seven principal preventable diseases was 80, as compared with 105 in the corresponding quarter of last year, and was equivalent to an annual rate of 2·8 per 1,000 inhabitants. In London the zymotic death-rate was equivalent to an annual rate of 5·09 per 1,000

inhabitants. In the 27 largest provincial towns it ranged from 1·52 in Halifax to 9·61 in Preston. In England and Wales the deaths corresponded to an annual rate of 3·40 per 1,000 living, against an average annual rate of 3·34 in the ten preceding third quarters.

*Small Pox* caused no death in Paddington, nor did any case come under the notice of the Inspectors.

*Measles* caused 1 death in Paddington, in London there were 480 deaths.

*Scarlet Fever* caused 8 deaths—equivalent to an annual rate of 0·28 per 1,000 inhabitants—of which 7 occurred in St. Mary's and 1 in St. John's Sub-districts. 52 cases were removed to the Asylum Hospitals and 3 to the London Fever Hospital. Of the 55 cases, 47 were from St. Mary's Sub-district and 8 from St. John's.

In London the rate was 0·40.

I defer making any remarks respecting the epidemic of Scarlet Fever, which has extensively prevailed in Paddington and in other parts of the Metropolis and of the country, until it has ceased.

*Diphtheria* caused 7 deaths—4 in St. Mary's and 3 in St. John's Sub-district—equivalent to an annual rate of 0·24 per 1,000 inhabitants. The houses in which the deaths occurred were carefully inspected. In two of them the surface inlets in basements were untrapped; in one there was a defective soil pipe, as well as an untrapped surface inlet; and in four of the houses no sanitary defects were observed. In one case the disease is believed to have been contracted at Margate, and in another at Cowes.

In London the rate was 0·23.

*Typhoid Fever* caused 5 deaths—4 in St. Mary's and 1 in St. John's Sub-district—equivalent to an annual rate of 0·16 per 1,000 inhabitants. In London the rate was 0·17.

In St. Mary's Sub-district the fatal cases were as under :—

- (1.) Braithwaite Place. Son of a carman, age 9 years.  
In house no sanitary defects apparent. Complaint made of the street gullies.
- (2.) Kilburn Park Road. A bootmaker, age 17 years.  
No sanitary defects.
- (3.) Woodfield Crescent. Wife of a bricklayer, age 40.  
House-drain badly constructed, irregular fall, joints open, connexions imperfect.
- (4.) Kensal Road. Daughter of a labourer, age 10 years.  
House in fair sanitary condition.

In John's Sub-district the only fatal case was :—

- (1.) Queen's Road. Daughter of a fruiterer, aged 18 years. House in fair sanitary condition.

*Diarrhæa* caused 55 deaths, equivalent to an annual rate of 1·92 per 1,000 inhabitants. Of these, 48 occurred in St. Mary's and 7 in St. John's Sub-district. 48 were of infants under 1 year of age, and 4 of children between 1 and 2 years of age.

In London the rate was 3·05.

## METEOROLOGY.

Mr. James Glaisher, F.R.S., in his report to the Registrar-General, remarks, that the weather in July was very fine and warm. The temperature of the air was above the average on every day of the month excepting three. The mean temperature of the air was  $66^{\circ}.5$ . The fall of rain was much below the average.

The weather in August was very fine and dry, the amount of sunshine being above the average. The mean temperature of the air was  $62^{\circ}.5$ . The fall of rain was below the average.

In September the weather was cold and unsettled, the temperature of the air being below the average nearly every day. The mean temperature of the air was  $54^{\circ}.0$ . The rainfall was again below the average.

The mean temperature of the air for the quarter was  $61^{\circ}$ .

The rainfall during the quarter measured 5.85 inches.

„ 31.....	52	17	33	8	32·1
Total .....	573	151	344	106	41·2

During the 13 weeks ending 31st December, 1887, being the fourth quarter of the registration year, 724 births and 522 deaths were registered in Paddington. Of the 724 births, comprising 375 male and 349 female children, 573 occurred in St. Mary's, and 151 in St. John's Sub-district. The 724 births were equivalent to an annual rate of 25·3 per 1,000 of the estimated population of the parish. In London the births were equivalent to an annual rate of 31·2 per 1,000.

Deducting from the total deaths (521) those of 92 non-parishioners—82 in St. Mary's Hospital, 9 in the Children's Hospital, and 1 in the Lock Hospital—the corrected number of deaths of parishioners in the parish is seen to be 429. To this number must be added the deaths of 21 parishioners in extra-parochial hospitals and institutions within the Metropolis during the same period, making a total of 450 deaths—209 males and 241 females—equivalent to an annual death-rate of 15·7 per 1,000 inhabitants.

The number of births and deaths, together with the birth and death-rates in the parish, and in its two sub-districts, during the quarter, is shown in the subjoined table :—

TABLE II.

Sub-Districts.	Estimated Population.	Births.	Birth-rate per 1,000 of the Population.	Deaths.	Death-rate per 1,000 of the Population.
St. Mary's ... ..	77,578	573	29·5	344	17·7
St. John's ... ..	36,884	151	16·4	106	11·5
Paddington ... ..	114,462	724	25·3	450	15·7

In London the death-rate for the quarter was 20·0

In Edinburgh ... .. 20·0

In Glasgow... .. 23·2

In Dublin ... .. 31·9

In England and Wales ... .. 18·8

---

In Paddington ... .. 15·7

The corrected number of deaths in the parish from all causes during the corresponding quarters of the years 1878-1887 was as under :—

Fourth Quarter of Year.	Total Deaths.
1878 ... ..	447
1879 ... ..	522
1880 ... ..	415
1881 ... ..	415
1882 ... ..	434
1883 ... ..	449
1884 ... ..	516
1885 ... ..	434
1886 ... ..	458
1887 ....	450

In the public institutions in the parish there were 165 deaths, viz., 25 in the Workhouse, 29 in the Paddington Infirmary, 15 in the Children's Hospital, 2 in the Lock Hospital, and 94 in St. Mary's Hospital.

The 25 deaths in the Workhouse—10 males and 15 females—and the 29 deaths in the Paddington Infirmary-- 22 males and 7 females—being regarded as those of parishioners, are included in the 344 deaths in St. Mary's Sub-district. 1 of the deaths in the Lock Hospital and 82 of those in St. Mary's Hospital were of non-parishioners, and are therefore not dealt with in this Report.

In extra-parochial hospitals and institutions, within the Metropolis, there were 21 deaths of parishioners, as under :—

Hospitals and Institutions.	Deaths.
French Hospital, Soho ... ..	1
Guy's Hospital ... ..	1
London Fever Hospital ... ..	1
Middlesex Hospital ... ..	2

Hospitals and Institutions.	Deaths
Queen Charlotte's Hospital ... ..	1
Royal Free Hospital ... ..	1
St. Elizabeth's Hospital ... ..	1
St. George's Hospital ... ..	1
Northern Fever Hospital ... ..	1
South-Eastern Fever Hospital ... ..	2
Western Fever Hospital ... ..	1
Aged Pilgrims' Asylum... ..	1
Bethnal House Asylum... ..	6
<hr/>	
In an Omnibus ... ..	1

These 21 deaths—19 of parishioners from St. Mary's Sub-district, and 2 of parishioners from St. John's—are included in the total deaths (450), and throughout this Report are dealt with in the same manner as if they had actually occurred in the parish.

TABLE III.—MORTALITY AT DIFFERENT AGES.

Sub-districts.	Under 1 year.	Under 5 years.	65 years and upwards.	Percentage of Deaths of Infants under 1 year to Registered Births.	Percentage of Deaths of Children under 5 years of Total Deaths
St. Mary's.....	67	113	84	11·7	32·8
St. John's .....	14	26	26	9·3	24·5
Paddington .....	81	139	110	11·2	30·9

Of the 450 deaths, 81 were of Infants under 1 year of age, 139 of children under 5 years, and 110 of persons aged 65 years and upwards.

The rate of infantile mortality in Paddington was 112 deaths to 1,000 registered births. In London it was 145.

In the twenty-eight great towns including London, with an estimated population of rather more than nine millions, the deaths of infants were in the proportion of 154 per 1,000 registered births, ranging from 111 in Brighton to 233 in Blackburn. In 50 other large provincial towns, the highest rate was reached in Warrington, where it was 216 per 1,000 births.

The deaths of children under 5 years of age constituted 30·9 per cent. of the total deaths. 22 were due to one or other of the seven principal zymotic diseases, of which 19 occurred in St. Mary's, and 3 in St. John's Sub-district.

TABLE IV.—*Principal causes of death in Puddington during the 13 weeks ending 31st December, 1887.*

	ST. MARY'S.	ST. JOHN'S.	TOTAL.	Total Deaths from the seven principal Zymotic diseases, 37.
Smallpox ... ..	...	...	...	
Measles ... ..	7	1	8	
Scarlet Fever ... ..	10	2	12	
Diphtheria ... ..	5	2	7	
Whooping Cough ... ..	2	2	4	
Fever (Typhoid)... ..	3	...	3	
Diarrhoea ... ..	2	1	3	
Diseases of Respiratory Organs ...	77	23	100	
Phthisis ... ..	30	5	35	
Heart Disease ... ..	39	11	50	
Cancer ... ..	13	5	18	
Violence... ..	11	6	17	

The number of deaths from the seven principal preventable diseases was 37, as compared with 75 in the corresponding quarter of last year, and was equivalent to an annual rate of 1·3 per 1,000 inhabitants. In London the zymotic death-rate was equivalent to an annual rate of 2·48 per 1,000

inhabitants. In the 27 largest provincial towns it ranged from 1·09 in Brighton to 4·92 in Sheffield. In England and Wales the deaths corresponded to an annual rate of 1·99 per 1,000 living, against an average annual rate of 2·44 in the ten preceding fourth quarters.

*Small Pox* caused no death in Paddington.

*Measles* caused 8 deaths in Paddington—equivalent to an annual rate of 0·28 per 1,000 inhabitants—of which 7 occurred in St. Mary's and 1 in St. John's Sub-districts. In London the rate was 0·31.

*Scarlet Fever* caused 12 deaths—equivalent to an annual rate of 0·42 per 1,000 inhabitants—of which 10 occurred in St. Mary's and 2 in St. John's Sub-districts. 120 cases were removed to the Asylum Hospitals and 4 to the London Fever Hospital. Of these 124 cases, 114 were from St. Mary's Sub-district and 10 from St. John's.

In London the rate was 0·63.

I defer making any remarks respecting the epidemic of Scarlet Fever, which has extensively prevailed in Paddington and in other parts of the Metropolis and of the country, until it has ceased.

*Diphtheria* caused 7 deaths—5 in St. Mary's and 2 in St. John's Sub-district—equivalent to an annual rate of 0·24 per 1,000 inhabitants. The houses in which the deaths occurred were carefully inspected. In one of these the only defects observed were the objectionable bell-traps too generally used; in another there were defective brick connections and untrapped inlets; in a third the drainage was very defective throughout; and in the remaining four houses no defects were apparent.

In London the rate was 0·31.

*Typhoid Fever* caused 3 deaths in St. Mary's Sub-district—equivalent to an annual rate of 0·1 per 1,000 inhabitants. One case was removed from the same district to an Asylum Hospital. In London the rate was 0·25. The fatal cases were as under :—

- (1.) Porchester Square. Daughter of a solicitor, age 5 years. Disease contracted in Scotland.
- (2.) Welling's Place. Daughter of a carman, age 10 years. No sanitary defects.
- (3.) Porchester Square. Wife of a gentleman, age 58 years. Drainage defective.

## METEOROLOGY.

Mr. James Glaisher, F.R.S., in his report to the Registrar-General, remarks, that in October the weather was generally fine but very cold ; the temperature of the air being below its average on nearly every day of the month ; and the month as a whole being colder than any October since the year 1817. The mean temperature of the air was  $45^{\circ}$ , being  $4^{\circ}.6$  below the average of 116 years. The fall of rain was less than the average through the month, and the wind was chiefly from the north-west.

The month of November was dry and cold. The mean temperature of the air was  $40^{\circ}.8$ , being  $1^{\circ}.6$  below the average of 116 years. The rainfall was above the average. The prevailing wind was the north-east.

The month of December was fine and cold. The mean temperature of the air was  $38^{\circ}.1$ , being  $1^{\circ}$  below the average of 116 years. The rain was generally less than the average. The wind was mostly from the north-west.

The mean temperature in London for the quarter was  $41^{\circ}.2$ , being  $2^{\circ}.4$  less than the average of 116 years.

The rainfall in London during the quarter was 6.25 inches.

VESTRY HALL, PADDINGTON.

*March*, 1888.
